INDEPENDENT AUDITOR'S REPORT

To the Butts County Board of Commissioners
Jackson, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Butts County, Georgia as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles, generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Butts County Department of Public Health which represent 2.05%, 1.2%, and 9.7%, respectively, of the assets, net position and total revenues of the total component units. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Department of Public Health is based on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Butts County, Georgia, as of June 30, 2018, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3-9, the Budgetary Comparison information on pages 43, the Schedule of Changes In the County's Net Pension Liability and Related ratios on page 44, and the Schedule of County Contributions on page 45 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Butts County, Georgia's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 26, 2018, on our consideration of Butts County, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Butts County, Georgia's internal over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Within this section of Butts County's (the County) annual financial report, the County's management is pleased to provide this narrative discussion and analysis of the financial activities of the County for the fiscal year ended June 30, 2018. The County's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section.

Financial Highlights

- The County's assets exceeded its liabilities by \$73,053,596 (net position) for the fiscal year ended June 30, 2018. The County's unrestricted net assets had a deficit balance of \$2,124,998 for the 2018 fiscal year end. The deficit balance decreased by \$457,679 during the current fiscal year.
- At June 30, 2018, the County's governmental funds reported combined ending fund balances of \$13,086,761 an increase of \$6,773,220 or 107% in comparison with the prior year. The significant increase is the result of issuance of the 2018 SPLOST general obligation bonds yielding proceeds of \$7,230,427. Without this bond issue, the governmental funds would have decreased by \$457,207 or 7.24%. Of the total fund balance of \$13,086,761, \$2,064,979 remains in the General Fund as unreserved. This is a decrease of \$105,496 or 3.2% from the last fiscal year.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$2,064,979 or 11% of total general fund expenditures. Overall, the County's financial position improved during the current fiscal year.

Overview of the Financial Statements

This Management Discussion and Analysis document introduces the County's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. The County also includes in this report additional information to supplement the basic financial statements. Comparative data is presented to facilitate analysis.

Government-wide Financial Statements

The County's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the County's overall financial status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds.

The first of these government-wide statements is the *Statement of Net Position*. This is the government-wide statement of position presenting information that includes all of the County's assets and liabilities, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County as a whole is improving or deteriorating. Evaluation of the overall health of the County would extend to other nonfinancial factors such as diversification of the taxpayer base or the condition of County infrastructure, in addition to the financial information provided in this report.

The second government-wide statement is the *Statement of Activities*, which reports how the County's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the County's distinct activities or functions on revenues provided by the County's taxpayers.

Both government-wide financial statements distinguish governmental activities of the County that are principally supported by property and sales taxes and from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. Governmental activities include general government, public safety, and streets. Business-type activities include the water and sewer systems.

The government-wide financial statements are presented on pages 10 & 11 of this report.

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The County uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the County's most significant funds rather than the County as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for non-major funds is provided in the form of combining statements in a later section of this report.

The County has two kinds of funds:

Governmental funds are reported in the fund financial statements and encompass the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the County's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund operating statement provide a reconciliation to assist in understanding the differences between these two perspectives.

The basic governmental fund financial statements are presented on pages 12-15 of this report.

Individual fund information for non-major governmental funds is found in combining statements in a later section of this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs.

Notes to the Basic Financial Statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin on page 19 of this report.

Other Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information concerning the County's budget presentations. These statements and schedules demonstrate compliance with the County's adopted and final revised budget. As discussed, the County reports major funds in the basic financial statements. Combining and individual statements and schedules for non-major funds are presented in a subsequent section of this report beginning on page 48.

Government-wide Financial Analysis

Net position may serve over time as a useful indicator of a government's financial position. Butts County's assets exceeded its liabilities by \$73,053,596 at the close of the most recent fiscal year. The largest portion of the County's net position (99.03%) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that are still outstanding. The County uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the County's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The following table provides a comparative summary of the County's net position:

	Comparative Summary of Net Assets					
	June 30, 2018		June 30, 2017		June 30, 2016

The County continues to maintain a high current ratio. The current ratio compares current assets to current liabilities and is an indication of the ability to pay current obligations. The current ratio for governmental activities is 7 to 1.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
June 30, 2018

Butts County, Georgia

Net position decreased \$701,284, for governmental activities for the current fiscal year. The County's overall financial position deteriorated during the current fiscal year 2018.

GOVERNMENTAL REVENUES

The County is heavily reliant on property taxes to support governmental operations and capital. Property taxes provided 53% of the County's total general revenues. Sales taxes are the second largest revenue source with \$6.5 million of revenues or 37% of the total. Because of the County's cash in reserves, we have been able to earn \$35,113 in interest earnings to support governmental activities. Also, note that program revenues cover only 27% of governmental operating expenses. This means that the government's taxpayers and the County's other general governmental revenues fund 73% of the governmental activities. As a result, the general economy and the county businesses have a major impact on the County's revenue streams.

GOVERNMENTAL FUNCTIONAL EXPENSES

The public safety, public works and general government functions make up 80% of total governmental activities expenses. Public safety costs exceed \$10 million, public works totals over \$4 million and general government totals over \$6 million. Expenditures for general government and public works decreased when compared to last year.

This table presents the cost of each of the County's programs, including the net costs (i.e., total cost less revenues generated by the activities). The net costs illustrate the financial burden that was placed on the County's taxpayers by each of these functions.

After reducing gross expenses by program revenues, public safety totals 37.48% of the net cost of services and public works totals 8.36% of these costs.

Major Governmental Funds

The General Fund is the County's primary operating fund and the largest source of day-to-day service delivery. The General Fund's fund balance decreased by \$105,496. In fiscal year 2017, the fund balance decreased by \$2,171,416.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
June 30, 2018

Butts County, Georgia

Property taxes increased \$964,527 when compared to fiscal year 2017.

The General Fund's ending fund balance represents the equivalent of 16% of annual expenditures, which is slightly over one month's operations.

Total Governmental Fund Balances	\$	13,086,761
---	----	------------

**Amounts reported for governmental activities in the
statement of net position are different because:**

Capital assets used in governmental activities are not financial resources
and therefore not reported in the funds. However, in the
statement of net position the cost of these assets
is capitalized and expensed over their estimated lives through
annual depreciation expense.

Cost of capital assets	\$	171,644,934	
Less accumulated depreciation		(96,965,571)	74,679,363

Other long-term assets are not available to pay for current-
period expenditures and therefore are deferred in the funds
but are reported as revenue in the government-wide
statement of net position.

Sales taxes		232,099

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCE
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2018

Net Changes In Fund Balances - Total Governmental Funds	\$	6,773,220
Amounts reported for governmental activities in the statement of activities are different because:		

Governmental funds report capital outlays as expenditures.

However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense exceeded capitalized capital outlay in the current period.

Depreciation expense	\$ (4,559,474)	
Capital outlay	2,677,259	(1,882,215)

Governmental funds report proceeds from the sale of assets as an other financing source.

However, in the statement of activities, the sale is netted against the basis of the assets sold and reported as a gain or loss.

Cost of assets sold less accumulated depreciation		(53,101)
---	--	----------

Decrease in deferred outflows of resources

Pension @ 6/30/18	\$ 13,854	
Pension @ 6/30/17	(27,708)	(13,854)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Sales taxes:

Deferred @ 6/30/18	\$ 232,099	
Deferred @ 6/30/17	(207,354)	24,745

Elimination of transfers between governmental funds:

Transfers in	\$ 1,416,296	
Transfers out	(1,416,296)	-

Interest expense reported in the statement of activities does not require the use of current financial resources and therefore is not reported as an expenditure in governmental funds

Liability @ 6/30/18	\$ (7,602)	
Liability @ 6/30/17	17,425	9,823

Bond proceeds provide current financial resources to governmental funds however, issuing debt increases long-term liabilities in the Statement of Net Assets.

Bond proceeds	\$ (7,000,000)	
Bond premium	(364,852)	(7,364,852)

Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

BUTTS COUNTY, GEORGIA
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018

The County of Butts, Georgia (the “County”) was chartered by an act of the General Assembly of the State of Georgia. The County operates under a commission manager form of government and provides the following services: Public safety, roads, courts, health and sanitation, recreation, fire protection and general and administrative services.

Note 1 - Summary of Significant Accounting Policies

The financial statements of the County have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting. The County has implemented GASB 62 Codification of Accounting and Financial Reporting Guidance on pre-November 30, 1989 FASB Statements and AICPA pronouncements.

The most significant of the County’s accounting policies are described below.

1-A. Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the County consists of all funds, departments, boards and agencies that are not legally separate from the County. For the County, this entity includes the elected constitutional officers.

Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services performed or provided by the organizations; or (2) the County is legally entitled to or can otherwise access the organization's resources; the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the County is obligated for the debt of the organization. Component units also may include organizations that are fiscally dependent on the County in that the County approves the budget, levies their taxes or issues their debt.

The component unit columns included on the government-wide financial statements identify the financial data of the County’s discretely presented component units. They are reported separately to emphasize that they are legally separate from the County.

Brief descriptions of the discretely presented component units follow:

Butts County, et al. Water and Sewer Authority (the Water and Sewer Authority) – Butts County has guaranteed the Water and Sewer Authority’s notes payable to the Georgia Environmental Facilities Authority. The Water and Sewer Authority is authorized by law to acquire, construct, equip, operate, maintain, own and improve self-liquidating projects embracing: sources of water supply; the treatment, distribution and sale of water and related facilities; and the collection, treatment and disposal of sewage waste and any related facilities. The Water and Sewer Authority’s financial statements have been presented separately and can be obtained by writing to the Butts County, et al, Water and Sewer Authority, P.O. Box 145, Jackson, Georgia 30233.

Butts County Department of Health (the Health Department) – The Butts County Health Department is governed by the Butts County Board of Commissioners. The Health Department provides public health services including child health checks, family planning, family health, sexually transmitted diseases and tuberculosis control, W.I.C., hypertension screening and monitoring, and environmental health services. The Health Department financial statements have been presented separately and can be obtained by writing to the Butts County Department of Public Health, 463 Kennedy Drive, Jackson, Georgia 30233.

See auditor’s report.

BUTTS COUNTY, GEORGIA
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018

Butts County Industrial Development Authority (the Authority) - The Butts County Industrial Development Authority was created by referendum in 1968. The entity is governed by five board members appointed by the Butts County Board of Commissioners. The Authority can participate in land acquisition, lease agreements on land owned by the Authority, and tax abatements on land owned by the Authority. The Authority's financial statements have been presented separately and can be obtained by writing to the Butts County Industrial Development Authority, 625 West Third Street, Jackson, Georgia 30233.

Development Authority of Butts County (the Authority) - The Development Authority of Butts County was created in 1977 by local ordinance in accordance with the Development Authorities Act. It is governed by a seven member board appointed by the Butts County Board of Commissioners. The Authority's financial statements have been presented separately and can be obtained by writing to the Development Authority of Butts County, 625 West Third Street, Jackson, Georgia 30233.

1-B. Basis of Presentation

The County's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements - The government-wide financial statements include the statement of net position and the statement of activities. These statements report financial information for the County as a whole. The primary government and the component units are presented separately within these financial statements with the focus on the primary government. Individual funds are not displayed but the statements distinguish governmental activities, generally supported by taxes and grants and the County's general revenues.

The statement of net position presents the financial position of the governmental activities of the County and its discretely presented component units at year-end.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the County's governmental activities and for each identifiable activity of the business-type activities of the County. Direct expenses are those that are specifically associated with a function and therefore clearly identifiable to that particular function. The County does not allocate indirect expenses to functions in the statement of activities.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees and other charges to users of the County's services; (2) operating grants and contributions which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. For identifying to which function program revenue pertains, the determining factor for *charges for services* is which function *generates* the revenue. For *grants and contributions*, the determining factor is to which function the revenues are *restricted*.

Other revenue sources not properly included with program revenues are reported as general revenues of the County. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the County.

Fund Financial Statements - During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. Fund financial statements are provided for governmental funds.

See auditor's report.

BUTTS COUNTY, GEORGIA
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018

Major individual governmental funds are reported in separate columns.

Fund Accounting - The County uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The County uses two categories of funds: governmental and fiduciary.

Governmental Funds - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Fund liabilities are assigned to the fund from which they will be liquidated. The County reports the difference between governmental fund assets and liabilities as fund balance. The following are the County's major governmental funds:

The General Fund – The general fund accounts for all financial resources except those required to be accounted for in another fund. The general fund's fund balance is available to the County for any purpose provided it is expended or transferred according to the general laws of Georgia.

2018 SPLOST Capital Projects Fund – This fund is used to record all transactions relating to 2018 SPLOST capital projects.

2012 SPLOST Capital Projects Fund – This fund is used to record all transactions relating to 2012 SPLOST capital projects.

2012 SPLOST Debt Service Fund - This fund is used to accumulate enough proceeds from the collection of SPLOST to make the semi-annual bond payment. The additional monies collected beyond the bond payment amount are then remitted to the County Capital Projects Fund and to municipalities in the County in accordance with the 2012 SPLOST referendum.

Fiduciary Funds – Fiduciary fund reporting focuses on changes in assets and liabilities. The County's fiduciary funds are agency funds. Fiduciary funds employ the economic resources measurement focus and are accounted for on the accrual basis. Neither fiduciary funds nor component units that are fiduciary in nature are included in the government wide financial statements.

1-C. Measurement Focus

Government-wide Financial Statements - The government-wide financial statements are prepared using the flow of economic resources measurement focus. All assets and all liabilities associated with the operation of the County are included on the statement of net position. The statement of activities reports revenues and expenses.

Fund Financial Statements - All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared.

Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements. Proprietary funds and fiduciary funds employ the economic resources measurement focus and are accounted for on the accrual basis.

See auditor's report.

BUTTS COUNTY, GEORGIA
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018

1-D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. At the fund reporting level, the governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues – Exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the County, the phrase “available for exchange transactions” means expected to be received within 60 days of year-end.

Revenues - Non-exchange Transactions - Non-exchange transactions in which the County receives value without directly giving equal value in return, include sales taxes, property taxes, grants and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the taxable sale takes place. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions also must be available (i.e., collected within 31 days for sales taxes and within 60 days for all other revenues) before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be susceptible to accrual: property taxes, sales taxes and federal and state grants.

Deferred/Unearned Revenue - Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

On governmental fund financial statements (i.e., on the modified accrual basis), receivables that will not be collected within the available period have been reported as deferred revenue (i.e., they are measurable but not available) rather than as revenue.

Grants and entitlements received before the eligibility requirements are met (e.g., cash advances) also are recorded as deferred revenue.

Deferred revenue is reclassified as “*unearned revenue*” on the government-wide statement of net position.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due, if measurable.

See auditor’s report.

BUTTS COUNTY, GEORGIA
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018

1-E. Assets, Liabilities and Fund Equity

1-E-1 Cash, Cash Equivalents, and Investments

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the County.

Investments are stated at fair value based on quoted market prices.

Georgia law authorizes the County to invest in the following type of obligations:

- Obligations of the State of Georgia or of any other states
- Obligations of the United States Government
- Obligations fully insured or guaranteed by the United States Government or Government agency
- Obligations of any corporation of the United States Government
- Prime bankers' acceptances
- The State of Georgia local government investment pool (i.e., Georgia Fund I)
- Repurchase agreements
- Obligations of the other political subdivisions of the State of Georgia

The County has no investment policy that would further limit its investment choices.

1-E-2 Receivables

All trade and property tax receivables are reported net of an allowance for uncollectibles, where applicable. Unbilled water and sewer charges are accrued as receivables and revenue at June 30, 2018.

1-E-3 Consumable Inventories

The County's inventory consists of fuel on hand at June 30, 2018. The Water and Sewer Authority's inventory consists of materials and supplies used to construct and repair water lines. Inventory is recorded at the lower of cost or market on a first-in, first out basis.

1-E-4 Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2018, are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed.

1-E-5 Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/interfund payables." These amounts are eliminated in the governmental activities column of the statement of net position.

See auditor's report.

BUTTS COUNTY, GEORGIA
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018

1-E-6 Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in governmental funds. The County reports these assets in the governmental activities column of the government-wide statement of net position but does not report these assets in the government fund financial statements. All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The County maintains a capitalization threshold of five thousand dollars. Improvements to capital assets are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed. Infrastructure was added to capital assets to comply with requirements of GASB 34 in the fiscal year ended June 30, 2007. The county estimated the value of all paved County roads based on indexes provided by the Georgia Department of Transportation. Since that time all major construction projects related to roads have been capitalized.

All reported capital assets are depreciated except for land and construction in progress. It is the County's policy not to charge infrastructure depreciation in the year of construction. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

Asset Class	Estimated Lives			
	Primary Government	Component Units		
	Governmental Activities	Development Authority	Health Department	Water Authority
Land improvements	39 years	39 years	-	40 years
Buildings	39 years	39 years	-	39 years
Machinery and equipment	5 - 10 years	5 - 10 years	5 years	5-10 years
Vehicles and road equipment	5 years	5 years	5 years	5 years
Infrastructure	39 years	39 years	-	40 years

At the inception of capital leases at the governmental fund reporting level, expenditures and an "other financing source" of an equal amount are reported at the net present value of future minimum lease payments. Amortization of assets recorded under capital leases is included with depreciation expense.

1-E-7 Deferred Outflows/ Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County has one item that qualifies for reporting in this category. This item relates to the County's Retirement Plan and the recording of changes in its net pension liability. Certain changes in the net pension liability are recognized as pension expense over time instead of all being recognized in the year of occurrence. The difference between projected investment return on pension investments and actual return on those investments is also deferred and amortized against pension expense over a five year period.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has unavailable revenues that arise only under a modified accrual basis of accounting. Accordingly, they are reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from sales taxes, which will be recognized as an inflow of resources in the period in which the amounts become available.

See auditor's report.

BUTTS COUNTY, GEORGIA
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018

1-E-8 Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the County's past experience of making termination payments.

All compensated absence liabilities include salary-related payments, where applicable.

The total compensated absence liability is reported on the government-wide financial statements. Governmental funds report the compensated absence liability at the fund reporting level only "*when due*."

1-E-9 Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of these funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are "due for payment" during the current year. Bonds and capital leases are recognized as a liability in the governmental fund financial statements when due.

1-E-10 Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between the current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- Non-spendable – Fund balances are reported as non-spendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.
- Restricted – Fund balances are reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- Committed – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the County's board through the approval of a motion. Only the Board of Commissioners may modify or rescind a commitment.
- Assigned – Fund balances are reported as assigned when amounts are constrained by the County's intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the County has authorized the County's management to assign fund balances.
- Unassigned – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The County reports positive unassigned fund balance only in the general fund. Negative unassigned fund balances may be reported in all funds.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the County's policy to use restricted amounts first and then unrestricted amounts as they

See auditor's report.

BUTTS COUNTY, GEORGIA
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018

are needed. For unrestricted amounts of fund balance, it is the County's policy to use fund balances in the following order:

- Committed
- Assigned
- Unassigned

Net Position - Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. This net position amount also is adjusted by any bond issuance deferral amounts. Net position is reported as restricted when there are limitations imposed on its use either through enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. All other net position is reported as unrestricted.

The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

1-E-11 Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary type discretely presented component units. For the County, these revenues are charges for services for water and sewer. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of each fund.

1-E-12 Contributions of Capital

Contributions of capital in proprietary fund type discretely presented component unit financial statements arise from outside contributions of capital assets, tap-in fees to the extent they exceed the cost of the connection to the system, or from grants or outside contributions of resources restricted to capital acquisition and construction.

1-E-13 Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements (i.e., they are netted).

Transfers between funds reported in the governmental activities column are eliminated.

1-E-14 Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States, requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

1-E-15 Comparative Data

Comparative total data for the prior year have been presented only for individual funds in the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds.

See auditor's report.

BUTTS COUNTY, GEORGIA
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018

1-E-16 Pensions

For purposes of measuring the net pension liability related to pensions, and pension expense, information about the fiduciary net position of the Association of County Commissioners of Georgia Butts County Defined Benefit Plan (The Plan), and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are reported as recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

1-E-17 Tax Abatement Agreements

The county has implemented *Governmental Accounting Standards Board (GASB) Statement No. 77, Tax Abatement Disclosures*. This statement requires the County to disclose information for any tax abatement agreements either entered into by the County, or agreements entered into by other governments that reduce the County's tax revenues.

Note 2 – Stewardship, Compliance and Accountability

2-A. Budgetary Information – The County adopts an annual balanced budget for the general fund, the Clerk of Superior Court fund and all nonmajor special revenue funds. The budget resolution reflects the total of each department's appropriation in each fund.

The general fund budget is adopted on a basis consistent with GAAP.

The legal level of control (the level at which expenditures may not legally exceed appropriations) for each adopted annual operating budget generally is the department level within each individual fund. Any change in total to a fund or departmental appropriation within a fund requires approval of the County Commissioners.

The County Administrator or Finance Director may approve budget transfers within departments.

All unexpended annual appropriations lapse at year-end.

Note 3 - Detailed Notes on All Funds

3-A. Deposits and Investments

Custodial Credit Risk - Deposits - Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to the government. The government's deposit policy for custodial credit risk requires that the banking institution hold collateral in the County's name equal to 110% of the total government's deposits in excess of FDIC coverage. At June 30, 2018, the County's bank balances were either insured by FDIC or collateralized with collateral held by the pledging bank's trust department in the County's name.

Investments – The County has not adopted a formal investment policy. All funds were held in cash and cash equivalent accounts at June 30, 2018.

3-B. Receivables

Receivables at June 30, 2018, consisted of taxes, interest, accounts (billings for user charges, including unbilled utility receivables), and intergovernmental receivables arising from grants.

Receivables and payables are recorded on the County's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectability.

See auditor's report.

3-E. Interfund Balances and Transfers

Interfund balances at June 30, 2018, consisted of the following amounts and represent charges for services or reimbursable expenses. These remaining balances resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting period, and (3) payments between funds are made. The County expects to repay all interfund balances within one year.

BUTTS COUNTY, GEORGIA
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018

Interfund transfers for the year ended June 30, 2018, consisted of the following:

Transfers from	Transfers To			
	Clerk of Superior Court	2012 SPLOST Capital Projects Fund	2018 SPLOST Debt Service Fund	Total
General Fund	\$ 34,263	\$ -	\$ -	\$ 34,263

	<u>\$ 34,263</u>	<u>\$ 1,271,774</u>	<u>\$ 110,259</u>	<u>\$ 1,416,296</u>

Transfers are used to report revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to segregate money for anticipated capital projects; to provide additional resources for current operations or debt service; and to return money to the fund from which it was originally provided once a project is completed.

All County transfers either occur on a regular basis or are consistent with the purpose of the fund making the transfer.

3-F. Compensated Absences

Under the current policy employees receive personal leave that includes sick leave and annual leave. Employees accumulate personal leave in the following amounts:

Completed 0-1 Years of Service: 4 hours per pay period
 Completed 1-5 Years of Service: 5 hours per pay period
 Completed 6-10 Years of Service: 6 hours per pay period
 Completed 11+ Years of Service: 7 hours per pay period

Up to 160 hours of personal leave can be carried over at the end of the calendar year. No liability has been recorded for personal leave accrued under the policy as it will be paid with current resources.

3-G. Landfill Closure Costs

State and federal laws and regulations require that the County place a final cover on its landfill when closed and perform certain maintenance and monitoring functions at the landfill site for thirty years after closure. The estimated liability for landfill closure and post closure care costs has a balance of \$824,791 at June 30, 2018. The estimated total current cost of the landfill closure and post closure care is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, and maintain the landfill were acquired as of June 30, 1994 (\$1,762,500). However, the actual cost of closure and post closure care may be higher due to inflation, changes in technology, or changes in landfill laws and regulations. The landfill closed during the fiscal year ended June 30, 1997.

BUTTS COUNTY, GEORGIA
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018

3-I. Pension

Plan Description - The County sponsors the Association County Commissioners of Georgia (“ACCG”) Restated Pension Plan for Butts County Employees (The Plan), which is a defined benefit pension plan. A copy of the plan’s financial report may be obtained at www.gebcorp.com or by writing to Association County Commissioners of Georgia Retirement Services, 191 Peachtree Street, NE, Atlanta, GA 30303 or by calling (800)736-7166.

The Plan provides retirement, disability, and death benefits to plan members and beneficiaries. The Plan, through execution of the adoption agreement, is affiliated with the Association of County Commissioners of Georgia Third Restated Defined Benefit Plan (The ACCG Plan), an agent multiple-employers pension plan, administered by GEBCorp. The ACCG, in its role as the Plan Sponsor, has the sole authority to amend the provisions of the ACCG Plan, as provided in Section 19.03 of the ACCG Plan document. The County has the authority to amend the adoption agreement, which defines the specific benefit provisions of The Plan, as provided in Section 19.02 of the ACCG Plan Document.

Plan Membership

As of January 1, 2017, pension plan membership consisted of the following:

Retirees, Beneficiaries and Disables receiving benefits	66
Terminated plan participants entitled to but not yet receiving benefits	105
Active employees participating in the Plan	<u>153</u>
Total Number of Participants	<u><u>324</u></u>

Contributions

The County is required to contribute at an actuarially determined rate. Section 47-20 of the Georgia code sets forth the minimum funding standards for state and local governmental pension plans. Administrative expenses are based on total covered compensation of active plan participants and are added to the state-required annual funding requirement.

The Georgia Constitution enables the governing authority of the County, the Board of Commissioners, to establish, and amend from time-to-time the contribution rates for the County and its plan participants.

For the year ended June 30, 2018, the County’s contribution rate was 9.2% of annual payroll. County contributions to the plan were \$595,490 for the year ended June 30, 2018.

Net Pension Liability of the County

Effective July 1, 2014, the County implemented the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, which significantly changed the County’s accounting for pension amounts. The information disclosed below is presented in accordance with this new standard.

See auditor’s report.

BUTTS COUNTY, GEORGIA
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018

3-I. Pension (Continued)

Net Pension Liability of the County (Continued)

Actuarial Assumptions

The following actuarial assumptions were used in determining the total pension liability:

Inflation	3.00%
Salary Increases	4.0%-5.5%, including inflation
Investment Rate of Return	7.25%

Mortality Rates were based on the RP-2000 projected with Scale AA to 2017

The long-term expected rate of return on pension plan investments was determined through a blend of using a building blocks approach based on 20-year benchmarks (33.33%) and 30-year benchmarks (33.33%), as well as the forward-looking capital market assumptions for a moderate asset allocation (33.34%), as determined by UBS. Expected future rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2017 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
S & P 500	30.00 %	3.07 %
Barlay's Agg.	30.00	1.97
MSCI EAFE	15.00	0.86
Citi Non US WEBI	5.00	0.30
NARREIT Equity	5.00	0.52
Russell 2000	5.00	0.47
Russell 3000	5.00	0.51
S&P Mid Cap	5.00	0.58
Total	<u>100.00 %</u>	

Discount rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that County contributions will be made at rates equal to the actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all of the projected benefit payments to determine the total pension liability.

The required schedule of changes in the County's net pension liability and related ratios immediately following the notes to the financial statements presents the multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the County, calculated using the discount rate of 7.25 percent, as well as what the County's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease 6.25%	Current Discount Rate 7.25%	1% Increase 8.25%
County's net pension liability	\$ 6,777,896	\$ 4,673,981	\$ 2,927,726

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of December 31, 2017 and the current sharing pattern of costs between employer and employee.

Component Unit – Butts County, et al. Water & Sewer Authority

The authority approved allowing its employees to enter the Association County Commissioners of Georgia (“ACCG”) Restated Pension Plan for Butts County Employees sponsored by the Butts County Board of Commissioners. Upon the Authority’s employees entering the Plan, the Authority limited the Plan benefits to only be applicable for employee services as of January 1, 2013 and later. The reason for this was to eliminate the risk of an unfunded Plan liability for any employee years of service prior to January 1, 2013. Prior to January 1, 2014, the Authority is only responsible for its proportionate share of the normal cost which represents the actuarial estimate of the cost for benefits accruing during the current year and administrative expenses. The Authority’s proportionate share is determined by the aggregate amount of annual salaries of each active Plan participant associated with each jurisdiction to the total aggregate amount of annual salaries of all Plan participants associated with both jurisdictions. For fiscal year 2017, the Authority contributed \$79,692 to the Plan. The Authority contributed this amount to the Butts County Board of Commissioners to include in their total retirement contribution of \$595,490.

Component Unit – Health Department

Plan Description

The Employee’s Retirement System of Georgia, a cost-sharing multiple-employer defined benefit pension plan, was established by the Georgia General Assembly during the 1949 Legislative Session for the purpose of providing retirement allowances for employees of the State of Georgia and its political subdivisions. ERS is directed by a Board of Trustees and has the powers and privileges of a corporation. The Plan is administered by the Employees’ Retirement System of Georgia. The System is being funded in conformity with the minimum funding standard set forth in Code Section 47-20-10 of the Public Retirement Systems Standards Law and the funding policy adopted by the Board. Each plan and fund, including benefit contribution provisions, was established and can be amended by state law. The Plan issues a publicly available financial report that can be obtained at www.ers.ga.gov.

Note 4 - Other Notes

4-A. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County is a member of the Association of County Commissioners of Georgia (ACCG) Interlocal Risk Management Agency. This membership allows the County to share liability, crime, motor vehicle and property damage risks.

Chapter 85 of Title 36 of the Official Code of Georgia Annotated authorizes Georgia counties to form interlocal risk management agencies. The ACCG Interlocal Risk Management Agency (IRMA) is a county interlocal risk management agency to function as an unincorporated nonprofit instrumentality of its member municipalities - ACCG IRMA establishes and administers one or more group self insurance funds and a risk management service to prevent or lessen the incidence and severity of casualty and property losses occurring in the operation of municipal government. ACCG IRMA is to defend and protect in accordance with the member government contract and related coverage descriptions of the County are as follows:

- amounts as shall be established by ACCG IRMA.
- To select a person to serve as a Member representative.

See auditor's report.

BUTTS COUNTY, GEORGIA
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018

4-A. Risk Management (Continued)

The County must participate at all times in at least one fund which is established by ACCG IRMA. Other responsibilities of the County are as follows:

To pay all contributions, assessments or other sums due to ACCG IRMA at such times and in such

- To allow ACCG IRMA and its agents reasonable access to all facilities of the county and all records, including but not limited to financial records, which relate to the purposes of ACCG IRMA.
- To allow attorneys appointed by ACCG IRMA to represent the County in investigation, settlement discussions and all levels of litigation arising out of any claim made against the County within the scope of loss protection furnished by the Fund or Funds established by ACCG IRMA.
- To assist and cooperate in the defense and settlement of claims against the County.
- To furnish full cooperation to ACCG IRMA's attorneys, claims adjusters, Service Company, and any agent, employee, officer or independent contractor of ACCG IRMA relating to the purposes of ACCG IRMA.
- To follow all loss reduction and prevention procedures established by ACCG IRMA.
- To furnish to ACCG IRMA such budget, operating and underwriting information as may be requested.
- To report as promptly as possible, and in accordance with any Coverage Descriptions issued, all incidents which could result in ACCG IRMA or any Fund established by ACCG IRMA being required to pay claim for loss or injuries to municipal property or injuries to persons or property when such loss or injury is within the scope of the protection of a Fund or Funds in which the County participates.

The County retains the first \$1,000 of each risk of loss in the form of a deductible. The County files all claims with ACCG IRMA. ACCG IRMA bills the County for any risk of loss up to the \$1,000 deductible.

The basis for estimating the liabilities for unpaid claims is "IBNR" established by an actuary.

Pursuant to Title 34, Chapter 9, Article 5 of the Official Code of Georgia Annotated, Butts County became a member of the ACCG's Workers' Compensation Self Insurance Fund. The liability of the fund to the employees of any employer (Butts County) is specifically limited to such obligations as are imposed by applicable state laws against the employer for workers' compensation and/or employer's liability. The Fund is to defend, in the name of and on behalf of the members, any suits or other proceedings which may at any time be instituted against them on account of injuries or death within the preview of the Workers' Compensation Law of Georgia, or on the basis of employer's liability, including suits or other proceedings alleging such injuries and demanding compensation therefore, although such suits, other proceedings, allegations or demands be wholly groundless, false or fraudulent. The Fund is to pay all costs taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

The County's responsibilities relating to the worker's compensation pool is to pay all costs, other than those referenced in the above paragraph regarding litigation. The County prepays an estimated annual premium based upon claims experience. Then an audit is conducted of actual experience, with the difference in the premium being paid or refunded as applicable. There were no significant reductions in insurance coverage from prior year, and there have been no settlements that exceed the County's insurance coverage during the past three years.

4-B. Contingent Liabilities

The County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could result in a request for reimbursement to the grantor agency for costs disallowed under terms of the grant. Based on prior experience, the County believes such disallowances, if any, will be immaterial. The County was a defendant in several lawsuits at June 30, 2018. In the opinion of County management, the outcome of these contingencies will not have a material effect on the financial position of the County.

See auditor's report.

BUTTS COUNTY, GEORGIA
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018

4-C. Joint Venture

The County is a member of the Three Rivers Regional Commission (RC). During the year ended June 30, 2018, Butts County paid total dues of \$17,735 to the RC. Membership in a RC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the RC in Georgia. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a RC. A copy of the RC audit can be obtained by contacting them directly.

4-D. Tax Abatement Programs

The County enters into property tax abatement programs with local businesses for the purpose of attracting and retaining business within their jurisdictions. The tax abatements can be granted to any business located within the County. These tax abatement programs are issued on a case by case basis for individual businesses for both real and personal property from the Development Authority of Butts County and the Joint Development Authority of Butts County and Spalding County. On February 11, 2016, the Joint Development Authority of Butts County and Spalding County entered into a Memorandum of Understanding with Dollar General Corporation for the construction of a distribution center and related facilities on approximately 150 acres in Butts County and Spalding County. As part of that agreement, in year 1 following the completion of the Project, property tax abatements have been granted to the company. Year 1 is defined as the calendar year immediately following the earlier of the year in which construction of the Project is completed or any portion of the Project has been placed into service or operation, but in no case shall Year 1 be later than 2018. As of June 30, 2018, the Project was completed by the end of calendar year 2017. No tax abatements were granted during the current fiscal year as the 2018 (fiscal year 2019) property taxes will be the first to reflect the abatement.

4-E. Hotel/Motel Lodging Tax

During the year ended June 30, 2018, the County levied a 3.00% hotel/motel tax on lodging facilities within the County. In accordance with the Official Code of Georgia Annotated 48-13-51, the County allocates 5.00% of this tax for the promotion of tourism, conventions or trade shows. The County collected \$2,037 in hotel/motel tax during fiscal year 2018. These collections will be used for the promotion of tourism within the County.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENT PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Butts County Board of Commissioners
Jackson, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Controller General of the United States, the financial statement of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Butts County, Georgia, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise Butts County, Georgia's basic financial statements and have issued our report thereon dated December 26, 2018.

Other auditors audited the financial statements of Butts County Department of Public Health as described in our report on Butts County, Georgia's financial statements. This report includes our consideration of the results of the other auditor's testing of internal control over financial reporting and compliance and other matters that are reported on separately by those other auditors. However, this report, insofar as it relates to the results of the other auditors, is based solely on the reports of the other auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we consider Butts County, Georgia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of Butts County, Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of Butts County, Georgia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies, as identified as Items 13-1, and 16-3.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Butts County, Georgia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that we consider to be a significant deficiency as described in the accompanying schedule of findings and questioned costs as Item 13-1.

Butts County, Georgia's Response to Findings

Butts County, Georgia's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Butts County, Georgia's response was not subject to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

BUTTS COUNTY, GEORGIA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2018

18-1 Status of Prior Year Findings

The previous Independent Auditor's report for the year ended June 30, 2017 was prepared by Haisten & Johnston, P. C. and was dated February 6, 2018. The following findings were noted:

13-1 Significant Deficiency Regarding Risk Assessment and Monitoring

Findings

The County does not have a formal risk assessment policy in place. As a result, there is no monitoring of compliance with laws, contracts and grant agreements.

Recommendations

We recommend that the County implement a formal risk assessment policy and follow up on any lack of monitoring of compliance with laws, contracts, and grant agreements that is revealed when the risk assessment is performed.

Response

Butts County, Georgia agrees with the findings and the recommendations.

16-2 Significant Deficiency Regarding Expenditures Exceeding Appropriations

Findings

Expenditures for the public safety function and housing and development function exceeded appropriated amounts. This is a violation of Georgia Law.

Recommendations

We recommend that the County financial staff more closely monitor expenditures as compared to appropriations and that budget amendments be presented to the board of commissioners for approval when an unforeseen circumstance arises after the original budget is approved.

Response

Butts County, Georgia agrees with the finding and the recommendations.

Status

This finding has been corrected.

BUTTS COUNTY, GEORGIA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS (continued)
FOR THE YEAR ENDED JUNE 30, 2018

16-3 Significant Deficiency Regarding Cash Bonds held by the Sheriff's Department

Findings

The County has Cash Bonds that have been held for a number of years in an account maintained by the Sheriff's Department.

Recommendations

We recommend that the County conduct research to determine if these cases have in fact been settled in the court system and, if so, how the bonds should be disbursed. The bonds should then be disbursed accordingly.

Response

Butts County, Georgia agrees with the finding and the recommendations.

17-2 Significant Deficiency Regarding Purchasing Policy and Bid Process

Findings

As part of testing internal controls, we selected a sample of cash disbursements to determine that the transactions were documented according to the County's purchasing policy and when applicable to the County's bid process. We determined that even though the accounting system warns the user when a purchase order exceeds the budgeted amount for a specific line item, the user has the option of overriding the control. Users appear to be overriding the control frequently. We also selected a sample of contracted services that required three bids. We determined that the documentation was lacking on several of the transactions selected and that the documentation did not adequately reflect that proper procedures were followed.

Recommendations

We recommend that the County review its purchasing policies and establish necessary procedures to ensure that proper documentation is kept on file to show that the bid process was followed in all cases where bidding is required.

Response

Butts County, Georgia agrees with the findings and the recommendations.

Status

This finding has been corrected.

BUTTS COUNTY, GEORGIA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS (continued)
FOR THE YEAR ENDED JUNE 30, 2018

17-3 Significant Deficiency Regarding Management Oversight

Findings

During our audit, we discovered that the Board of Commissioners does not receive a full financial report at their monthly meetings. The Commissioners have asked the Chief Financial Officer to provide them with a report on the amount of cash in the bank but no longer receive a report that shows the actual revenues and expenditures compared to the budgeted revenues and expenditures during the year. During the current fiscal year, several errors were made in budgeting revenues. It appears that the Public Utilities Tax was not only budgeted as a specific revenue line item but also included in the property tax revenue line. By reviewing the budget comparison report on a monthly basis, this error might have been discovered in time to prepare a budget amendment for the fiscal year.

Recommendations

We recommend that the Chief Financial Officer present a financial report at least monthly to the Board of Commissioners so that there is some oversight during the year as to the financial position of the County.

Response

Butts County, Georgia agrees with the findings and recommendations.

Status

This finding has been corrected.

INDEPENDENT AUDITOR'S REPORT ON SPECIAL COUNTY 1 PERCENT SALES AND USE TAX APPROVED IN SPECIAL ELECTION HELD SEPTEMBER 17, 1996

To the Board of Commissioners
Butts County, Georgia

We have audited the accompanying Schedule of Special Purpose Local Options Sales Tax for Butts County, Georgia as of June 30, 2018. This schedule is the responsibility of Butts County's management. Our responsibility is to express an opinion on the Schedule of Special Purpose Local Option Sales Tax based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule of Special Purpose Local Option Sales Tax is free of material misstatements. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the Schedule of Special Purpose Local Option Sales Tax. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Schedule of Special Purpose Local Option Sales Tax. We believe that our audit provides a reasonable basis for our opinion.

The accompanying Schedule of Special Purpose Local Option Sales Tax was prepared for the purpose of complying with the Official Code of Georgia Annotated, 48-8-121 on the modified accrual basis of accounting as described in Note 1 and is not intended to be a complete presentation of Butts County's revenues and expenditures.

In our opinion, the Schedule of Special Purpose Local Option Sales Tax referred to above presents fairly, in all material respects, the original estimated cost, the current estimated cost, and the current and prior year expenditures for each project in Butts County's resolution or ordinance calling for the tax for the year ended June 30, 2018 in conformity with accounting principles generally accepted in the United States of America.
