# **INDEPENDENT AUDITOR'S REPORT**

To the Honorable Mayor and Members of the City Council City of Villa Rica, Georgia

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the **City of Villa Rica, Georgia (the "City")**, as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Villa Rica, Georgia, as of December 31, 2016, and the respective changes in financial position, and, where applicable, cash flows thereof and the budgetary comparison information of the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of Changes in the City's Net Pension Liability and Related Ratios, and the Schedule of City Contributions on pages 4 through 13, 55, and 56 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Villa Rica, Georgia's basic financial statements. The combining and individual fund statements and schedules, and the schedule of expenditures of special purpose local option sales taxes, as required by 48-4-121 of the Georgia Code, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements and schedules, and the schedule of expenditures of special purpose local options sales taxes are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements themselves, and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules, and the schedule of expenditures of special purpose local option sales taxes are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 23, 2017 on our consideration of the City of Villa Rica, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Villa Rica, Georgia's internal control over financial reporting and compliance.

#### CITY OF VILLA RICA, GEORGIA MANAGEMENT'S DISCUSSION AND ANALYSIS For the Year Ended December 31, 2016

The following discussion and analysis of the City of Villa Rica, Georgia (the "City") provides an introduction to the basic financial statements for the fiscal period ended December 31, 2016. Management prepared this discussion that should be read in conjunction with the basic financial statements, footnotes, and supplementary information found in this report. This information taken collectively is designed to provide readers with an understanding of the City's finances.

#### FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the City of Villa Rica exceeded its liabilities and deferred inflows of resources at the close of 2016 by \$53,374,336 (net position). Of this amount, the unrestricted portion is \$7,959,236.
- The City's total net position increased by \$181,884 compared to the prior year. The City's operations increased the governmental activities by \$197,412 and decreased the business-type activities by \$15,528.
- At the close of 2016, the City of Villa Rica's governmental funds reported combined ending fund balances of \$8,879,544.
- At the end of 2016, the unassigned fund balance for the General Fund was \$5,220,018 or 54% of the total General Fund expenditures.
- At the end of 2016, unrestricted net position for the Proprietary Funds was \$2,097,521 or 48% of the total Proprietary Fund expenses, excluding depreciation expense.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

The Management's Discussion and Analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

#### **Government-wide Financial Statements**

The government-wide financial statements are designed to provide the readers with a broad overview of the City's finances, in a manner similar to private-sector business.

The *Statement of Net Position* presents information on all of the City's assets, deferred outflows, liabilities, and deferred inflows, with the difference reported as *net position*. Over time, increases or decrease in net position may serves as a useful indicator of whether the financial position of the City as a whole in improving or deteriorating.

The *Statement of Activities* presents information showing how the City's net position changed during the current year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government and administration, public safety, development services, and cultural and recreation. The business-type activities of the City include water, sewer, sanitation and solid waste operations.

The government-wide statements financial statements are presented on pages 14 and 15 of this report.

**Fund Financial Statements** – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

**Governmental Funds** – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains fourteen (14) governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, Villa Rica Public Facilities Authority Fund, and the 2015 SPLOST Fund, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The basic governmental fund financial statements can be found on pages 16 and 17 of this report.

**Proprietary Funds** – The City maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water, sewer, sanitation, and solid waste

operations. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

The basic proprietary fund financial statements can be found on pages 20 through 22 of this report.

**Notes to the Financial Statements** – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 23 through 54 of this report.

#### **GOVERNMENTAL-WIDE FINANCIAL ANALYSIS**

The City's net position at the close of 2016 increased 0.34% from \$53,192,452 at December 31, 2015 to \$53,374,336 at December 31, 2016.

The largest portion of the City's net position at December 31, 2016 (\$43,618,398) reflects its investment in capital assets (e.g., land, buildings machinery and equipment, less any outstanding debt used to acquire those assets). The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that revenue sources needed to pay this debt must be provided from other sources, since capital assets themselves are not planned to be used to liquidate these liabilities.

An additional portion of the City's net position (\$1,796,702) represents resources that are subjects to external restrictions on how they may be used. The unrestricted portion of net position is \$7,959,236.

#### THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK

## Following are summaries of the City's Statement of Net Position and Changes in Net Position.

#### **Governmental Activities**

The City's governmental activities are heavily reliant on property taxes, sales taxes and other taxes to support operations. Property taxes provided 28% of revenues, sales taxes provided 20% and other taxes provided 26%. Also, program revenues cover 23% of governmental expenses. This means the government taxpayers and the City's other general revenues fund 77% of the governmental activities. As a result, the general economy and the local businesses have a major impact on the City's revenue streams.

The table below presents the cost of each of the City's programs and the related program revenues. The difference between the expenses and the program revenues show the financial burden placed on the City's taxpayers by each of these functions.

The most significant governmental expense for the City is providing Public Safety services such as the police department. This comprises 33% of the total governmental expense. The second largest City cost is for Culture & Recreation totaling \$2,293,240 or 18% of governmental expenses.

- The cost for all governmental activity for the year was \$12,589,842 compared to \$12,278,322 in the previous year.
- The revenue amount paid for most of these activities came from the general revenues of the City such as property taxes, sales taxes and business taxes (\$8,705,975).
- Some of the costs were paid by those benefiting directly from the programs (\$1,171,635) and subsidies from other governments and organizations through grants and/or contributions (\$1,725,345).

#### **Business-Type Activities**

The cost of all Business-Type activities in 2016 was \$5,890,768. The amounts paid by the users of the systems were \$6,516,234 and additionally the business-type activities earned \$322,793 from other revenues.

With the activity from the year, the net position at December 31, 2016 for business-type activities was \$54,808,883.

#### FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As discussed, governmental funds are reported in the fund statements with a short-term, inflow and outflow of spendable resources focus. The information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements.

#### **Governmental Funds**

Governmental funds reported ending fund balance of \$8,879,544. Of this year-end total, \$5,220,018 is unassigned indicating availability for continuing City service requirements.

#### **Major Governmental Funds**

The general fund is the City's primary operating fund and the largest source of day-to-day service delivery. At the end of the current fiscal year, fund balance of the general fund was \$6,859,143. As a measure of the general fund's liquidity, it may be useful to compare the unassigned fund balance to total fund expenditures. Unassigned fund balance represents 53.8% total general fund expenditures. Total general fund revenues for the period ending December 31<sup>st</sup> were \$10,295,291 or a 2.1% decrease from the prior year. Total general fund expenditures for 2016 were \$9,687,784, which is an 8.7% increase from 2015.

#### General Fund's Net Change in Fund Balance

| Fund Balance, end of year       | \$ 6,859,143 | \$ 7,167,460 | \$ (308,317) | -4.3%      |

The Villa Rica Public Facilities Fund is used for revenue bonds which were for the construction of the waste water treatment plant on the Northwest side of the City. The expenditures totaled \$1,713,388 in 2016 and were matched with operating transfers from the general fund and the water and sewer fund.

The 2015 SPLOST Fund is used for capital projects which were funded by the most recent SPLOST referendum from Carroll County. The revenues were \$1,208,559 in 2016 and the expenditures totaled \$1,205,501.

#### **Proprietary Funds**

The proprietary funds share the same focus as the government-wide statements, reporting both short-term and long-term information about financial status. Operating revenues were 7.9% higher than the prior year and operating expense were 12.9% higher than in 2015.

The water and sewer fund operating revenues are 8.6% higher than those in 2015 and operating expenses were 13.8% higher than the prior year. The solid waste fund operating revenues are 3.7% higher than those in 2015 and operating expenses are 7.9% higher than the prior year.

#### **BUDGETARY HIGHLIGHTS**

The General Fund's 2016 final approved revenue budget was \$11,128,601. The City collected \$833,310 less than the approved revenue budget. The General Fund's original approved expenditure budget was \$10,400,708, and the final budget remained unchanged. The City expended 93% of the final approved expenditure budget. The General Fund actual expenditures were \$712,924 less than budgeted. See page 19 for more information about the General Fund budget.

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

#### Capital Assets

The City's investment in capital assets, net of accumulated depreciation and related debt, for governmental and business-type activities as December 31, 2016, was \$24,631,631 and \$52,885,652 respectively. The major changes to capital for 2016 were:

Governmental Activities:

- Two properties were purchased during 2016 for a total of \$144,906.
- Construction in progress at the new library totaled \$1,316,760 for 2016. The library opened in February of 2017.
- Seven police vehicles and equipment, totaling \$185,076, were added to the fleet in 2016.

Business-Type Activities:

- A grapple truck was purchased for the solid waste crew for a total of \$63,600.
- Improvements to the water and sewer systems for 2016 were \$151,898 and \$83,585, respectively.

At December 31, 2016, the depreciable capital assets for governmental activities were 341% depreciated. The business-type activities were 25% depreciated.

For more information on the long-term debt, see Note 8 to the financial statements.

#### **ECONOMIC FACTORS**

The City's elected and appointed officials considered many factors when adopting the 2016 budget, tax rates and fees that will be charged for the business-type activities. One of those factors is the economy. The economic trends for the City of Villa Rica have shown stabilization in the economy; however, the City continues to have a steady flow of newcomers and industry.

#### **REQUEST FOR INFORMATION**

The financial report is designed to provide a general overview of the City of Villa Rica's finances for all those with an interest in the City's finances. If you have any questions about this report or need any additional information, contact the Finance Department, Attn: Chief Financial Officer, at 571 W. Bankhead Highway, Villa Rica, Georgia 30180, or call 770-459-7000. A copy of this document is available on the City's website at www.villarica.org.

#### RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2016

Amounts reported for governmental activities in the statement of activities are different because: Net change in fund balances - total governmental funds \$ (1,271,796)Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. 1,263,812 The effect of various miscellaneous transactions involving capital assets (i.e., disposal and sales) is to decrease (9,093)net position. Revenues in the statement of activities that do not provide current financial resources are not reported as (27,466) revenues in the funds. The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the 240,000 treatment of long-term debt and related items. Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. 1,955 Change in net position - governmental activities 197,412 The accompanying notes are an integral part of these financial statements.

#### CITY OF VILLA RICA, GEORGIA NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2016

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of City of Villa Rica, Georgia (the "City") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

#### A. Reporting Entity

The City of Villa Rica operates under a council - manager form of government and provides the following services to its citizens: public safety, judicial, public works, planning and zoning, culture and recreation, and general administrative services.

As required by accounting principles generally accepted in the United States of America, the financial statements of the reporting entity include those of the City and its component units. The component units discussed below are included in the City's reporting entity because of the significance of their operational or financial relationship with the City. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

#### **Discretely Presented Component Units**

The Villa Rica Industrial Development Authority (the Industrial Development Authority) is a public body, corporate and politic and was created upon the adoption and approval of the Development Authority Law of the State of Georgia. The Mayor and City Council appoint all members of the Villa Rica Industrial Development Authority. Management has determined that due to the nature and significance of the relationship with the City and the Industrial Development Authority, to report the Industrial Development Authority as a component unit. The Industrial Development Authority has purchased land and build industrial buildings that were leased to such companies as Lowe's, Flowers Bakery, and Print Pack. The Industrial Development Authority does not issue separate financial statements.

The Villa Rica Downtown Development Authority (the Downtown Development Authority) is a seven member public body, corporate and politic and was created in 1991 upon adoption and approval of the Development Authorities of the State of Georgia. The City Council appoints all members of the Downtown Development Authority and has the ability to significantly impose the Council's will on the programs and services of the Downtown Development Authority. The Downtown Development Authority developed plans and coordinated the use of SPLOST funds for a downtown train station park parking garage. The Downtown Development Authority does not issue separate financial statements.

#### A. Reporting Entity (Continued)

#### **Blended Component Units**

The Villa Rica Public Facilities Authority (the Public Facilities Authority) is a public body, corporate and politic and was created upon the adoption and approval of the Development Authority Law of the State of Georgia. The Mayor and City Council serve as members of the Public Facilities Authority Board and appoint three additional members. The Public Facilities Authority provides services entirely to the City of Villa Rica and the debt of the Public Facilities Authority is secured by the City's ad valorem levy. The Public Facilities Authority is therefore reported as a blended component unit of the City. There are no separately issued financial statements for the Public Facilities Authority.

#### **Related Organizations**

The City of Villa Rica officials are also responsible for appointing the members of the boards of other organizations, but the City's accountability of the organizations do not extend beyond making appointments. The Mayor and Council appoint the board members for the Villa Rica Housing Authority, the Planning and Zoning Commission, the Library Board, and the Recreation Advisory Board.

#### B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. However, any interfund services provided and used are not eliminated as this process would distort the direct costs and program revenues reported in the various functions. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable. The statement of net position will include non-current assets and non-current liabilities. In addition, the government-wide statement of activities reflects depreciation expense on the City's capital assets.

#### C. Measurement Focus, Basis of Accounting, and Basis of Presentation

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers property taxes to be available if they are collected within 60 days of the end of the current fiscal period for which they are levied. Other revenues susceptible to accrual are considered available if they are collected within 60 days of the end of the service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, sales taxes, franchise taxes, charges for services, intergovernmental grants, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

In accordance with GASB Statement No. 33, "Accounting and Financial Reporting for Nonexchange Transactions," the corresponding assets (receivables) in non-exchange transactions are recognized in the period in which the underlying exchange occurs, when an enforceable legal claim has arisen, when all eligibility requirements have been met, or when resources are received, depending on the revenue source.

# C. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

In accordance with GASB Statement No. 34, major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Villa Rica Public Facilities Authority Fund* accounts for the financing and construction of capital projects determined by the Authority to promote the public good or general welfare of the citizens of Villa Rica including the acquisition, construction, renovation, improvement, extension, addition, or equipping of utility systems, emergency facilities, recreational facilities, public safety facilities, healthcare facilities, educational, cultural, or historical facilities, and administrative facilities.

The **2015 SPLOST Fund** accounts for the sales tax proceeds received by the City and the related project expenditures associated with the approved referendum.

The City reports the following major proprietary funds:

The *Water and Sewer Fund* accounts for the activities of the City's water system and the billing on behalf of Fulton County's sewer system as it applies to City residents, which renders those services to the residents and businesses located within the City.

The **Solid Waste Fund** accounts for the operations of the City's solid waste and sanitation program.

Additionally, the City reports the following fund types:

The **Special Revenue Funds** account for revenue sources that are restricted or committed to expenditure for specific purposes.

The **Capital Project Funds** account for and report financial resources that are restricted, committed or assigned to expenditures for capital outlays, including the acquisition or construction of facilities and other capital assets.

The **Debt Service Fund** is used to account for the accumulation of resources used to repay outstanding bonds issued by the City and the City's Public Facilities Authority.

# C. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. However, interfund services provided and used have not been eliminated in this process.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the enterprise funds are charges to customers for sales and services provided. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

#### D. Budget

Annual appropriated budgets are adopted for all funds. The City did not adopt and operate under a balanced budget for the Urban Development Action Grant Fund, Hotel/Motel Tax Fund, and the Debt Service Fund. The governmental fund budgets are adopted on the GAAP basis. All appropriations lapse at year-end. Encumbered appropriations are carried forward to the subsequent year automatically with no formal action required by the City Council. Encumbrance accounting - under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation - is employed by the City.

#### E. Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The City's only investments are certificates of deposit which are considered nonparticipating interest earning investment contracts. These items are recorded at cost.

Increases or decrease in fair value during the year are recognized as a component of interest income.

#### F. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year as well as all other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, represent long-term borrowing arrangements with established repayment schedules, and are offset by non-spendable fund balance in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.
## G. Inventories and Prepaid Items

All inventories are valued at the lower of cost or market using the first-in/first-out (FIFO) method. Inventories consist of expendable supplies held for consumption. The cost is recorded as an asset at the time the individual item is purchased. The cost is recorded as an expenditure in the governmental funds when consumed. Inventories reported in the governmental funds are equally offset by fund balance, which indicates that they do not constitute "available, spendable resources" even though they are a component of net current assets.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. These items are accounted for using the consumption method.

# H. Capital Assets

Capital assets, which include property, plant, equipment, intangible assets, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation. The City has elected to capitalize all general infrastructure assets regardless of the acquisition date and has used the estimated historical cost to value these assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend useful lives are expensed as incurred. Interest incurred during the construction of capital assets utilized by the enterprise funds is capitalized.

Capital assets of the primary government are depreciated or amortized using the straight line method over the following useful lives:

| Asset Category             | Years   |
|----------------------------|---------|
| Land improvements          | 20      |
| Buildings and improvements | 40      |
| Machinery and equipment    | 5 - 30  |
| Vehicles                   | 8       |
| Infrastructure             | 10 - 65 |

#### I. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has one item that qualifies for reporting in this category. That item is the deferred charge on refunding reported in the government-wide and proprietary fund statements of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or the refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of fund balance that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has one type of item that qualifies for reporting in this category under the modified accrual basis of accounting. The governmental funds report unavailable revenues from property taxes and intergovernmental revenues as these amounts are deferred and will be recognized as inflow of resources in the period in which the amounts become available.

The City also has deferred inflows of resources and deferred outflows of resources related to the recording of changes in its net pension liability. Certain changes in the net pension liability are recognized as pension expense over time instead of all being recognized in the year of occurrence. Experience gains or losses result from periodic studies by the City's actuary which adjust the net pension liability for actual experience for certain trend information that was previously assumed, for example the assumed dates of retirement of plan members. These experience gains or losses are recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. Changes in actuarial assumptions which adjust the net pension liability are also recorded as deferred outflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. The difference between projected investment return on pension investments and actual return on those investments is also deferred and amortized against pension expense over a five year period. Additionally, any contributions made by the City to the pension plan before year end but subsequent to the measurement date of the City's net pension liability are reported as deferred outflows of resources.

# J. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation benefits. All vacation is accrued when incurred in the government-wide and proprietary fund financial statements as these amounts will be paid to employees upon termination or retirement. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations or retirements.

# K. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are accrued and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable discount or premium. Bond issuance costs are expensed in the year of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

# L. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

**Fund Balance** – Generally, fund balance represents the difference between the assets and liabilities and deferred inflows of resources under the current financial resources management focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

# L. Fund Equity (Continued)

Fund balances are classified as follows:

*Nonspendable* – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

*Restricted* – Fund balances are reported as restricted when they include amounts that can be spent only for the specific purposes stipulated by the constitution, external resource providers, or through enabling legislation.

*Committed* – Fund balances are reported as committed when they include amounts that can be used only for the specific purposes determined by a formal action (i.e. resolution) of the City Council. Further the limitation that has been placed on the resources can only be removed by Mayor and Council with reversal of the action which committed the resources in the fund balance.

*Assigned* – Fund balances are reported as assigned when they include amounts intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. The City Council, through resolution, has delegated to the City Manager the authority to assign funds for a particular purpose.

*Unassigned* – Fund balances are reported as unassigned as the residual classification for the City's general fund and includes all spendable amounts not contained in the other classifications. The City reports positive unassigned fund balance only in the general fund. Negative unassigned fund balances may be reported in all funds.

**Flow Assumptions** – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order: (1) Committed, (2) Assigned, (3) Unassigned.

# L. Fund Equity (Continued)

**Net Position** – Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources, in reporting which utilizes the economic resources measurement focus. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the City has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used or restricted fund balance as described in the section above. All other net position is reported as unrestricted. The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

# M. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City of Villa Rica Retirement Plan (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## N. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, deferred inflows of resources, and liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from these estimates.

# NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

#### A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

The governmental fund balance sheet includes reconciliation between *fund balance – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities are not due and payable in the current period and therefore are not reported in the funds." The details of this \$34,395,987 difference are as follows:

| Bonds payable  | \$<br>(33,130,000) |
|--|--------------------|
| Unamortized premiums   | (4,371,491)        |
| Unamortized deferred charges                                     | 3,776,796          |
| Accrued interest   | (487,863)          |
| Compensated absences   | <br>(183,429)      |
| Net adjustment to reduce fund balance - total governmental funds |                    |
| to arrive at net position - governmental activities              | \$<br>(34,395,987) |

Another element of that reconciliation states that "deferred outflows of resources, deferred inflows of resources and the net pension liability are not expected to be liquidated with expendable available resources and therefore are not reported in the funds." The details of this \$715,784 difference are as follows:

| Net pension liability  | \$<br>(1,226,604) |
|--|-------------------|
| Deferred ouflows of resources:                                   |                   |
| Pension plan contributions subsequent to the measurement date    | 152,840           |
| Net difference between projected and actual investment earnings  | 198,960           |
| Pension plan experience differences                              | 154,841           |
| Pension plan assumption changes                                  | <br>4,179         |
| Net adjustment to reduce fund balance - total governmental funds |                   |
| to arrive at net position - governmental activities              | \$<br>(715,784)   |

# NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL (CONTINUED)

# B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$1,263,812 difference are as follows:

| Capital outlay<br>Depreciation expense  | \$<br>2,196,234<br>(932,422) |
|---|------------------------------|
| Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position - governmental activities | \$<br>1,263,812              |

Another element of that reconciliation states that "some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds." The details of this \$1,955 difference are as follows:

| Compensated absences  | \$<br>1,492   |
|---|---------------|
| Amortization  | (127,318)     |
| Accrued interest  | (1,600)       |
| Pension expense   | <br>125,471   |
| Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net position - |               |
| governmental activities   | \$<br>(1,955) |

# NOTE 3. LEGAL COMPLIANCE – BUDGETS

#### Budgets and Budgetary Accounting

- 1. Prior to January 1, the City Manager submits the proposed budget to the City Council. The operating budget includes proposed expenditures and the means of financing them.
- 2. A public hearing is conducted to obtain taxpayer comments, giving notice thereof at least seven days in advance by publication in the official organ of the City.
- 3. The budget is then legally enacted through passage of a resolution by the City Council at a public meeting.
- 4. Budget amounts can be transferred between line items within any department; however, any revisions of the budget must be amended by formal action of the City Council in a regular meeting.

Budgeted amounts are as originally adopted, or as amended by the City Council. The supplementary budgetary appropriations made are reflected in the final budget amounts.

## **Deficit Fund Equity**

The Solid Waste Fund had a deficit net position at December 31, 2016. The City is currently undergoing a rate study and the fund deficit will be reduced through anticipated increased revenues.

## **Expenditures in Excess of Appropriations**

The Public Facilities Authority Fund had expenditures in excess of appropriation in the amount of \$34,834. These excesses were funded with additional transfers.

# NOTE 4. DEPOSITS AND INVESTMENTS

**Credit risk.** State statutes authorize the City to invest in U.S. Government obligations; U.S. Government agency (or other corporation of the U.S. Government) obligations; obligations fully insured or guaranteed by the U.S. Government or a U.S. Government agency; obligations of the State of Georgia or other states; obligations of other counties, municipal corporations and political subdivisions of the State of Georgia; negotiable certificates of deposit issued by any bank or trust company organized under the laws of any state of the United States of America; prime bankers' acceptances; repurchase agreements; and pooled investment programs sponsored by the State of Georgia for the investment of local government funds.

**Interest rate risk.** The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

# NOTE 4. DEPOSITS AND INVESTMENTS (CONTINUED)

**Custodial credit risk**. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes and City policy require all deposits to be collateralized 110% by depository insurance, obligations of the U.S. Government, or bonds of public authorities, counties, or municipalities. As of December 31, 2016, all of the City's and component unit bank balances were insured and collateralized as defined by GASB and state statutes.

**Investments:** As of December 31, 2016, the City had \$2,264,285 of investments, all of which were held in certificates of deposit at a local financial institution as follows:

| Description                                      | Term                         | Maturity Date         | <br>Balance                |
|--|------------------------------|-----------------------|----------------------------|
| Certificate of deposit<br>Certificate of deposit | One (1) year<br>One (1) year | 7/22/2017<br>5/7/2017 | \$<br>205,167<br>2,059,118 |
| Total Investments                                |                              |                       | \$<br>2,264,285            |

As of December 31, 2016, the Villa Rica Industrial Development Authority had \$1,145,434 of investments, all of which were held in certificates of deposit at a local financial institution as follows:

| Description            | Term           | Maturity Date Balance |    |           |
|------------------------|----------------|-----------------------|----|-----------|
| Certificate of deposit | One (1) year   | 3/17/2017             | \$ | 152,650   |
| Certificate of deposit | One (1) year   | 12/2/2017             |    | 253,660   |
| Certificate of deposit | Two (2) year   | 12/7/2017             |    | 255,979   |
| Certificate of deposit | Three (3) year | 4/15/2018             |    | 253,377   |
| Certificate of deposit | Five (5) year  | 12/2/2020             |    | 229,768   |
| Total Investments      |                |                       | \$ | 1,145,434 |

These certificates of deposit are nonparticipating interest-earning investment contracts and, accordingly, are recorded at cost.

# NOTE 5. RECEIVABLES

#### A. Primary Government

Receivables at December 31, 2016, for the City's individual major funds and nonmajor funds in the aggregate are as follows:

| _                  |    | General<br>Fund |    | 2015<br>SPLOST<br>Fund |    | Water &<br>Sewer<br>Fund | Solid<br>Waste<br>Fund | Gov | onmajor<br>ernmental<br>Funds |
|--------------------|----|-----------------|----|------------------------|----|--------------------------|------------------------|-----|-------------------------------|
| Receivables:       |    |                 |    |                        |    |                          |                        |     |                               |
| Taxes              | \$ | 1,868,438       | \$ | -                      | \$ | -                        | \$<br>-                | \$  | -                             |
| Other governments  |    | -               |    | 722,592                |    | -                        | -                      |     | 11,681                        |
| Accounts           |    | 1,045,931       |    | -                      |    | 744,700                  | 193,649                |     | -                             |
| Gross receivables  |    | 2,914,369       |    | 722,592                |    | 744,700                  | 193,649                |     | 11,681                        |
| Less allowance     |    |                 |    |                        |    |                          |                        |     |                               |
| for uncollectibles |    | (707,823)       |    | -                      |    | (53,581)                 | <br>(87,145)           |     | -                             |
| Net receivables    | \$ | 2,206,546       | \$ | 722,592                | \$ | 691,119                  | \$<br>106,504          | \$  | 11,681                        |

Property taxes for the 2016 fiscal year were levied in September 2016, with property values assessed as of January 1, 2016. Bills are payable on or before November 15, 2016, after which the applicable property is subject to lien and penalties and interest are assessed. Property taxes attached as an enforceable lien on property as of January 1.

#### THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK

# NOTE 6. CAPITAL ASSETS

# A. Primary Government

Capital asset activity for the year ended December 31, 2016 was as follows:

|   | Beginning<br>Balance | Increases Decrease |            | Transfers | Ending<br>Balance |  |
|---|----------------------|--------------------|------------|-----------|-------------------|--|
| Governmental Activities:                  |                      |                    |            |           |                   |  |
| Capital assets, not being<br>depreciated: |                      |                    |            |           |                   |  |
| Land and improvements                     | \$ 2,528,492         | \$ 144,906         | \$-        | \$-       | \$ 2,673,398      |  |

# NOTE 7. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of December 31, 2016, is as follows:

Due to/from other funds:

| Receivable fund             | Receivable fund Payable fund |    | mount   |
|-----------------------------|------------------------------|----|---------|
| General Fund                | Water and Sewer Fund         | \$ | 406,527 |
| General Fund                | 2015 SPLOST Fund             |    | 68      |
| General Fund                | Nonmajor Governmental Funds  |    | 19,780  |
|                             | -                            | \$ | 426,375 |
| Nonmajor Governmental Funds | General Fund                 | \$ | 4,324   |
| Nonmajor Governmental Funds | 2015 SPLOST Fund             |    | 26,502  |
|                             |                              | \$ | 30,826  |

This balance resulted from (1) the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur, (2) the 2015 SPLOST Fund's reimbursement to SPLOST for a purchase made during the year.

Advances to/from other funds:

| Receivable fund | Payable fund                | /  | Amount  |
|-----------------|-----------------------------|----|---------|
| General Fund    | Solid Waste Fund            | \$ | 279,328 |
| General Fund    | Nonmajor Governmental Funds |    | 119,514 |
|                 |                             | \$ | 398.842 |

Since the 2013 fiscal year the City's General Fund has subsidized the cash flow needs of the Solid Waste and Federal Seizures Fund with management's intention to repay the City's General Fund. The Solid Waste and Federal Seizures Fund will repay the balances over a period greater than one year and are appropriately reported as long-term advances.

# NOTE 7. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS (CONTINUED)

Interfund transfers for the year ended December 31, 2016 were as follows:

| Transfers In                 | Transfers Out               | <br>Amount      |
|------------------------------|-----------------------------|-----------------|

For governmental and business activities, compensated absences are liquidated in the funds from which the employees' salaries are paid, which include the General Fund, Nonmajor Governmental Funds, Water & Sewer Fund, and Solid Waste Fund, as applicable. The net pension liability is primarily liquidated by the General Fund for governmental activities. For business-type activities, the net pension liability will be liquidated by all enterprise funds.

# NOTE 8. LONG-TERM DEBT (CONTINUED)

#### **Primary Government (Continued)**

**Revenue Bonds, Series 2008.** During the year 2008, the Public Facilities Authority issued 10,000,000 of revenue bonds for the purpose of construction of a new 2.15 million gallon wastewater treatment plant including (a) a portion of the financing costs for the acquisition of land, construction and equipping the wastewater treatment plant on the west side of the City, (b) paying capitalized interest on the bonds, and (c) paying the costs of issuance incident thereto. The bonds carry a rate of interest ranging from 4.4% - 4.9% per annum and mature March 1, 2028. During 2015 these bonds were defeased through the issuance of the 2015 Series Revenue Bonds. As part of the refunding, the City defeased certain outstanding general obligation bonds by placing the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the City's financial statements. As of December 31, 2015, the outstanding amount of Series 2008 general obligation bonds considered legally defeased is 10,000,000.

**Revenue Bonds, Series 2009.** During the year 2009, the Public Facilities Authority issued \$24,905,000 of revenue bonds for the purpose of construction of a new 2.15 million gallon wastewater treatment plant including (a) a portion of the financing costs for the acquisition of land, construction and equipping the wastewater treatment plant on the west side of the City, (b) paying capitalized interest on the bonds, and (c) paying the costs of issuance incident thereto. The bonds carry a rate of interest ranging from 4.625% - 4.875% per annum and mature March 1, 2039. During 2015 these bonds were defeased through the issuance of the 2015 Series Revenue Bonds. As part of the refunding, the City defeased certain outstanding general obligation bonds by placing the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the City's financial statements. As of December 31, 2015, the outstanding amount of Series 2009 general obligation bonds considered legally defeased is \$24,905,000.

The total cash flow savings of the refunding of the series 2008 and 2009 is \$6,370,734 with a present value, or economic gain, of \$4,525,794.

**Revenue Bonds, Series 2015.** During the year 2015, the Public Facilities Authority issued \$33,860,000 City of Villa Rica Public Facilities Authority (Georgia) Revenue Bonds (City of Villa Rica Water and Sewerage Project), Series 2015 revenue bonds for the purpose of (a) refunding all of Series 2008 and Series 2009 bonds of the Authority, and (b) paying the costs of issuance incident thereto. The bonds carry a rate of interest ranging from 2.0% - 5.0% per annum and mature March 1, 2039. The bonds are payable solely from the City through a lease agreement with the Authority, whereby the City agrees to make rental payments in an amount sufficient to enable the Authority to make the semi-annual principal and interest payments. The City has unconditionally agreed to levy ad valorem property tax, without limitation as to rate or amount, as necessary to meet its obligation under this agreement.

# NOTE 8. LONG-TERM DEBT (CONTINUED)

#### **Primary Government (Continued)**

The City's debt service requirements to maturity on the revenue bonds are as follows:

| Year Ending December 31, | Principal        |    | Interest   |    | Interest   |  | Total |
|--------------------------|------------------|----|------------|----|------------|--|-------|
| 2017                     | \$<br>245,000    | \$ | 1,461,138  | \$ | 1,706,138  |  |       |

| 2022-2026                | 4,865,000        |    | 6,474,263  |    | 11,339,263 |  |       |
| 2027-2031                | 7,680,000        |    | 4,995,188  |    | 12,675,188 |  |       |
| 2032-2036                | 10,660,000       |    | 2,831,725  |    | 13,491,725 |  |       |
| 2037-2039                | <br>7,580,000    |    | 476,869    |    | 8,056,869  |  |       |
| Total                    | \$<br>33,130,000 | \$ | 21,982,285 | \$ | 55,112,285 |  |       |

**Notes Payable.** In September 2014, the City entered into an agreement with the Georgia Environmental Finance Authority to finance the improvements to the water and sewer system. Interest on the unpaid principal balance will accrue at a rate of 4% per annum. Principal and interest are paid quarterly in installments of \$1,195, maturing in 2018.

In November 2014, the City entered into an agreement with the Georgia Environmental Finance Authority to finance the construction of the installment of various water lines in an amount of \$425,000. Interest on the unpaid principal balance will accrue at a rate of 3% per annum. Principal and interest are paid monthly in installments of \$1,761, maturing in 2025.

The City's debt service requirements to maturity on the notes payable are as follows:

| Year Ending December 31, | Principal |         | Interest |        | Total |         |
|--------------------------|-----------|---------|----------|--------|-------|---------|
| 2017                     | \$        | 20,881  | \$       | 5,030  | \$    | 25,911  |
| 2018                     |           | 21,562  |          | 4,349  |       | 25,911  |

| Total                    | \$        | 174,290 | \$       | 23,682 | \$    | 197,972 |

# NOTE 9. PENSION PLAN

#### Plan Description

The City, as authorized by the City Council, has established a defined benefit pension plan (The City of Villa Rica Retirement Plan) covering all full-time employees. The City's pension plan is affiliated with the Georgia Municipal Employee Benefit System (GMEBS), an agent multipleemployer pension plan administered by the Georgia Municipal Association. Contributions made by the City are commingled with contributions made by other members of GMEBS for investment purposes. The City does not own any securities on its own. Investment income from the securities is allocated on a pro rata basis. The Georgia Municipal Association issues a publicly available financial report that includes financial statements and required supplementary information for GMEBS. That report may be obtained at <u>www.gmanet.com</u> or by writing to Georgia Municipal Association, Risk Management and Employee Benefit Services, 201 Pryor Street, NW, Atlanta, Georgia 30303 or by calling (404) 688-0472.

As provided by state law, benefit provisions for participants in GMEBS are established and amended by the respective employers. As authorized by City Council, the plan provides pension benefits and death and disability benefits for plan members and beneficiaries. All employees, excluding elected officials who are immediately eligible, who work forty hours per week are eligible to participate after one year. Benefits vest after five years of service. A City employee who retires at age 65 with five years of service is entitled to benefits of 2% of final average earnings in excess of covered compensation. An employee may elect early retirement at age 55 provided he has a minimum of 25 years total credited service to receive full benefits, otherwise early retirement may be elected after only 10 years of service for reduced benefits. Elected officials are entitled to \$14 for each year of service after reaching normal retirement age.

*Plan Membership.* At July 1, 2016, the date of the most recent actuarial valuation, there were 222 participants consisting of the following:

| Retirees and beneficiaries currently receiving benefits   | 57  |
|---|-----|
| Terminated vested participants not yet receiving benefits | 47  |
| Active employees - vested                                 | 112 |
| Active employees - nonvested                              | 6   |
| Total   | 222 |

#### Plan Description (Continued)

*Contributions*. The Plan is subject to minimum funding standards of the Georgia Public Retirement Systems Standards law. The Board of Trustees of GMEBS has adopted a recommended actuarial funding policy for the plan which meets state minimum requirements and will accumulate sufficient funds to provide the benefits under the plan. The funding policy for the plan, as adopted by the City Council, is to contribute an amount equal to or greater than the recommended contribution described below. For 2016, the actuarially determined contribution rate was 6.18% of covered payroll. The City makes all contributions to the plan. For 2016, the City's contribution to the Plan was \$245,098.

#### Net Pension Liability of the City

Effective January 1, 2015, the City implemented the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No.* 27, which significantly changed the City's accounting for pension amounts. The information disclosed below is presented in accordance with this new standard.

The City's net pension liability was measured as of March 31, 2016. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2015 with update procedures performed by the actuary to roll forward to the total pension liability measured as of March 31, 2016.

Actuarial assumptions. The total pension liability in the July 1, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation3.25%Salary increases3.75-8.75%, including inflationInvestment rate of return7.75%, net of pension expense, including inflation

Mortality rates for the July 1, 2015 valuation were based on the RP-2000 Combined Healthy Mortality Table with sex-distinct rates, set forward two years for males and one year for females.

The actuarial assumptions used in the July 1, 2015 valuation were based on the results of an actuarial experience study for the period January 1, 2010–June 30, 2014.

#### Net Pension Liability of the City (Continued)

Cost of living adjustments were assumed to be 0.00%.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of March 31, 2016 are summarized in the table below:

| Asset class          | Target<br>allocation | Long-term<br>expected real<br>rate of return* |
|----------------------|----------------------|---|
| Domestic equity      | 45%                  | 6.75%   |
| International equity | 20%                  | 7.45  |
| Fixed income         | 25%                  | 5.05  |
| Real estate          | 10%                  | 4.55  |
| Cash                 | %_                   |   |
| Total                | 100%                 |   |

\* Rates shown are net of the 3.25% assumed rate of inflation

*Discount rate.* The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all of the projected benefit payments to determine the total pension liability.

#### Net Pension Liability of the City (Continued)

*Changes in the Net Pension Liability of the City.* The changes in the components of the net pension liability of the City for the fiscal year ended December 31, 2016 were as follows:

|   | <b>Total Pension</b> |           | Plan Fiduciary |           | Net Pension |           |
|---|----------------------|-----------|----------------|-----------|-------------|-----------|
|   |                      | Liability | Net Position   |           |             | Liability |
|   |                      | (a)       |                | (b)       |             | (a) - (b) |
| Balances at 12/31/15  | \$                   | 5,740,875 | \$             | 5,015,761 | \$          | 725,114   |
| Changes for the year:   |                      |           |                |           |             |           |
| Service cost  |                      | 213,374   |                | -         |             | 213,374   |

| Differences between expected and actual experience            |                      | 361,719   |                | -         |             | 361,719   |
| Assumption Changes  |                      | -         |                | -         |             | -         |
| Contributions—employer  |                      | -         |                | 229,947   |             | (229,947) |
| Net investment income   |                      | -         |                | 13,608    |             | (13,608)  |
| Benefit payments, including refunds of employee contributions |                      | (284,415) |                | (284,415) |             | -         |
| Administrative expense  |                      | -         |                | (15,103)  |             | 15,103    |
| Other changes   |                      | -         |                | -         |             | -         |
| Net changes   |                      | 724,575   |                | (55,963)  |             | 780,538   |
| Balances at 12/31/16  | \$                   | 6,465,450 | \$             | 4,959,798 | \$          | 1,505,652 |

The required schedule of changes in the City's net pension liability and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability of the City, calculated using the discount rate of 7.75 percent, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

|                                 |                        | Current                      |    |                        |
|---------------------------------|------------------------|------------------------------|----|------------------------|
|                                 | 1% Decrease<br>(6.75%) | <br>Discount Rate<br>(7.75%) |    | 1% Increase<br>(8.75%) |
| City's net pension<br>liability | \$<br>2,403,407        | \$<br>1,505,652              | \$ | 763,819                |

#### Net Pension Liability of the City (Continued)

*Changes in the Net Pension Liability of the City.* Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of March 31, 2016 and the current sharing pattern of costs between employer and employee.

# Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended December 31, 2016, the City recognized pension expense of \$373,875. At December 31, 2016, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | Deferred<br>Outflows of<br>Resources |         |    | Deferred<br>Inflows of<br>Resources |
|--|--------------------------------------|---------|----|-------------------------------------|
| Differences between expected and actual experience                               | \$                                   | 289,376 | \$ | 99,309                              |
| Changes in assumptions   |                                      | 5,130   |    | -                                   |
| Net difference between projected and actual earnings on pension plan investments |                                      | 244,221 |    | -                                   |
| City contributions subsequent to the measurement date                            |                                      | 187,611 |    | -                                   |
| Total  | \$                                   | 726,338 | \$ | 99,309                              |

City contributions subsequent to the measurement date of \$187,611 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ending December 31, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year ending December 31: |                 |
|--------------------------|-----------------|
| 2017                     | \$<br>(97,530)  |
| 2018                     | (97,530)        |
| 2019                     | (97,530)        |
| 2020                     | <br>(146,828)   |
| Total                    | \$<br>(439,418) |

#### NOTE 10. DEFINED CONTRIBUTION PLAN

The City of Villa Rica's Internal Revenue Code Section 457 Plan (the "Plan") is a deferred compensation plan and qualifies as a defined contribution pension plan. The Plan is administered by DST Systems and Lord Abbett Administration for all full time employees. The Plan is funded through employer and employee contributions. Plan provisions and contribution requirements are established and may be amended by the City's Mayor and Council. At December 31, 2016, there were 34 plan members.

Employees are not required to contribute to the Plan. Employees may contribute a portion of their gross salary up to the maximum amount allowed by the IRS. The Plan allows employees to increase, decrease, stop and restart deferrals as often as they wish without penalties or fees. The City's Mayor and Council have approved discretionary employer contributions for 34 employees. Total employer and employee contributions for the year ended December 31, 2016 were \$35,089 and \$74,512 respectively.

# NOTE 11. RISK MANAGEMENT

The City is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has joined together with other municipalities in the state as part of the Georgia Interlocal Risk Management Agency Property and Liability Insurance Fund and the Georgia Municipal Association Group Self-Insurance Workers' Compensation Fund, public entity risk pools currently operating as common risk management and insurance programs for member local governments.

As part of these risk pools, the City is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pool's agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The City is also to allow the pool's agents and attorneys to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of loss protection furnished by the funds.

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the workers' compensation law of Georgia. The funds are to pay all cost taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

Settled claims have not exceeded the coverage in the past three years.

# NOTE 12. COMMITMENTS AND CONTINGENCIES

# Litigation

The City is a defendant in certain legal actions in the nature of claims for alleged damages to persons and property and other similar types of actions rising in the course of City operations. Liability, if any, which might result from these proceedings, would not, in the opinion of management and legal counsel, have a material adverse effect on the financial position of the City.

# **Grant Contingencies**

The City has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to the disallowance of certain expenditures previously reimbursed by those agencies. Based upon prior experience, City management believes such disallowances, if any, will not be significant.

# NOTE 13. JOINT VENTURES

Under Georgia law, the City, in conjunction with other cities and counties in the Atlanta, Georgia area, is a member of the Three Rivers Regional Commission (TRRC) and the Atlanta Regional Commission (ARC). Dues to the ARC are assessed at the County level and are, accordingly, paid by Fulton County. Membership in the TRRC and ARC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the TRRC an ARC in Georgia. The TRRC and ARC Board membership includes the chief elected official of each county and various municipalities of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of the TRRC and ARC. Separate financial statements may be obtained from the following:

Three Rivers Regional Commission Highway 34 Franklin, Georgia 30217

Atlanta Regional Commission 40 Courtland Street, NE Atlanta, Georgia 30303

# NOTE 14. HOTEL/MOTEL TAX

The City has levied a 5% lodging tax. During the year ended December 31, 2016, the City collected \$130,506 in revenues. The current year expenditures of \$124,209 or 95% of current year revenues were expended on the promotion of tourism in accordance with the provisions of O.C.G.A. 48-13-51.

# NOTE 15. TAX ABATEMENTS

For the year ended December 31, 2016, City property tax revenues were reduced by \$123,266 and \$132,046 under agreements entered into by Carroll County and Douglas County. Under the agreements, taxes on both real property and personal property are reduced based on investments made by the corporation to whom the incentives were offered as long as the corporation meets certain investment targets.

| Cost-of-living Adjustment             | 0.00%   |
| Amortization Method                   | Closed level dollar for unfunded liability  |
| Remaining Amortization Period         | Varies for the bases, with a net effective period of 10 years   |

(2) The schedule will present 10 years of information once it is accumulated.

# **Special Revenue Funds**

Special revenue funds are used to account for specific revenues that are legally restricted or committed to expenditures for particular purposes.

**Urban Development Action Grant** - to account for monies received from Title I, Section 119, Housing and Community Development Act of 1974. The funds are restricted to promote economic development.

**Federal Seizures Fund** – to account for funds awarded to the City of Villa Rica from joint seizures with various Federal agencies.

**Narcotics Enforcement Fund** – accounts for the City's local seizure activity. Revenues are restricted by State law to be used for drug prevention and trafficking.

**Community Greenspace Fund** – accounts for the restricted revenues provided for the preservation and enhancement of the City's green spaces.

**Drug Task Force Fund –** accounts for revenues and related expenses of the City's drug task force. Revenues are restricted by State law to be used for drug prevention and trafficking.

**Hotel/Motel Tax** - to account for the collection of hotel/motel taxes within the City which are restricted for the promotion of tourism via a contract with the Villa Rica Tourism Board.

**Cemetery Fund** – accounts for the committed resources provided for the operation and maintenance of the cemeteries.

# **Capital Projects Funds**

Capital projects funds are used to account for financial resources for the acquisition, construction, and improvements of the City's capital assets other than those financed by enterprise funds.

Capital Projects Fund - to account for the acquisition and construction of major capital projects.

**SPLOST Fund** - to account for the proceeds of the 1998 and 2008 special purpose local option sales tax for the various improvement projects as approved by voter referendum.

**Public Roads Fund –** to account for capital projects which are funded through State grants that are used specifically for road resurfacing.

# **Debt Service Fund**

The **Debt Service Fund** is used to account of the accumulation of resources to repay existing City long-term financing contracts and bonds.

# **COMPLIANCE SECTION**

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and Members of the City Council City of Villa Rica, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Villa Rica, Georgia (the "City"), as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated June 23, 2017.

### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies. We consider the deficiency described in the accompanying schedule of findings and responses, as item 2016-002 to be a significant deficiency.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and responses as item 2016-001.

### **City's Responses to Findings**

The City's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The City's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Mauldin & Jenluins, LLC

Atlanta, Georgia June 23, 2017

## SCHEDULE OF FINDINGS AND RESPONSES FOR THE YEAR ENDED DECEMBER 31, 2016

## SECTION I SUMMARY OF AUDITOR'S RESULTS

### **Financial Statements**

| Type of report the auditor issued on whether the financial statements audited were prepared in accordance with GAAP: | Unmodified             |
|--|------------------------|
| Internal control over financial reporting:   |                        |
| Material weaknesses identified?  | yes <u>X</u> no        |
| Significant deficiencies identified?   | X yes none reported    |
| Noncompliance material to financial statements noted?  | <u>X</u> yes <u>no</u> |

### Federal Awards

There was not an audit of major federal award programs for the year ended December 31, 2016 due to the total amount expended being less than \$750,000.

## SCHEDULE OF FINDINGS AND RESPONSES FOR THE YEAR ENDED DECEMBER 31, 2016

### SECTION II FINANCIAL STATEMENT FINDINGS AND RESPONSES

### 2016-001 Governmental Fund Budgets

Criteria: State of Georgia law (OCGA 36-81-3) states:

- a) Each unit of local government shall adopt and operate under an annual balanced budget for the general fund, each special revenue fund, and each debt service fund in use by the local government. The annual balanced budget shall be adopted by ordinance or resolution and administered in accordance with this article;
- b) a budget ordinance or resolution is balanced when the sum of estimated revenues and appropriated fund balances is equal to appropriations.

*Condition:* State law requires local governments to adopt and operate under an annual appropriated balanced budgets for all governmental funds. Management did not adopt and operate under a balanced budget for the Urban Development Action Grant Fund, the Hotel/Motel Tax Fund, and the Debt Service Fund.

*Context/Cause:* The City did not adopt or operate under a balanced budget for four funds, though the Greenspace Fund had no activity.

*Effects:* The City failed to operate under a balanced budget for all of their governmental funds, which has resulted in a compliance violation with State law.

**Recommendation:** We recommend the City timely adopt and operate under balanced budgets for all governmental funds reported in the financial statements.

*Auditee's Response:* We concur with the finding. We will make sure all governmental funds have annually balanced budgets each year or in the case of capital project type funds, have at a minimum a project length budget.

## SCHEDULE OF FINDINGS AND RESPONSES FOR THE YEAR ENDED DECEMBER 31, 2016

### SECTION II FINANCIAL STATEMENT FINDINGS AND RESPONSES (CONTINUED)

### 2016-002 Segregation of Duties

*Criteria:* Segregation of employees' duties is a common practice in an effective internal control structure. Segregation of duties is achieved when specific employee functions related to important accounting areas are separated among different individuals to significantly reduce the risk that any one individual could intentionally or unintentionally misappropriate assets. Policies should be in place requiring the segregation of certain duties.

*Condition:* The limited number of employees and the resulting overlapping of duties causes segregation of duties to be difficult.

*Context/Cause:* During the course of our test work, we noted the following areas where the City's control procedures were not sufficient to mitigate risks created due to insufficient oversight:

- Implementing procedures to ensure all journal entries, including nonstandard/non-routine entries, have adequate supporting documentation and are reviewed and approved independently prior to posting. During the current year we noted the Chief Financial Officer was able to post manual journal entries without any additional review or approval of the entries.
- Implementing procedures to ensure adjustments of cash accounts are approved and documented by the appropriate level of management or another appropriate person.
- Implementing procedures to ensure bank statements are received and reviewed by a responsible person other than the person who reconciles the bank account before being submitted for reconciliation.
- The City should establish a process in which the accounts payable aging/sub-ledger is reviewed and reconciled to the general ledger on a monthly basis, by a person independent of the accounts payable sub-ledger maintenance.
- One employee has the ability to create new employees and to adjust employee pay rates. The City should establish a process in which the payroll change status report be generated from the payroll system and periodically compared back to the approved Change of Status Forms to ensure only approved changes are entered and to detect any errors made during the changes.

## SCHEDULE OF FINDINGS AND RESPONSES FOR THE YEAR ENDED DECEMBER 31, 2016

### SECTION II FINANCIAL STATEMENT FINDINGS AND RESPONSES (CONTINUED)

### 2016-002 Segregation of Duties (Continued)

 Monthly payroll registers are not reviewed in detail, or compared to the control totals once the information is posted to the general ledger by a person independent of the payroll processing.

*Effects:* Without some segregation of duties within these functions, there is increased exposure that someone could intentionally or unintentionally misappropriate assets of the City. Additionally, without additional internal controls related to financial reporting, errors could occur and not be detected.

**Recommendation:** We recommend that the City review its processes and determine where it can effectively segregate duties to alleviate the segregation of duties issues as described above and strengthen internal controls.

*Auditee's Response:* We will review our operations to determine the most efficient and effective solutions to properly segregate duties and strengthen internal controls at the City.

SCHEDULE OF PRIOR YEAR FINDINGS FOR THE YEAR ENDED DECEMBER 31, 2016
