INDEPENDENT AUDITOR'S REPORT

INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners of Bibb County, Georgia Macon, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of **Bibb County**, **Georgia** as of and for the six months ended December 31, 2013, and the related notes to the financial statements, which collectively comprise Bibb County, Georgia's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Macon-Bibb County Industrial Authority, the Middle Georgia Regional Library, the Macon-Bibb County Board of Health, the Macon-Bibb County Convention and Visitors Bureau, the Macon-Bibb County Planning and Zoning Commission, or the Development Authority of Bibb County which represent 100% of the assets, net position, and revenues of the discretely presented component units. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Macon-Bibb County Industrial Authority, the Middle Georgia Regional Library, the Macon-Bibb County Board of Health, the Macon-Bibb County Convention and Visitors Bureau, the Macon-Bibb County Planning and Zoning Commission, and the Development Authority of Bibb County is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our report and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Bibb County, Georgia, as of December 31, 2013, and the respective changes in financial position, and, where applicable, cash flows thereof and the budgetary comparison information for the General Fund and the Fire District Fund for the six months then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the voters of Bibb County, Georgia and the City of Macon, Georgia approved Act 625 which created and incorporated a new consolidated government under the name Macon-Bibb County. The consolidation becomes effective January 1, 2014. As such, this financial report for the six months ended December 31, 2013 serves as the final financial report of Bibb County, Georgia.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedules of Funding Progress on pages 63 and 64, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Bibb County, Georgia's basic financial statements. The combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedules of expenditures of special purpose local option sales tax proceeds are presented for purposes of additional analysis as required by the Official Code of Georgia 48-8-21, and are also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules, and the schedules of expenditures of special purpose local option sales tax proceeds are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules and the schedules of expenditures of special purpose local option sales tax proceeds are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 26, 2014, on our consideration of Bibb County, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Bibb County, Georgia's internal control over financial reporting and compliance.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE SIX MONTHS ENDED DECEMBER 31, 2013

let change in fund balances, total governmental funds	\$ 21,721,786
mounts reported for governmental activities in the Statement of Activities differ from amounts reported in the sovernmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances due to the following:	
let Pension Asset and Net OPEB Obligation	
o recognize change in asset (liability) resulting from contributions in excess of (under) the annual required contribution.	33,955
capital Assets covernmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those ssets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which apital outlays exceeded depreciation in the current period.	
Total capital outlays Total depreciation	11,003,919 (9,190,664)
Donations of capital assets increase net position in the Statement of Activities, but do not appear in the governmental funds because they are not financial resources	
Total donations of capital assets	600,026
n the Statement of Activities, only the gain on the sale/disposal of capital assets is reported. However, in the overnmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs om the change in fund balance by the cost of the capital assets sold or disposed, net of accumulated depreciation.	
Total proceeds from the disposal Total gain/(loss) on disposal	(57,902) 31,810
change in investment in joint venture	35,173
ong-term Debt	
he issuance of bonds and similar long-term debt provides current financial resources to governmental funds, and thus contributes to the change in fund balance. In the Statement of Net Position, however, issuing debt increases long-term abilities and does not affect the Statement of Activities. Similarly, repayment of principal is an expenditure in the overnmental funds, but reduces the liability in the Statement of Net Position. Also, governmental funds report the ffect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and mortized in the Statement of Activities. The amount of the items that make up these differences in the treatment of ong-term debt and related items are as follows:	
Debt issued or incurred Principal repayments	(13,279,238) 9,363,709
Inder the modified accrual basis of accounting used in governmental funds, expenditures are not recognized for ansactions that are not normally paid with expendable available financial resources. In the Statement of Activities, owever, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial esources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of counting until due, rather than as it accrues. The adjustments for these items are as follows:	
Compensated absences Accrued interest on debt Amortization of bond premium	30,641 122,716 269,561
levenues	
ecause some revenues will not be collected for several months after the County's fiscal year end, they are not onsidered available revenues and are deferred in the governmental funds. Deferred revenues increased by this mount during the fiscal period.	1,958,105
nternal service funds	
nternal service funds are used by management to charge the cost of risk management and health insurance services to advidual funds. The net revenue is reported with governmental activities.	
Net revenue of internal service funds Portion of net revenue allocated to business-type activities	 138,217 37,585

BIBB COUNTY, GEORGIA NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED DECEMBER 31, 2013

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. The Reporting Entity

Bibb County, Georgia (the "County") was established on December 9, 1822, under the provisions of an act of the General Assembly of Georgia. The County operates under a County Commissioner form of government, (four commissioners are elected by district with the chairman elected at large from the County), and provides for the following services as authorized by state law: public safety (police and fire), highways and streets, sanitation, health and social services, culture-recreation, public improvements, planning and zoning and general administrative services.

On April 20, 2012, Act 625 was signed into law by the Governor of Georgia to create and incorporate a new consolidated government under the name of Macon-Bibb County, subject to the approval by the voters of both the City of Macon and Bibb County, Georgia. The referendum was held on July 31, 2012, and the Act was approved by both the voters of the City of Macon and Bibb County. The consolidation becomes effective January 1, 2014. The new government will consolidate the governments of the City of Macon, Georgia and Bibb County, Georgia. This financial report is for the six months ended December 31, 2013 and serves as the final financial report of Bibb County, Georgia. The new consolidated government will complete its initial financial report for the six months ended June 30, 2014. Going forward, the fiscal year end of Macon-Bibb County will be June 30.

The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. The component unit's column in the government-wide financial statements includes the financial data for the County's discretely presented component units as reflected in their most recent audited financial statements. This is reported in a separate column in the government-wide financial statements to emphasize that the component units are legally separate from the County.

Macon-Bibb County Industrial Authority

The Macon-Bibb County Industrial Authority (the "Authority") is charged with promoting and expanding industry and trade within Bibb County. The Mayor of the City of Macon and the Chairman of the County Commission are members of the Authority, and they appoint additional members. The Authority receives appropriations from the County, with Bibb County paying 100% of the annual budget request. Annual budget request must be submitted to the County for approval of the appropriation amount, with an annual audit required to monitor performance. The Authority issues separate financial statements with a June 30 fiscal year end. A complete copy of these statements may be obtained from the Macon-Bibb County Industrial Authority, 302 Coliseum Drive, Macon, Georgia 31202.

Middle Georgia Regional Library

The Middle Georgia Regional Library (the "Library") provides complete library services with the main facility in Bibb County, branch libraries located in the six surrounding counties, and a bookmobile service. The Library is governed by a Board of Trustees appointed by the County. The County contributes significant funding to the Library and exercises control over expenditures. An annual budget must be submitted for approval, with an annual audit required to monitor performance. The Library issues separate financial statements with a June 30 fiscal year end. A complete copy of these statements may be obtained from the Middle Georgia Regional Library, 1180 Washington Avenue, Macon, Georgia 31201.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. The Reporting Entity (Continued)

Macon-Bibb County Board of Health

The governing board of the Macon-Bibb County Board of Health (the "Board of Health") consists of seven members appointed by the County. The County, by virtue of its appointments, controls a majority of the governing body positions. The County contributes significant funding to the Board of Health. An annual budget must be submitted for approval, with annual audits required to monitor performance. The Board of Health issues separate financial statements with a June 30 fiscal year end. A complete copy of these statements may be obtained from the Macon-Bibb County Board of Health, 171 Emery Highway, Macon, Georgia 31217.

Macon-Bibb County Convention and Visitors Bureau

The Macon-Bibb County Convention and Visitors Bureau (the "CVB") is a nonprofit 501 (c)(6) organization, organized and existing under the laws of the State of Georgia, whose purpose is to promote tourism and conventions in the Macon area. The Mayor of the City of Macon and the Chairman of the Board of Commissioners of Bibb County are members of the Board of Directors. Through contract with the City and County, the CVB receives hotel-motel tax proceeds. The total proceeds received are approximately 65% from Bibb County, and 35% from the City of Macon. The CVB is required to submit a detailed budget to the City and County reflecting performance against budget. Any unexpended hotel-motel tax funds are required to be returned to the City and County at termination of the contract. The CVB issues separate financial statements with a June 30 fiscal year end. A complete copy of these statements may be obtained from the Macon-Bibb County Convention and Visitors Bureau, 450 Martin Luther King, Jr. Blvd., Macon, Georgia 31201.

Macon-Bibb County Planning and Zoning Commission

The Macon-Bibb County Planning and Zoning Commission (the "Commission") is responsible for community planning, establishing and enforcing zoning regulations, and administration of certain grant programs. The Mayor and City Council and the County Commissioners alternately appoint members to the Board of the Commission. The County provides significant funding for the operating costs of the Commission. Excess revenue over expenditures or excess working capital is returned to the County. The Commission submits annual budget requests to the County for approval and reports on performance against budget with the submission of an annual audit. The Commission issues separate financial statements with a June 30 fiscal year end. A complete copy of these statements may be obtained from the Macon-Bibb County Planning and Zoning Commission, 682 Cherry Street, Suite 100, Macon, Georgia 31201.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. The Reporting Entity (Continued)

Development Authority of Bibb County

The governing board of the Development Authority of Bibb County (the "Authority") consists of seven members appointed by the County. The County, by virtue of its appointments, controls a majority of the governing body positions. If the Authority is dissolved, all assets and debts and rights and obligations of the Authority shall devolve to the County. Annual audits are required to monitor performance. Complete financial statements may be obtained from the Development Authority of Bibb County, 305 Coliseum Drive, Macon, Georgia 31202.

A joint venture has the following characteristics: (1) it is a legal entity that results from a contractual arrangement; (2) it is owned, operated and governed by two or more participants as a separate and specific activity subject to joint control; and (3) participants retain an ongoing financial interest or an ongoing financial responsibility. The following agencies are joint ventures with the City of Macon:

Macon-Bibb County Urban Development Authority

The Macon-Bibb County Urban Development Authority (the "Urban Development Authority") is responsible for the revitalization and redevelopment of the downtown areas of Macon and Bibb County. The City Council and County Commissioners nominate board members. The Urban Development Authority submits annual budget requests to the City and County for approval. Annual audits are required to monitor performance. Equity interest in the joint venture as of December 31, 2013, was \$3,150,426. Separate financial statements may be obtained from the Macon-Bibb County Urban Development Authority, P.O. Box 169, Macon, Georgia 31298.

Macon-Bibb County Land Bank Authority

The Macon-Bibb County Land Bank Authority (the "Land Bank Authority") is a nonprofit organization, whose purpose is to allow the City of Macon and Bibb County to provide housing, new industry and jobs for the citizens of the Middle Georgia area by effectively utilizing property previously in a non-revenue generating, non-tax producing status. The City Council and County Commissioners each appoint two members of the Land Bank Authority Board, and participate equally in the operating costs of the Land Bank Authority. The Land Bank Authority submits annual budget requests to the City and County for approval of appropriation. Annual audits must be submitted to the City and County. Equity interest in the joint venture at December 31, 2013, was \$613,468. Separate financial statements may be obtained from the Macon-Bibb County Land Bank Authority, P.O. Box 4298, Macon, Georgia 31208.

Under Georgia law, the County, in conjunction with other cities and counties in the middle Georgia area, is a member of the **Middle Georgia Regional Commission** (the "MGRC") and is required to pay annual dues thereto. During the six months ended December 31, 2013, the County paid \$39,061 in such dues. Membership in the MGRC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the MGRC in Georgia. The MGRC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a regional development center. Separate financial statements may be obtained from the Middle Georgia Regional Commission, 175-C Emery Highway, Macon, Georgia 31217.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Government-wide and Fund Financial Statements:

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The County reports the following major governmental funds:

The **General Fund** is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Fire District Fund* is used to account for tax revenues received from the special tax district established to provide fire services through contract with the City of Macon to citizens in the unincorporated areas of Bibb County.

The **Special Local Option Sales Tax 2012 Project Fund** is used to account for the expenditures to be paid from the 1 cent special purpose local option sales tax approved by the voters of Bibb County on November 8, 2011.

The County reports the following major proprietary fund:

The **Tobesofkee Recreation Fund** accounts for the operations and maintenance of a recreation facility on Lake Tobesofkee in Bibb County. All activities necessary to provide such services are accounted for in this fund.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Government-wide and Fund Financial Statements (Continued):

Additionally, the County reports the following fund types:

The *internal service funds* account for group health and workers' compensation insurance provided to other departments of the County on a cost reimbursement basis. replace

The *employee benefit trust funds* account for the activities of the Employee Pension Fund and Other Post Employment Benefits Trust Fund, which accumulates resources for pension and other post employment benefit payments to qualified employees of the County.

The **private purpose trust funds** are used to account for resources legally held in trust for use by private organizations or other governments. All resources of the funds, including any interest on invested resources, may be used to support the activities. There is no requirement that any portion of these resources be preserved as capital.

The **agency funds** are used to account for the collection and disbursement of monies by the County on behalf of other governments and individuals, such as cash bonds, traffic fines, support payments and property taxes.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation:

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as are the proprietary fund and the fiduciary fund financial statements, although the agency funds have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 30 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Property taxes, sales taxes, franchise taxes, licenses, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source. Expenditure driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source. All other revenue items are considered to be measurable and available only when cash is received by the County.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. However, interfund services provided and used are not eliminated in the process of consolidation.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and of the County's internal service funds are charges to customers for sales and services provided. Operating expenses for the enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Deposits and Investments

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments for the County are reported at fair value, which is generally based on quoted market prices. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. Investments that do not have an established market are reported at estimated fair values.

State statutes authorize the County to invest in obligations of the U.S. Treasury, other U.S. Government agencies, obligations of the State of Georgia or other states, prime bankers' acceptances, repurchase agreements, other political subdivisions of the State of Georgia, and the Local Government Investment Pool.

The State of Georgia Local Government Investment Pool (Georgia Fund 1) is a special investment pool operated by the Georgia Department of Administrative Services for Georgia local governments. Georgia Fund 1 was created under OCGA 36-83-8 and operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1 per share value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participants' shares sold and redeemed based on \$1 per share. The fair value of the County's position in the pool is the same as the value of pool shares (\$1 per share value). The pool is regulated by the Georgia Office of the State Treasurer.

In accordance with authorized investment laws, the County employee benefit trusts invest in various asset-backed securities, such as mortgage-backed securities. These securities represent an ownership interest in a pool of residential mortgage loans, the interest in which is, in most cases, issued and guaranteed by an agency or instrumentality of the U.S. government. These securities are reported at fair value in the balance sheet.

E. Receivables

"Due from other governments" represents funds to be received from other local governments, state grant-in-aid, state contracts, or federal funds. No allowance is deemed necessary for these receivables.

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances."

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Receivables (Continued)

All trade and property tax receivables have been reduced to their estimated net realizable value, and are shown net of an allowance for uncollectible accounts. Estimated uncollectible accounts are based upon historical experience rates.

F. Inventory and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method and consist of certain supplies which are recorded as assets at the time of purchase. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased. Inventories of other expendable supplies are not considered material and the cost of such items is recorded as expenditures/expenses, when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditure/expense when consumed rather than when purchased.

G. Capital Assets

Capital assets include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) and are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of \$5,000 and an estimated useful life in excess of two years.

As the government constructs or acquires capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. In the case of the initial capitalization of general infrastructure items (i.e., those reported by governmental activities), the County chose to include all such items regardless of their acquisition date. The County was able to estimate the historical cost for the initial reporting of these assets through backtrending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year).

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Capital Assets (Continued)

Normal maintenance and repairs, which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life, are expensed as incurred.

Major outlays for capital assets and major improvements are capitalized as projects are constructed. Interest incurred during the construction period of capital assets of the business-type activities is included as part of the capitalized value of the assets constructed. During the six months ended December 31, 2013, interest expense incurred by the County's business-type activities was \$2,463. Of this amount, none was applicable to construction of capital assets.

Land and construction in progress are not depreciated. The other property, plant, equipment, and infrastructure of the primary government are depreciated using the straight-line method over the following estimated useful lives:

Land improvements	10 - 30 years
Dam improvements	15 - 20 years
Buildings	20 - 40 years
Building improvements	7 - 30 years
Machinery, equipment and furniture	5 - 20 years
Vehicles	5 - 15 years
Infrastructure	20 - 30 years

In accordance with generally accepted accounting principles, depreciation is not provided for on the earthen dam reported in the Tobesofkee Recreation Fund. The earthen dam has no determinable depreciable life.

H. Compensated Absences

The County's policy permits employees to accumulate earned but unused vacation benefits, which are eligible for payment upon separation from government service. The liability for such leave is reported as incurred in the government-wide, proprietary and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The liability for compensated absences includes salary-related benefits, where applicable.

There is no liability for unpaid accumulated sick leave. Accumulated sick leave lapses when employees leave the employ of the County and, upon separation from service, no monetary obligation exists.

I. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Long-Term Obligations (Continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

J. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense / expenditure) until then. The County does not currently have any items that qualify for reporting in this category.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of fund balance that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has only one type of these items, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue* is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. In addition, the County had one type of item under the full-accrual basis of accounting that qualifies for reporting in this category. An effective hedge is reported in the government-wide statement of net position. The effective hedge results from the change in market value of a swap agreement related to the certificates of participation. The amount is deferred and will mature on June 1, 2028, at the same time as the certificates of participation.

K. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as fund balance. Fund equity for all other reporting is classified as net position.

Fund Balance

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment or an assignment. Fund balances are classified as follows:

Nonspendable: Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Fund Equity (Continued)

Restricted: Fund balances are reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Committed: Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the County Board of Commissioners through the adoption of a resolution prior to the end of the fiscal year. Once adopted, the limitation imposed remains in place until a similar action is taken to remove or revise the limitation. Only the Board of Commissioners may modify or rescind the commitment.

Assigned: Fund balances are reported as assigned when amounts are constrained by the County's intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the Board of Commissioners has authorized the County's Finance Director to assign fund balances. The Board of Commissioners may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. An additional action does not normally have to be taken for the removal of an assignment.

Unassigned: Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. Positive unassigned fund balance may be reported only in the General Fund. Negative unassigned fund balances may be reported in all governmental funds.

Net Position

Net position represents the difference between assets and liabilities in reporting which utilizes the economic resources measurement focus. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the County has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. The residual amount of equity not classified as net investment in capital assets or net position restricted is reported as net position unrestricted.

Flow Assumptions - Fund Balance

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Fund Equity (Continued)

Flow Assumptions - Net Position

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted-net position and unrestricted-net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted-net position to have been depleted before unrestricted-net position is applied.

L. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2. BUDGETS AND BUDGETARY ACCOUNTING

Budget Process

The County prepares a separately issued budget report. The annual budget document is the financial plan for the operation of Bibb County. The budget process exists for the purpose of providing a professional management approach to the establishment of priorities and the implementation of work programs while providing an orderly means for control and evaluation of the financial posture of the County.

The department and agency heads begin budget preparation in February. The County's Finance Department formulates and remits the budget to the Budget Committee, which is made up of all members of the Bibb County Commission. The Budget Committee, with the assistance of the County Finance Director, conducts budget hearings with all departments and agencies. After a review by the Budget Committee and public hearing, a final budget is approved when the budget resolution is adopted.

Budgetary Basis of Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles. An annual operating budget is prepared for the general, special revenue and debt service funds.

The appropriated budget is prepared by fund, function and department. The legal level of budgetary control is the department level.

NOTE 2. BUDGETS AND BUDGETARY ACCOUNTING (CONTINUED)

Budgetary Basis of Accounting (Continued)

The County Finance Director is delegated the authority to transfer funds from one budget line item to another within a department, provided the line items are within the same budget category and departmental division. Transfers from one budget category to another cannot be made without the approval of the appropriate committee. All funds appropriated for capital outlay in General Fund are budgeted in one line item called "contingency capital outlay". The departments are given a list of approved items, but no funds are budgeted in the individual departments. When items are ordered and final prices known, an amount equal to the cost is transferred from capital outlay contingency to the individual department's capital outlay line item. The Finance Director is authorized by Budget Resolution to transfer these funds provided the amounts are within the not-to-exceed limit for each item. No increase in the overall budget can be made without the approval of the Board of Commissioners and amendment to the budget.

Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e., purchase orders, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year end, valid outstanding encumbrances (those for which performance under the executor contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget.

Capital Improvements Budget

Major capital facilities and improvements, which are accounted for by the County within the capital projects funds, are subject to budgetary control on a project basis. Annual budgets are not adopted for the County's capital projects funds. The County's finance department prepares the budget for projects based upon architectural and engineering estimates and other factors. Appropriations covering capital projects are normally approved by the Board of Commissioners at the time that the annual operating budgets are approved. The County Finance Director is delegated the authority, upon the direction of and approval by unanimous vote of the buildings and properties committee, to transfer sums from one project to another. No increase in the overall capital projects budget can be made without the approval of the Board of Commissioners and amendments to the budget. Appropriations for a specific project do not lapse until completion of the project. During the six months ended December 31, 2013, the County's expenditures for capital improvement projects were within the authorization provided in the budget.

NOTE 2. BUDGETS AND BUDGETARY ACCOUNTING (CONTINUED)

Excess of Expenditures Over Appropriations in Individual Funds

For the six months ended December 31, 2013, expenditures exceeded budget in the General Fund as follows:

Department	F	Excess
Purchasing	\$	40,579
Telephone service center		9,299
Consolidation/SDS implementation		3,486
District attorney		2,979
Juvenile Court		37,229
Courthouse services and security		50,729
Criminal investigations		85,447
Burial services - paupers		7,504
Sanitation services		375

These overexpenditures were funded by underexpenditures in other departments. During the audit period, the Board of Commissioners approved supplemental appropriations as needed.

NOTE 3. DEPOSITS AND INVESTMENTS

At December 31, 2013, the County had the following investments (in thousands):

Investment Type	Fair Value	Less than 1	1 - 5	6 - 10	11-15	16-20	21-25	26-30 3°	-35 Rating

Interest Rate Risk. In accordance with its investment policy, the County manages its exposure to declines in fair values by diversifying its use of investment instruments to avoid unreasonable risks inherent in over investing in specific instruments, individual institutions, or maturities.

Credit Risk. It is the policy of Bibb County to invest public funds in accordance with state and local statutes. State statutes authorize the County to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. government; obligations fully insured or guaranteed by the U.S. government or by a government agency of the United States; obligations of any corporation of the U.S. government; prime banker's acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia.

Custodial Credit Risk – Deposits. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the County will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of December 31, 2013, the County had no uncollateralized deposits.

Custodial Credit Risk – Investments. Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State statutes require all investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities.

NOTE 4. TAX REVENUE

Property Tax

State law requires that property taxes be based on assessed value, which is 40% of market value. All real and personal property (including motor vehicles) are valued as of January 1 of each year and must be returned for tax purposes by March 1. With the exception of motor vehicles and the property of public utilities, which are valued by the State Revenue Department, all assessments are made by a joint Board of Tax Assessors of Macon and Bibb County. This board has five members appointed by the Bibb County Board of Commissioners for staggered six-year terms.

Upon completion of all assessments and tax returns, the information is turned over to the Macon-Bibb County Tax Commissioner for compilation of the tax digest. The completed tax digest must be submitted to the State Revenue Commissioner for approval. The State Revenue Commissioner must ascertain that real property on the tax digest has been assessed at the state mandated forty percent (40%) of fair market value. The State Revenue Commissioner has the option to withhold certain state funding if the mandated 40% level is not reached.

The Macon-Bibb County Tax Commissioner distributes tax notices and collects tax payments. Motor vehicle taxes are due based upon the birthday of the owner. Property taxes are usually billed in August of each year. Real and personal property taxes may be paid in two installments – the first payment is due 30 days following the mailing of the bills and the final payment is due 60 days following the mailing of the bills. Tax executions are issued for delinquent taxes approximately 90 days following the due date of the second installment.

The property tax calendar is as follows:

	Real/Personal	
	Property	Motor
	(Excluding Vehicles)	Vehicles
Assessment date	January 1, 2013	January 1
Levy date	August 21, 2013	January 1
Due date and collection date	Oct 15, 2013/Nov 15, 2013	Staggered
Tax execution date/lien date	April 1, 2014	N/A

Hotel/Motel Excise Tax

A summary of the hotel/motel excise tax expenditures and receipts for the six months ended December 31, 2013, is as follows:

Tax Receipts	\$ 1,083,511	
Expenditures by Purpose	 Amount	Percentage

Revenue Bond Requirements

The \$11,500,000 Series 2009 Macon-Bibb County Industrial Authority Revenue Bond Issue (Bass Pro & Sofkee Park Projects) was used to refund and redeem the Series 2005 Macon-Bibb County Industrial Authority Bass Pro bonds and to assist in the acquisition of land and improvements for the development of facilities in Sofkee Industrial Park. The County is contractually obligated to make the necessary payment of principal and interest on this issue. The bonds initially bear interest at a weekly rate and will continue such until adjusted at the option of the Authority to a monthly rate, semi-annual rate, money market rate, medium term rate or fixed rate. The weekly rate is determined by the remarketing agent subject to a maximum of 12 percent per annum.

The \$1,210,000 2002B Macon-Bibb County Urban Development Authority Bond Issues were used to finance improvements to the Department of Family and Children Services facilities, redeem a 1992 Bond Issue, and finance expenses for acquisition and construction of park improvements. The County is contractually obligated to make the necessary payment of principal and interest on these issues.

NOTE 8. LONG-TERM DEBT (CONTINUED)

B. Revenue Bonds (Continued)

The \$4,995,000 Series 2006 Macon-Bibb County Urban Development Authority Revenue Bond Issue (Public Building Projects) was used for promoting and expanding public facilities of urban, central city, and downtown areas of Bibb County. The County is contractually obligated to make the necessary payment of principal and interest on this issue.

The \$6,240,000 Series 2009 Macon-Bibb County Urban Development Authority Revenue Bond Issue (Public Projects) was used to finance renovations to the Bibb County courthouse and reimburse costs for the acquisition of land and to pay architectural and other fees and expenses related to the location and development of a new Justice Center. The County is contractually obligated to make the necessary payment of principal and interest on this issue.

The \$11,175,000 Series 2010 Macon-Bibb County Urban Development Authority Revenue Bond Issue (Revenue Refunding) was used to refund and redeem Macon-Bibb County Urban Development Authority Bond Issues Series 1993, Series 1996 and Series 2000. D. Certificates of Participation

In June 1998, the County entered into a lease pool agreement with the Georgia Municipal Association (Association). The funding of the lease pool was provided by the issuance of \$150,126,000 Certificates of Participation by the Association. The Association passed the net proceeds through to the participating governments with the County's participation totaling \$7,152,000. The lease pool agreement with the Association provides that the County owns their portion of the assets invested by the pool and is responsible for the payment of their portion of the principal and interest of the Certificates of Participation. The principal is due in a lump sum payment on June 1, 2028. Interest is payable at a rate of 4.75% each year. The County draws from the investment to lease equipment from the Association. The lease pool agreement requires the County to make lease pool payments back into its investment account to fund the principal and interest requirements of the 1998 Georgia Municipal Association Certificates of Participation.

As part of the issuance of the certificates of participation, the County entered into an interest rate swap agreement. Under the Swap Agreement, the County is required to pay (i) a semi-annual (and beginning July 1, 2003, a monthly) floating rate of interest based on the Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index (plus a 31 basis points spread) to, or on behalf of, the Swap Counterparty (the "Swap Payment"); and the Swap Counterparty will pay to, or on behalf of, the County a semi-annual payment based on a rate equal to the fixed rate on the certificates of participation (4.75%) times a notional amount specified in the Swap Agreement, but generally equal to the outstanding unpaid principal portion of such Contract, less the amount originally deposited in the Reserve Fund relating to the Contract, and (ii) a one-time Swap Premium to be paid on the effective date of the Swap Agreement. The semi-annual payments from the Swap Counterparty with respect to the County are structured, and expected, to be sufficient to make all interest payments due under the Contract, and related distributions of interest on the Certificates. Monthly interest payments between the County, the holders of the Certificates of Participation, and the Swap Counterparty can be made in net settlement form as part of this agreement. Under the Swap Agreement, the County's obligation to pay floating payments to the Swap Counterparty in any calendar year may not exceed an amount equal to the SIFMA Municipal Swap Index plus 5% to be determined on the first business day of December in the preceding year. This agreement matures on June 1, 2028, at the same time of the certificates of participation. This derivative qualifies as a fair market hedge.

NOTE 8. LONG-TERM DEBT (CONTINUED)

D. Certificates of Participation (Continued)

In the unlikely event that the Swap Counterparty becomes insolvent, or fails to make payments as specified in the Swap Agreement, the County would be exposed to credit risk in the amount of the Swap's fair value. To minimize this risk, the County executed this agreement with counterparties of appropriate credit strength, with the counterparty being rated Aa1 by Moody's. At December 31, 2013, the floating rate being paid by the County is 0.37% and the market value of this agreement is \$1,275,346, a decrease of \$399,172 from the market value at the end of the previous fiscal year. The market value of the hedge was determined using settlement prices at the end of the day on December 31, 2013 based on the derivative contract. This market value is reported as an asset in the statement of net position. As this derivative is an effective hedge, qualifying for hedge accounting, the inflow from the hedge (any change in fair value from inception until fiscal period end) is deferred and reported as deferred inflows in the statement of net position.

Annual debt service requirements to maturity for the certificates of participation are as follows:

Internal service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. Claims payable totaling \$5,466,445 are reported in the internal service funds and will be liquidated by those funds. Also, for the governmental activities, compensated absences are generally liquidated by the General Fund. The net post employment benefit obligation is expected to be liquidated by the General Fund.

NOTE 9. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Interfund receivable and payable balances as of December 31, 2013, are as follows:

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. These balances normally clear within one to two months.

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that the statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 10. FUND EQUITY

A. Fund Balance

Restricted fund balance represents amounts subject to externally enforceable limitations on use. The most significant amounts reported include the following:

- Amounts legally restricted for debt service by the terms of the original debt instruments.
- Amounts restricted by County code to provide fire protection services to the unincorporated county.
- Amounts restricted for capital outlay by state law and by debt instruments.

Committed fund balance represents amounts that can be used only for the specific purposes determined by the Bibb County Board of Commissioners.

 The budget resolution commits the resources of the Law Enforcement Commissary Fund to Bibb County Law Enforcement.

B. Minimum Fund Balance Policy

The County has adopted a financial policy to seek to maintain a minimum level of unrestricted-unassigned fund balance in the General Fund and Fire District Fund. The target level is set at 30 days of regular operating expenditures and other financing uses based on the subsequent year's budget. This amount is intended to provide fiscal stability when economic downturns and other unexpected events occur. If fund balance falls below the minimum target level, the policy provides for actions to replenish the amount to the minimum target level.

NOTE 11. POST EMPLOYMENT HEALTH CARE BENEFITS

Bibb County administers a single-employer, defined benefit, other post employment benefit plan (OPEB). This plan does not issue a separate stand-alone report and is not included in the report of another entity. Plan assets may be used only for the payment of benefits to the members of the plan, in accordance with the terms of the plan.

A. Plan Description

In accordance with County resolution, the County provides certain post employment benefits for retired employees. Substantially all full-time employees employed prior to May 1, 2011 become eligible for the benefits if they reach normal retirement age while working for the County. The plan provides health care and life insurance benefits to plan members and their beneficiaries. Life insurance is provided at the rate of two times the employee's ending salary up to a maximum death benefit of \$50,000. The benefit is reduced by 35% upon reaching age 65, and a further reduction of 20% is applied upon reaching age 70. The Bibb County Board of Commissioners is authorized to establish and amend all Plan provisions.

NOTE 11. POST EMPLOYMENT HEALTH CARE BENEFITS (CONTINUED)

B. Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

C. Method Used to Value Investment

Investments are reported at fair value, which is determined using selected bases. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair value, and the carrying amount of cash deposits reasonably estimates fair value.

NOTE 11. POST EMPLOYMENT HEALTH CARE BENEFITS (CONTINUED)

E. Funding Policies

The contribution requirements of plan members and the County are established and may be amended by the Board. Retired plan members and beneficiaries currently receiving benefits are required to contribute specified amounts toward the cost of insurance premiums. Plan member contributions are based upon coverage elections. Retiree health coverage is \$167-\$199 per month; dependent coverage is an additional \$134-\$228 per month. For the six-month period ending December 31, 2013, health and dental insurance premium contributions paid by Plan members totaled \$132,866 and contributions paid by the County totaled \$754,234. The premiums are included as revenues in the Group Insurance Internal Service Fund. Current retiree health care expenses are reflected as expenditures of the Group Insurance Internal Service Fund and are included in the calculation of benefits as contributions toward the County's ARC. Life insurance premiums are paid entirely by the County.

The County may contribute additional amounts to prefund benefits as determined annually by the Board of Commissioners. Such amounts are contributed to the OPEB Trust. Administrative costs of the plan are financed through investment earnings.

As of the most recent valuation date, December 31, 2013, the funded status of the Plan was as follows:

			Unfunded			AAL as a

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

F. Annual OPEB Cost and Net OPEB Obligation (Asset)

The County's annual other post employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County's net OPEB obligation:

6/30/2013	5,794,719	-	2,541,505	2,541,505	44%	3,151,083

The annual required contribution (ARC) was determined as part of the December 31, 2013, actuarial valuation using the Projected Unit Credit Cost Method. The actuarial assumptions included (a) 6.0% investment rate of return (including inflation at 4.0%); and (b) healthcare cost trend rate of 5 - 7.75% (initial) and 5% (ultimate) per year. The actuarial value of assets was determined using market value of assets. The Plan's unfunded actuarial accrued liability is being amortized as a level dollar method on a closed basis. The remaining amortization period was 27.5 years.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

NOTE 11. POST EMPLOYMENT HEALTH CARE BENEFITS (CONTINUED)

G. Reserves

There are no assets legally reserved for purposes other than the payment of plan member benefits. The Plan held no individual investments whose market value exceeds 5% or more of net assets available for benefits. There are no long-term contracts for contributions.

NOTE 12. EMPLOYEE RETIREMENT PLAN

The County administers a single-employer, defined benefit, public employee retirement system. This plan does not issue a separate stand-alone report and is not included in the report of a public employee retirement system or another entity. Assets are held separately and may be used only for the payment of benefits to the members of the plan.

A. Plan Description

The County Employee's Pension Plan (the "Plan") provides retirement benefits for substantially all full-time employees except certain employees in the State Court, Agriculture Agent's Office, and the Tax Commissioner. The plan provides retirement, disability, and death benefits to plan members and their beneficiaries. The County has authorized the Employees' Pension Plan Board (the "Board") to establish and amend all Plan provisions.

NOTE 12. EMPLOYEE RETIREMENT PLAN (CONTINUED)

B. Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting. The County's contributions to the Plan are recognized when due and the County has made a formal commitment to provide the contributions. Plan members make no contribution to the Plan. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

E. Funding Policies

The contribution requirements of plan members and the County are established and may be amended by the Board. Plan members currently make no contributions to the Plan. The County is required to contribute at an actuarially determined rate; the 2013 rate was 16.85% of annual covered payroll. The costs of administering the Plan are financed with investment earnings of the Pension Fund assets.

F. Annual Pension Cost and Net Pension Obligation (Asset)

For 2013, the County's annual pension cost of \$5,136,927 was slightly less than the County's required and actual contributions. The annual pension cost was determined as part of the December 31, 2013, actuarial valuation using the Entry Age Actuarial Cost Method. The actuarial assumptions included (a) 7.5% investment rate of return (including inflation at 4.0%); and (b) projected salary increases of 4.25% per year. The assumptions did not include cost-of-living adjustments. The actuarial value of assets was determined using techniques that smooth investment gains and losses over a five-year period. The Plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period as of December 31, 2013, was 19 years.

NOTE 13. ACCG DEFINED CONTRIBUTION PLAN

The ACCG Defined Contribution Plan for Senior Management of Bibb County is a defined contribution pension plan established by the County to provide retirement benefits for certain eligible County employees. Eligible employees must be designated by County resolution or other written record. The County has designated ACCG to administer the plan. During fiscal year 2013, there were two plan members from the government. Plan members are required to make contributions to the plan. County resolution requires the County to contribute eight percent of compensation of plan participants. Plan provisions and contribution requirements are established by County resolution and may be amended by the County. Total contributions for the period ended December 31, 2013 were \$5,302 by the employees and \$5,302 by the County.

NOTE 14. RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; natural disasters; and losses resulting from providing accident and health benefits to employees, retirees, and their dependents. The County purchases commercial insurance for most types of risk. For these risks, settlements have not exceeded coverage for each of the past three fiscal years. The County had no significant reduction in insurance coverage from coverage in the prior year.

The County established internal service funds for group health insurance and workers' compensation claims, which are funded by charges to the County's other funds. Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of payouts), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expense related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate.

During fiscal year 1991, the County entered into a self-funded group insurance plan with major medical coverage. The County currently utilizes Blue Cross Blue Shield as the Third Party Administrator. A stop loss carrier is in place to cover claims in excess of \$175,000. Management continues to monitor the performance of this fund to ensure that premiums are charged to the funds and agencies of the County are adequate.

The County has joined together with other municipalities in the state as a member of the Group Self Insurance Workers' Compensation Fund (GSIWCF) for its workers' compensation risks. GSIWCF exists by authority of the Official Code of Georgia (OCGA), and participates in risk sharing arrangements among Georgia county governments. As part of this risk pool, the County is obligated to pay all contributions and assessments as prescribed by the pool, to cooperate with the pool's agents and attorneys, to follow loss reduction procedures established by the fund, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the fund being required to pay any claim of loss. The County is also to allow the pool's agents and attorneys to represent the County in investigation, settlement discussions and all levels of litigation arising out of any claim made against the County within the scope of loss protection furnished by the fund.

Chapter 85 of Title 36 and Chapter 9 of Title 34 of the OCGA authorize Georgia counties to form interlocal management agencies. GSIWCF acts as a risk management agency to function as unincorporated nonprofit instrumentalities of its member counties. GSIWCF establishes and administers one or more group self-insurance funds and a risk management service to prevent or lessen the incidence and severity of workers' compensation losses occurring in the operation of member governments.

NOTE 14. RISK MANAGEMENT (CONTINUED)

The County retains the first \$300,000 (in the form of a deductible) on its workers' compensation claims. The County files all claims with GSIWCF, and GSIWCF invoices the County monthly for any risk of loss up to the deductible amounts. Workers' Compensation benefits are paid from the Workers' Compensation Fund, with funding provided by transfers from the County's other funds based upon the contributing funds' payroll.

Changes in the respective Fund's claims liability amount in the six months ended December 31, 2013 and the fiscal year ended June 30, 2013 were:

NOTE 15. COMMITMENTS AND CONTINGENCIES

A. Construction Commitments

The County has active construction projects as of December 31, 2013. The projects include street construction, building renovations, and construction of a new Juvenile Justice Facility and a new fire station. At year end, the County's commitments with contractors are as follows:

Project Description	Remain	ing Commitment
Street Construction	\$	1,836,989
Juvenile Justice Facility Construction		1,386,058
Tattnall Construction		188,990
Pool Construction		66,029
Park Construction		357,408
Animal Welfare Construction		117,300
Fire Station Construction		1,819,916
Miscellaneous Construction		150,459

The remaining commitment amounts were encumbered at the end of the fiscal year. The encumbrances and related appropriation lapse at the end of the year, but are re-appropriated and become part of the subsequent year's budget because performance under the executor contract is expected in the next year.

NOTE 15. COMMITMENTS AND CONTINGENCIES (CONTINUED)

B. Encumbered Commitments

As of December 31, 2013, the amount of encumbrances expected to be honored upon performance by the vendor in the subsequent fiscal year are as follows:

General Fund	\$ 1,336,325
Fire District Fund	34,219
SPLOST 2012 Project Fund	5,438,632
Nonmajor governmental funds	2,797,333
Total	\$ 9,606,509

C. Litigation

Bibb County, Georgia is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the County's legal counsel, the resolution of these matters will not have a materially adverse effect on the financial condition of the County.

D. Grant Funds

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the Federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

E. Contracts with Macon-Bibb County Industrial Authority

The County entered into a contract with the Macon-Bibb County Industrial Authority to provide \$350,000 annually for 20 years, with payments beginning October 31, 2008. The funds are to be used for the purpose of land acquisition, infrastructure development, transaction costs and other industrial development services.

The County entered into a contract with the Macon-Bibb County Industrial Authority to provide \$202,245 monthly for 18 months, with payments beginning August 1, 2013. The funds will be paid from the SPLOST 2012 Project Fund and will repay advances to the Macon-Bibb County Industrial Authority from the Macon Water Authority's 704 Project Fund. The advances were used to acquire and improve the Macon-Bibb County Industrial Authority's I-75 Business Park.

NOTE 15. COMMITMENTS AND CONTINGENCIES (CONTINUED)

F. Macon-Bibb County Industrial Authority Employee Incentive Program Grant

The Georgia Department of Community Affairs (DCA) through its Community Development Block Grant (CDBG) Employment Incentive Program (EIP) entered into an Economic Development and Construction Agreement with Bibb County, Macon-Bibb County Industrial Authority, and Kumho Tire Georgia, Inc. for an EIP grant, awarded September 2, 2009. The grant award was \$500,000, and draws on the grant totaled \$496,240.86. The County and Industrial Authority guaranteed the funds in the EIP grant. Project Kumho failed to meet performance standards provided in the grant. As a result, DCA issued a letter of sanction to Bibb County in February 2012. The County, Industrial Authority and DCA agreed in March 2012 to enter into a repayment agreement requiring minimum annual payments of \$70,891.55 over seven years. The first payment was made by the Industrial Authority in August 2012. Sanctions shall remain lifted as long as payments under the agreement are made as provided. The liability for the repayment of this grant is shown in the financial statements of the Macon-Bibb County Industrial Authority.

G. Development Authority of Bibb County Intergovernmental Contract

The Development Authority of Bibb County issued \$5 million Series 2012 Taxable Revenue Bonds in June 2012. Funds will be used by the Authority to provide loans to developers and nonprofit organizations for various downtown housing and commercial development projects. The bonds are obligations of the Authority and are secured by rental or loan payments received by Urban Development Concepts, LLC under a Management Agreement with the Authority. An Intergovernmental Contract between the Development Authority and Bibb County obligates the County to pay debt service to the extent not paid from the revenues of the projects. The bonds bear interest at the fixed rate of 3.04% per annum until June 2016. Semiannual interest payments are required each December and June, beginning December 2012. Principal payments are due June 2017 through 2030. The liability for the bonds is shown in the financial statements of the Development Authority of Bibb County, which is also a component unit of the County.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Commissioners of Bibb County, Georgia Macon, Georgia

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Bibb County, Georgia (the "County"), as of and for the six months ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated June 26, 2014. Our report includes a reference to other auditors. Other auditors audited the component unit financial statements of the Macon-Bibb County Industrial Authority, the Middle Georgia Regional Library, the Macon-Bibb County Board of Health, the Macon-Bibb County Convention and Visitors Bureau, the Macon-Bibb County Planning and Zoning Commission, and the Development Authority of Bibb County as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Bibb County, Georgia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Bibb County, Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of Bibb County, Georgia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Bibb County, Georgia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
