5468 PEACHTREE ROAD CHAMBLEE, GA 30341

June 22, 2023

Honorable Brian Mock, Mayor Members of the City Council, and Citizens of Chamblee, Georgia

Ladies and Gentlemen:

The annual comprehensive financial report of the City of Chamblee, Georgia (the "City") for the fiscal year ended December 31, 2022 is hereby submitted. Management assumes full responsibility for the completeness and reliability of the information contained in this report, based on a comprehensive framework of internal controls established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable rather than absolute assurance that the financial statements are free of any material misstatements. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and reported in a manner designed to present fairly the financial position and results of operations of the City.

The City's financial statements have been audited by Mauldin & Jenkins, LLC, a firm of licensed certified public accountants. The independent auditors have issued an unmodified or "clean" opinion on the City of Chamblee's financial statements for the year ended December 31, 2022. The independent auditor's report is presented as the first component of the financial section of this report.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it. The basic audited financial statements with combining and individual fund statements and schedules along with required supplementary information follow the MD&A.

The statistical section contains selected historical financial data, debt statistics, and the miscellaneous social and economic data generally presented on a multi-year basis.

History-City of Chamblee

Chamblee is located in Northern DeKalb County and is bordered by Dunwoody to the northwest, Doraville to the east and Brookhaven to the southwest. The heart of what is known today as the City of Chamblee was originally a small community known as the Roswell Junction. In 1881, the Roswell Railroad completed its line with a stop in the Roswell Junction community. The rail stop spurred growth in the area and due to postal confusion with Roswell, Roswell Junction became known as Chamblee. Chamblee was

officially incorporated as a City by the State of Georgia on August 17, 1908. The City was defined as an area radiating one-half mile in every direction from the rail depot.

Since its incorporation in 1908, the City of Chamblee has undergone several annexations. The most recent of which became effective on December 30, 2013 and grew the City to a total of 7.85 square miles and more than 27,000 citizens.

Form of Government

The City of Chamblee operates under a mayor and council-city manager form of government. The Chamblee City Council is comprised of a mayor and five council members. The City is divided into three council districts and two at-large districts. One council member is elected from each of the three districts and two council members are elected from the city at large. The council members who are elected for the three districts must live in the district that they represent but all five council members are elected by a city-wide vote.

The Council enacts ordinances, establishes policy, adopts the annual budget, and establishes the ad valorem tax rate for each year. The City Manager is responsible for implementing the policies set forth by the Council, overseeing all City employees, and managing the day to day operations of the City.

Services Provided

The services provided by the City under general governmental functions include police protection, planning and development, road maintenance, sidewalk and curb maintenance, and parks operation and maintenance. These services are primarily funded by property taxes, franchise fees, and occupational taxes.

In addition, the City provides stormwater and solid waste under the enterprise fund concept. These services are provided for a fee that is set forth by the City Council.

Economic Outlook

Located just 14 miles from downtown Atlanta, the City of Chamblee is positioned for significant economic growth as the economy continues to recover. Two major interstate highways that border the City, I-285 to the north and I-85 to the southeast, provide easy roadway access to and from the City. For commuters, the roadway access is supplemented by a MARTA (Metropolitan Atlanta Rapid Transit Authority) rail station and several MARTA bus stops throughout the City. The City is also home to DeKalb Peachtree Airport (PDK), which is the second busiest airport in the State.

At the time of the 2010 census, the City of Chamblee ranked 37th in population out of 68 incorporated municipalities that were in the 10 counties that make up the Atlanta Regional Commission (ARC) with 9,892 citizens. Today, because of two annexations since the last census, Chamblee's 30,842 citizens would rank 15th in the same region.

The City of Chamblee's average household income in 2022 was \$101,454, while the median household income was \$72,960 per year. Persons living below the poverty level in the City of Chamblee were at 14%, while the DeKalb County and the State of Georgia levels were at 14% and 15% respectively. Residents aged 25 to 44 earned \$79,022, while those between 45 and 64 years old had a median wage of \$81,199. In contrast, people younger than 25 and those older than 65 earned less, at \$36,513 and \$40,792, respectively. These figures combined with the median household income figures, show that there is a greater disparity between the households at the top income levels and the households at the bottom income levels than there is throughout the State.

Chamblee has benefited from the migration of the film and TV industry to the metro Atlanta area. Studio production companies constantly visit the wide variety of antiques shops that Chamblee has to offer as they search for valuable additions to their sets.

The City had a difficult task to produce our annual budget due the uncertainty of long-term operating impacts stemming from 2020 and 2021 COVID-19 pandemic recovery. The City saw a healthy fiscal recovery that has superseded expectations for 2022. Some revenue lines are still slow to re-bound back to where they were in previous years. With that in mind, the proposed 2022 budget was compiled based on conservative estimates of revenues and attendance based on the factors mentioned above.

The City will continue to examine potential alternate revenue streams, review new and existing methods of providing services to the community, encourage and recruit a diversified stock of residential and commercial development, expand partnerships with the community to deliver desired outcomes and services and plan for new needs and activities that will result from changes in our economy, workforce and society.

Budget

The budget is the City's annual financial operating plan. The annual budget includes the operating departments of the general fund, special revenue funds, capital project funds, and enterprise funds. The budget encompasses a fiscal year that begins on January 1 and ends on December 31.

The City Manager is responsible for presenting a proposed budget to the Mayor and Council. This budget must be balanced within each fund. The budget must generally be approved prior to the start of the new fiscal year, although local statute does allow the City

to operate for a period of no more than 30 days without an approved budget under certain circumstances.

Long-term Financial Planning

The City's policy is to maintain a minimum General Fund balance reserve equal to 25% of operating expenditures. As of December 31, 2022, the General Fund unassigned fund balance was 78% of annual operating expenditures. The City has a rolling 5-year capital plan to help dictate how to best use these excess funds. The following projects were completed or in progress:

City Hall
Police Memorial
Peachtree Road Streetscapes
MARTA Pond Clean up
Paving Project
Peachtree Road Bridge Panels
Rideshare Park
Dresden Stream Restoration
Master Trail Plan
Chamblee Tucker Path
Village Park Restrooms

Awards

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its annual comprehensive financial report for the fiscal year ended December 31, 2021. This was the City's ninth consecutive award. To be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized comprehensive annual financial report. The report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA for consideration.

Acknowledgments

The preparation and completion of this annual comprehensive financial report represents the culmination of numerous efforts by many City employees. I would like to express my sincere appreciation to the Department of Finance's staff, the City's other operating and supporting departments, as well as the licensed certified public accountants of Mauldin & Jenkins, LLC for making this report possible. This annual comprehensive financial report reflects our ongoing commitment to the citizens of the City of Chamblee, the Chamblee City Council, and all interested readers of this report to provide information with the highest standards of financial reporting.

Respectfully submitted,

Julie K Pero

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and Members of City Council of the City of Chamblee, Georgia

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the **City of Chamblee, Georgia** (the "City"), as of and for the year ended December 31, 2022 and the related notes to the financial statements, which collectively comprise the City of Chamblee, Georgia's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Chamblee, Georgia, as of December 31, 2022, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund and American Rescue Plan Act Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Chamblee, Georgia, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Chamblee, Georgia's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
 raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of
 time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of changes in the City's net pension liability and related ratios, and the schedule of City contributions - retirement pension plan be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Chamblee, Georgia's basic financial statements. The combining and individual nonmajor fund financial statements and the schedule of projects constructed with special purpose local option sales tax proceeds, as required by the Official Code of Georgia 48-8-121, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of projects constructed with special purpose local option sales tax proceeds are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 22, 2023 on our consideration of the City of Chamblee, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Chamblee, Georgia's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Chamblee, Georgia's internal control over financial reporting and compliance.

Mauldin & Jenkins, LLC

Atlanta, Georgia June 22, 2023 As management of the City of Chamblee, Georgia (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City of Chamblee for the year ended December 31, 2022.

FINANCIAL HIGHLIGHTS

- The City's total assets and deferred outflows of resources exceed liabilities and deferred inflows of resources by \$64,892,275 at the end of the year. Of this amount, unrestricted net position of \$26,877,590 may be used to meet the City's ongoing obligations to citizens and creditors.
- As a whole, the City's financial position improved during the year 2022. The City's net position increased by \$5,850,635 or 9.9%. Of this amount, an increase of \$3,922,383 was associated with governmental activities and an increase of \$1,928,252 was associated with business-type activities.
- As of the close of the current year, the City's governmental funds reported combined ending fund balances of \$33,466,542, a decrease of \$11,749,685. \$18,566,209 is unassigned and available for spending.
- At the end of the current year, unassigned fund balance for the General Fund was \$18,566,209, or 78.5% of total General Fund expenditures.
- The General Fund reported a decrease in fund balance of \$773,196 compared to an increase of \$2,534,899 in the prior year.
- The City's total debt obligations (including accrued compensated absences, notes payable, and net pension liabilities) decreased by \$1,811,337 or 4.1% during the current year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between these items

being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flow in future periods.

The government-wide financial statements of the City are divided into two (2) categories:

- **Governmental activities** These include the basic services provided by the City that are principally supported by taxes and intergovernmental revenues. These include police, culture and recreation, public works and general administration.
- **Business-type activities** These include services for which the City charges specific fees which are meant to recover all or a significant portion of the cost of providing the services. Fees collected under this type of activity include sanitation (solid waste collection), stormwater fees, and criminal history background checks.

Governmental activities and business-type activities are consolidated and added to the total for the primary government.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other State and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between the two.

The City maintains eleven (11) individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Special Purpose Local Option Sales Tax Fund (SPLOST), the Urban Redevelopment Agency Fund, and the American Rescue Plan Act Fund, which are considered to be major funds. Data from the other seven (7) governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts annual appropriated budgets for its governmental funds. Budgetary comparison statements and schedules have been provided for these funds to demonstrate compliance with the budget.

The basic governmental fund financial statements can be found on pages 16 through 20 of this report.

Proprietary funds. The City maintains two (2) proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its sanitation and stormwater functions. Sanitation and Stormwater Funds are considered to be major funds of the City.

The basic proprietary fund financial statements can be found on pages 21 through 23 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 24 through 53 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information such as the City's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on pages 54 and 55 this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$64,892,275 at the close of the most recent year.

By far the largest portion of the City's net position (48.8%) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to

repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position (\$6,347,161) represents resources that are subject to external usage restrictions. The remaining balance of unrestricted net position (\$26,877,590) may be used to meet the City's ongoing obligations to citizens and creditors.

At the end of the current year, the City is able to report positive balances in all three categories of net position, both for the City as a whole, as well as for its separate governmental and business-type activities.

City of Chamblee, Georgia's Net Position

	Governmen	tal Activities	Business-ty	pe Activities	To	tal
	2022	2021	2022	2021	2022	2021

Governmental Activities. Governmental activities increased the City of Chamblee's net position by \$3,922,383, thereby accounting for 67% of the total increase in the net position of the City. Key elements of this increase are as follows:

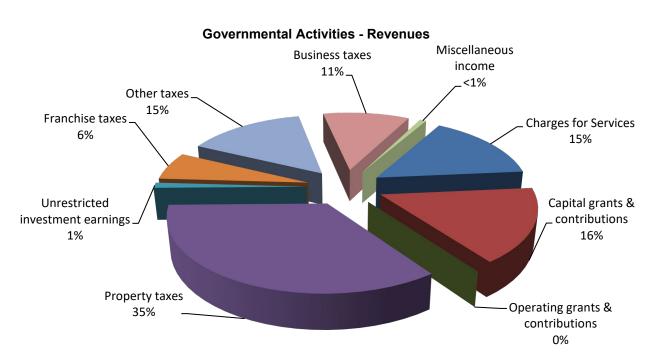

- Increases in the property tax digest yielded an additional \$931,041 over 2021 with the City's millage rate at 6.25 mills.
- Business taxes increased \$983,749 as the City fully recovers from COVID19 and sales taxes increased due to the strong economy.

Business-type Activities

Sanitation revenues in 2022 increased by \$131,436 or 9.6% in comparison to 2021. Expenses also increased \$442,687 in 2022 or 26.2% mostly due to salary increases. Stormwater revenues increased \$1,810,287 or 160% due to rate increases from 2021 and expenses decreased 44% due to fewer repairs.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

\$ 2,551,315

As noted earlier, the City of Chamblee uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds. The purpose of the City's governmental fund financial statements is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's new resources available for spending at the end of the year.

As of December 31, 2022, the City's governmental funds reported combined ending balances of \$33,466,542, a decrease of \$11,749,685 in comparison to the prior year. Of this amount, \$18,566,209 is unassigned fund balance, which is available for spending at the City's discretion. The remainder of the fund balance is not available for new spending because it is either restricted, committed, or assigned for other purposes or non-spendable.

The restricted fund balances include \$8,863,188 in SPLOST funds that are restricted to the uses of road paving, existing capital asset maintenance, and transportation improvements, \$809,368, restricted for public safety and \$117,307 restricted for capital projects. The committed funds consist of \$2,582,790 in Urban Redevelopment Agency (URA) for the new public safety and city hall buildings and \$59,069 which is to be spent for police and municipal court technology expenditures. The assigned funds consist of \$295,729 for tourism, \$750,958 for 2023 Budget, \$173,105 grant funded capital projects and \$1,113,617 for E911 Police. The remaining fund balance is nonspendable.

General Fund. The General Fund is the City's chief operating fund. At the end of the current year, unassigned fund balance of the General Fund was \$18,566,209 while total fund balance was \$19,452,369. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund

balance represents 78.5% of the total General Fund expenditures for 2022, while total fund balance represents 82.2% of that same amount.

During the current year, the fund balance of the City's General Fund decreased by \$773,196. The revenues increased by \$3,220,309 or 13% due to increase in property taxes of \$931,041 and other taxes of \$865,124. Taxes increased due to the increases in assessed values. License and permits increased \$869,271 as businesses and development increased following COVID19. Expenditures increased by \$6,398,561 due to the URA transfer for debt service payments and increased salary costs due to pay increases approved by the City Council.

SPLOST FUND. The City began receiving SPLOST funds in May 2018. In 2022, many projects were completed as the City spent \$6,133,073 of the \$5,190,463 received in 2022. Over the next year, the City's capital plan calls for more than \$8 million to be invested in expanding the City's rail trail, bridges and multi-use paths. The rail trail is a pedestrian path that will hopefully one day connect all sides of the city.

URA FUND. The City issued a bond in 2021 for \$15,895,000 for the new city hall building. The committed fund balance is \$2,582,790 as the completion of the city hall building and grand opening was held in October 2022. The fund saw capital outlay of \$12.2 million as the City spent bond proceeds on the new city hall building and debt service payments of \$2.1 million.

ARPA FUND. In 2021, the City was awarded \$11,206,621 from the American Rescue Plan Act funding from the U.S. Treasury for COVID-19 response. The City is holding cash until allowable costs are identified and charged to the program.

Proprietary funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The combined net positions of the two proprietary funds were \$6,283,350 at the end of the year. Of this amount, \$4,108,497 was from the Stormwater Fund while the Sanitation Fund was \$2,147,857.

GENERAL FUND BUDGETARY HIGHLIGHTS

For year 2022, the City's General Fund had an unfavorable budget variance of \$918,828. The decrease to property tax budgeted increases and transfers in were the biggest contributing factors to the budget variance.

CAPITAL ASSETS

The City's investment in capital assets for its governmental activities as of December 31, 2022, amounts to \$68,981,770 (net of accumulated depreciation). These assets primarily reflect land, buildings, infrastructure, vehicles, furniture and equipment and park improvements. The City's

investment in net capital assets for its business-type activities as of December 31, 2022, amounts to \$2,531,785.

The total increase in the City's investment in capital assets for the current year was \$13,149,963 or 22.5%. For more detailed information concerning capital assets, see Note 6 to the financial statements.

Some of the major capital asset additions in year 2022 include construction of a new city hall building, and the completion of construction on multiple sidewalk and streetscape projects.

LONG-TERM DEBT AND OBLIGATIONS

At the end of 2022 year, the City had \$42,408,790 in outstanding long-term debt and obligations. This is a net decrease of \$1,811,337 compared to last year's total due to payments on the Urban Development Agency bond and decreases in the net pension liability. More detailed information about the City's long-term liabilities is included in Note 7 to the financial statements.

ECONOMIC AND NEXT YEAR'S BUDGET AND RATES

Funding for the City's governmental activities is derived from property tax, other taxes, and fees. During the calendar year 2022 budget process, the City considered projections on the State and local economy to estimate tax revenues for the proposed budget. The City's budget for 2022 was prepared using the 2022 millage rate of 6.25 mills.

Property taxes, fines and forfeitures, franchise fees, and occupational licenses have been the City's main sources of revenue that support the general governmental operations. As it is clearly displayed in the table on the following page, property tax revenues continue to climb while other revenue sources remain relatively flat. The current symbiotic relationship of these two revenue sources help to highlight that there are several major redevelopment projects that are currently ongoing in the City. These projects have not only raised the property value of the land being redeveloped but has also added value to the surrounding parcels. This activity is expected to continue in 2023.

The following table shows the ten year revenue trends for the City's major revenue sources and the calendar year 2023 estimated revenue budget amount:

Financial Contact

This financial report is designed to provide a general overview of the City's finances, comply with finance related laws and regulations, and demonstrate the City's commitment to public accountability. Questions concerning any of the information provided in this report or requests for additional information should be directed to the Finance Department at 3518 Broad Street, Chamblee, Georgia, 30341.

resources and, therefore, are not reported in the governmental funds. Some receivables are not available to pay for current-period expenditures

and, therefore, are unavailable in the governmental funds.

Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the governmental funds.

Net pension asset is not due and payable in the current period and, therefore, not reported in governmental funds, along with related deferred outflows of resources and deferred inflows of resources.

Net position of governmental activities The accompanying notes are an integral part of these financial statements.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2022

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ (11,749,685)
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period.	12,530,597
The net effect of sales of capital assets is to decrease net position.	(12,874)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds.	310,749
The issuance of long term debt provided current financial resources to governmental funds, while the repayment of the principal consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Additionally, governmental funds report the effects of premiums when the debt is first issued, whereas this amount is amortized in the statement of activities.	1,073,994
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	 1,769,602
Change in net position - governmental activities	\$ 3,922,383

The accompanying notes are an integral part of these financial statements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of Chamblee, Georgia (the "City"), which was incorporated on August 17, 1908 under the laws of the State of Georgia, is governed by a six member Mayor/Council – City Manager form of government. The Mayor is elected to a four-year term and council members are elected to staggered four-year terms. The City provides such services to its citizens as public safety, public works, development and permits, parks and recreation, and general and administrative services. The financial statements of the City of Chamblee, Georgia (the "City") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the City are described below.

The City, for financial reporting purposes, includes all of the funds relevant to the operations of the City. The Governmental Accounting Standards Board has set forth criteria to determine if legally separate organizations are considered to be component units in which the City is considered to be financially accountable or other organizations whose nature and significant relationship with the City is such that exclusion would cause the City's financial statements to be incomplete or misleading. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the City to impose its will on that organization, or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the City.

As required by accounting principles generally accepted in the United States of America, the financial statements of the reporting entity include those of the City (the "primary government") and its component units. The component units discussed below are included in the City's reporting entity because of the significance of their operational or financial relationship with the City.

Discretely Presented Component Unit - In conformity with generally accepted accounting principles, the financial statements of the Downtown Development Authority of the City of Chamblee (the "DDA") are presented as a discretely presented component unit. The DDA was created in 2013 by the City Council pursuant to the Georgia Downtown Development Authorities Law. It operates through a Board of Directors consisting of seven (7) members appointed by the City Council and Mayor and they may also be removed by the Mayor and City Council. The purpose of the DDA is to promote, to preserve, and to enhance a safe and economically viable central business district by focusing both public and private resources on maximizing the potential of both the historic downtown and Peachtree Boulevard corridor to benefit the entire community. The DDA's financial information may be obtained from the Economic Development Manager of the City of Chamblee at 5468 Peachtree Road, Chamblee Georgia 30341 or by calling 470-395-2308. Separate financial statements for the Downtown Development Authority are not prepared.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. Reporting Entity (Continued)

Blended Component Unit - The Urban Redevelopment Agency of the City of Chamblee was established as a legally separate entity in 2019. The five (5) members of the Urban Redevelopment Agency are appointed by the Mayor and City Council and they may also be removed by the Mayor and City Council. The Urban Redevelopment Agency provides a means to issue revenue bonds for development within the City. Although it is legally separate from the City, the Urban Redevelopment Agency is reported as if it were a part of the primary government because its sole purpose is to finance the City's acquisition of property within the City, and the City is repaying the debt. The Urban Redevelopment Agency is reported as a capital project fund.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all the non-fiduciary activities of the primary government and its component units. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The Downtown Development Authority component unit is presented in a separate column. The statement of net position will include non-current assets and non-current liabilities. In addition, the government-wide statement of activities reflects depreciation expense on the City's capital assets. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. However, interfund services that are provided and used are not eliminated in the process of consolidation.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not considered among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period.

For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current period, with the exception of grant revenues which are considered to be available when all eligibility requirements have been met and if they are collected within one year of the end of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Property taxes, sales taxes, franchise taxes, licenses, intergovernmental grants, and interest associated with the current period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the City.

In accordance with GASB Statement No. 33, "Accounting and Financial Reporting for Non-exchange Transactions," the corresponding assets (receivables) in non-exchange transactions are recognized in the period in which the underlying exchange occurs, when an enforceable legal claim has arisen, when all eligibility requirements have been met, or when resources are received, depending on the revenue source. In accordance with GASB Statement No. 34, major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The City reports the following major governmental funds:

The **General Fund** is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **Special Purpose Local Option Sales Tax Fund** accounts for the acquisition of capital assets or construction of major projects financed by the special purpose local option sales tax.

The **Urban Redevelopment Agency (URA) Fund (Blended Component Unit)** is used to provide financing for the City related to redevelopment of certain areas within the City.

The American Rescue Plan Act Fund (ARPA) is used to account for restricted grant monies received under the American Rescue Plan Act.

The City reports the following major enterprise funds:

The **Stormwater Fund** accounts for the receipt of ad valorem stormwater assessments to support capital improvement and administration costs of the City's stormwater system.

The **Sanitation Fund** accounts for the City's solid waste management operations.

Additionally, the City reports the following fund types:

Special Revenue Funds are used to account for specific revenues that are either legally restricted or committed to expenditures for particular purposes.

Capital Project Funds account for the acquisition and construction of capital assets, other than those accounted for in specific funds, which are not financed by the proprietary funds.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges for goods and services provided. Operating expenses of the enterprise funds include the cost of these goods and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Budgets

Annual appropriated budgets are adopted for all funds with the exception of the Urban Redevelopment Agency, which is a capital projects fund. The budgets for the proprietary funds are for management control purposes and are not required to be reported. Budgets are adopted on a modified accrual basis, which is consistent with generally accepted accounting principles for governmental funds. Annual operating budgets are adopted each year through passage of an annual budget ordinance and amended as required for all governmental funds. During the year ended December 31, 2022, the original budget was amended through supplemental appropriations. These changes are reflected in the budgetary comparison schedules. All unencumbered budget appropriations lapse at the end of each year.

E. Deposits and Investments

Georgia statutes authorize the City to invest in the following: (1) obligations of Georgia or any other State; (2) obligations of the United States; (3) obligations fully insured or guaranteed by the United States Government or one of its agencies; (4) obligations of any corporation of the United States Government; (5) prime bankers' acceptances; (6) the State of Georgia local government investment pool; (7) repurchase agreements; and (8) obligations of any other political subdivisions of the State of Georgia. Any investment or deposit in excess of the federal depository insured amounts must be collateralized by an equivalent amount of State or U.S. obligations. For purposes of the statement of cash flows, all highly liquid investments with an original maturity of less than 90 days are considered to be cash equivalents. Investments are reported at fair value.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Other Assets

The City's other assets consist of real estate properties held by the Downtown Development Authority. These properties are held with the intention of controlling future development within the City's downtown area and are not held for income or profit purposes. As such, these assets are recorded at cost. The assets consist of two (2) properties comprised of land and buildings in the Authority's development area. Both properties were purchased in 2016 for \$7,795,713.

G. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the year as well as all other outstanding balances between funds is reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

H. Prepaid Items and Inventory

Payments made to vendors for services that will benefit periods beyond December 31, 2022 are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items are accounted for using the consumption method by recording as an asset for the prepaid amount when acquired and subsequently reflecting the expenditure/expense in the fiscal year in which the services are consumed. At the fund reporting level, an equal amount of fund balance is reported as nonspendable, as this amount is not available for general appropriation.

I. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation. The City has reported infrastructure consistent with the retroactive infrastructure reporting requirements of GASB Statement 34.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Capital Assets (Continued)

Capital assets of the primary government are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Infrastructure	30-50
Buildings and improvements	10-40
Park improvements	10-40
Furniture, machinery, and equipment	3-20
Vehicles	3-10

J. Deferred Outflows/Inflows of Resources

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City's unavailable revenue, which arises under a modified accrual basis of accounting and, therefore, qualifies for reporting in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes as these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available.

The City also has deferred inflows of resources and deferred outflows of resources related to the recording of changes in its net pension liability (asset). Certain changes in the net pension liability (asset) are recognized as pension expense over time instead of all being recognized in the year of occurrence. Experience gains or losses result from periodic studies by the City's actuary which adjust the net pension liability (asset) for actual experience for certain trend information that was previously assumed, for example the assumed dates of retirement of plan members. These experience gains or losses are recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of Plan members. Changes in actuarial assumptions which adjust the net pension liability (asset) are also recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of Plan members. The difference between projected investment return on pension investments and actual return on those investments is also deferred and amortized against pension expense over a five year period. Additionally, any contributions made by the City to the pension plan before year end but subsequent to the measurement date of the City's net pension liability (asset) are reported as deferred outflows of resources.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is only a liability for non-vesting accumulated rights to receive sick pay benefits when an employee has accrued in excess of 160 hours as the City does not have a policy to pay any amounts when employees separate from service with the City unless the above condition is met. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

L. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the term of the bonds using the effective interest method. Bonds payable are reported net of the applicable discount or premium. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

M. Fund Equity and Net Position

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between the assets, deferred inflows of resources, and liabilities under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

M. Fund Equity and Net Position (Continued)

Fund balances are classified as follows:

Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

Restricted – Fund balances are reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, laws or regulations of other governments.

Committed – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by a formal vote of the Mayor and City Council (passage of a resolution). Only the Mayor and the City Council may modify or rescind the commitment through a majority vote (passage of a resolution).

Assigned – Fund balances are reported as assigned when amounts are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. The City Council has expressly delegated to the City Manager the authority to assign funds for particular purposes. Such assignments cannot exceed the available (spendable, unrestricted, uncommitted) fund balance in any particular fund.

Unassigned – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The City reports positive unassigned fund balance only in the General Fund. Negative unassigned fund balance may be reported in other governmental funds.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order: (1) Committed, (2) Assigned, and (3) Unassigned.

Net Position – Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources in reporting which utilizes the economic resources measurement focus. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the City has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the previous section. All other net position is reported as unrestricted.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City of Chamblee Retirement Plan (the "Plan") and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

O. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, deferred outflows of resources, deferred inflows of resources, and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenditures/expenses during the period. Actual results could differ from those estimates.

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between *fund balance – total* governmental funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities are not due and payable in the current period and therefore are not reported in the governmental funds." The details of this \$42,909,450 difference are as follows:

Bonds payable	\$ (38,700,000)
Bond premium	(2,948,282)
Accrued interest payable	(519,284)
Compensated absences	(741,884)
Net adjustment to reduce fund balance- total governmental funds	
to arrive at net position - governmental activities	\$ (42,909,450)

Another element of that reconciliation states that the "net pension liability is not due and payable in the current period and, therefore, not reported in governmental funds, along with related deferred outflows of resources." The details of this \$1,446,641 difference are as follows:

Net pension asset	\$ 85,200
Deferred outflows of resources	347,803
Deferred inflows of resources	(1,879,644)
Net adjustment to reduce fund balance- total governmental funds	
to arrive at net position - governmental activities	\$ (1,446,641)

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

B. Explanation of Certain Differences between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances* – *total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$12,530,597 difference are as follows:

Capital outlay	\$ 15,040,192
Depreciation expense	(2,509,595)
Net adjustment to increase net changes in fund balances - total	
governmental funds to arrive at changes in net position of	
governmental activities	\$ 12,530,597

Another element of that reconciliation explains that "Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds." The details of this \$1,769,602 difference are as follows:

Changes in:	
Accrued interest payable \$	162,824
Compensated absences	(41,717)
Prepaid debt	79,059
Pension expense	1,569,436
Net adjustment to increase net changes in fund balances - total	_
governmental funds to arrive at changes in net position of	
governmental activities <u>\$</u>	1,769,602

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

B. Explanation of Certain Differences between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

Another element of the reconciliation states "The issuance of long term debt provided current financial resources to governmental funds, while the repayment of the principal consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Additionally, governmental funds report the effects of premiums when the debt is first issued, whereas this amount is amortized in the statement of activities. The details of this \$1,073,994 difference are as follows:

Principal payments on bonds payable	\$ 715,000
Principal payments on financed purchases payable	79,059
amortization of bond premium	279,935
Net adjustment to increase net change in fund balances - total governmental	
funds to arrive at change in net position - governmental activities	\$ 1,073,994

NOTE 3. LEGAL COMPLIANCE - BUDGETS

The budget is officially adopted by the governing body prior to the beginning of its fiscal year, or a resolution authorizing the continuation of necessary and essential expenditures to operate the City will be adopted. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level, within the fund. Transfers of appropriations within a department budget or within a non-departmental expenditure category require only the approval of the Finance Director. Increases in appropriations in a departmental budget or in a non-departmental expenditure category, require approval of the governing body in the form of amendments to the budget ordinance.

For the year ended December 31, 2022, expenditures exceeded the budget in each of the following departments which were funded by lower than budgeted expenditures in other areas and available fund balance.

General Fund - public saftey	\$ 11,558
General Fund - public works	106,736
General Fund - debt service	983
E911 Fund - public saftey	1,354
Confiscated Assets Fund - public saftey	6,906

NOTE 4. DEPOSITS AND OTHER ASSETS

Custodial Credit Risk – Deposits: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes, and City policy, require all deposits and investments (other than Federal or State government instruments) to be collateralized by depository insurance, obligations of the U.S. Government, or bonds of public authorities, counties, or municipalities. As of December 31, 2022, the City's bank balances were properly collateralized as defined by State Statutes.

Credit Risk – Investments: The local government investment pool, "Georgia Fund 1," created by OCGA 36-83-8, is a stable asset value investment pool, which follows Standard and Poor's criteria for AAAf/S1 rated money market funds and is regulated by the Georgia Office of the State Treasurer. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1 per share value). The asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participants' shares sold and redeemed based on \$1 per share. The City has classified the Georgia Fund 1 funds as cash equivalents; therefore, cash equivalents includes \$12,237,651 in Georgia Fund 1. As of December 31, 2022, the Georgia Fund 1 had a weighted average maturity of 23 days and a credit rating of AAAf/S1.

Interest Rate Risk: The City does not have a formal policy that addresses interest rate risk. At December 31, 2022, the above investments were subject to interest rate risk. Interest rate risk is the risk that a government may face should changes in interest rates affect the fair value of its investments.

Credit Risk Policy: State statutes authorize the City to invest in obligations of the State of Georgia or other States; obligations issued by the U.S. Government; obligations fully insured or guaranteed by the U.S. Government or by a government agency of the United States; obligations of any corporation of the U.S. Government; prime bankers' acceptances; the State of Georgia's Local Government Investment Pool (Georgia Fund 1) established by State law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia. As of December 31, 2022, the City's only investments were in the local government pool established by State law.

Fair Value Measurements: The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The Georgia Fund 1 is an investment pool which does not meet the criteria of GASB Statement No. 79 and is thus valued at fair value in accordance with GASB Statement No. 31. As a result, the City does not disclose the investment in the Georgia Fund 1 within the fair value hierarchy.

NOTE 5. RECEIVABLES

DeKalb County bills and collects real and personal property taxes for the City. Property taxes attach as an enforceable lien on property as of January 1, and are based on property values assessed as of January 1. Tax bills were levied in July 2022. The billings are considered due upon receipt by the taxpayer; however, they are considered late after November 15. After this date, the bill becomes delinquent and penalties and interest may be assessed by the City.

In the governmental funds, the City's property tax revenues are recognized when levied to the extent that they are available. Receivables outstanding more than 60 days after year-end are considered available and are recorded as deferred inflows of resources - unavailable property taxes in the City's governmental funds but are recognized as revenue in the government-wide financial statements for governmental activities.

In the enterprise funds, storm water fees (for residential customers) are billed annually in July along with the property taxes and are due and payable in two installments. The first installment was due on August 15, 2022 and the second installment was due on November 15, 2022. After these dates, the bill becomes delinquent and penalties and interest may be assessed by the City.

Receivables at December 31, 2022, for the City's individual major funds and non-major funds in the aggregate, including the applicable allowances for uncollectible accounts are as follows:

		General		Special Purpose Urabn Local Option Redevelopment General Sales Tax Agency				levelopment	Nonmajor Governmental		
Receivables:											
Taxes	\$	3,159,701	\$	-	\$	-	\$	143,127			
Accounts		185,922		-		12,783		377,173			
Intergovernmental		-		505,357		-		-			
Due from other											
governments		257,837		-		-		-			
Less allowance											
for uncollectible		(405,147)				-					
Net total receivable	\$	3,198,313	\$	505,357	\$	12,783	\$	520,300			

	St	ormwater	 Sanitation
Receivables: Accounts	\$	542,493	\$ 45,411
Less allowance for uncollectible		(231,009)	(5,000)
Net total receivable	\$	311,484	\$ 40,411

NOTE 6. CAPITAL ASSETS

Primary Government

Capital asset activity for the year ended December 31, 2022, is as follows:

	Beginning Balance	Increases	Decreases		Transfers	Ending Balance
Governmental activities:						
Capital assets, not being depreciated:						
Land	\$ 6,431,751	\$ -	\$ -	\$	-	\$ 6,431,751
Construction in progress	6,322,753	13,589,565	 		(18,290,631)	 1,621,687
Total	12,754,504	 13,589,565	 		(18,290,631)	 8,053,438
Capital assets, being depreciated:

NOTE 7. LONG-TERM DEBT (CONTINUED)

Primary Government (Continued)

Financed Purchases – Public Safety Equipment and Vehicles. The City entered into a lease agreement as lessee for financing the acquisition of vehicles used in general governmental activities. As of December 31, 2022, the balance was paid in full by the City.

Bonds Payable – Direct Placement – In August 2019, the Urban Redevelopment Agency issued Series 2019 Revenue Bonds in the amount of \$24,465,000 for the purpose of financing the City's urban redevelopment projects and paying the remainder of the note payable with Georgia Municipal Association. The Series 2019 bonds bear interest rates from 2%-5% per annum payable each February 1 and August 1 with principal payable annually on February 1. Principal payments begin February 1, 2020 and mature February 1, 2049.

In April 2021, the Urban Redevelopment Agency issued Series 2021 Revenue Bonds in the amount of \$15,895,000 for the purpose of financing the City's urban redevelopment projects. The Series 2021 bonds bear interest rates from 2%-5% per annum payable each February 1 and August 1 with principal payable annually on February 1. Principal payments begin February 1, 2022 and mature February 1, 2046.

The annual debt service requirements, as of December 31, 2022, on the City's Urban Redevelopment Agency bonds payable are as follows:

Year Ending December 31	. <u> </u>	Principal		Interest	Total
2023	\$	895,000	\$	1,223,906	\$ 2,118,906
2024		945,000	·	1,177,906	2,122,906
2025		990,000		1,129,531	2,119,531
2026		1,045,000		1,078,656	2,123,656
2027		1,100,000		1,025,031	2,125,031

2038-2042		8,525,000		2,087,731	10,612,731
2043-2047		8,825,000		927,628	9,752,628
2048-2049		2,430,000		73,500	 2,503,500
Total	\$	38,700,000	\$	16,015,226	\$ 54,715,226

NOTE 7. LONG-TERM DEBT (CONTINUED)

Discretely Presented Component Unit

Downtown Development Authority

Long-term liability activity for the year ended December 31, 2022, was as follows:

	Beginning Balance	Additions		R	eductions	Ending Balance	ue Within One Year
Downtown Development Authority:							
Bonds payable-Direct Placement	\$ 5,448,277	\$	-	\$	(592,000)	\$ 4,856,277	\$ 621,000
Total long-term liabilities	\$ 5,448,277	\$	Ξ	\$	(592,000)	\$ 4,856,277	\$ 621,000

The Downtown Development Authority issued Series 2018 Taxable Refunding Revenue Bonds in the amount of \$13,604,185 on August 31, 2018 in order to refinance 100% of the Series 2016 notes and 2017 bonds from prior years. The bonds carry an interest rate of prime plus .35% which adjusts every three years and mature on December 1, 2029. The DDA is currently paying \$35,500 in monthly interest payments. The bond agreement calls for three different repayment options; option one maturing on December 31, 2029, option two maturing on December 31, 2032 and option three maturing on December 31, 2037. The DDA's intent is to sell the properties securing the bonds prior to these dates and for financial statement presentation, the DDA has elected to use option one. A property was sold in 2020 and properties were sold in 2021 in which the proceeds were used to pay down the outstanding balance.

The bonds are secured by the properties and in part by a pledge of rental payments paid to the Authority by tenants leasing the properties. Additionally, the Authority entered into an intergovernmental agreement with the City to provide security for the payment of the bonds in the event the Authority is unable to meet the annual debt service obligation and the balloon payment. Under the agreement, the City has the authority to tax property in the City at a three mill limit to the extent necessary to pay the debt service on the bonds, and that such payments be pledged by the Authority to the holders of the bonds.

The annual debt service requirements, as of December 31, 2022 is as follows:

Year Ending December 31	 Principal	Interest	 Total
2023	\$ 621,000	\$ 211,248	\$ 832,248
2024	653,000	184,235	837,235
2025	685,000	155,829	840,829
2026	719,000	126,032	845,032
2027	755,000	94,755	849,755
2028-2029	 1,423,276	61,913	1,485,189
Total	\$ 4,856,276	\$ 834,012	\$ 5,690,288

NOTE 8. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The composition of interfund balances as of December 31, 2022, is as follows:

Due to/from other funds:

Receivable Fund	Payable Fund	A	Amount		
Nonmajor Governmental Funds	General Fund	\$	4,423		
Nonmajor Governmental Funds	SPLOST Fund		7,620		

All interfund balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures/expenses occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. The payable from the SPLOST Fund to nonmajor governmental funds is for allowable SPLOST expenditures incurred in those funds.

Interfund transfers:

Transfers In	Transfers Out	Amount		
General Fund	Nonmajor Governmental Funds	\$	1,159,990	
Nonmajor Governmental Funds	Nonmajor Governmental Funds		173,516	
Nonmajor Governmental Funds	General Fund		601,730	
SPLOST Fund	General Fund		998,502	
Nonmajor Governmental Funds	Stormwater		141,043	
Nonmajor Governmental Funds	SPLOST		30,633	
Sanitation Fund	General Fund		1,305,408	
Urban Redevelopment Agency	General Fund		3,368,477	

Transfers are used to (1) move revenues from the fund that statute or budget requires collecting them to the fund that statute or budget requires to expend them, (2) use unrestricted revenues collected in the General Fund to finance various program accounts for other funds in accordance with budgetary authorizations, (3) to move grant-related expenditures from the Stormwater Fund to the Multiple Grants Fund, (4) to transfer funds from the General Fund to the SPLOST Fund to supplement projects in the voter approved referendum, and (5) transfer funds from the SPLOST Fund for the matching portion of grants which fund allowable SPLOST expenditures in other funds.

NOTE 9. DEFINED BENEFIT PENSION PLAN

Plan Description

The City, as authorized by the Mayor and City Council, has established a defined benefit pension plan (the "City of Chamblee Retirement Plan") covering all full-time employees. The City Council in its role as the Plan Sponsor, has the sole authority to amend the provisions, including specific benefit provisions and contribution requirements of the Plan as provided by the Plan document. The City's Pension Plan is affiliated with the Georgia Municipal Employee Benefit System (GMEBS), an agent multiple-employer pension plan administered by the Georgia Municipal Association. Contributions made by the City are comingled with contributions made by other members of GMEBS for investment purposes. The City does not own any securities on its own. Investment income from the securities is allocated on a pro rata basis. The Georgia Municipal Association issues a publicly available financial report that includes financial statements and required supplementary information for GMEBS. The plan was closed to new participants in 2010.

That report may be obtained by writing to Georgia Municipal Association, Risk Management and Employee Benefit Services, 201 Pryor Street, NW, Atlanta, Georgia 30303 or by calling (404) 688-0472 or on the internet at www.gmanet.com.

As provided by State law, benefit provisions for participants in GMEBS are established by the respective employers. As authorized by the Mayor and City Council, the Plan provides pension benefits and death and disability benefits for Plan members and beneficiaries. All employees who work at least thirty (30) hours a week are eligible to participate after one (1) year. Elected officials have no waiting period for eligibility. Benefits vest after ten years of service. A City employee who retires at age 65 with five (5) years of service is entitled to benefits of 2.0% of final average earnings in excess of covered compensation. An employee may elect early retirement at age 55 provided he or she has a minimum of ten (10) years total credited service to receive full benefits. Elected officials are entitled to \$30 for each year of service after reaching normal retirement age not to exceed twenty (20) years. Employees of the City are not required to make contributions to this Plan.

At July 1, 2022, the date of the most recent actuarial valuation, there were 125 participants consisting of the following:

Retirees and beneficiaries currently receiving benefits	65
Terminated vested participants not yet receiving benefits	40
Active participants - vested	15
Active participants - nonvested	5
Total	125

NOTE 9. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Contributions

The Plan is subject to minimum funding standards of the Georgia Public Retirement Systems Standards law. The Board of Trustees of GMEBS has adopted a recommended actuarial funding policy for the Plan which meets State minimum requirements and will accumulate sufficient funds to provide the benefits under the Plan. The funding policy for the Plan is to contribute an amount equal to or greater than the recommended contribution described below. For fiscal year 2022, the actuarially determined contribution rate was 34.90% of covered payroll. The City makes all contributions to the Plan. For 2022, the City's contribution to the Plan was \$422,560.

Net Pension Liability (asset) of the City

The City's net pension liability (asset) was measured as of March 31, 2022. The total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of July 1, 2021 with update procedures performed by the actuary to roll forward to the total pension liability measured as of March 31, 2022.

<u>Actuarial assumptions.</u> The total pension liability in the July 1, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.25%

Salary increases 3.00%-8.50%, including inflation

Investment rate of return 7.375%, net of pension plan investment expense, including inflation

Mortality rates for the July 1, 2021 valuation were based on the sex-district Pri-2012 head count weighted Healthy Retiree Mortality Table with rates multiplied by 1.25.

The actuarial assumptions used in the July 1, 2021 valuation were based on the results of an actuarial experience study for the period January 1, 2015–June 30, 2019.

Cost of living adjustments were assumed to be 2.25%.

NOTE 9. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Net Pension Liability (asset) of the City (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of March 31, 2021 are summarized in the table below:

Asset class	Target allocation	Long-term expected real rate of return*
Domestic equity	45%	6.55%
International equity	20%	7.30%
Real estate	10%	3.65%
Global fixed income	5%	0.50%
Domestic fixed income	20%	0.40%
Cash	%_	
Total	100%	

^{*} Rates shown are net of the 2.25% assumed rate of inflation

NOTE 9. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Net Pension Liability (asset) of the City (Continued)

<u>Discount rate</u>. The discount rate used to measure the total pension liability was 7.375%, the same rate used in the previous year. The projection of cash flows used to determine the discount rate assumed that Plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all of the projected benefit payments to determine the total pension liability.

<u>Changes in the Net Pension Liability (asset) of the City.</u> The changes in the components of the net pension liability (asset) of the City for the fiscal year ended December 31, 2022 were as follows:

	То	tal Pension	Plan Fiduciary			et Pension
Primary Government:		Liability	Net Position			Liability (asset)
		(a)		(b)		(a) - (b)
Balances at 12/31/21	\$	21,411,118	\$	20,698,400		712,718
Changes for the year:	-					
Service cost		99,368		-		99,368
Interest		1,537,479		-		1,537,479
Differences between expected and actual experience		(780,823)		-		(780,823)
Contributions—employer		-		422,560		(422,560)
Net investment income		-		1,264,459		(1,264,459)
Benefit payments, including refunds of employee contributions		(1,326,636)		(1,326,636)		-
Administrative expense		-		(23,342)		23,342
Net changes		(470,612)		337,041		(807,653)
Balances at 12/31/22	\$	20,940,506	\$	21,035,441	\$	(94,935)

The required schedule of changes in the City's net pension liability (asset) and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability (asset).

NOTE 9. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Net Pension Liability (asset) of the City (Continued)

<u>Sensitivity of the net pension liability (asset) to changes in the discount rate.</u> The following presents the net pension liability (asset) of the City, calculated using the discount rate of 7.375 percent, as well as what the City's net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.375 percent) or 1-percentage-point higher (8.375 percent) than the current rate:

	Current										
		(6.375%)	Di:	(7.375%)	_	1% Increase (8.375%)					
City's net pension											
liability (asset)	\$	2,039,376	\$	(94,935)	\$	(2,113,659)					

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of March 31, 2022 and the current sharing pattern of costs between employer and employee.

<u>Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources</u> <u>Related to Pensions</u>

For the year ended December 31, 2022, the City recognized pension expense of \$(1,231,173). At December 31, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 red Outflows Resources	Deferred Inflows of Resources			
Net difference between projected and actual earnings on pension plan investments	\$ _	\$ 2,094,403			
City contributions subsequent to the measurement date	387,541	-			
	\$ 387,541	\$ 2,094,403			

NOTE 9. DEFINED BENEFIT PENSION PLAN (CONTINUED)

<u>Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources</u> Related to Pensions (Continued)

City contributions subsequent to the measurement date of \$387,541 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ending December 31, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending December 31:

2023		\$ (469,661)
2024		(600,942)
2025		(1,069,370)
2026		 45,570
	Total	\$ (2,094,403)

NOTE 10. DEFERRED COMPENSATION PLANS

457 (b) - Plan Description

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code 457. The Plan, available to all City employees, permits them to defer a portion of their salary until future years. Participation in the Plan is optional. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergencies.

In accordance with Section 457 of the Internal Revenue Code, Plan assets are held in trust for the exclusive benefit of participants and beneficiaries and administered by a third party. Accordingly, the assets and liabilities of the deferred compensation plan are not included in the accompanying basic financial statements.

457 (b) - Plan Contributions

Under the Plan authorized by the Mayor and City Council, the City has elected not to make contributions to the Plan. The Plan is entirely employee funded. Employees can either have a percentage of their pay deducted or a specific dollar amount deducted and paid into this Plan. Employees contributed \$459,487 during the year ended December 31, 2022. At the end of the year, there were 157 participants in the Plan. Total value of the deferred compensation plan as of year-end was \$2,801,371 which results in an average participant balance of \$17,843.

NOTE 10. DEFERRED COMPENSATION PLANS (CONTINUED)

401 (a) - Plan Description

The City offers full-time employees who are employed by the City on or after January 1, 2010; and two (2) employees initially employed prior to this date a Deferred Compensation Plan (the "Plan") created in accordance with Internal Revenue Code Section 401 (a). The Deferred Compensation Plan for the City is available to all employees and is a defined contribution plan and permits employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. As required by Federal regulations, these Plan assets are held in a trust for the exclusive benefit of participants and their beneficiaries. The Plan is administered by a third party administrator, Georgia Municipal Association, who also serves as the trustee of the Plan.

The City has no fiduciary relationship with the trust. Accordingly, the Plan assets are not reported in the City's financial statements.

401 (a) - Plan Contributions

Under the Plan authorized by the Mayor and City Council, the City has elected to make contributions to the Plan and the contributions and related investment earnings allocated to an employee's account are fully vested after the employee's probation period has ended, in accordance with the City's current personnel policy. The Plan is entirely employer funded as Participants are not allowed to contribute to the Plan. City contributions and interest forfeited by employees who leave employment before becoming vested are held in the Plan and are distributed to remaining participants. The City contributed \$1,029,030 during the year ended December 31, 2022. The City's contribution rate is 10% of the employees' gross salary. At the end of the year, there were 120 participants in the Plan. Total value of the plan as of year-end was \$4,814,735, which results in an average participant balance of \$19,814.

NOTE 11. JOINT VENTURE

Under Georgia law, the City, in conjunction with other cities and counties in the Atlanta, Georgia area, is a member of the Atlanta Regional Commission (ARC). Dues to the ARC are assessed at the County level and are, accordingly, paid by DeKalb County. Membership in the ARC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the ARC in Georgia. The ARC Board membership includes the chief elected official of each county and various municipalities of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of the ARC. Separate financial statements may be obtained from ARC, 229 Peachtree St. NE, Suite 100, Atlanta, Georgia 30303.

NOTE 12. RISK MANAGEMENT

The City is exposed to various risks of losses related to: torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has purchased insurance for all other risks of loss, including workers' compensation. The City uses Georgia Interlocal Risk Management Agency (GIRMA) and Workers' Compensation Self-Insurance Fund (WCSIF), public entity risk pools currently operating as common risk management and insurance programs for member local governments, as their property/liability insurance and workers' compensation insurance providers.

As part of these risk pools, the City is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pools' agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The City is also to allow the pool's agents and attorneys to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of loss protection furnished by the funds.

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the workers' compensation law of Georgia. The funds are to pay all cost taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

Settled claims have not exceeded the coverages in the last three (3) years.

NOTE 13. COMMITMENTS AND CONTINGENCIES

Litigation

The City is a defendant in certain legal actions in the nature of claims for alleged damage to persons and property and other similar types of actions rising in the course of City operations. The total range of reasonably possible amounts for these cases is from \$50,000 to \$300,000. In the opinion of City's management and legal counsel, any potential liability related to these suits pending or unasserted claims are not estimable.

Grant Contingencies

The City has received Federal and State grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to the disallowance of certain expenditures previously reimbursed by those agencies. Based upon prior experience, management of the City believes such disallowances, if any, will not be significant.

NOTE 14. HOTEL/MOTEL LODGING AND MOTOR VEHICLE RENTAL TAXES

The City uses a lodging rate of 8%. The Official Code of Georgia Annotated 48-13-51 requires that all lodging taxes levied of 3% or more be expended or obligated contractually for the promotion of tourism, conventions, or trade shows. During the year ended December 31, 2022, the City received \$1,586,378 in hotel/motel taxes. Of this amount, \$1,890,262, or 119.2%, was used for the promotion of tourism, conventions, or trade shows.

A 3% excise tax on all rental motor vehicles within the City of Chamblee, Georgia was adopted through City ordinance on June 18, 1996. This car rental tax is intended to be used for the public safety facility building capital lease. Revenues were \$188,205 for the year ended December 31, 2022 in addition to the prior year fund balance of \$179,102. Of these amounts, \$250,000 or 68.1%, was used for the promotion of tourism, conventions, or trade shows.

NOTE 15. TAX ABATEMENTS

For the year ended December 31, 2022, City property tax revenues were reduced by \$694,787 under agreements entered into by the DeKalb County Development Authority, the City of Chamblee Development Authority, the Dunwoody Development Authority, and HDP Sterling, LLC. This amount represents 100% of abatements for fiscal year 2022. Under the agreements, taxes on both real property and personal property are reduced based on investments made by the corporation to whom the incentives were offered as long as the corporation meets certain investment targets.

Notes to the Schedule:

(1) Actuarial Assumptions:

July 1, 2022 Valuation Date Cost Method

Projected Unit Credit
Sum of actuarial value at beginning of year and the cash flow during the year plus the assumed investment return, adjusted by 10% of the amounts that the value exceeds or is less than the fair value at the end of the year. The actuarial value is adjusted, if necessary, to be within 20% Actuarial Asset Valuation Method

Assumed Rate of Return on Investments 7.375%, net of pension plan investment expenses, including inflation

Projected Salary Increases 2.25% plus service based merit increases

Cost-of-living Adjustment

Amortization Method Closed level dollar for remaining unfunded liability Remaining Amortization Period Varies for the bases, with a net effective period of 10 years

(2) The schedule will present 10 years of information once it is accumulated.

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special Revenue Funds are used to account and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt services and capital projects.

E911 Fund – To account for the E911 fees collected that are required to be spent on the costs of operating a 911 emergency call center as restricted by State law.

<u>Confiscated Assets Fund</u> – This fund is used to account for the City's share of monies that have been forfeited through the court system and are restricted for law enforcement purposes.

<u>Multiple Grants Fund</u> – This fund is used to account for governmental grants received and the related expenditures. These grant funds are restricted by Federal and State grantor agencies.

<u>Hotel/Motel Tax Fund</u> – To account for the 8% lodging tax levied in the City. Forty percent of the proceeds of this tax are restricted by State law to promote tourism, conventions, and cultural events within the City.

<u>Police Technology Fund</u> – To account for the technology fees on fines and forfeitures that are committed to be spent on police technology enhancement costs.

Capital Project Funds

Capital Projects Funds are used to account for the acquisition and construction of major items, such as buildings, infrastructure, parks, streets, and other major capital facilities.

<u>Main Street Improvement Fund</u> – This fund was created to have money dedicated to improve the City's designated Main Street area. This fund was closed and the activity was transferred to the Hotel/Motel Tax Fund during the year ended December 31, 2022.

<u>Rental Motor Vehicle Excise Tax Fund</u> – This fund is used to account for the collection and expenditures of an excise tax levied on motor vehicles in the City. The proceeds of this tax are restricted by State law for capital projects.

CITY OF CHAMBLEE, GEORGIA STATISTICAL SECTION

This part of the City of Chamblee Georgia's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Page Page
Financial Trends70
These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.
Revenue Capacity
These schedules contain information to help the reader assess the City's most significant local revenue source and property tax.
Debt Capacity80
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.
Demographic and Economic Information83
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.
Operating Information85
These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the City's financial report for the relevant year. The City implemented GASB 63; Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position in Year 2012 and GASB 68 and 71 relating to pension plans in Year 2015.

Source: Assessed value data used to estimate applicable percentages provided by the DeKalb County Tax Assessor and the DeKalb County Financial Statements

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Chamblee, Georgia. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the County's taxable assessed value that is within the City's boundaries and dividing it by the County's total taxable assessed value.

⁽²⁾ The City spent \$4.5m to purchase land for 2 new parks.

⁽³⁾ The City demolished the public safety building and completed construction on a new Public Safety building.

⁽⁴⁾ The City's park acreage decreased due to the construction of the the new Public safety building.

COMPLIANCE SECTION

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Mayor and Members of City Council
City of Chamblee, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Chamblee, Georgia (the "City"), as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the City of Chamblee, Georgia's basic financial statements, and have issued our report thereon dated June 22, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Chamblee, Georgia's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Chamblee, Georgia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Chamblee, Georgia's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
