BARROW COUNTY HISTORY

That area that today is Barrow County was settled prior to the start of the 19th century. An Indian trail that ran through the county attracted settlers. To protect the settlers from the Cherokee and Creek Indians, the state built a frontier fort during 1792 called Fort Yargo, now a state park. Winder, the county seat, was known as Jug Tavern during this time.

Barrow County was the scene of one of the few Union defeats during Sherman's Atlanta Campaign known as Stoneman's Raid.

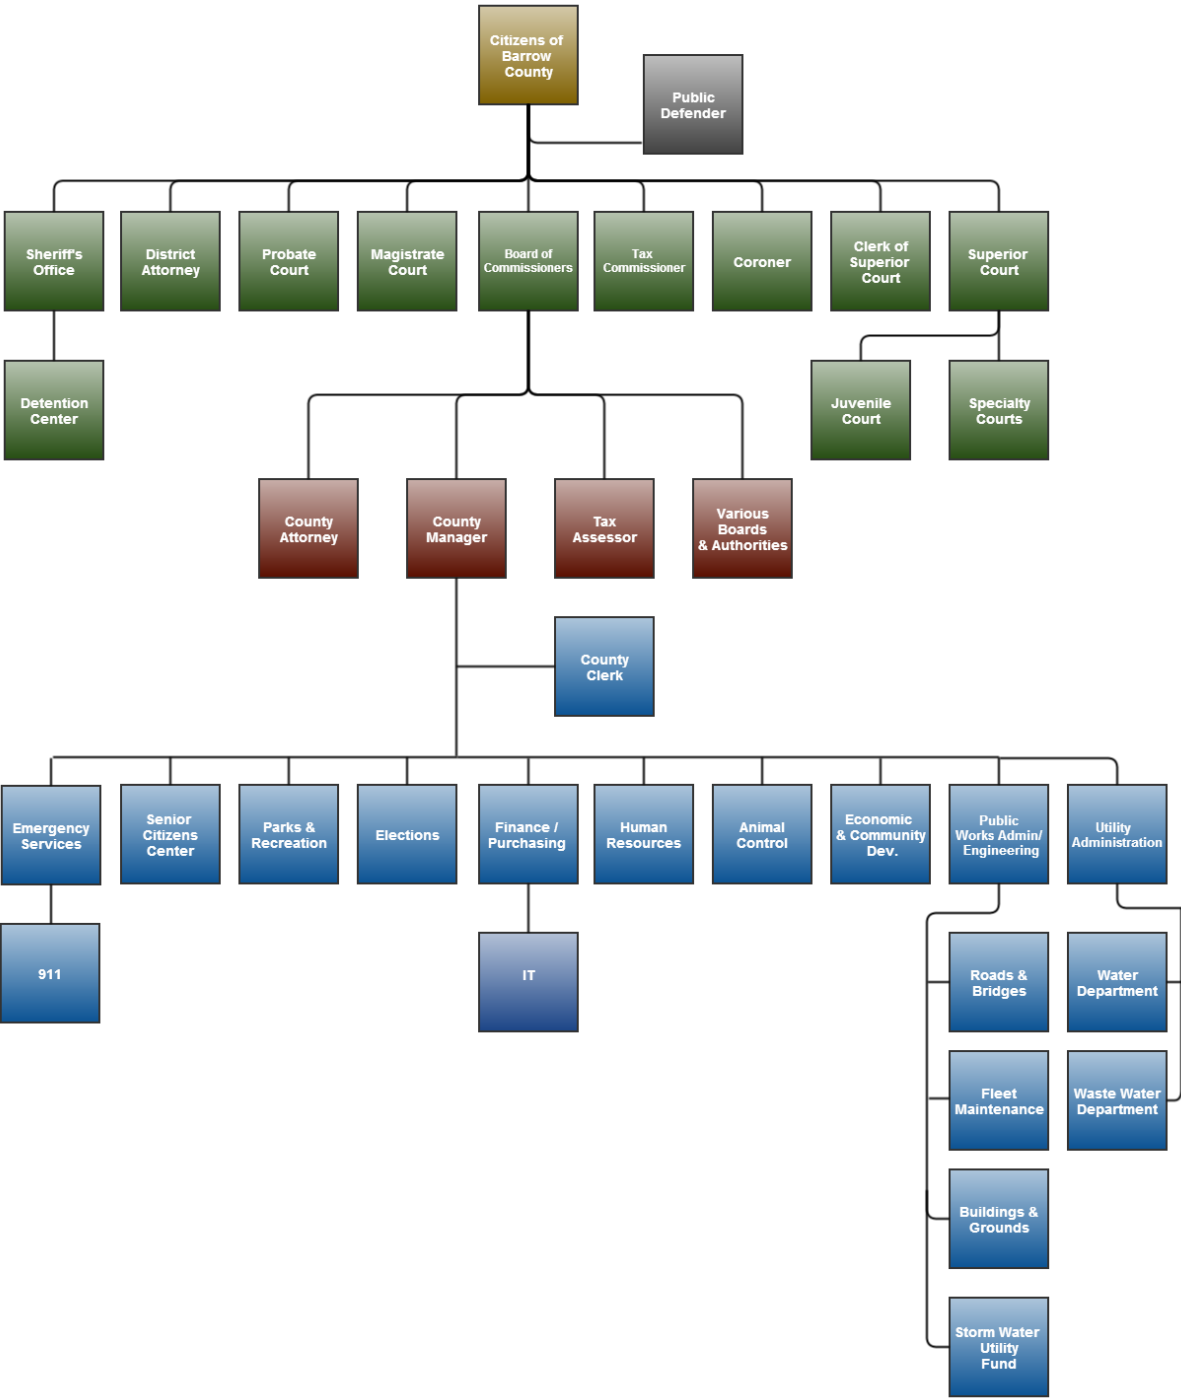

During the 1880s, rail was expanded and Barrow County played host to two railroads, the Seaboard Air Line and the Gainesville and Midland. One of the railroad builders for the Seaboard Air Line Railroad was John H. Winder of North Carolina. Jug Tavern's name was changed to Winder by the Georgia General Assembly on Dec. 20, 1893 to honor the railroad builder.

Barrow County was created from portions of Gwinnett, Jackson, and Walton counties when Georgia voters approved a constitutional amendment on November 3, 1914 making Barrow County the 149th county in Georgia out of 159. Barrow County was named after David Crenshaw Barrow, Jr., a University of Georgia mathematics and engineering professor who was later Chancellor serving in that position from 1906 to 1925. Barrow died on January 11, 1929 in Athens and is buried in Oconee Hill Cemetery in Athens.

SUBJECT: FY 2015 Recommended Annual Budget

DATE: August 12, 2014

Presented herewith in accordance with section 36-81-(1-6) of the Official Code of Georgia Annotated is the FY 2015 recommended annual budget. This budget represents the recommended plan for providing needed county services for the upcoming fiscal year that begins October 1, 2014 and ends September 30, 2015. The budget contains the collective input from all county department directors, elected officials, and outside agencies.

BUDGET CLIMATE

The FY 2015 recommended budget was prepared during continued uncertain economic times. The county's total tax digest has been declining for several years but is beginning to stabilize and not decrease further. The county's various revenues have also been declining in recent years but are beginning to stabilize. The county's millage rate has been increasing to compensate for the decreased tax digest but is now stabilizing and is expected to remain unchanged during the foreseeable future. The county's unemployment rate was at an all-time high at 10.8% in January 2010 and January 2011 but has been declining since to a current rate of 5.9% (April 2014). The national rate of inflation continues to be low at 1.5% for 2013. The county's building activity has been strong compared to previous years. During 2013, 219 single family home building permits and 31 commercial building permits were issued and 14 re-zonings were held. The General Fund unassigned fund balance has been increasing in recent years even during unfavorable economic conditions. After analyzing these factors and others, the recommended budget was prepared based on the following criteria:

- No millage rate increase or decrease for FY 2015.
- No use of General Fund unrestricted reserves.
- No new employee positions.
- No new or replacement vehicles.
- No employee salary increases. However, it is recommended that salary increases be considered once the audit is near completion. If FY 2014 has a surplus, use a majority of that surplus for salary increases.
- No changes to the employee health care plan coverage provided by Blue Cross/Blue Shield of Georgia but minimal changes to the plan's cost due to increasing federal Affordable Care Act cost of \$181,333 for FY 2015.

BUDGET MESSAGE

LOOKING FORWARD TO FY 2016

Looking forward to the FY 2016 budget process, county staff is projecting another year of uncertain economic conditions at the local level. County staff is anticipating increased revenues through the expansion of the tax digest, more robust residential and commercial building activity, and greater local economic development. County staff is also anticipating no changes in existing county programs or services that would increase expenses. However, deferred building maintenance, deferred vehicle replacement, no employee salary adjustments, and the rising cost of employee health care insurance cost due in part to the federal Affordable Care Act are growing concerns. County staff continues to work diligently to reduce expenses, streamline operations for efficiency, and keep the county's unassigned fund balance at 30% of General Fund expenditures in accordance with established policy. Since Barrow County is in a strong financial condition with healthy reserves, the county will be able to maintain its present position while the economy expands.

The preceding information is intended to provide the Board of Commissioners with a broad overview of the recommended budget, the major expenses and changes that are contained in the budget, and specific information regarding what was reduced from the original budget requests. Additional information will be presented during the budget meetings.

Respectfully submitted,

DIVISION PROFILE

The Specialty Courts of the Piedmont Judicial Circuit that consists of Barrow, Jackson, and Banks counties and under the supervision of Superior Court, are composed of two courts – felony drug court and mental health treatment court. Both courts’ goal is to reduce recidivism through structured cost effective programs. The **felony drug court** provides a non-traditional approach to working with criminal offenders by offering a judicially supervised intensive outpatient substance abuse treatment program instead of incarceration. The **mental health treatment court** provides an alternative to incarceration by working with offenders and having them follow a closely monitored personalized treatment plan for their mental health and substance abuse issues.

FUND PROFILE

The Storm Water Utility Enterprise Fund works under a NPDES Phase Two Permit that requires Barrow County to maintain a five year storm water management plan (2013-2017). This plan requires the inspections and maintenance of the storm water sewer system in the unincorporated area of the county, which includes approximately 178 detention ponds. This work is completed with the assistance from the Roads & Bridges Division and state inmate labor. This department enforces the storm water utility ordinance, federal and state laws, which include the clean water act. The department samples 14 creek locations quarterly for water quality and collects storm water inventory data for inclusion in the GIS mapping system. This department also prepares billing information so the Tax Commissioner can properly bill for the annual storm water utility fee.

STORM WATER FEE STRUCTURE
FOR FISCAL YEAR 2015**

Fee = Rate (\$18.00) X ERU (Impervious unit of 3478 sq. ft.)

ERU (Equivalent residential unit)

Impervious Surface (Hardened surface areas that either prevent or limit the natural entry of water into the underlying soil).

The average residential unit was determined to be 3478 square feet. This makes all residential parcels equal to one ERU thus a flat rate was set for all residential parcels. The same equation applies to commercial properties. Eighteen dollars will be charged for every 3478 sq. ft. unit.

*Any parcel of land that has 50 sq. ft. or more of impervious surface shall get a Storm Water Bill.

*Any parcel of land that has less than 50 sq. ft of impervious surface shall not get a Storm Water Bill

Residential: \$18 per Year

Commercial: Impervious surface/ 3478 x \$18 = Rate per year

Example for Commercial:

Parcel has 15000 Sq. Ft. of Impervious Surface.

$15000 / 3478 \times \$18 = \77.63 per year
