INDEPENDENT AUDITOR'S REPORT

To the City Council City of Swainsboro, Georgia

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Swainsboro, Georgia, as of and for the year ended November 30, 2022, and the related notes to the financial statements, which collectively comprise the City of Swainsboro, Georgia's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Swainsboro, Georgia, as of November 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparison for the General Fund and American Rescue Plan Act Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Swainsboro, Georgia, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Swainsboro, Georgia's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Swainsboro, Georgia's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Swainsboro, Georgia's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedule of Changes in the Net Pension Liability and Related Ratios and the Schedule of Contributions on page 39 and 40 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the basic financial statements are not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Swainsboro, Georgia's basic financial statements. The accompanying combining and individual fund statements and schedules, schedule of projects paid with SPLOST proceeds, CDBG source and application of funds schedule, and CDBG project cost schedule are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying combining and individual fund statements and schedules, schedule of projects paid with SPLOST proceeds, CDBG source and application of funds schedule, and CDBG project cost schedule are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 10, 2023 on our consideration of the City of Swainsboro, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Swainsboro, Georgia's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Swainsboro, Georgia's internal control over financial reporting and compliance.

NOTES TO THE FINANCIAL STATEMENTS NOVEMBER 30, 2022

The City of Swainsboro, Georgia (the City) was established in 1822. The City operates under a Council-Mayor form of government and provides the following services as authorized by its charter: public safety (police and fire), streets, sanitation, culture and recreation, water and sewer, and various administrative services.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting. The City also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental and business-type activities at the government-wide financial reporting level and to its enterprise fund at the fund reporting level, provided they do not conflict with or contradict GASB pronouncements.

The most significant of the City's accounting policies are described below.

1-A. Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the City consists of all funds, departments, boards and agencies that are not legally separate from the City.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organization. Component units also may include organizations that are fiscally dependent on the City in that the City approves the budget, levies their taxes, or issues their debt.

The component unit column included on the government-wide financial statements identifies the financial data of the City's discretely presented component unit. It is reported separately to emphasize that it is legally separate from the City.

A brief description of the City's discretely presented component unit follows:

City of Swainsboro Downtown Development Authority (the Authority) – The City of Swainsboro Downtown Development Authority was activated to invigorate the local economy and social strength of the community, while maintaining the historic charm and financial viability of the City. The City appoints the members of the Authority's board and assists with its funding. There are no separate financial statements for the Authority.

CITY OF SWAINSBORO, GEORGIA NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1-B. Basis of Presentation

The City's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements – The government-wide financial statements include the statement of net position and the statement of activities. These statements report financial information for the City as a whole. Individual funds are not displayed but the statements distinguish governmental activities, generally supported by taxes, grants and the City's general revenues, from business-type activities, generally financed in whole or part with service charges to external customers.

The statement of net position presents the financial position of the governmental and business-type activities of the City.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the City's governmental activities and for each identifiable activity of the business-type activities of the City. Direct expenses are those that are specifically associated with a function and therefore clearly identifiable to that particular function. The City does not allocate indirect expenses to functions in the statement of activities.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees and other charges to users of the City's services; (2) operating grants and contributions which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. For identifying to which function program revenue pertains, the determining factor for *charges for services* is which function *generates* the revenue. For *grants and contributions*, the determining factor is to which function the revenues are *restricted*.

Other revenue sources not properly included with program revenues are reported as general revenues of the City. The comparison of direct expenses with program revenues identifies the extent to which each governmental function and each identifiable business activity is self-financing or draws from the general revenues of the City.

Fund Financial Statements – During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. Fund financial statements are provided for governmental and proprietary funds.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Major individual governmental funds are reported in separate columns.

Fund Accounting – The City uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The City uses two categories of funds: governmental and proprietary.

Governmental Funds – Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Fund liabilities are assigned to the fund from which they will be liquidated. The City reports the difference between governmental fund assets and liabilities as fund balance.

The following are the City's major governmental funds:

General Fund – The general fund accounts for all financial resources except those required to be accounted for in another fund. The general fund's fund balance is available to the City for any purpose provided it is expended or transferred according to the general laws of the State of Georgia.

American Rescue Plan Act Fund – This fund accounts for all Local Fiscal Recovery Funds received by the City through the American Rescue Plan Act of 2021.

SPLOST Capital Projects Fund – This fund accounts for the special purpose local option sales tax collected pursuant to a referendum for various capital improvements within the City.

Proprietary Funds – Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. The proprietary funds are classified as enterprise funds and internal service funds. The City's only major enterprise fund is the water and sewer fund which accounts for the water and sewer provided to its constituents.

1-C. Measurement Focus

Government-wide Financial Statements – The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the City are included on the statement of net position. The statement of activities reports revenues and expenses.

Fund Financial Statements – All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus on both financial reporting levels. All assets and all liabilities associated with the operation of these funds are included on the statements of net position. The statements of changes in fund net position present increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

1-D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. At the fund reporting level, the governmental funds use the modified accrual basis in accounting. Proprietary funds use the accrual basis of accounting at both reporting levels. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows/outflows, and in the presentation of expenses versus expenditures.

Revenues – Exchange Transactions – Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the City, the phrase "available for exchange transactions" means expected to be received within 60 days of year-end.

Revenues – Non-exchange Transactions – Non-exchange transactions in which the City receives value without directly giving equal value in return, include sales taxes, property taxes, grants and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the taxable sale takes place. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions also must be available (i.e., collected within 60 days) before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be susceptible to accrual: property taxes, sales taxes, interest and federal and state grants.

Expenses/Expenditures – On the accrual basis of accounting, expenses are recognized at the time they are incurred. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due, if measurable.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1-E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position

Cash, Cash Equivalents, and Investments

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the City.

Investments are stated at fair value based on quoted market prices.

Georgia law authorizes the City to invest in the following type of obligations:

- Obligations of the State of Georgia or of any other states
- Obligations of the United States Government
- Obligations fully insured or guaranteed by the United States Government or United States Government agency
- Obligations of any corporation of the United States Government
- Prime bankers' acceptances
- The State of Georgia local government investment pool (i.e., Georgia Fund I)
- Repurchase agreements
- Obligations of the other political subdivisions of the State of Georgia

Receivables

All trade and property tax receivables are reported net of an allowance for uncollectibles, where applicable. The general fund reported an allowance for uncollectible taxes of \$57,585 at November 30, 2022.

Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/interfund payables." These amounts are eliminated in the governmental and business-type activities columns on the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are reclassified and presented as internal balances on this statement. These amounts are ultimately eliminated from the total column on the statement of net position.

Consumable Inventories

Inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used (i.e., the consumption method).

Prepaid Items

Payments made to vendors for services that will benefit periods beyond November 30, 2022, are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting the

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

expenditure/expense in the year in which services are consumed. At the fund reporting level, an equal amount of fund balance is reported as nonspendable since this amount is not available for general appropriation.

Restricted Assets – Cash and Cash Equivalents

Restricted cash includes amounts set aside for specific purposes and to meet the requirements of applicable debt covenants of the water and sewer debt.

Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary fund. These assets generally result from expenditures in governmental funds. The City reports these assets in the governmental activities column of the government-wide statement of net position but does not report these assets in the City fund financial statements. Capital assets utilized by the proprietary fund are reported in the business-type activities column of the government-wide statement of net position and in the proprietary fund's statement of net position.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of five thousand dollars. The City's infrastructure consists of roads, bridges and water and sewer lines. For roads and bridges, the City has only capitalized infrastructure constructed after December 31, 2003. Improvements to capital assets are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed.

All reported capital assets are depreciated except for land, right-of-ways and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

Estimated Useful Lives						
	Business-type					
Asset Class	Activities	Activities				
Building and improvements	30-50 years	20-35 years				
Infrastructure	15-50 years	5-50 years				
Machinery and equipment	5-15 years	5-15 years				

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

All compensated absence liabilities include salary-related payments, where applicable.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The total compensated absence liability is reported on the government-wide financial statements. The proprietary fund reports the total compensated liability at the fund reporting level. Governmental funds report the compensated absence liability at the fund reporting level only "when due."

Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of those funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are "due for payment" during the current year.

Bond Premiums, Discounts and Issuance Costs

On the government-wide statement of net position and the proprietary fund type statement of net position, bond premiums and discounts are netted against bonds payable. On the government-wide and proprietary fund type statement of activities, bond premiums and discounts are amortized over the life of the bonds using the effective interest method and bond issuance costs are expensed in the current period.

At the governmental fund reporting level, bond premiums and discounts are reported as other financing sources and uses, separately from the face amount of the bonds issued. Bond issuance costs are reported as an expenditure.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The City only has one item that qualifies for reporting in this category. It is resources related to pensions reported at the government-wide level for governmental and business-type activities and at the fund level for enterprise funds.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The City has an item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available. The City also has deferred inflows of resources related to its pension plan reported at the government-wide level for governmental and business-type activities and at the fund level for its proprietary funds.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between the current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

Restricted – Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Committed – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the City Council through the adoption of a resolution. Only the City Council also may modify or rescind the commitment.

Assigned – Fund balances are reported as assigned when amounts are constrained by the City Council's intent to be used for specific purposes, but are neither restricted nor committed.

Unassigned – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The City reports positive unassigned fund balance only in the general fund. Negative unassigned fund balances may be reported in all funds.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

Net Position – Net position represent the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. All other net position is reported as unrestricted.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for services for water and sewer. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of each fund and include administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets, tap-in fees to the extent they exceed the cost of the connection to the system, or from grants or outside contributions of resources restricted to capital acquisition and construction.

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after the non-operating revenues/expenses section in proprietary funds. Repayment from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements (i.e., they are netted).

Transfers between governmental and business-type activities on the government-wide statement of activities are reported as general revenues. Transfers between funds reported in the governmental activities column are eliminated. Transfers between governmental and business-type activities are eliminated from the total column.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Implementation of GASB 87

The City has implemented GASB Statement 87, "Leases." The objective of this statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. The statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The City had no recorded lease receivables or payables as of November 30, 2022.

NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

The City adopts an annual operating budget for the general fund, special revenue fund, and the capital projects funds. The budget resolution reflects the total of each department's appropriation in each fund.

All budgets are adopted on a basis consistent with GAAP.

The legal level of control (the level at which expenditures may not legally exceed appropriations) for each adopted annual operating budget generally is the department level within each individual fund. Any change in total to a fund or departmental appropriation within a fund requires approval of the City Council.

All unexpended annual appropriations lapse at year-end.

Excess of Expenditures over Appropriations

For the year ended November 30, 2022, expenditures exceed appropriations for the following departments within the general fund:

General government	\$ 356,392
Police	47,729
Fire	152,719
Streets	371,003
Sanitation	190,620
Culture and recreation	135,245
Airport	302,237
Debt Service - Principal	167,185

These over expenditures were funded by additional revenues over amounts budged and available fund balance.

Expenditures exceeded appropriations for the following special revenue funds:

American Rescue Plan Act Fund	\$ 12,488
Police Drug Fund	13,424
Police Special Funds	75,243

These over expenditures were funded by additional revenues over amounts budgeted and available fund balance.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 3 – CASH AND CASH EQUIVALENTS

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk.

At November 30, 2022, the carrying amount of the City's deposits (checking and certificates of deposit) was \$8,672,746 and the bank balance was \$8,920,541. Of the bank balance, \$684,000 was covered by federal depository insurance, and \$8,236,541 was collateralized with securities held by the pledging financial institution's trust department or agent in the City's name.

Discretely Presented Component Unit

At November 30, 2022, the carry amount of deposits for the City of Swainsboro Downtown Development Authority was \$60,732 and the bank balance was \$59,517 which was covered by federal depository insurance.

NOTE 4 – PROPERTY TAXES

Property taxes attach as an enforceable lien on property as of January 1. Property taxes were levied on October 3, 2022. The City bills and collects its own property taxes. Property tax revenues at the fund reporting level are recognized when levied to the extent that they result in current receivables (i.e., collectible in 60 days). For the year ended November 30, 2022, property taxes were billed on November 21, 2022, and were due January 31, 2023.

NOTE 5 – RECEIVABLES

Receivables at November 30, 2022, consisted of taxes, accounts (billings for user charges) and intergovernmental receivables arising from grants.

Receivables are recorded on the City's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and collectability.

NOTE 6 - INTERFUND BALANCES AND TRANSFERS

Receivable Fund	Payable Fund	Amount
General Fund	Hotel Motel Tax	\$ 2,014
Water Sewer	General Fund	52,987
		\$ 55,001

Interfund balances at November 30, 2022 represent charges for services or reimbursable expenses. The City expects to repay all interfund balances within one year.

NOTE 6 – INTERFUND BALANCES AND TRANSFERS (continued)

Interfund transfers for the year ended November 30, 2022, consisted of the following:

	Transfers from:					
	Community					
		American		Development		
		Rescue Plan	SPLOST 6	Block Grant		
Transfer To:	General Fund	Act Fund	Fund	Fund	Total	
Water and Sewer Fund	\$ 8,930	\$ 12,488	\$ 92,732	\$ 52,550	\$ 166,700	

The interfund transfers of \$166,700 made to the water and sewer fund were to help fund water and sewer system improvements.

NOTE 7 – FUND BALANCES – GOVERNMENTAL FUNDS

As of November 30, 2022, fund balances are composed of the following:

		American	SPLOST 6	Nonmajor	Total	
		Rescue Plan	Capital	Governmental	Governmental	
	General Fund	Act Fund	Projects Fund	Funds	Funds	
Nonspendable:						
Inventory	\$ 12,017	-	-	-	\$ 12,017	
Prepaid items	57,365	-	-	-	57,365	
Restricted:						
Capital projects	-	-	\$ 1,600,812	-	1,600,812	
Police	-	-	-	\$ 128,669	128,669	
Streets	558,428	-	-	-	558,428	
Community development	-	-	-	587,356	587,356	
Cemetery	182,182	-	-	-	182,182	
Pandemic relief	-	\$ 370	-	-	370	
Assigned:						
Employee benefits	69,888	-	-	-	69,888	
Unassigned	2,675,511	-	_	-	2,675,511	
Total fund balances	\$ 3,555,391	\$ 370	\$ 1,600,812	\$ 716,025	\$ 5,872,598

NOTE 9 – NOTES PAYABLE

Notes payable at November 30, 2022 consisted of the following:

Governmental Activities

\$266,495 note payable to Truist Bank for a pumper truck, payable in 20 quarterly installments of \$14,809 including interest at 4.11%, through January 2024.

71,815

Business-type Activities

\$500,000 loan from Georgia Environmental Facilities Authority (GEFA) for water tank construction project, payable in monthly installments of \$2,803 with 0% interest, through September 2032.

\$ 245,833

\$1,261,000 loan from GEFA for water tank construction project, \$20,747 drawn on loan as of November 30, 2022, repayment to be over 240 months with interest at 1.13% starting after loan is fully disbursed.

\$ 266,580

As of November 30, 2022, annual debt service requirements for notes payable are as follows:

Year Ending	Governmental Activities			Business-type Activities			
November 30	Principal	Interest	Total	Principal	Interest	Total	
2023	\$ 57,157	\$ 2,078	\$ 59,235	\$ 25,000	\$ -	\$ 25,000

NOTE 10 – WATER AND SEWER SYSTEM REVENUE BOND

In 2011, the City issued \$6,413,000 in a City of Swainsboro Water and Sewer System Revenue Bond, Series 2011. The bond was issued to construct a water treatment plant.

The bond is secured by a lien on the revenues of the water and sewer system. The City is required to maintain a reserve account and a renewal/short-lived assets account. \$2,033 per month is to be deposited in the reserve account until \$243,960 is accumulated. \$26,700 annually is to be deposited in the renewal/short-lived asset account until \$165,500 is accumulated.

The bond has an interest rate of 2.25 percent. The bond requires monthly principal and interest payments of \$20,330.

As of November 30, 2022, annual debt service requirements for the series 2011 revenue bond is as follows:

Year Ending					
November 30	Principal	Interest	Total		
2023	\$ 128,678	\$ 115,282	\$ 243,960		
2024	131,603	112,357	243,960

NOTES TO THE FINANCIAL STATEMENTS

NOTE 11 – CHANGES IN LONG-TERM DEBT (continued)

Notes payable and the compensated absences liability for governmental activities will be paid from the General Fund. Principal and interest payments related to bonds payable and notes payable for the City's Water and Sewer System are financed from income derived from the operation of the Water and Sewer System.

NOTE 12 – EMPLOYEE RETIREMENT PLAN

Plan Description

The City's defined benefit pension plan, the City of Swainsboro Retirement Plan (the "Plan"), provides retirement and disability benefits and death benefits to plan members and beneficiaries. The Plan is affiliated with the Georgia Municipal Employees Benefit System (GMEBS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for cities in the State of Georgia. The City is assigned the authority to establish and amend benefit provisions of the Plan. GMEBS issues a publicly available financial report that includes financial statements and required supplementary information. The report can be obtained by writing to Georgia Municipal Association, Risk Management and Employee Benefit Services, 201 Pryor Street, SW, Atlanta, Georgia 30303 or by calling (404) 688-0472.

Benefits Provided

The Plan provides retirement benefits to eligible employees of the City. All regular employees meeting the eligibility requirements are covered under the plan. Elected or appointed members of the City and municipal legal officers are not eligible to participate in the plan. In order to be eligible for participation, regular employees must work a minimum of twenty hours per week for at least five months per year. Regular employees qualify for immediate participation in the plan and participation is mandatory for all eligible employees.

Plan participants are eligible to receive early retirement benefits at the age of fifty-five with the completion of ten years of total credited service. Normal retirement benefits may be received at the age of sixty-five with five years of total credited service.

Normal retirement benefits are calculated based on a percentage of 1.00-1.75 percent of final average earnings multiplied by years of total credited service as an eligible regular employee. The number of years of total credited service which may be used to calculate the benefit is not limited. Monthly benefits are paid at 1/12th of the calculated amount. The same formula is used for all participants who are regular employees. Final average earnings are the annual average of earnings paid to a participant by the City for the five consecutive years of credited service preceding the participant's most recent termination in which the participant's earnings were the highest.

Final average earnings for participants electing to receive early retirement benefits are reduced by a percentage ranging from 50 percent to 93 percent depending on the number of years benefits are received prior to normal retirement age.

Disability retirement benefits shall be computed in the same manner as the normal retirement benefit, based upon the participant's accrued benefit as of his disability retirement date. The minimum disability benefit will be no less than 20% of the participant's average monthly earnings for the twelve calendar month period immediately preceding his termination of employment as a result of a disability.

In-service death benefits are payable to the participant's pre-retirement beneficiary, equal to the decreased monthly retirement benefit that would have otherwise been payable to the participant, had he elected a 100% joint and survivor benefit under the plan. In order to be eligible for this benefit, a participant must be eligible for early or normal retirement.

Employees Covered by Benefit Terms

At January 1, 2022, the most recent actuarial valuation, there were 136 participants as follows:

Active participants	55
Retirees and beneficiaries	58
Vested former employees	16
Active elected officials	7
	136

Contributions

The Plan is subject to minimum funding standards of the Public Retirement Systems Standards Law (Georgia Code Section 47-20-10). The estimated minimum annual contribution under these standards is \$0. This minimum contribution has been determined as the sum of 1) the normal cost (including administrative expenses), 2) the 30-year level percentage of payroll amortization of the unfunded actuarial accrued liability or the 10-year level percentage of payroll amortization of the surplus, and 3) interest on these amounts from the valuation date to the date contributions are paid (assumed monthly). The GMEBS Board of Trustees has adopted an actuarial funding policy that requires a different funding level than the estimated minimum annual contribution to minimize fluctuations in annual contribution amounts and to accumulate sufficient funds to secure benefits under the Plan. If the employer contributes the recommended contribution developed under the actuarial funding policy each year, the Plan will meet applicable state funding standards.

Net Pension Liability

The City's net pension liability was measured as of January 1, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of November 30, 2021.

Actuarial Assumptions

The total pension liability in the January 1, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.25 percent

Salary increases Range of 3.00 to 8.50 percent, including inflation

Investment rate of return 7.375 percent, net of pension plan investment expenses, including inflation

Mortality rates were based on the Sex-distinct Pri-2012 head-count weighted Healthy Retiree Mortality Table with rates multiplied by 1.25.

The actuarial assumptions used in the January 1, 2022 valuation were based on the results of an actuarial experience study for the period January 1, 2015 to June 30, 2019.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates return for each major asset class are summarized in the following table:

		Long-Term
		Expected
	Target	Real Rate of
Asset Class	Allocation	Return
Domestic equity	45%	6.55%
International equity	20%	7.30%
Domestic fixed income	20%	0.40%
Real estate	10%	3.65%
Global fixed income	5%	0.50%
	100%	

Discount Rate

The discount rate used to measure the total pension liability was 7.375 percent. The projection of cash flows used to determine the discount rate assumed that City contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability

	Total Pension Liability (a)	Plan Fiduciary Net Pension (b)	Net Pension Liability (c)=(a) - (b)
Balance at November 30, 2020	\$ 7,673,876	\$ 9,213,358	\$ (1,539,482)
Changes for the year:

Interest	556,955	-	556,955
Contributions from employer	-	20,223	(20,223)
Net investment income	-	1,515,973	(1,515,973)
Difference between expected and			
actual experience	232,495	-	232,495
Benefit payments, including refunds			
of employee contributions	(424,377)	(424,377)	-
Administrative expenses	-	(21,027)	21,027
Other	-	-	-
Net Changes	455,314	1,090,792	(635,478)
Balance at November 30, 2021	\$ 8,129,190	\$ 10,304,150	\$ (2,174,960)

Sensitivity of the net pension liability to changes in the discount rate

The following presents the net pension liability of the City, calculated using the discount rate of 7.375 percent, as well as what the City's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.375 percent) or one percentage point higher (8.375 percent) than the current rate:

	Discount	Current	Discount
	Rate - 1%	Discount Rate	Rate + 1%
	(6.375%)	(7.375%)	(8.375%)
City's net pension liability	(\$1,272,277)	(\$2,174,960)	(\$2,932,604)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended November 30, 2022, the City recognized pension expense of \$(364,483). At November 30, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred Outflows of Resources		De	Deferred Inflows	
		of Resources		
\$	238,650		-	
	-	\$	(978)	
	21,254		-	
	<u>-</u>		(1,060,174)	
\$	259,904	\$	(1,061,152)	
	of	of Resources \$ 238,650 - 21,254	of Resources o \$ 238,650 - \$ 21,254	

City contributions subsequent to the measurement date of \$21,254 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ending November 30, 2023. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending	
November 30	
2023	\$ (159,147)
2024	(274,422)
2025	(218,500)
2026	(170,433)
	\$ (822,502)

NOTE 13 – COMMITMENTS AND CONTINGENT LIABILITIES

As of November 30, 2022 there was no pending litigation that would have a material effect on the financial statements.

CITY OF SWAINSBORO, GEORGIANOTES TO THE FINANCIAL STATEMENTS

NOTE 14 – RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; workers' compensation claims; and natural disasters. The City carries commercial insurance to cover these risks.

The City joined the Georgia Interlocal Risk Management Agency (GIRMA). Insurance coverage and deductible options for property, casualty and crime under the policy are selected by the City's management based on the anticipated needs. The City is required to pay all premiums, applicable deductibles and assessments billed by GIRMA, as well as following loss reduction and prevention procedures established by GIRMA. GIRMA's responsibility includes paying claims, and representing the City in defense and settlement of claims. GIRMA's basis for establishing the liabilities for unpaid claims is "IBNR" established by an actuary. The City has not compiled a record of claims paid up to the applicable deductible for the prior year or the current fiscal year. The City is unaware of any claims for which the City is liable (up to the applicable deductible) which were outstanding and unpaid at November 30, 2022. No provisions have been made in the financial statements for the year ended November 30, 2022 for any estimate of potential unpaid claims.

The City has elected to be a member of the Georgia Municipal Association Workers' Compensation Self-Insurance Fund (the Fund). As a participant in the Fund, the City has no legal obligation to pay its own workers' compensation claims. The City is required to make an annual contribution to the Fund in an amount that is determined on the basis of actuarial projections of losses. With payment of the City's annual contribution, the City has effectively transferred the risk and responsibility for payment of its workers' compensation claims. However, the enabling statute creating the Fund permits the Fund to levy an assessment upon its members to make up any deficiency the Fund may have in surplus or reserves. No amount has been recorded in the financial statements for this contingency as management believes the likelihood for assessment is remote.

NOTE 15 – JOINT VENTURE

Under Georgia law, the City, in conjunction with other cities and counties in the Middle Georgia area, is a member of the Heart of Georgia Altamaha Regional Commission (RC) and is required to pay annual dues thereto. During the year ended November 30, 2022, the City paid \$7,351 in such dues. Membership in an RC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-33 which provides for the organizational structure of the RC in Georgia. The RC Regional Council membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39 provides that the member governments are liable for any debts or obligations of an RC. Separate financial statements may be obtained from:

Heart of Georgia Altamaha Regional Commission 501 Oak Street Eastman, Georgia 31023

NOTE 16 – HOTEL/MOTEL TAXES

The City levies a 5% lodging tax. A summary of the transactions in the hotel/motel tax fund for the year ended November 30, 2022 follows:

Fund balance, December 1, 2021, as restated	\$387,178
Add hotel/motel taxes and investment earnings	152,624
Less expenditures	(35,679)
Fund balance, November 30, 2022	\$504,123

Expenditures of \$35,679 (23.4% current year's receipts) were for promotion of tourism as required by OCGA 48-13-51.

NOTE 17 – RESTATEMENT OF BEGINNING BALANCES

Restatements to beginning fund balance for certain funds and beginning net position for governmental and business-type activities were required as follows:

relation to this actuarially determined contribution rate will be reported for the fiscal year ending November 30, 2023.

Methods and assumptions used to determine contribution rates:

Actuarial Cost Method Projected Unit Credit

Amortization Method Closed level dollar for remaining unfunded liability

Remaining Amortization Period N/A

Asset Valuation Method Sum of actuarial value at beginning of year and the cash flow during the year plus the assumed investment return, adjusted by 10% of the amount

that the value exceeds or is less than the market value at end of year. The actuarial value is adjusted, if necessary, to be within 20% of market

value.

Actuarial Assumptions:

Inflation Rate 2.250%

Projected Salary Increases 2.25% plus service based merit increases

Cost of Living Adjustments 2.25% for participants terminated on or after December 1, 1979; N/A otherwise

Retirement Age Rates Based on Age and History

Mortality Sex-distinct Pri-2012 head-count weighted Healthy Retiree Mortality Table with rates multiplied by 1.25

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the City Council City of Swainsboro, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, and each major fund of City of Swainsboro, Georgia, as of and for the year ended November 30, 2022, and the related notes to the financial statements, which collectively comprise City of Swainsboro, Georgia's basic financial statements, and have issued our report thereon dated August 10, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Swainsboro, Georgia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Swainsboro, Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of City of Swainsboro, Georgia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Swainsboro, Georgia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance

with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
