

CITY OF PENDERGRASS

2021 Annual Budget

For the fiscal Year ended December 31, 2021

Preface

The Proposed Budget consists of a single volume that contains:

- * Basis of Budget and Accounting
- * Introduction
- * Message from the Mayor and City Administrator
- * Budget Overview
 - Projected revenue
 - Proposed expenditures
- * Summary of income and expenses
- * City Goals
 - Vision statement
 - Mission statement
 - Core values
 - Strategic goals
- * Accounting policy
- * City Department overviews

Basis of Budgeting and Accounting

Government-wide financial statements are prepared using the accrual basis of accounting in compliance with the GASB 34. The City of Pendergrass uses the modified accrual basis for all funds budget, both enterprise and general fund. This means that revenues are recognized when they become measurable. Revenue is “measurable” when the amount of the transaction can readily be determined. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Revenues and expenditures are budgeted in a format that is consistent with the City’s financial statement. The City also uses the modified accrual basis for all governmental fund types accounting. Accounting records for propriety and trust funds – if applicable are maintained on an accrual basis.

The budget process provides the primary mechanism by which key decisions are made regarding the levels and types of services to be provided given the anticipated level of available resources. Budget policy states how this is achieved and addresses the need for financial health and stability.

The budget shall be balanced for each and every budgeted fund. Total anticipated revenues plus that portion of the fund balance in excess of authorized reserve, which is designated as a budgeted funding source, shall equal total estimated expenditures for each fund.

The City of Pendergrass employs various types of strategic planning techniques. Primarily, the City uses a Vision, Mission and Values strategy, to help guide individual departments on a micro level. On a macro level, the City uses a comprehensive plan, trend analysis, and City Council Direction to help determine the overall direction of the City of Pendergrass.

BUDGET PROCESS OUTLINE

Phase I sets the stage for the upcoming budget. Meetings are held communicating to all departments the citywide concerns, issues, goals, and environment in which the coming year's budget is to be crafted. Concurrently, a goal-setting meeting is held, helping all departments to think strategically about what is to be accomplished in the coming year.

Phase II brings the individual departments to the table, allowing each to present anticipated capital purchases to the budget team, including the City Manager, Chief Finance Officer, and Mayor. After listening to department presentations, and having the opportunity to ask questions, the budget team independently reviews the presented materials, makes careful adjustments and other changes.

Phase III brings the individual departments to the table, allowing each to present a draft budget along with goals, objectives, and performance measures to the Budget Team, including the City Administrator, Chief Finance Officer, and Mayor. After listening to department presentations, and having the opportunity to ask questions, the budget team independently reviews the presented materials, makes careful adjustments and other changes, and then returns each to the departments for final comments

Phase IV allows each department to present their accomplishments and upcoming goals to the Mayor. This also is a time for the Mayor to ask any questions of the Department. During this phase department directors do not discuss budget numbers with the Mayor, but only with the City Administrator. The City Administrator presents the balanced budget during the end of this phase.

Phase V encompasses the legally mandated part of the budget process, including the required public budget meeting, as well as the mandatory reading of the millage setting ordinance. Finally, City Council votes upon the proposed budget after the required public comment meetings.

The budget is adopted on a basis consistent with Generally Accepted Accounting Principles. The accounting system uses formal budgetary integration as a management control device. Encumbrances are recorded to prevent expenditures from exceeding the budgeted amounts. The City's accounting records for governmental type funds are maintained on a modified accrual basis, with revenues being recorded when available and measurable and expenditures being recorded when the services or goods are received and the liabilities are incurred. Accounting records for enterprise type funds are maintained on the accrual basis, with revenues being recorded when earned and measurable, expenses being recorded when the services or goods are received, and the liabilities are incurred.

Introduction

The Introduction section contains the City Organizational Chart, Mayor and Council, message from the Mayor, and the message from the City Administrator.

MESSAGE FROM THE MAYOR

2021 BUDGET

I am pleased to present our recommended Annual Operating and Capital Budget for fiscal Year 2021 of the City of Pendergrass, Georgia. My recommendations are based on input from our Department Heads and City Administrator as well as from a thorough review of our current financial status, revenue trends, economic data, and our standard of providing top level service while maintaining our focus on keeping Pendergrass an affordable option for our citizens and business owners.

The City Administrator and I have worked on a financial plan that prioritizes the uses for our available fund balances in an effective manner to ensure our financial success for the future.

Our Finance Department closely monitors our revenues and expenditure trends. We always closely manage our spending to compensate for varied revenue growth relative to expenditure cost drivers.

The objective of this year's City Budget, as always, is to provide a management tool in which our city government can unite its budgeting efforts to provide quality services while operating under available resources. This process entailed updating of the City's on-going financial concerns and providing a vehicle in which management decisions can be made as a result of the formulation of this respective data.

As required by Georgia law on local government budgets, citizen input will be solicited during the process of adopting a budget through publically advertised meetings. The City Council will adopt the millage rate for ad valorem taxes at the same time the budget is adopted.

In this budget we are attempting to prioritize the use of our available fund balance to position the city most effectively for financial success in the future.

In closing, the budget is committed to continuing our focus on providing effective and efficient savings to our citizens.

Sincerely,

MAYOR MELVIN TOLBERT

CITY ADMINISTRATOR'S MESSAGE

On behalf of Mayor Tolbert, I am pleased to present the proposed 2021 Annual Budget and Program of Services that totals \$474,754.00. This budget contemplates no change from the previous 2021 budget.

The General Fund Budget totals \$474,754.00 and the Capital Projects Fund totals \$0, and the remaining funds total \$0.

KEY BUDGET FACTORS, ISSUES, AND PRIORITIES

The fiscal year 2021 budget formalized several key financial factors which have been themes for several years within the government:

- Sustainability of existing services;
- Cost of government;
- Meeting the internal needs of operating departments; and
- Maintaining the quality of life for constituents, businesses and citizens.

Property Tax

The property tax for 2021 will remain at 3 mils. The proposed budget is predicted on City tax rate of 3 mils.

Major Challenges

Growth – Economic growth in Pendergrass and the surrounding areas has begun to improve. We have added approximately 100 new homes to our community in the past year. With this growth comes the responsibility of striking a balance between maintenance of existing assets and acquisition of new assets to properly serve our community. We are currently experiencing a housing start growth in the City and expect to add more than 100 new homes in the City in the next 12 months.

Employees – The City's employees are its greatest asset. To all that reside here, it is obvious that a lot of people have worked very hard for a long period of time to make Pendergrass what it is today. Employees are a vital part of the success equation. Like physical assets, the city must "maintain" its employees as well. To remain competitive and retain our employees, we are proposing a small pay increase across the board in 2021 as a cost of living increase. We will closely monitor our budget and determine the best time to do this. Employee compensation will remain a challenge especially as our region's economy remains strong. We face market challenges in hiring and retaining Public Safety Officials and Environmental Services Employees.

Our goal for FY 2021 is to operate a government that emphasizes public safety, well maintained city parks and grounds as well as roadways, and provide a beautiful city to our citizens that we can walk and play in and be proud to call home.

Our financial health is directly related to controlling spending, internal controls and the prudent financial policy direction of the Mayor and City Council. This process has allowed our city to continue to provide top-level municipal services to our residents and businesses. These efforts have resulted in substantial economic investments within the city limits by national and international companies and more investment is expected.

Rob Russell, City Administrator

Budget Overview

REVENUE for the city consists of Property Taxes, Sales Tax, Franchise fees, Excise fees and Other Revenues such as Licenses and Fees, Charges for Service, and Fines.

- **Property Taxes** – Property Taxes are proposed to generate about \$128,471.00. The Jackson County Tax Commissioner sets the 2021 County tax digest.
- **Sales Tax** – Sales tax income is projected to be \$75,000. This is based on level income from this source versus last year over the course of the year. (L.O.S.T.)
- **Alcohol/Excise fees** – These fees are projected to be \$45,000.
- **Franchise /Utilities/Enterprise fees** – are projected to generate \$93,000 in 2021.
- **Insurance Premium Taxes** - are projected to be \$29,000.00
- **Planning and Building fees** – Planning and building fees for 2021 are projected to be about \$17,000.00
- **Signs Permits, Site Approvals, Plan Site Zoning costs** – are projected to generate no income for 2021.
- **Fines and Forfeitures from Police Services** – are expected to generate \$65,000.
- **General Government** fees (fees for services – copying, faxes, and permits) are expected to generate \$1,000.
- **Other Revenues** – All other revenues are projected to generate \$7833.00.
- **Rental Income** - Rental Income is projected to be about \$9600.00 in 2021.
- **Motor Vehicle Taxes** – projected to be about \$850.00 in 2021.
- **Probation fees** – projected - to be about \$2000.00 in 2021.
- **Motor Vehicle TAVT** – projected to be about \$2000.00 in 2021.
- **Municipal License fees** – projected to be about \$1000.00.

TOTAL REVENUE IS PROJECTED TO BE \$474,754.00 FOR 2021.

City of Pendergrass
EXPENSES

2021 COST CENTERS PROPOSED BUDGET

EXPENDITURES

Professional services (city attorney, accountant)	\$ 18,600
Auditors fees (annual State audit)	\$ 15,000
DDA Audit Fees	\$ 5,500
City Administrator's Office (salary, supplies)	\$ 65,200
City Hall (salaries, supplies)	\$ 39,840
City Street Lights	\$ 12,200
Insurance – auto, property, liability ins.	\$ 16,000
Library (salaries, supplies)	\$ 0
Mayor and Council	\$ 0
Municipal Court (salaries – judge, interpreter, pub. defend)	\$ 2,700

TOTAL EXPENSES PROJECTED	\$ 474,754.00
CAPITAL PROJECTS (unfunded project- Parks and Recreation)	\$ 00,000
Projected Total Cost to Operate City - 2021	\$ 474,754.00

SUMMARY OF INCOME AND EXPENDITURES

INCOME for the City consists of property taxes, sales taxes, franchise fees, excise fees and other miscellaneous fees for service.

EXPENDITURES for the City include Personnel, Operating costs, and Capital expenses consisting of recurring and one-time Capital expenses.

- **Personnel** – The proposed budget recommends maintaining current staffing levels in all departments. This proposed budget does include a request to increase employee's salaries.

Unfunded Requests

There are no unfunded requests. This number would include unfunded new and increased services, unfunded recurring capital, and unfunded one-time capital. This would include additional maintenance requests and equipment costs for the Parks and Recreation program.

Conclusion

Our budget process is continually improving as we streamline our service delivery strategy and increased the level of services we provide.

Our goal is simple: To have an open and easy to understand budget process that reflects the goals and policies as established by the Mayor and Council.

We live in a very dynamic environment. Our City has an opportunity to be one of the finest places in Georgia to live and work. Nothing short of this goal will be accepted by the staff and government officials of this City.

REVENUE FUND SOURCES

The **General Fund** collects revenue from a broad variety of sources including property taxes, fines, miscellaneous taxes, building permits, business occupation tax, and sales tax. This fund contains the operating budgets for many of Pendergrass's traditional government services, such as, public safety, road repairs and maintenance, traffic, and the support departments such as the City Administrator's Office, Finance Office, and Administrative Services that serve these more public functions.

Property Taxes includes revenue from taxes on real and personal property as well as taxes on motor vehicles and mobile homes. The real and personal property tax digest is comprised of residential, commercial, industrial, public utility properties, and is reduced by exempt properties. The City's millage rate is applied to the tax digest supplied each year by Jackson County, a reasonable rate of collection is assumed based on historical experience resulting in the most accurate property tax revenue projection possible. The City's M&O millage rate currently stands at 3.0. The City's authority to levy and collect property tax is derived from State law and is administered in a predetermined, legally mandated manner.

Other Taxes are comprised of revenue from sources such as Local Option Sales Tax, Insurance Premium Tax, Business Occupation Tax, Alcohol related taxes, and Franchise Fees, as well as several other minor types. The authority to assess and collect these taxes, like property tax, is derived from State law, which mandates procedures as well as legal limits for many of these sources of funds.

Strategic Goals

The Strategic Goals Section contains the City of Pendergrass's Vision and Mission Statements, Core Values, Strategic Goal plan for FY 2021.

VISION STATEMENT

*“We are a family oriented, safe and
attractive community that respects our natural
environment and celebrates our culture.
We are a City of pride, progress, and possibilities.
We are Pendergrass...
The best place to live in Georgia.”*

Mission Statement

“It is our mission to provide superior municipal services delivered by professional and dedicated people committed to exceeding the needs of our community.”

Core Values and Strategic Goals

Core Values

OPEN GOVERNMENT

The elected officials and staff of the City of Pendergrass believe in honest and open government. We are dedicated to the highest standards of integrity, openness, and fairness in all that we do in serving our citizens.

RESPONSIVE GOVERNMENT

We are passionate about representing the citizens of Pendergrass. We believe in listening to our citizens and being responsive to their needs. We believe a government that is receptive to citizen input and quick to respond can better serve its citizens.

SERVICE TO OUR CITIZENS

The City of Pendergrass exists to serve our citizens. We believe we have an obligation to ensure that City services are delivered to our citizens in a professional, timely and courteous manner.

COMMUNITY PARTNERSHIPS

We are committed to encouraging our citizens and businesses to participate in the City's planning and decision-making process. We believe by creating strong partnerships within our community, we will make Pendergrass a better place to live for current and future generations.

CITY STAFF

We believe City of Pendergrass employees are our most important resource. Through them, the City's vision and mission will be accomplished. We believe in treating City staff with fairness, dignity and respect.

QUALITY OF LIFE

We believe in maintaining the high quality of life enjoyed by our citizens by adapting to changing economies and demographics. Our prosperity is founded in its residential neighborhoods and protecting and enhancing them is paramount in every decision the City makes.

STRATEGIC GOALS

I. PROMOTE A WELL-DESIGNED COMMUNITY

The City will identify and implement solutions which support and balance our livability.

II. SUSTAIN AND PROTECT THE CITY'S RESOURCES

The City will maintain and protect our Resources including the City's infrastructure to meet the current and future needs of our community.

III. EMPHASIZE A RESPONSIVE DELIVERY OF QUALITY SERVICES

The City will take a proactive approach to improve services.

IV. CELEBRATE OUR CULTURE AND CHARACTER

The City will provide opportunities to enjoy our distinct and unique quality of life.

Accounting Policies

The budgeting and basis of accounting policies of the City of Pendergrass conform to Generally Accepted Accounting Principles (GAAP) as applicable to governments. The basis of accounting refers to when revenues and expenditures are recognized in the accounting and reported in the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. At the fund-level government funds use the modified accrual basis of accounting. All government fund types, expendable trust funds and agency funds use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e. when they become both measurable and available).

“Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities in the current period. The City considers revenues as available if they are collected within 60 days after year-end. Those revenues considered susceptible to accrual are property taxes, charges for services, sales taxes, fines, forfeitures, interest income and intergovernmental grants. Revenues from licenses and permits and miscellaneous revenues are recorded as revenues when received in cash because they are generally not measurable until actually received.

In applying the susceptible-to-accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used for guidance.

There are, however, essentially two types of these revenues. In one, monies must be expended on the specific purpose or project before any amounts will be paid to the City; therefore, revenues are recognized based on the expenditures recorded. In the other type, monies are virtually unrestricted as to purpose of expenditure and are nearly irrevocable (i.e., revocable only for failure to comply with prescribed compliance requirements, such as equal employment opportunity.) These resources are reflected as revenues at the time of receipt or earlier if they meet the criteria for availability.

Expenditures are generally recognized under the modified accrual basis of accounting when the related liabilities are incurred. Exceptions to this general rule include: (1) accumulated unpaid vacations, judgments and claims which are not expected to be paid out of “available spendable resources”, (2) principal and interest on general obligation long-term debt which are recognized when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year and (3) inventory of materials and supplies which are recorded as expenditures when they are consumed. Those liabilities that are not to be paid from current resources are recorded in the general long-term obligations account group.

Proprietary Funds utilize the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Funds Accounting

The accounts of the City are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with separate sets of self-balancing accounts that comprise its assets, liabilities, fund e2quities, revenues and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds bases upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds in the budget are grouped into generic fund types and two broad fund categories as follows:

Governmental Funds

General Fund: The general operating fund of the City. It is used to account for all financial resources, except those required to be accounted for in another fund.

Special Revenue Funds: Used to account for the proceeds of specific revenue sources that are restricted to expenditures for specific purposes. Special Revenue Funds currently used are: *S.P.L.O.S.T.*

Fund Balances

Fund balance is the difference between a fund's assets and its liabilities. Portions of the Fund Balance may be reserved for various purposes; such are as contingencies and encumbrances.

General Fund: The City's policy is to keep, at minimum, 10% of budgeted expenditures for the General Fund within fund balances at the end of each fiscal year, if possible, based on the current economic conditions. The amount used to calculate budgeted expenditures may be discounted for extraordinary one-time contribution or purchases. This policy may be further adjusted through action of the Mayor and City Council.

Additional fund balance over and above the 10% may be scheduled for use for future one-time capital projects in lieu of borrowing.

Other funds: The City Administrator or his/her designee may establish fund balance policies for all other city funds as needed or required by law.

Purchasing Policy

The City's financial policies and State law set forth requirements for the expenditure of local government funds for the purchase of goods and services. Per the City of Pendergrass financial policies, the City Administrator shall have the responsibilities and powers of the Purchasing Agent for the City.

The Purchasing Agent shall establish procedures for purchases of goods and services involving the estimated expenditures of \$10,000 or less. These procedures determine the thresholds at which the number and type of quotes that are required. Purchases with anticipated amount of \$10,000 or over require sealed bids or proposals.

The City has a partially decentralized purchasing process. Departments are authorized to obtain quotes for items under \$500. Quotes on items over \$1000 are to be obtained by the Purchasing Division, headed by the City Administrator.

General Fund

The General Fund is the general operating fund of the City and is used to account for all financial resources, except those required to be accounted for in another fund. Revenues for the General Fund include sales tax, property tax, franchise, alcohol, business/insurance taxes, licenses, charges for service, fines, interest, miscellaneous, inner-fund transfers and reserves.

CITY DEPARTMENTS

ADMINISTRATION

The Administration Department is made up of several different offices and divisions. They include the Elected Officials, City Administrator's office, the City Clerk, Court Services, Human Resources, Legal Department, Building Services and Community Information. The Administration Department provides policy direction and guidance, provides accurate and timely information to all customers, supports the mission and goals of the other City Departments and manages the day-to-day operations of the City.

Opportunities and Challenges for FY 2021...

Opportunities...

To deliver high quality services at the same or increased level of service in a manner that maximizes the efficiency and effectiveness of our resources and promotes long-term values. Manage housing growth and quality of growth in the housing markets in our city and develop and attract commercial business to our City.

Challenges...

Promotion of innovation into our organization and operations that facilitate the goals of the department and Mayor and City Council.

Police Department

The Police department is responsible for providing a host of quality police services to the community. This includes, but is not limited to, answering citizens calls for service, providing preventive patrol and other crime prevention programs to the community, the enforcement of Federal, State, and Local laws, and conducting investigations into known criminal activity and arresting violators of the law.

Opportunities and Challenges for FY 2021...

Opportunities...

Opportunities for the coming fiscal year include increased training for our Officers.

Challenges...

Our FY 2021 budget includes no additional police officer positions. We must continue to address this increase in demand for police service and help us guard against degradation in our response time.

Building Inspections

The Building Inspections Division is made up of 2 contract employees who monitors all phases of new residential and commercial construction as well as new additions and repairs to existing residential and commercial structures in our City. The Building Inspectors are available 6 days a week to meet our citizen needs.

Planning and Zoning

The Planning and Zoning process in Pendergrass consists of a Planning and Zoning Director and support staff. The City Council acts as their own Planning and Zoning review board and makes all zoning decisions, conducts all public hearings, and works with developers both commercial and residential alike.

Recreation and Parks Department

The Recreation and Parks Department is responsible for providing the leisure needs of the Citizens of Pendergrass by offering many diverse opportunities to engage in recreational programs and activities and by providing a host of parks, open space and facilities for all to enjoy.

ENVIRONMENTAL SERVICES DEPARTMENT

The Environmental Services Department is responsible for maintenance and cleanliness for our City Streets, grounds, and building/facility upkeep and maintenance. The Environmental Services Department is probably the busiest department in the City, with requests for services continuously pouring in. The focus of this department is to keep the City clean and beautiful for our citizens and visitors to enjoy.

This completes the City of Pendergrass 2021 Proposed Budget
