November 26, 2024

# To the Honorable Board Members of the City of Dalton Board of Education and the Citizens of Dalton, Georgia:

We are honored to present the Annual Comprehensive Financial Report ("ACFR") for the City of Dalton Board of Education (the "School District") for the fiscal year ended June 30, 2024. The report has been prepared by the finance department. Responsibility for the accuracy, completeness, and fairness of the information contained within, including all required disclosures, rests solely with the School District's administration.

We believe the data, as presented, are accurate in all material respects and are reported in a manner designed to fairly set forth the financial position and results of operations of the School District as measured by the financial activity of its various funds. All necessary disclosures have been included to enable the reader to gain a reasonable understanding of the School District's financial affairs.

Estes and Walcott, Certified Public Accountants, have issued an unmodified opinion on the City of Dalton Board of Education's financial statements for the year ended June 30, 2024. Their independent auditor's report, found at the beginning of the financial section, affirms that the financial statements fairly present the financial position of the School District.

Additionally, the Management's Discussion and Analysis ("MD&A"), which follows the independent auditor's report, provides an overview and narrative analysis of the basic financial statements. Together, the MD&A and this letter of transmittal offer a thorough understanding of the financial performance and health of the School District. We encourage readers to review both sections for a complete perspective.

#### **Profile of the School District**

Established in 1886 through the Charter of the City of Dalton, the School District serves the City of Dalton as an independent public school system, providing education from Pre-Kindergarten ("PreK") through 12<sup>th</sup> grade. It operates autonomously and is not considered a component unit of any other governmental entity. The School District complies with Georgia law and the regulations of the Georgia State Board of Education, offering a full range of services and programs required of a public school district.

The School District provides a comprehensive array of educational services, including regular and special education programs across the elementary, middle, and high school levels, as well as specialized programs in PreK and preschool special education. Additional offerings include gifted education, career technology education, remedial education, and services for English Language Learners, reflecting the School District's commitment to addressing diverse student needs.

The Dalton Board of Education consists of five elected members who serve four-year terms. Their primary responsibilities include establishing policies to guide the schools, evaluating the effectiveness of those policies, and ensuring proper implementation. Educational and operational leadership is entrusted to the superintendent of schools and the administrative staff.

The School District enrolled 7,662 PreK through 12<sup>th</sup> grade students for the 2023 – 2024 academic year. The ethnic composition of the students is 72 percent Hispanic, 17 percent white, 4 percent black, 2 percent Asian, and 2 percent multiracial. Enrollment for the 2024-2025 school year is projected at 7,619 students.

The School District is comprised of six elementary schools, one middle school, a junior high school, and two high schools. All schools, as well as the School District as a collective, hold Cognia (formerly AdvancEd) accreditation, ensuring a consistent standard of excellence. The School District also maintains well-equipped and carefully managed facilities to support its educational mission. A schedule of building information is provided in the statistical section of the ACFR.

The School District prides itself on having one of the most highly trained and experienced staff among Georgia's public school systems. Approximately 70 percent of teachers hold a master's degree or higher, and the School District boasts a high teacher retention rate. This dedication to professionals ensures qualified and committed teams in every school. The School District employs 658 certified staff members and 368 support staff, totaling 1,026 employees.

#### **Local Economy**

Dalton's economy remains rooted in its long-standing foundation of textile and textile-related industries, earning the title "Carpet Capital of the World". Two of the largest carpet and flooring manufacturers globally, Shaw Industries and Mohawk Industries, are headquartered in Dalton, collectively producing and supplying 56 percent of the goods that comprise the United States carpet market. As of September 2024, the manufacturing sector accounts for approximately 31 percent of the 69,100 jobs in Dalton Metropolitan Statistical Area, according to the Georgia Department of Labor.

The local economy is closely tied to construction-related industries, and despite disruptions caused by the global novel coronavirus pandemic, the national housing market and construction sector have remained resilient. Unemployment in Dalton is relatively low compared to historic levels, and aligns closely with state and national trends. As of September 2024, Dalton's unemployment rate stands at 4.5 percent, an increase from 3.9 percent reported in the previous year. In comparison, the state unemployment rate is 3.6 percent and national rate is at 4.2 percent.

Dalton's property tax digest has seen incremental improvements over the past decade. Since fiscal year 2011, the City of Dalton implemented a freeport tax exemption for commercial and industrial properties, beginning with a 20 percent exemption on work-in-progress inventory. This exemption resulted in a \$1.3 million reduction in property tax revenue for fiscal year 2024. While the freeport exemption is expected to remain at the 20 percent level in fiscal year 2025, there is potential for an increase to 40 percent in a future years, which could further affect local revenue.

State funding plays a significant role in the School District's budget. Georgia's funding formula does not have adjustments for inflation. During the 2009-2010 school year, state funding for the average school district fell to 43 percent, its lowest level. By 2016, this percentage increased to 53 percent, although austerity reductions – state imposed budget cuts to school funding formulas - remained in place. These austerity reductions, implemented to balance the state budget, impacted all Georgia school districts, including Dalton Public Schools, which lost over \$44.2 million in revenue from fiscal years 2003 through fiscal year 2022.

In fiscal year 2015, Georgia began to reduce the austerity component of its funding formula, leading to increased state revenue for school districts. The School District's austerity reduction decreased from \$5.1 million in fiscal year 2014 to just over \$820,000 in fiscal year 2017, resulting in an additional \$1.4 million in state funding for three consecutive years. In recent years, the elimination of austerity reductions during fiscal years 2019, 2020, 2022, 2023 and 2024 has further improved state revenue. The School District has become increasingly dependent on state funding due to a decline in local revenue sources since 2011.

Dalton's economy demonstrates resilience through its robust manufacturing base and consistent alignment with state and national economic trends. However, the interplay among local property tax policies, state funding adjustments, and economic shifts continues to shape the financial landscape for the School District and the broader community.

#### **Planning for the Future**

The Dalton Board of Education has long prioritized maintaining a healthy general fund balance to ensure financial stability and flexibility. Several years ago, the Dalton Board of Education established a target of retaining an unreserved general fund balance of 15 percent of the current year's budget. This target provides two months of operating revenues and eliminates the need for short-term borrowing. In fiscal year 2014, general fund expenditures were \$62.3 million, and the fund balance was nearly \$11.0 million. By fiscal year 2024, general fund expenditures had increased to \$104.2 million, with a fund balance reaching \$23.2 million. This higher fund balance reflects intentional planning to address rising operational costs, particularly those associated with the secondary grade reconfiguration.

The State of Georgia anticipated economic instability and uncertainty with the global coronavirus pandemic, leading to adjustments in school funding. For example, during fiscal years 2021 and 2022 the School District experienced significant austerity reductions in state funding, but these reductions were later reduced within the fiscal year. In fiscal year 2022, the School District initially budgeted for \$1.9 million in state funding reductions, but these were ultimately eliminated, contributing to the increased fund balance.

Student enrollment trends in Dalton Public Schools have introduced additional planning considerations. While the School District experienced an average annual growth of 2.3 percent for many years, fiscal year 2018 marked the first enrollment decline of 3.1 percent. Subsequent years showed minimal changes with a decline of 1.3 percent in fiscal year 2021, 0.8 percent in fiscal year 2022, 0.5 percent fiscal year 2023, and relatively flat 0.2 percent decline fiscal year 2024. The School District has adequate facility capacity at the elementary level, supported by six schools and class size flexibility, but middle and high school building capacity remains a concern. To address these needs, citizens of Dalton approved a general obligation bond of up to \$50.65 million on November 7, 2017, to construct a new school for grades 6-7.

School District administrators remain committed to providing appropriate instructional spaces and facilities to support Dalton students. In fiscal year 2022, the School District implemented a strategic grade configuration change at the secondary level, reducing enrollment at Dalton High School and the middle school by introducing a junior high school for 8th and 9th grades. As part of this effort, Morris Innovative High School was closed, and the Dalton Academy opened, to further enhance academic opportunities for all secondary students.

Since 1997, Dalton and Whitfield County residents have supported six five-year Educational Special Purpose Local Option Sales Taxes ("ESPLOST") of one cent each, enabling significant investments in School District facilities and programs. Fiscal year 2019 marked the fifth ESPLOST, which focused on instructional technology, school safety, HVAC and roofing improvements, and renovations at Brookwood and City Park elementary schools. This funding also supported capital needs associated with the secondary grade configuration changes at Dalton Junior High, Dalton Academy, and Dalton High School.

In the latter half of fiscal year 2023, the School District began receiving funds from the sixth ESPLOST. Early collections exceeded projections, but rising global inflation and local construction costs pose challenges to meeting some initial capital project goals, including expansions at the School District's smaller elementary schools. Over its five-year term, the sixth ESPLOST is expected to fund renovations and improvements at two schools, enhance technology and infrastructure for students and staff, and begin paying the principal on the Hammond Creek general obligation bond.

The Dalton Board of Education and School District administration continue to strategically plan and manage resources effectively, ensuring the School District is well-positioned to meet the educational needs of all students in the years ahead.

#### **Relevant Financial Policies**

The vision of the School District is to prepare students for success in college, career, and civic life through world-class learning. The financial policies are designed to ensure that there are adequate funds to support this vision. This is accomplished by maximizing the use of financial resources, by improving financial reporting, and by enhancing internal control systems.

In developing and evaluating the School District's accounting system, consideration is given to the adequacy of internal controls. Internal controls are designed to provide reasonable assurance regarding: (1) safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe the School District's internal controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

As a recipient of federal and state financial assistance, the School District is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation for weaknesses by management and staff.

As part of the School District's annual single audit required to be performed in conformity with the Uniform Guidance, tests are made to determine the adequacy of the internal control structure, including that portion related to federal financial assistance programs, as well as to determine that the School District has complied with applicable laws and regulations.

The School District maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriated budget as approved by the Dalton Board of Education. Activities of the general fund, debt service fund, capital funds, school nutrition fund, and most of the special revenue funds are included in the annual appropriated budget. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is established at the aggregate level by fund type.

The Dalton Board of Education established a fund balance policy to protect the financial condition of the School District and to meet the requirements of Governmental Accounting Standards Board Statement No. 54. The policy defines the five categories of the fund balance that are reported as nonspendable, restricted, committed, assigned, and unassigned. The Dalton Board of Education determines the committed fund balance through board action, and delegates the assigned fund balance to the superintendent or designee.

#### **Major Initiatives**

Dalton Public Schools continues to prioritize its vision of preparing students for college, career, and civic life through worldclass learning. To achieve this goal, the School District is committed to delivering effective instruction and maintaining high expectations to foster continuous improvement in student achievement.

The implementation of Georgia's new K-12 mathematic standards marked a significant milestone for the School District in fiscal year 2024. These standards, approved by the Georgia Department of Education in fiscal year 2022, promote mastery and application, with an emphasis on deeper understanding by focusing on fewer topics at each grade level. In fiscal year 2023, significant teacher training, preparation, and curriculum teamwork were undertaken to put these new standards into practice. The standards aim to increase clarity, using simplified language and clearer expectations at each grade level to ensure educators and parents understand what students are expected to learn. Additionally, the updated math standards emphasize mathematical reasoning, argumentation, and critical thinking, with a strong focus on problem-solving, modeling, and precision in communication.

Dalton Public Schools has aligned instructional resources and assessments with Georgia's K-12 Mathematics Standards. Classrooms are equipped with a variety of hands-on and digital resources, facilitating authentic learning experiences. The School District has developed a comprehensive mathematics framework that is grounded in a growth mindset.

Literacy instruction has also been a focus of improvement and innovation. In 2004, the School District began a phased-in implementation of a literacy framework targeting English, Language Arts ("ELA"), reading, and word study instruction. In fiscal year 2023, the School District added a complementary phonics program to strengthen foundational literacy skills, particularly in kindergarten through third grade.

In fiscal year 2023, the Georgia Department of Education approved new performance standards in English Language Arts. Throughout fiscal year 2024, the School District actively engaged various stakeholders in a comprehensive process to review and select new literacy curriculum. Stakeholders, including teachers, administrators, parents, and community members participated collaboratively to provide input, address concerns, and evaluate potential resources. The Dalton Board of Education approved the adoption and purchase of a new core literacy curriculum for elementary and middle schools, set to be implemented in the 2024-2025 school year.

The School District also provided targeted professional learning for educators in the Science of Reading and structured literacy methodologies.

Georgia's new K-12 English Language Arts emphasizes early literacy for kindergarten through third grade, focusing on phonics and foundational skills to ensure students develop strong reading abilities in early grades. The standards also place a renewed emphasis on phonics, grammar, usage, and mechanics, aiming to improve student's command of the English language.

Evaluating student performance remains a key aspect of the School District's mission. However, Dalton Public Schools recognizes that test scores alone do not provide a complete picture of student, teacher, or school performance. Georgia's College and Career Ready Performance Index ("CCRPI") offers a more comprehensive framework for evaluation, incorporating measures such as content mastery, student progress, closing achievement gaps, readiness, and high school graduation rates. The School District also acknowledges the challenges of making accurate annual comparisons, as variations in student groups, academic standards, and testing assessments can affect results. Additionally, the global coronavirus pandemic disrupted typical year-end testing in fiscal year 2020, complicating long-term trend analysis. A table summarizing the percentage of Dalton students scoring at proficient and distinguished for the 2023 and 2024 school years is included to provide insight into recent performance trends.

Dalton Public Schools

Dalton Public Schools		
Fiscal Years 2023 and 2024		
	% of Proficient and Distinguished	% of Proficient and Distinguished
	FY 2023	FY 2024

Social Studies		
US History	26%	27%
8 <sup>th</sup> Grade Milestones Test	22%	19%

Dalton Public Schools test score information can be found on the Georgia Department of Education webpage pertaining to Georgia Milestones Assessment System. The Georgia Department of Education includes the following guidance as it pertains to the test scores: School districts, the news media, parents and community member should use caution in making year-to year comparisons using state level data, due to changes in students' learning environments and differences in participation. In general, year-to-year comparisons should not be made using school and district-level data."

#### Acknowledgment

The preparation of this report would not have been possible without the efficient and dedicated service of the entire staff of the finance department. We would like to express appreciation to all of the employees of the departments who assisted in the timely closing of the School District's financial records and the preparation of this report.

We would also like to thank the members of the Dalton Board of Education for their unfailing support in maintaining the highest standards of professionalism in the management of the School District's finances.

Respectfully submitted,

Steven Craft, Ph.D. Superintendent

Theresa A. Perry

#### INDEPENDENT AUDITOR'S REPORT

To the Members of the City of Dalton Board of Education and the Superintendent Dalton, Georgia

#### **Report on the Audit of the Financial Statements**

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Dalton Board of Education as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the City of Dalton Board of Education's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Dalton Board of Education, as of June 30, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Dalton Board of Education and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Dalton Board of Education's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Dalton Board of Education's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Dalton Board of Education's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 – 14, the required supplementary information for pension plans and OPEB plans on pages 64 – 76, and the respective budgetary comparison information for the general fund and the major special revenue funds on pages 77 – 80 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Dalton Board of Education's basic financial statements. The accompanying combining and individual fund financial statements and schedules, schedule of expenditures of education local option sales tax proceeds, and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the schedule of expenditures of education local option sales tax proceeds, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Information

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 26, 2024, on our consideration of the City of Dalton Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Dalton Board of Education's internal control over financial reporting and compliance.

Estes & Walcott

Dalton, Georgia November 26, 2024

The discussion and analysis of the City of Dalton Board of Education's ("School District") financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2024. The intent of this discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the complete financial statements, with notes, to enhance their understanding of the School District's financial performance.

#### **Financial Highlights**

Key financial highlights for 2024 are as follows:

- In fiscal year 2024, total net position decreased 21%, or \$6.9 million, from the fiscal year 2023 net position of \$32.4 million to the fiscal year 2024 net position of \$25.5 million. This decrease in net position is primarily due to an overall increase in net liabilities related to pensions of \$11.9 million, offset by an overall decrease in net liabilities related to OPEB of \$2.9 million and a decrease in liabilities due to payment of debt of \$3.9 million.
- Total revenues increased 3% from \$128.2 million in 2023 to \$131.8 million in 2024. Although grant revenues decreased significantly due to the wind down from Elementary and Secondary School Emergency Relief ("ESSER") federal funding, this decrease was offset through increased local property tax revenue due to increased property values and from interest earnings due to higher interest rates. Overall, expenditures exceeded revenues by \$6.9 million in fiscal year 2024.
- Total expenses increased 8% from \$128.9 million in 2023 to \$138.6 million in 2024. Expense increases were across the board in nearly every functional category, primarily attributable to the increased required contribution for employee health insurance plan. Additionally, the State of Georgia increased the state teacher salary scale, and the School District made corresponding improvements to other employee salary scales. The Governor of Georgia included partial funding and required payments of a one-time supplements to school staff, and the Dalton Board of Education approved administering this pay to all employees. Under the 2024 instruction function, the School District increased the number teachers and paraprofessionals to serve student and program needs and added administrative positions. In pupil services, the School District expanded athletic opportunities for students, resulting in an increase in the number of coaching positions. The School District shows increased expenses in student transportation for the purchase of property and school buses.
- Among the major funds, the general fund reported \$103.2 million in revenues in 2024, compared to \$92.0 million in revenues in 2023. The increase is primarily attributable to an increase in local property tax revenue from increased property values and state formula funding improvements. The general fund reported \$104.2 million in expenditures in 2024 compared to \$93.3 million in expenditures in 2023. Expenditure increases are due to the increased employer contribution for employee health insurance and adding both instructional and administrative personnel. The School District also absorbed a portion of the positions that were funded by the ESSER federal sources in fiscal year 2023. Those positions included teachers, paraprofessionals, counselors, psychologists, social workers, and administrators.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the School District's basic financial statements. The basic financial statements are comprised of three components: 1) district-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

#### **District-wide Financial Statements**

The district-wide financial statements are designed to provide readers with a broad overview of the School District's finances in a manner similar to a private-sector business.

The statement of net position presents information on all of the School District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

	2024	2023
Assets		
Current and other assets	\$ 68,817,055	\$ 71,712,795
Noncurrent assets	162,153,554	160,980,002
Total assets	230,970,609	232,692,797
Deferred outflows of resources	53,803,989	74,205,781
Liabilities		
Current liabilities	16,331,693	16,093,187
Noncurrent liabilities	218,815,916	228,967,945
Total liabilities	235,147,609	245,061,132
Deferred inflows of resources	24,092,994	29,449,591
Net position		
Net investment in capital assets	117,228,404	115,041,592
Restricted	19,697,559	17,497,737
Unrestricted	(111,391,968)	(100,151,474)
Total net position	\$ 25,533,995	\$ 32,387,855

Current and other assets decreased by 4%, or \$2.9 million in fiscal year 2024. This is primarily due to a decrease in intergovernmental receivables from the City of Dalton Building Authority. In fiscal year 2023, the City of Dalton Building Authority issued the Series 2022 revenue bonds to be paid back with the School District's Education Special Purpose Local Option Sales Tax ("ESPLOST") for an amount of \$15.9 million. At year end 2023, \$15.7 million was unspent and was held in a Building Authority cash account that was available to the School District for future capital equipment and projects. By year end 2024, the amount held had decreased to \$13.2 million, as funds are spent on ESPLOST projects.

Noncurrent assets increased by 1% in fiscal year 2024, as capital outlays exceeded depreciation expense by \$1.2 million.

Current liabilities were relatively flat, increasing by 2% or \$251,000 in fiscal year 2024, predominately attributable to the increased current portion of the intergovernmental payable to the City of Dalton for the ESPLOST revenue bond, in accordance with the debt service schedule.

Non-current liabilities decreased by 4% or \$10.2 million in 2024. This is primarily due to a net decrease in the School District's proportionate share of net pension and OPEB liabilities. The School District's proportionate share of the liability decreased by \$13.2 million and \$49,000 for their participation in the TRS pension plan and the SEAD-OPEB plan, respectively, offset by an increase in the proportionate share of the liability by \$250,000 and by \$6.7 million for their participation in the ERS pension plan and the School Fund OPEB plan, respectively. Additionally, the School District's long-term portion of debt had a net decrease of \$3.9 million as debt service is paid on the financed purchases, SBITA obligations, intergovernmental agreements, and bonds.

Deferred outflows of resources decreased by 27% or \$20.4 million while deferred inflows of resources decreased by 18% or \$5.4 million. These items are related to changes in the School District's proportionate share of the outflows and inflows related to participation in the pension and OPEB plans.

The statement of activities presents information showing the change in the School District's net position during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

	2024			2023
Revenues				
Program revenues				
Charges for services	\$	973,919	\$	1,055,589

Net position, end of year	\$	25,533,995	\$	32,387,855

#### Revenues

The School District's total revenues increased in 2024 by 3%, or \$3.5 million. The increases in revenues were both in property taxes and interest earnings. Property taxes increased by \$5.6 million due to increased property values. Interest earnings were \$1.5 million higher in fiscal year 2024 compared to fiscal year 2023 due to higher interest rates. Donations increased in fiscal year 2024 due to the contribution from the City of Dalton for tennis courts and related facilities valued at \$900,000. These increases were offset by a decrease in grants of \$4.6 million as certain COVID-related federal and state funding revenues come to a close.

#### Expenses

The School District's total expenses increased by 8%, or \$9.8 million. Expense increases were across the board in nearly every functional category, primarily attributable to another increase in the employer required contribution for the employee health insurance plan. Additionally, the state teacher salary scale had increases, and the School District made corresponding pay improvements to the remaining employee salary scales. There was also a one-time pay supplement for all employees in fiscal year 2024.

Instruction expenses increased by \$6.1 million, pupil service expenses increased by \$825,000, school administration expenses increased by \$1.0 million, and food services operations expenses increased by \$904,000. The increases are attributable to the items referenced above, as well as for the increased number of teachers and paraprofessionals hired to serve students and program needs. The School District embarked on a new comprehensive literacy program for elementary and middle school that required expense increases in instructional books and software. Pupil services continues to expand athletic opportunities for students, resulting in an increase to the number of coaching positions and amount of teacher supplements. Both pupil services and school administration expenses increased due to capital improvements to the secondary schools and athletic spaces. School administration also had increases in fiscal year 2024 for software investments to improve school safety. The School District shows increased expenses in food service operations for purchased food costs, professional services, supplies, and indirect costs.

#### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Fund balance, when compared with net position, reports only those assets and liabilities that primarily have an impact on short-term financing decisions. Fund balance (specifically, unassigned fund balance) is a measure of available financial resources. Net position reports all assets and all liabilities regardless of their relevance to near-term financing decisions. Net position should be understood as a measure of net worth rather than a measure of available financial resources.

All funds of the School District can be divided into three types of funds - governmental funds, propriety funds, and fiduciary funds. The School District does not have any proprietary funds.

#### Governmental Funds

Most of the School District's activities (instruction, administration, maintenance, student transportation, etc.) are reported in governmental funds, which focus on how money flows in and out of those funds. Balances left at year-end are available for spending in future periods. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The governmental fund activities may be financed with property taxes, Quality Basic Education ("QBE") state formula aid, and federal funds.

#### Proprietary Funds

Proprietary funds are those used to account for ongoing organizations and activities which are similar to those found in the private sector. Currently, the School District does not utilize proprietary funds.

#### Fiduciary Funds

The School District is the trustee, or fiduciary, for assets that belong to others, such as employee benefit and private trust funds. The School District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The School District excludes these activities from the district-wide financial statements because it cannot use these assets to finance its operations.

#### The School District's Funds

The 2024 combined fund balance of all governmental funds totaled \$56.5 million. This is a 5% or \$2.8 million decrease from the \$59.3 million fund balance from fiscal year 2023. The largest fund balance decreases occurred in the general fund and ESPLOST capital fund, representing \$2.0 million and \$942,000, respectively. Both funds were budgeted to have a deficit for fiscal year 2024. The general fund decrease was intended as a measure to lower the tax burden to property taxpayers by utilizing some fund balance to fund operations. The ESPLOST fund balance decrease represents continued spending of debt proceeds on ESPLOST projects, combined with debt service payments, offset by incoming monthly sales tax revenues.

Of the governmental fund balance, \$252,000 is nonspendable, \$7.6 million is restricted in the school food services program, \$23.7 million is restricted for capital projects, and \$1.4 million is restricted for debt service. An additional \$297,000 is committed to capital projects, and \$1.1 million is assigned to school activities.

#### **General Fund Budgetary Highlights**

In developing the fiscal year 2024 budget, the administration addressed the need to maintain a quality education for all students. The School Board set priorities, or filters, through which all decisions were to be assessed. These filters were to: maximize classroom impact with an efficient use of positions, examine student needs to determine positions and resources, have a reasonable and balanced approach with revenues and expenditures, and maintain adequate reserves to meet cash flow requirements.

The most significant budgeted fund is the general fund. The original budget of revenues and expenditures was increased to account for the State of Georgia financing an increase to the required employer contribution for certified employee health insurance contributions. The School District added instructional positions and planned to absorb a portion of positions in instruction, pupil services, and administration that had initially been funded by the federal ESSER revenues in fiscal years 2022 and 2023.

Actual revenues were 1% or \$1.4 million higher the final budget. Actual local revenue was \$1.6 million more than the final budget, primarily from excess interest earnings of \$702,000 and vehicle taxes of \$458,000. Federal revenues were \$234,000 less than budget as actual E-rate revenue and Medicaid revenue received were lower than budget estimates.

Actual expenditures were under the final adjusted budget by less than 1%, or \$460,000. Most of the expenditure savings were in maintenance and operations and student transportation. Maintenance and operations were under budget due to a strategic effort to achieve energy efficiencies with heating, ventilation, and air conditioning (HVAC). The School District implemented tighter temperature control settings that created savings at every facility. Student transportation was under budget because of conservative cost projections at the time of budget development. Pupil services was higher than the adjusted budget in the area of school activities and athletics.

Overall, the general fund fund balance and current revenues adequately cover current expenditures as well as some capital outlay activity. There were no significant changes in regards to funding sources.

#### **General Fund Balance**

The fiscal year 2024 unassigned fund balance of \$22.1 million reflects an 8% or \$1.9 million decrease from fiscal year 2023. The Dalton Board of Education allows for a higher fund balance for its commitment to fiscal responsibility and long-term planning. This financial position enables the School District to safeguard against future uncertainties and provides flexibility to be able to respond to unforeseen changes in financial condition whether due to revenue shortfall or unexpected increases in expenditures. The fund balance will continue to be used for transfers to the capital projects fund to support the commitments of equipment and facility infrastructure.

The unrestricted, unassigned fund balance gives the School District a fund balance that is equivalent to 78 days of general fund expenditures. This fund balance remains adequate to minimize the likelihood of the School District entering the short-term debt market to pay for current operating expenditures. The fund balance is also sufficient to manage some uncertainty related to all sources of revenues and unanticipated expenditure needs caused by rising prices due to inflation.

#### **Other Major Funds**

In fiscal year 2024, the federal programs special revenue fund, school food services special revenue fund, and ESPLOST capital projects fund were considered major funds. Additionally, the School District is reporting the capital projects fund and the debt service fund as major funds, as they have been major funds in prior years, and are significant to the users of the financial statements.

The federal programs special revenue fund accounts for most federal revenues received by the School District and the corresponding expenditures. Federal program revenues totaled \$6.2 million, which is a 57% or \$8.1 million decrease from fiscal year 2023. The decrease is attributable to the sunsetting of a portion of the federal relief funds under the Coronavirus Aid, Relief and Economic Security ("CARES") Act and the American Rescue Plan ("ARP") that were to supplement the School District operations amidst the coronavirus pandemic.

The school food service fund reports federal, state and local sources of revenue in relation to the operation of the school nutrition program. School food service revenues totaled \$6.6 million, which is a 3% or \$235,000 decrease from fiscal year 2023. Federal revenues decreased \$314,000, offset by paid meal revenues increasing by \$87,000. The federal revenue decrease is due to the ESSER funding that was received in fiscal year 2023 that was no longer continued in fiscal year 2024. School food service expenditures increased by 5% or \$279,000 from the previous fiscal year. Expenditure increases were predominately in increased food costs and professional services, as well as some salary improvements and employer benefit costs.

The School District uses capital projects funds to account for school construction and improvement projects. The School District has two capital projects funds – the ESPLOST fund which reports construction activity funded by the education special purpose local option sales tax, and the capital projects fund which reports general construction activity of the School District.

Since 1997, the School District has relied on ESPLOST proceeds as a primary funding source for capital projects. In March 1997, the Whitfield County voters approved the first five-year ESPLOST to fund critical educational infrastructure and improvements. The ESPLOST has since been renewed by the voters five additional times.

The sales tax proceeds are distributed proportionately between Whitfield County Schools and the School District based on the full-time equivalent (FTE) of student count. The county-wide revenue cap for the current ESPLOST VI is \$140 million over its five-year term, of which the School District is projected to receive up to \$51.9 million. School District's financial planning assumes \$41.9 million in sales tax revenue, which will be allocated to fund priority capital projects and debt service obligations.

Fiscal year 2024 ESPLOST sales tax revenue totaled \$9.7 million compared to \$9.6 million in fiscal year 2023. This 1% increase of \$116,000 is due to inflationary costs of taxable goods or services that are occurring in Whitfield County, the State of Georgia, and throughout the nation.

There were \$7.2 million in ESPLOST expenditures in fiscal year 2024. The most sizeable capital projects totaled \$2.8 million at Dalton High School for gym and cafeteria renovations and to finish the athletic turf and track field stadium project. Additional capitalized projects included \$845,000 at Roan Elementary for temporary mobile classroom pods and \$344,000 for pool renovations. Other ESPLOST expenditures which were not capitalized but were spent in accordance with ESPLOST parameters totaled \$2.0 million and included various technology, furniture, equipment, and improvements. Additionally, \$4.3 million was transferred out of the ESPLOST fund to service debt used to prefund ESPLOST projects in previous years.

The capital projects fund is funded by the general obligation bond from 2018, investment earnings, and transfers from the general fund to support capital undertakings. In fiscal year 2024, the School District expended \$1.7 million in the capital projects. The most sizable capital project in the current year was land and a bus garage, totaling \$1.4 million.

The debt service fund accounts for monies received from various sources for the purposes of servicing the School District's outstanding debt. The debt service fund revenues for fiscal year 2024 of \$2.1 million is the same as the previous year. Revenues include local property taxes, vehicle taxes, and intangible and transfer taxes. Principal payments of \$3.7 million on the long-term debt increased in accordance with the payment terms on the debt schedule. Interest payments of \$2.6 million has a 23% increase from the previous fiscal year, in accordance with the debt schedules.

#### **Capital Assets**

Capital assets increased 1% from the prior year, from \$161.0 million in 2023 to \$162.2 million in 2024. The School District reported additions of \$8.9 million for fiscal year 2024, which included a noncash addition of \$900,000 from the City of Dalton transfer of property. Dalton Public Schools also made investments in instructional equipment, technology infrastructure, and food service equipment. See Note 5 of the basic financial statements for additional information on capital assets.

	2024	2023
Capital assets, not depreciable		
Land	\$ 16,717,822	\$ 15,865,223

#### **Debt Administration**

At June 30, 2024, the School District had noncurrent liabilities in the form of financed purchases, SBITA obligations, intergovernmental agreement revenue bonds, general obligation bonds, and compensated absences. Although the School District has a policy that enables employees to accumulate sick leave, the School District does not compensate employees for unused sick leave. See Note 7 of the basic financial statements for additional information on debt.

	Be	ginning						Ending	Ι	Oue within
	ba	balance		Additions Reductions		1	balance		one year	
Financed purchases	\$	112,221	\$	93,016	\$	(68,235)	\$	137,002	\$	55,571

#### Factors Bearing on the School District's Future

Education funding from the State of Georgia is anticipated to improve. Although school districts have faced austerity reductions since 2003, these cuts have been largely absent since fiscal year 2019, with the exception of fiscal year 2021. The School District has experienced a cumulative loss of \$38.8 million in state revenue, net of federal stimulus funding. However, one-time federal stimulus funding in fiscal years 2021 through 2024 helped offset recent state revenue shortfalls.

Public school districts across the nation were awarded federal funds in response to the novel coronavirus pandemic. The federal funding was authorized under the ESSER Fund. Dalton Public Schools was awarded \$28 million, which covered specific expenditures from fiscal year 2020 through fiscal year 2024. Of this, the School District spent \$26.5 million from fiscal year 2020 through 2023. In fiscal year 2024, the School District completed its ESSER federal fund expenditures, spending \$853,000. These expenditures continued to support a smaller portion of instructional and support positions across the School District to address student's academic, social, and emotional needs. Additionally, the School District used these funds to invest in curriculum resources for literacy, numeracy, science, social studies, and dual language immersion.

Since 2011, the School District has received equalization grant funding to balance property wealth disparities among districts. The funding has fluctuated over the past fourteen years. The School District received \$600,000 in 2011 and \$1.1 million in 2012. In 2013, state officials revised the funding formula due to budget constraints, reducing the grant to \$537,000 in 2013. Funding declined further in 2014, and the School District was excluded from equalization funding entirely in fiscal year 2017. The School District received \$1.4 million in fiscal year 2018, with amounts increasing annually to a peak of \$5.6 million in fiscal year 2022, before declining to \$4.5 million in fiscal year 2023. In fiscal year 2024 equalization increased to \$5.2 million, with a nominal increase projected for fiscal year 2025 to \$5.4 million.

Real and personal property values have fluctuated since fiscal year 2013, showing an upward trend that has boosted property tax revenue. Property tax revenue in fiscal year 2024 increased 17% or \$5.6 million, compared to fiscal year 2023.

The School District's fiscal year 2025 general fund budget anticipates a substantial 19% increase in the tax digest, which is under-valued by an estimated 40%. However, new homestead exemptions are expected to result in a \$350,000 loss in local funding. Complications arose when the Whitfield County Tax Commissioner initially refused to certify the digest, delaying the issuance of property tax bills. Following court intervention, a temporary tax digest was adopted based on the 2023 property values with a 10% inflationary growth factor. For Dalton Public Schools, property inflationary growth averaged 8%, with other digest reductions causing a net taxable values increase of 3%. Despite these challenges, the Dalton Board of Education approved a millage rate increase to 9.00 mills to ensure that educational programs and school operations are not significantly impacted.

Community leaders are working to improve the quality of life and diversify the economy of Dalton City and Whitfield County. The 20% freeport exemption on business inventory, implemented in fiscal year 2011, resulted in revenue losses of \$686,000, growing to \$1.3 million in property tax revenue by fiscal year 2024. A 100% exemption on business inventory could be phased in. The School District forecasts that a 100% freeport exemption would result in an additional \$5.5 million loss in property tax revenue. Increases to the freeport exemption will be delayed for fiscal year 2025, with potential consideration for an increase in a future fiscal year.

Unemployment rates in the Dalton area, as well as the State of Georgia, continue to outperform initial predictions made during the onset of the global coronavirus pandemic. The Dalton Metropolitan Area reports an unemployment rate of 4.5% up from 3.9% in the previous year. Georgia's unemployment rate is 3.6%, compared to 3.4% in the prior year while the national unemployment rate stands at 4.2%, up from 3.8% in the previous year.

Although School District enrollment averaged 2% growth over the past decade, fiscal year 2018 saw a 3% decline, followed by no change in fiscal years 2019 and 2020. Enrollment has continued to decline during the 2020 – 2024 school years. It is anticipated that enrollment will remain flat in fiscal year 2025, reflecting national trends influenced by the global coronavirus pandemic.

The School Board and administrative staff are committed to ensuring the long-term viability of the system. For fiscal year 2025, the Dalton Board of Education is continuing to make strategic improvements to employee salary scales. In fiscal year 2025, the governor and legislature increased the state teacher salary scale by \$2,500, and the Dalton Board of Education added a 2% adjustment to the local portion of the teacher salary scale. A comparable percentage increase was applied to all other employees, with targeted adjustments made to support staff salary scales to remain competitive with local labor markets. These efforts build on prior increases. For instance, the Dalton Board of Education increased the local teacher salary scale in fiscal year 2023. Additionally, in fiscal year 2020, the governor and legislature raised the state teacher salary scale by \$3,000. Before that, a 2% adjustment to the state teacher salary scale was implemented in fiscal year 2018, marking the first cost-of-living adjustment since fiscal year 2009.

A key focus of the fiscal year 2025 budget for Dalton Public Schools is the robust implementation of Georgia's new English Language Arts performance standards. Investments included funding for a comprehensive literacy program that encompasses software, materials, books, and professional learning for elementary and middle school grade levels. More importantly, the budget allocated funds for eight new positions; seven instructional interventionists and a new district literacy administrator to lead efforts in bolstering elementary and middle school outcomes.

The School District contracts a service to provide student transportation. In December 2022, the drivers voted to unionize, and union negotiations for pay, benefits, and work conditions began shortly thereafter. In May 2023, the drivers initiated a labor strike disrupting student transportation during testing in the final weeks of the school year. The administration had already been evaluating the feasibility of transitioning the transportation operation in-house to achieve potential cost savings. To facilitate this transition, the School District made an initial investment in fiscal year 2024 by purchasing property with a bus garage facility and acquiring two school buses.

An investment in student transportation could be phased in over several years if funding becomes available or through financing via an intergovernmental agreement. The City of Dalton has the authority to incur debt on behalf of the School District, and a new debt obligation for an investment in student transportation may be considered by both entities in a future fiscal year.

On November 7, 2017, the community approved a school general obligation bond not to exceed \$50.65 million to build the new Hammond Creek Middle School for 6<sup>th</sup> and 7<sup>th</sup> grades students. The bond, financed with property taxes, aimed to address enrollment and facility capacity challenges alongside grade configuration changes at the secondary level. The project included property acquisition, site development, and school construction. The inaugural year of operation for the new facility was the 2021-2022 school year.

The vision of the School District is to provide world-class learning that prepares students for success in college, career, and civic life. While academics are important, we believe that fostering curiosity, creativity, and perseverance is equally vital to children's development. We are committed to offering an education that reflects these values. Through strategic program assessments and focused funding, we work to realize this vision while minimizing the financial burden on taxpayers.

#### **Requests for Information**

This financial report is designed to provide a general overview of the City of Dalton Board of Education's finances for all those with an interest in the School District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of Dalton Board of Education, Chief Financial Officer, P.O. Box 1408, Dalton, Georgia 30722-1408.

## CITY OF DALTON BOARD OF EDUCATION RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2024

Net changes in fund balances - governmental funds					
Amounts reported for governmental activities in the statement of activities are different because:					
Elimination of transfers between governmental funds:					
Transfers in	(5,929,941)				
Transfers out	5,929,941		-		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period.					
Capital outlay	8,948,328				
Depreciation expense	(8,674,776)		273,552		
Donations of capital assets not reported at the fund level.			900,000		
Tax revenues that are reported in the statement of activities that do not provide current financial resources are not reported as revenue in the governmental funds.			(49,860)		
The issuance of long-term debt provides current financial resources to governmental funds, while repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets.					
Proceeds from issuance of debt	(647,716)				
Principal payments of debt	3,948,991				
Amortization of bond premiums	212,138		3,513,413		
Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. These items include:					
Net change in accrued compensated absence liability	(2,957)				
Net change in accrued interest payable	124,419				
On behalf payments from the State of Georgia for pension contributions	158,632				
Net change in pension related allocations, contributions, and expenses	(11,908,954)				
Net change in OPEB related allocations, contributions, and expenses	2,940,011		(8,688,849)		
Change in net position - governmental activities		\$	(6,853,860)

## Note 1 Summary of Significant Accounting Policies

## **Reporting Entity**

The City of Dalton Board of Education ("School District") provides for a system of education for the children in the City of Dalton, Georgia ("City") as authorized by its charter. The School District was established under the laws of the State of Georgia and operates under the guidance of a school board elected by the voters ("School Board") and a Superintendent appointed by the School Board. The School Board is comprised of five members who have decision making authority, the power to designate management, the ability to significantly influence operations, the authority to levy taxes or incur bonded indebtedness, and the authority to set its budget without approval by the City government or any other entity. Accordingly, the School District is a primary government and consists of all the organizations that compose its legal entity. The School District has no component units.

### **Basis of Presentation**

The accompanying financial statements of the School District have been prepared in conformity with generally accepted accounting principles ("GAAP") as prescribed by the Governmental Accounting Standards Board ("GASB"). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles. The most significant of the School District's accounting policies are described below.

The School District's basic financial statements are collectively comprised of the district-wide financial statements, fund financial statements, and notes to the basic financial statements. The district-wide financial statements focus on the School District as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the information's usefulness.

**District-wide Statements** - The statement of net position and the statement of activities display information about the financial activities of the overall School District, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. For the year ended June 30, 2024, the School District had no activities accounted for as business-type activities.

The statement of net position presents the School District's non-fiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Net position is reported in the following three categories:

- Net investment in capital assets Net investment in capital assets represents the School District's
  total investment in capital assets, net of accumulated depreciation, net of outstanding debt
  obligations related to those capital assets. To the extent debt has been incurred but not yet
  expended for capital assets, such amounts are not included as a component of net investment in
  capital assets.
- Restricted net position Restricted net position represents resources for which the School District is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties or imposed by law through constitutional provisions or enabling legislation.

## Note 1 Summary of Significant Accounting Policies - Continued

• Unrestricted net position - Unrestricted net position consists of resources not meeting the definition of the two preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be modified or removed.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the School District's governmental activities.

Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses (expenses of the School District related to the administration and support of the School District's programs, such as office and maintenance personnel and accounting) are not allocated to programs.

Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

**Fund Financial Statements** -The fund financial statements provide information about the School District's funds, including fiduciary funds. Eliminations have been made to minimize the double counting of internal activities. Separate financial statements are presented for governmental and fiduciary funds. The emphasis of fund financial statements is on major governmental funds, with each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The School District reports the following major governmental funds:

- The general fund is the School District's primary operating fund. It accounts for and reports all financial resources of the School District not accounted for and reported in another fund.
- The federal programs fund is a special revenue fund which accounts for and reports most federal funding received by the School District.
- The school food services fund is a special revenue fund which accounts for and reports the activity of the school nutrition programs, both at the school and district-wide levels.
- The capital projects fund accounts for and reports the general acquisition and construction of capital assets or improvement of major capital projects. The projects accounted for in this fund are not funded by ESPLOST revenue.
- The education special purpose local option sales tax fund is a capital projects fund which accounts for and reports financial resources including education special purpose local option sales tax ("ESPLOST") that are restricted, committed, or assigned to expenditure for capital outlays, including acquisition or construction of capital facilities or other capital assets.
- The debt service fund accounts for and reports financial resources that are restricted, committed, or assigned, including property taxes legally restricted for the payment of general long-term principal and interest.

## Note 1 Summary of Significant Accounting Policies - Continued

Additionally, the School District provides additional information on the following nonmajor governmental funds: the lottery programs special revenue fund and the other grants special revenue fund.

The School District has two funds which are accounted for as fiduciary funds: the student activity custodial fund and the Family Connection custodial fund. Custodial funds are used to report resources that the School District holds for others in a custodial capacity.

## **Basis of Accounting**

The basis of accounting determines when transactions are reported in the financial statements. The district-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the School District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, vehicle taxes, sales taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from vehicle taxes and sales taxes is recognized in the fiscal year in which the underlying transaction (sale) takes place. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The School District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School District considers all revenues reported in the governmental funds to be available if they are collected within 120 days after year-end (60 days for property taxes). Property taxes, vehicle taxes, sales taxes, and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities and acquisitions under leases and SBITA obligations are reported as other financing sources.

The School District funds certain programs by a combination of specific cost-reimbursement grants, categorical grants, and general revenues. Thus, when program costs are incurred, there is both restricted and unrestricted net position available to finance the program. It is the School District's policy to first apply grant resources to such programs, followed by cost-reimbursement grants, then general revenues.

## Note 1 Summary of Significant Accounting Policies - Continued

## **New Accounting Pronouncements**

In fiscal year 2024, the School District adopted GASB Statement No. 100, Accounting Changes and Error Corrections. The objective of this statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent and comparable information for making decisions or assessing accountability. The adoption of this statement did not have a material impact on the School District's financial statements. This statement will be applied prospectively.

## **Cash and Investments**

The School District's cash consists of cash on hand, demand deposits, non-negotiable certificates of deposit, and short-term investments with original maturities of three months or less from the date of acquisition in authorized financial institutions. The Official Code of Georgia Annotated ("OCGA") authorizes the School District to deposit its funds in one or more solvent banks, insured by Federal savings and loan associations or insured chartered building and loan associations.

Investments made by the School District are reported at fair value. The School District can invest its funds as permitted by OCGA §36-83-4. In selecting among options for investment or among institutional bids for deposits, the highest rate of return shall be the objective, given equivalent conditions of safety and liquidity.

The School District does not have formal investment policies that address credit risks, concentration of credit risks, and interest rate risks. Foreign currency risk does not apply to the School District.

Investments made by the School District in nonparticipating interest-earning contracts are reported at cost. Participating interest-earning contracts and money market investments with a maturity at purchase of one year or less are reported at amortized cost. All other investments are reported at fair value. For accounting purposes, certificates of deposit are classified as cash as they are not subject to withdrawal limitations.

Restricted cash refers to funds held by the School District which are limited as to use for debt service, in accordance with the terms of debt agreements. See Note 7 for additional information.

### Receivables

Receivables consist of amounts due from property and sales taxes, grant reimbursements due from federal, state, or other grants for expenditures made but not yet reimbursed, and other receivables disclosed from information available. Receivables are recorded when either the asset or revenue recognition criteria has been met. Receivables recorded on the basic financial statements do not include any amounts which would necessitate the need for an allowance for uncollectible receivables.

Due to other funds and due from other funds consist of activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year.

## Note 1 Summary of Significant Accounting Policies - Continued

## **Inventories**

On the basic financial statements, inventories of donated food commodities used in the preparation of meals are reported at their federally assigned value and purchased food inventories are reported at cost, calculated on a first in-first out basis. The School District uses the consumption method to account for inventories whereby donated food commodities are recorded as an asset and as revenue when received, and expenses/expenditures are recorded as the inventory items are used. Purchased foods are recorded as an asset when purchased and expenses/expenditures are recorded as the inventory items are used.

## **Prepaid Items**

Payments made to vendors for services that will benefit future accounting periods are recorded as prepaid items in both the district-wide and governmental fund financial statements.

## **Restricted Assets**

Certain resources set aside for repayment of debt are classified as restricted assets on the statement of net position because their use is limited by applicable debt statutes, e.g. debt service sinking funds.

## **Capital Assets**

Capital assets are reported in the governmental activities column in the district-wide financial statements. Capital assets are defined by the School District as assets with an initial, individual cost of more than \$5,000 (land is capitalized regardless of cost) and an estimated useful life in excess of one year. Purchased and constructed capital assets are valued at cost where historical records are available and at estimated historical cost based on appraisals or deflated current replacement cost where no historical records exist. Donated capital assets are recorded at fair value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of assets or materially extend the useful lives of the assets is not capitalized. The School District does not capitalize book collections or works of art. Disposals are deleted at depreciated recorded cost. Depreciation is computed using the straight-line method for all assets except land, and is used to allocate the actual or estimated historical cost of capital assets over estimated useful lives. During the fiscal year under review, no events or changes in circumstances affecting a capital asset that may indicate impairment were known to the School District.

Capital acquisition and construction are recorded as expenditures in the governmental fund financial statements at the time of purchase (including ancillary charges), and the related assets are reported as capital assets in the governmental activities column in the district-wide financial statements.

## Note 1 Summary of Significant Accounting Policies - Continued

Capitalization thresholds and estimated useful lives of capital assets reported in the district-wide financial statements are as follows:

	C	Capitalization	Estimated	
Category		Threshold	Useful Life	
Buildings - permanent	\$	50,000	40 years	
Buildings - temporary		10,000	15 years	
Land improvements		25,000	15 years	
Building improvements	50,000			
Kitchen equipment		5,000	15 years	
Recreational and athletic equipment		5,000	10 years	
Buses and heavy trucks		5,000	10 years	
Custodial and grounds equipment		5,000	5 years	
Instructional and other equipment		5,000	5 years	
Cars and light trucks		5,000	5 years	
Furniture		5,000	5 years	
Technology and hardware		5,000	5 years	
Intangible assets		250,000	15 years	

## **Intangible Right-to-Use Assets**

Leases, as a lessee, are included as intangible right-to-use assets and lease obligations on the Statement of Net Position. Subscription-based information technology arrangements ("SBITA") result in an intangible right-to-use subscription asset and a subscription liability on the Statement of Net Position. Intangible right-to-use assets arising from lease obligations and SBITAs are included with other capital assets on the Statement of Net Position.

An intangible right-to-use asset represents the School District's right to use an underlying asset for the lease or subscription term. Lease and subscription obligations represent the School District's liability to make lease and subscription payments arising from the lease or subscription agreements. Intangible right-to-use assets, lease obligations, and subscription liabilities are recognized based on the present value of lease or subscription payments over the lease term, where the initial term exceeds 12 months. Residual value guarantees and the value of an option to extend or terminate a lease or subscription are reflected to the extent it is reasonably certain to be paid or exercised. Variable payments based on future performance or usage are not included in the measurement of the lease or subscription liability. Intangible right-to-use assets are amortized using a straight-line basis over the shorter of the lease or subscription term or useful life of the underlying asset. Prepayments made before the commencement of the lease or subscription are reported as intangible right-to-use assets-in-progress.

## Note 1 Summary of Significant Accounting Policies - Continued

Capitalization thresholds of intangible right-to-use assets are included with other capital assets, and are reported in the district-wide statements are as follows:

	Capi	italization
Category	Th	reshold
Equipment	\$	5,000
Technology and hardware		5,000
Subscription assets		150,000

## **Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of net position and/or the balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of resources that applies to a future period(s) and therefore will not be recognized as an outflow of resources (expense/expenditure) until that time.

In addition to liabilities, the statement of net position and/or the balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of resources that applies to a future period(s) and therefore will not be recognized as an inflow of resources (revenue) until that time.

## **Compensated Absences**

Compensated absences represent obligations of the School District relating to employees' rights to receive compensation for future absences based upon service already rendered. Vacation leave of between 10-20 days, dependent on length of service, is awarded on a fiscal year basis to all full-time personnel employed on a twelve-month basis. No other employees are eligible to earn vacation leave. Vacation leave not utilized during the fiscal year may not be carried over to the next fiscal year.

Sick leave of 1.25 working days for each completed month of service is awarded on a fiscal year basis to all full-time personnel employed on a twelve-month basis. No other employees are eligible to earn sick leave. Sick leave not utilized during the fiscal year may be carried over to the next fiscal year, providing such leave does not exceed 60 days. Upon terminating employment, the School District pays all unused and unforfeited sick leave benefits to employees. Accordingly, sick leave benefits are accrued as a liability in the district-wide financial statements. A liability for these amounts is reported in the governmental fund financial statements only if they have matured, for example, as a result of employee resignations and retirements by fiscal-year end. Otherwise, accumulated unpaid sick leave costs are not vested and are not accrued in any fund, but are recognized as expenditures or expenses when paid.

Members of the Teachers Retirement System of Georgia ("TRS") may apply unused sick leave toward early retirement. The liability for early retirement will be borne by TRS rather than by the individual school districts. Otherwise, sick leave does not vest with the employee, and no liability is reported in the School District's financial statements.

## Note 1 Summary of Significant Accounting Policies - Continued

## **Noncurrent Liabilities and Bond Premiums**

The School District issues and incurs long-term obligations to provide funds for the acquisition, construction, renovation, and maintenance of major capital facilities. In the district-wide financial statements, outstanding debt is reported as a liability. Bond premiums and discounts and the difference between the reacquisition price and the net carrying value of refunded debt are deferred and amortized over the life of the bonds using the straight-line method. To conform to generally accepted accounting principles, bond premiums and discounts should be amortized using the effective interest method. The effect of this deviation is deemed to be immaterial to the fair presentation of the basic financial statements. Bond issuance costs are recognized as an outflow of resources in the fiscal year in which the bonds are issued.

In the governmental fund financial statements, the School District recognizes the proceeds of debt and premiums as other financing sources of the current period. Bond issuance costs are reported as debt service expenditures.

## **Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers Retirement System of Georgia ("TRS"), the Public School Employees Retirement System ("PSERS"), and the Employees' Retirement System ("ERS"), and additions to/deductions from TRS's, PSERS's, and ERS's fiduciary net positions have been determined on the same basis as they are reported by TRS, PSERS, and ERS, respectively. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. See Note 8 for additional information.

## Postemployment Benefits Other Than Pensions ("OPEB")

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Georgia School Employees Postemployment Benefit Fund ("School OPEB Fund") and the State Employees' Assurance Department Retired and Vested Inactive Members Trust Fund ("SEAD-OPEB"), and additions to/deductions from School OPEB Fund's and SEAD OPEB's fiduciary net positions have been determined on the same basis as they are reported by School OPEB Fund and SEAD OPEB, respectively. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. See Note 10 for additional information.

## Note 1 Summary of Significant Accounting Policies - Continued

## **Fund Balances**

Fund balances for governmental funds are reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

The School District's fund balances are classified as follows:

- 1) **Nonspendable fund balance** Consists of resources that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.
- 2) **Restricted fund balance** Consists of resources that can be used only for specific purposes pursuant to constraints either (1) externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or (2) imposed by law through constitutional provisions or enabling legislation.
- 3) Committed fund balance Consists of resources that can be used only for specific purposes pursuant to constraints imposed by formal action of the School Board. The School Board is the School District's highest level of decision-making authority, and the formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a resolution approved by the School Board. Committed fund balance also should incorporate contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.
- 4) **Assigned fund balance** Consists of resources constrained by the School District's intent to be used for specific purposes, but are neither restricted nor committed. The intent should be expressed by the School Board, the budget or finance committee, or the Superintendent, or designee, to assign amounts to be used for specific purposes.
- 5) **Unassigned fund balance** Consists of resources not meeting the definition of any aforementioned category. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, it may be necessary to report a negative unassigned fund balance.

When multiple categories of fund balance are available for expenditure, the School District will start with the most restricted category and spend those funds first before moving down to the next category with available funds.

Nonspendable fund balances and restricted fund balances are considered restricted net position on the statement of net position. Committed, assigned, and unassigned fund balances are considered unrestricted net position on the statement of net position.

## Note 1 Summary of Significant Accounting Policies - Continued

A schedule of fund balances is as follows:

							Education			
						Sp	ecial Purpose			
		Sc	hool Food		Capital	L	ocal Option			
Fund Balances:	 General		Services	I	Projects	-	Sales Tax	Deb	t Service	 Total
Nonspendable:										
Inventory	\$ -	\$	251,778	\$	-	\$	-	\$	-	\$ 251,778
Restricted for:										
Capital projects	-		-		100,954		23,674,591		-	23,775,545
Debt service	-		-		-		-	1,	365,660	1,365,660
Food services	-	7	7,591,694		-		-		-	7,591,694
Committed to:										
Capital projects	-		-		297,143		-		-	297,143
Assigned to:										
School activities	1,071,986		-		-		-		-	1,071,986
Unassigned	 22,130,723									22,130,723
Total Fund Balances	\$ 23,202,709	\$ 7	7,843,472	\$	398,097	\$	23,674,591	\$ 1,	365,660	\$ 56,484,529

## **Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## **Property Taxes**

The Mayor and Council of the City of Dalton, Georgia, fixed the property tax levy for the 2023 tax digest year (calendar year) on January 1, 2023 (levy date). Tax bills are typically mailed on October 20 (lien date) and are considered due upon receipt by the taxpayer. The actual due date is based on a period ending 60 days after the tax billing. Taxes collected within the current fiscal year or within 60 days after year end on the 2023 tax digest are reported as revenue in the governmental funds for the year ended June 30, 2024. The Whitfield County, Georgia Tax Commissioner bills and collects the property taxes for the School District, withholds a percentage of taxes collected as a fee, and remits the remaining amount to the School District. Property tax revenues, net of the collection fee, combined with penalties and interest received on delinquent taxes, at the fund reporting level, totaled \$37,883,859 for the year ended June 30, 2024.

The tax millage rate levied for the 2023 tax year for School District maintenance and operations was 8.000 mils and for School District debt service was 0.460 mils (a mil equals \$1 per thousand dollars of assessed value).

Title ad valorem tax revenues and vehicle taxes, at the fund reporting level, totaled \$1,977,874 for the year ended June 30, 2024.

## Note 1 Summary of Significant Accounting Policies - Continued

## **Sales Taxes**

Education special purpose local option sales tax, at the fund reporting level, totaled \$9,718,452 for the year ended June 30, 2024, and is to be used for capital outlay for educational purposes. This sales tax was authorized by local referendum and the sales tax must be reauthorized at least every five years.

The City of Dalton Building Authority issued revenue bonds during fiscal year 2018 and again during fiscal year 2023 to provide advance funding for capital outlay projects associated with the issuance of ESPLOST. In fiscal year 2024, the School District transferred \$4,285,489 of ESPLOST proceeds to the City of Dalton Building Authority for debt service on the revenue bonds. Additionally, the School District transferred \$60,533 of ESPLOST proceeds to the school food services fund for the purchase of referendum approved equipment. See Note 7 for additional information.

## Note 2 Budgetary Data

The budget is a complete financial plan for the School District's fiscal year, and is based upon careful estimates of expenditures together with probable funding sources. The budget is legally adopted each year for the general, special revenue, debt service, and capital projects funds. There is no statutory prohibition regarding over expenditure of the budget at any level. The budgets for all governmental funds, except for the various school activity accounts (commonly referred to as principal accounts) reported in the general fund, are prepared and adopted by fund, function, and object. The legal level of budgetary control was established by the School Board at the aggregate fund level. The budgets are prepared in accordance with accounting principles generally accepted in the United States of America.

The budgetary process begins with the School District's administration presenting an initial budget for the School Board's review. The administration makes revisions as necessary based on the School Board's guidelines and a tentative budget is approved. After approval of this tentative budget by the School Board, such budget is advertised at least once in a newspaper of general circulation in the locality and on the School District's website. At the next regularly scheduled meeting of the School Board after advertisement, the School Board receives comments on the tentative budget, makes revisions as necessary, and adopts a final budget. The approved budget is then submitted, in accordance with provisions of OCGA § 20-2-167(c), to the Georgia Department of Education. The School Board may increase or decrease the budget at any time during the year. All unexpended budget authority lapses at fiscal year-end.

See the statements of revenues, expenditures, and changes in fund balance - budget and actual for all legally adopted funds for a detail of any over/under expenditures by fund during the fiscal year.

## **Note 3** Deposits and Investments

## **Collateralization of Deposits**

OCGA § 45-8-12 provides that there shall not be on deposit at any time in any depository for a time longer than ten days a sum of money which has not been secured by surety bond, by guarantee of insurance, or by collateral. The aggregate of the face value of such surety bond and the fair value of securities pledged shall be equal to not less than 110% of the public funds being secured after the deduction of the amount of deposit insurance. If a depository elects the pooled method (OCGA § 45-8-13.1) the aggregate of the fair value of the securities pledged to secure a pool of public funds shall be not less than 110% of the daily pool balance.

## **Note 3** Deposits and Investments - Continued

Acceptable security for deposits consists of any one of or any combination of the following:

- (1) Surety bond signed by a surety company duly qualified and authorized to transact business within the State of Georgia,
- (2) Insurance on accounts provided by the Federal Deposit Insurance Corporation,
- (3) Bonds, bills, notes, certificates of indebtedness, or other direct obligations of the United States or of the State of Georgia,
- (4) Bonds, bills, notes, certificates of indebtedness, or other obligations of the counties or municipalities of the State of Georgia,
- (5) Bonds of any public authority created by the laws of the State of Georgia, providing that the statute that created the authority authorized the use of the bonds for this purpose,
- (6) Industrial revenue bonds and bonds of development authorities created by the laws of the State of Georgia, and
- (7) Bonds, bills, notes, certificates of indebtedness, or other obligations of a subsidiary corporation of the United States government, which are fully guaranteed by the United States government both as to principal and interest or debt obligations issued by or securities guaranteed by the Federal Land Bank, the Federal Home Loan Bank, the Federal Intermediate Credit Bank, the Central Bank for Cooperatives, the Farm Credit Banks, the Federal Home Loan Mortgage Association, and the Federal National Mortgage Association.

## **Collateralization of Deposits**

Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District's deposit policy for custodial credit risk is as follows: excluding bond proceeds, the maximum amount which may be invested with any one financial institution shall not be greater than 50% of the total portfolio. Before the Superintendent or finance officer invests any surplus funds other than with Georgia Fund 1, a competitive bid process shall be conducted. If a specific maturity date is required, either for cash flow purposes or for compliance with maturity guidelines, bids will be requested for instruments which meet the maturity requirement. If no specified maturity is required, the Superintendent or finance officer shall endeavor to obtain the best available return on the investment. The Superintendent will utilize the Georgia Fund 1 anytime the rate of return is higher than the rate determined through requests from banks.

At June 30, 2024, the School District held unrestricted deposits with a carrying amount of \$8,962,789 and a bank balance of \$10,047,872. The bank balances were fully covered by either deposit insurance and/or collateral held in the School District's name.

At June 30, 2024, the School District held restricted deposits with a carrying amount of \$1,340,966 and a bank balance of \$1,341,010. The bank balances were fully covered by either deposit insurance and/or collateral held in the School District's name.

## **Investments**

At June 30, 2024, the carrying value of the School District's unrestricted investments was \$41,215,127, and are invested in Georgia Fund 1 in accordance with the School District's investment policies.

## **Note 3** Deposits and Investments - Continued

The School District's unrestricted investments are invested in Georgia Fund 1. Georgia Fund 1 is not registered with the SEC as an investment and does not operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940. The investment is valued at the pool's share price, \$1.00 per share. The pool is rated AAAf/S1 by Fitch. The weighted average maturity for Georgia Fund 1 on June 30, 2024 was 33 days.

Georgia Fund 1 (a local government investment pool) is administered by the State of Georgia, Office of the State Treasurer, and is not required to be categorized since the School District did not own any specific identifiable securities in the pool. The investment policy of the State of Georgia, Office of the State Treasurer for Georgia Fund 1 does not provide for investment in derivatives or similar investments. The State Depository Board prescribes cash management policies and procedures for the State of Georgia and provides oversight for Georgia Fund 1. Additional information on Georgia Fund 1 is disclosed in the State of Georgia Annual Comprehensive Financial Report. This audit can be obtained from the Georgia Department of Audits and Accounts at https://sao.georgia.gov/statewide-reporting/acfr.

Interest rate risk - Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The School District does not have a formal policy for managing interest rate risk.

Custodial credit risk - Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the School District will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. As of June 30, 2024, all of the School District's investments were properly collateralized as required by state statutes.

Credit quality risk - Credit quality risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law limits investments to those prescribed by O.C.G.A. §36-83-4. The School District does not have a formal policy that would further limit its investment choices or one that addresses credit risk.

Concentration of credit risk - Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The School District does not have a formal policy for managing concentration of credit risk.

## Restricted Assets - Cash

The restricted assets account represents the cash balance in a sinking fund for the payment of general obligation bond debt, as further disclosed in Note 7.

## **Note 4** Nonmonetary Transactions

The School District receives food commodities from the United States Department of Agriculture ("USDA") for school breakfast and lunch programs. These commodities are recorded at their federally assigned value. See Note 1 for more information on inventories.

Note 5 Capital Assets and Intangible Right-to-Use Assets

Capital asset and intangible right-to-use asset activity for the fiscal year ended June 30, 2024, is as follows:

	Beginning		Reclassifications	Ending	
	Balance	Additions	and Disposals	Balance	
Governmental activities:					
Nondepreciable capital assets					
Land	\$ 15,865,223	\$ 852,599	\$ -	\$ 16,717,822	
Construction in progress	4,472,008		(4,472,008)		
Total	20,337,231	852,599	(4,472,008)	16,717,822

## Note 5 Capital Assets - Continued

Current year depreciation and amortization expense by function is as follows:

Governmental activities:	
Instruction	\$ 5,290,041
Pupil services	577,393
Improvement of instructional services	1,363
School administration	659,751
Maintenance and operation of plant	1,866,484
Student transportation	10,174
Other support services	135,611
Food services operation	 133,959
Total depreciation expense - governmental activities	\$ 8,674,776

## Note 6 Interfund Balances and Transfers

Due to and due from other funds are recorded for interfund receivables and payables which arise from interfund transactions and from interfund loans of cash. The general fund provides short term funding to other funds during the course of the year when cash balances are unavailable or are not maintained in those funds. All balances are anticipated to be repaid within one year. Interfund balances at June 30, 2024 consisted of the following:

	]	Due From	Due To		
	_ O	ther Funds	Other Funds		
General fund	\$	5,283,683	\$	4,848,286	
Federal programs fund		-		482,677	
School food services		-		297,759	
Capital projects fund		20,710		32,120	
ESPLOST fund		-		18,323	
Debt service fund		16,440		-	
Nonmajor governmental funds		358,332			
Total governmental funds	\$	5,679,165	\$	5,679,165	

## Note 6 Interfund Balances and Transfers - Continued

Significant interfund transfers during the year included the transfer of sales tax revenues to service debt borrowed as funding for ESPLOST projects and the transfer of general revenues to fund the purchase of capital projects. Interfund transfers for the year ended June 30, 2024 consisted of the following:

		Transfe			
Transfer To	G	eneral fund	ES	PLOST fund	Total
Federal programs fund	\$	193	\$	-	\$ 193
School food services fund		3,339		60,534	63,873
Capital projects fund		1,427,174		-	1,427,174
Debt service fund		120,368		4,285,488	4,405,856
Nonmajor governmental funds		32,845			 32,845
Total governmental funds	\$	1,583,919	\$	4,346,022	\$ 5,929,941

## Note 7 Long Term Debt

General Obligation Bonds - The School District issued general obligation bonds as a public offering in April 2018 to obtain funding for the purpose of acquiring, constructing, and equipping buildings and facilities. The principal amount is \$40,380,000, with an associated premium of \$6,417,189, which will be amortized to interest expense over the life of the debt. The interest rate on the bonds is 5%, with the final principal payment due in June 2048. The School District repays general obligation bonds from voter-approved property taxes. General obligation bonds are direct obligations and pledge the full faith and credit of the School District.

The School District had no unused line of credit or outstanding notes from direct borrowings and direct placements related to governmental activities as of June 30, 2024. In the event the School District is unable to make the principal and interest payments using proceeds from property taxes at the current debt service millage rate, the School District will increase the education M&O millage rate. Additional security is provided by the State of Georgia Intercept Program which allows for state appropriations entitled to the School District to be transferred to the debt service fund for the payment of debt.

At June 30, 2024, general obligation bond payments due by fiscal year are as follows:

Fiscal Year	Principal
2025	\$ 895,000
2026	940,000
2027	985,000
2028	1,025,000
2029	1,080,000
2030 - 2034	6,260,000
2035 - 2039	7,990,000
2040 - 2044	10,195,000
2045 - 2048	10,155,000
Total	\$ 39,525,000

## Note 7 Long Term Debt - Continued

Intergovernmental Agreements - The School District entered into an agreement in February 2018 with the City of Dalton Building Authority to obtain funding for the purpose of acquiring, constructing, and equipping buildings and facilities. The underlying instruments of the agreement are City of Dalton Building Authority revenue bonds issued as a public offering in the principal amount of \$13,360,000, with an associated premium of \$833,258, which was amortized to interest expense over the life of the debt. The interest rate on the bonds ranged between 2% and 5%, with the final principal payment due in February 2023. The obligation of the School District was absolute and unconditional so long as any of the bonds remained outstanding. Under the terms of the agreement, the School District exercised its power of taxation to the extent necessary to pay the amounts required to be paid by the agreement.

The School District entered into another agreement in September 2022 with the City of Dalton Building Authority to obtain funding for the purpose of acquiring, constructing, and equipping buildings and facilities. The underlying instruments of the agreement are City of Dalton Building Authority revenue bonds issued as a public offering in the principal amount of \$15,930,000. The interest rate on the bonds is 2.77%, with the final principal payment due in February 2028. The obligation of the School District is absolute and unconditional so long as any of the bonds remain outstanding. Under the terms of the agreement, the School District will exercise its power of taxation to the extent necessary to pay the amounts required to be paid by the agreement.

At June 30, 2024, payments owed on intergovernmental agreements due by fiscal year, which include principal and interest, are as follows:

Fiscal Year	Principal	Interest	
2025	\$ 3,130,000	\$	361,485
2026	3,215,000		274,784
2027	3,305,000		185,729
2028	3,400,000		94,180
Total principal and interest	\$ 13,050,000	\$	916,178

Obligations Under Financed Purchases - The School District has acquired equipment under the provisions of various long-term lease agreements classified as financed purchases for accounting purposes because they provide for a bargain purchase option or a transfer of ownership by the end of the lease term. During the current fiscal year, the School District entered into lease agreements as lessee for financing the acquisition of office equipment at a cost of \$93,016. These leases qualify as financed purchases for accounting purposes and, therefore, have been recorded at the present value of the future minimum lease payments as of the dates of inception. The incremental interest rate used to discount all financed purchases is 0%. All cost and related amortization expense reported on the lease assets are included in capital assets and depreciation expense, as disclosed in Note 5.

## Note 7 Long Term Debt - Continued

Payments shall be made from the School District's general fund. At June 30, 2024, finance purchase payments due by fiscal year, which include principal and interest, are as follows:

Fiscal Year	Principal		Interest	
2025	\$ 55,571		\$	-
2026	43,652			-
2027	20,161			-
2028		17,526		-
2029		92		-
Total principal and interest	\$	137,002	\$	-

The following is an analysis of lease assets under the financed purchases as of June 30, 2024:

Equipment	\$ 350,196
Accumulated amortization	 (199,881)
	\$ 150,315

**Subscription Obligations** - The School District has entered into certain subscription-based contracts to use vendor-provided information technology ("IT") under the provisions of various contracts that convey control of the right-to-use another entity's asset for a period of time in an exchange or exchange-like transaction. These contracts are classified as SBITA obligations for accounting purposes. The subscription asset is amortized on the straight-line basis over the shorter of the useful life of the asset or the subscription based information technology arrangement term.

There were no variable payments based on performance, nor termination penalties expensed for fiscal year ended June 30, 2024.

During the current fiscal year, the School District entered into a subscription agreement for the right-to-use crisis alert software at a cost of \$554,700 with no down payment. This subscription liability qualifies as a subscription liability for accounting purposes, and, therefore, has been recorded at the present value of the future minimum subscription payments as of the date of inception.

At the commencement of the SBITA, the School District initially measures the subscription liability at the present value of payments expected to be made during the term of the SBITA. The incremental interest rate used to discount the outstanding SBITA obligation is 0%. Subsequently, the subscription liability is reduced by the principal portion of SBITA payments made. The right-to-use subscription asset is initially measured as the initial amount of the subscription liability, adjusted for SBITA payments made at or before the SBITA commencement date, plus certain initial direct costs. Subsequently, the subscription asset is amortized on the straight-line basis over the shorter of the useful life of the asset or the SBITA term.

## Note 7 Long Term Debt - Continued

Payments of the SBITA obligation shall be made from the School District's general fund. At June 30, 2024, SBITA obligations payable, due by fiscal year, which include principal and interest, are as follows:

Fiscal Year	Principal		Interest	
2025	\$	107,440	\$	-
2026		100,500		-
2027		100,500		-
2028		100,500		-
2029				-
Total principal and interest	\$	408,940	\$	

The following is an analysis of intangible right-to-use assets under the SBITA obligations as of June 30, 2024:

Subscription assets	\$ 554,700
Accumulated amortization	 (131,456)
	\$ 423,244

**Compensated Absences** - Compensated absences represent obligations of the School District relating to employees' rights to receive compensation for future absences based upon service already rendered. This obligation relates only to vesting accumulating leave in which payment is probable and can be reasonably estimated. Typically, the general fund is the fund used to liquidate this debt. The School District uses the vesting method to compute compensated absences.

Noncurrent liability activity for the year ended June 30, 2024 was as follows:

	Ве	eginning					]	Ending	Ι	Oue within
	b	alance	Α	Additions	R	eductions	b	alance		one year
Financed purchases	\$	112,221	\$	93,016	\$	(68,235)	\$	137,002	\$	55,571
SBITA obligations		-		554,700		(145,760)		408,940		107,440
Intergovernmental agreements	15	5,930,000		-		(2,880,000)	13	3,050,000		3,130,000
General obligation bonds	40	),380,000		-		(855,000)	39	9,525,000		895,000
Premium on debt	5	5,303,460		-		(212,138)	4	5,091,326		-
Compensated absences		27,597		64,625		(61,668)		30,554		30,554
Total	\$ 61	1,753,278	\$	712,341	\$	(4,222,801)	\$ 58	8,242,822	\$	4,218,565

## **Note 8 Retirement Plans**

The School District participates in various retirement plans administered by the State of Georgia, as further described below. The general fund, school food services fund, lottery programs fund, and federal programs fund are used to liquidate pension liabilities.

## **Teachers Retirement System of Georgia ("TRS")**

Plan description - All teachers of the School District as defined in OCGA §47-3-60 and certain other support personnel as defined by §47-3-63 are provided a pension through TRS. TRS, a cost-sharing multiple-employer defined benefit pension plan, is administered by the TRS Board of Trustees ("TRS Board"). Title 47 of OCGA assigns the authority to establish and amend the benefit provisions to the State Legislature. TRS issues a publicly available financial report that can be obtained at www.trsga.com/publications.

Benefits provided - TRS provides service retirement, disability retirement, and death benefits. Normal retirement benefits are determined as 2% of the average of the employee's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. An employee is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. Ten years of service is required for disability and death benefits eligibility. Disability benefits are based on the employee's creditable service and compensation up to the time of disability. Death benefits equal the amount that would be payable to the employee's beneficiary had the employee retired on the date of death. Death benefits are based on the employee's creditable service and compensation up to the date of death.

Contributions - Per Title 47 of OCGA, contribution requirements of active employees and participating employers, as actuarially determined, are established and may be amended by the TRS Board. Pursuant to OCGA §47-3-63, the employer contributions for certain full-time public school support personnel are funded on behalf of the employer by the state of Georgia. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employees were required to contribute 6% of their annual pay during fiscal year 2024. The School District's contractually required contribution rate for the year ended June 30, 2024 was 19.98% of annual School District payroll, excluding payroll attributable to those personnel funded on behalf of the School District by the state. For the current fiscal year, employer contributions to the pension plan totaled \$11,033,623 and \$83,804 from the School District and the state, respectively.

## Public School Employees Retirement System ("PSERS")

Plan description - PSERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly in 1969 for the purpose of providing retirement allowances for public school employees who are not eligible for membership in the Teachers Retirement System of Georgia. The ERS Board of Trustees, plus two additional trustees, administer PSERS. Title 47 of OCGA assigns the authority to establish and amend the benefit provisions to the State Legislature. PSERS issues a publicly available financial report that can be obtained at www.ers.ga.gov/financials.

Benefits provided - A member may retire and elect to receive normal monthly retirement benefits after completion of 10 years of creditable service and attainment of age 65. A member may choose to receive reduced benefits after age 60 and upon completion of 10 years of service.

## Note 8 Retirement Plans - Continued

Upon retirement, the member will receive a monthly benefit of \$16.00, multiplied by the number of years of creditable service. Death and disability benefits are also available through PSERS. Additionally, PSERS may make periodic cost-of-living adjustments to the monthly benefits. Upon termination of employment, member contributions with accumulated interest are refundable upon request by the member. However, if an otherwise vested member terminates and withdraws his/her member contribution, the member forfeits all rights to retirement benefits.

Contributions - The general assembly makes an annual appropriation to cover the employer contribution to PSERS on behalf of local school employees (bus drivers, cafeteria workers, and maintenance staff). The annual employer contribution required by statute is actuarially determined and paid directly to PSERS by the State Treasurer in accordance with OCGA §47-4-29(a) and 60(b). Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Individuals who became members prior to July 1, 2012 contribute \$4 per month for nine months each fiscal year. Individuals who became members on or after July 1, 2012 contribute \$10 per month for nine months each fiscal year. The State of Georgia, although not the employer of PSERS members, is required by statute to make employer contributions actuarially determined and approved and certified by the PSERS Board of Trustees. The current fiscal year contribution totaled \$74,828.

## **Employees' Retirement System of Georgia ("ERS")**

Plan description - This plan is not available to existing or new employees of the School District unless an employee already is a member of the plan. ERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly during the 1949 Legislative Session for the purpose of providing retirement allowances for employees of the State of Georgia and its political subdivisions. ERS is directed by the ERS Board of Trustees. Title 47 of the OCGA assigns the authority to establish and amend the benefit provisions to the State Legislature. ERS issues a publicly available financial report that can be obtained at www.ers.ga.gov/financials.

Benefits provided - The ERS Plan supports three benefit tiers: old plan, new plan, and Georgia State Employees' Pension and Savings Plan ("GSEPS"). Employees under the old plan started membership prior to July 1, 1982 and are subject to plan provisions in effect prior to July 1, 1982. Members hired on or after July 1, 1982 but prior to January 1, 2009 are new plan members subject to modified plan provisions. Effective January 1, 2009, new state employees and rehired state employees who did not retain membership rights under the old or new plans are members of GSEPS. ERS members hired prior to January 1, 2009 also have the option to irrevocably change their membership to GSEPS.

Under the old plan, the new plan, and GSEPS, a member may retire and receive normal retirement benefits after completion of 10 years of creditable service and attainment of age 60 or 30 years of creditable service regardless of age. Additionally, there are some provisions allowing for early retirement after 25 years of creditable service for members under age 60.

## Note 8 Retirement Plans - Continued

Retirement benefits paid to members are based upon the monthly average of the member's highest 24 consecutive calendar months, multiplied by the number of years of creditable service, multiplied by the applicable benefit factor. Annually, postretirement cost-of-living adjustments may also be made to members' benefits provided the members were hired prior to July 1, 2009. The normal retirement pension is payable monthly for life; however, options are available for distribution of the member's monthly pension, at reduced rates, to a designated beneficiary upon the member's death. Death and disability benefits are also available through ERS.

Contributions - Member contributions under the old plan are 4% of annual compensation, up to \$4,200, plus 6% of annual compensation in excess of \$4,200. Under the old plan, the state pays member contributions in excess of 1.25% of annual compensation. Under the old plan, these state contributions are included in the members' accounts for refund purposes and are used in the computation of the members' earnable compensation for the purpose of computing retirement benefits. Member contributions under the new plan and GSEPS are 1.25% of annual compensation. The School District's contractually required contribution rate, actuarially determined annually, for the year ended June 30, 2024 was 29.35% of annual covered payroll for old and new plan members and 25.51% for GSEPS members. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employer contributions to the pension plan totaled \$26,864 for the current fiscal year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2024, the School District reported a liability of \$110,940,620 for its proportionate share of the net pension liability for TRS of \$110,690,125 and ERS of \$250,495.

The TRS net pension liability reflected a reduction for support provided to the School District by the State of Georgia for certain public school support personnel. The amounts recognized by the School District as its proportionate share of the net pension liability, the related state of Georgia support, and the total portion of the net pension liability that was associated with the School District were as follows:

School District's proportionate share of the net pension liability - TRS	\$ 110,690,125
State of Georgia's proportionate share of the net pension liability	
associated with the School District - TRS	 439,617
Total	\$ 111,129,742

The net pension liability for TRS and ERS was measured as of June 30, 2023. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2022. An expected total pension liability as of June 30, 2023 was determined using standard roll-forward techniques. The School District's proportion of the net pension liability was based on contributions to TRS and ERS during the fiscal year ended June 30, 2023.

At June 30, 2023, the School District's proportion of the TRS net pension liability was 0.374912%, which was a decrease of 0.006464% from its proportion measured as of June 30, 2022. At June 30, 2023, the School District's proportion of the ERS net pension liability was 0.004199%, which was an increase of 0.004199% from its proportion measured as of June 30, 2022.

## Note 8 Retirement Plans - Continued

At June 30, 2024, the School District did not have a PSERS liability for a proportionate share of the net pension liability because of a special funding situation with the state of Georgia, which is responsible for the net pension liability of the plan. The amount of the state's proportionate share of the net pension liability associated with the School District is \$414,592.

The net pension liability for PSERS was measured as of June 30, 2023. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2022. An expected total pension liability as of June 30, 2023 was determined using standard roll-forward techniques. The state's proportion of the net pension liability associated with the School District was based on actuarially determined contributions to PSERS paid by the state during the fiscal year ended June 30, 2023.

For the year ended June 30, 2024, the School District recognized pension expense of \$11,742,613 for TRS, pension expense of \$74,828 for PSERS, and pension expense of \$91,513 for ERS. Included in the preceding amounts, the School District recognized income of \$83,804 for TRS and income of \$74,828 for PSERS for support provided by the State of Georgia for certain support personnel.

At June 30, 2024, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	TI	RS	ERS			
	Deferred	Deferred	Deferred	Deferred		
	Outflows of	Inflows of	Outflows of	Inflows of		
	Resources	Resources	Resources	Resources		
Differences between expected and actual						
experience	\$ 5,620,696	\$ 457,666	\$ 3,805	\$ 587		
Changes of assumptions	11,387,637	-	9,639	-		
Net difference between projected and						
actual earnings on pension plan						
investments	7,785,134	-	10,204	-		
Changes in proportion and differences						
between School District contributions and						
proportionate share of contributions	1,490,530	1,163,884	109,057	-		
District contributions subsequent to the						
measurement date	11,033,623		26,864			
Total	\$ 37,317,620	\$ 1,621,550	\$ 159,569	\$ 587		

## Note 8 Retirement Plans - Continued

School District contributions subsequent to the measurement date of \$11,033,623 for TRS and of \$26,864 for ERS are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year	TRS		ERS
2025	\$ 7,559,951	\$	101,436
2026	4,858,093		14,956
2027	15,111,039		20,392
2028	(2,866,636)		(4,666)
2029	-		-
Thereafter	_		_

**Actuarial Assumptions** - The total pension liability for TRS as of June 30, 2023 was determined by an actuarial valuation as of June 30, 2022 using the following actuarial assumptions, applied to all periods included in the measurement:

## TRS:

Inflation	2.50%
Salary increases	3.00% - 8.75%, average, including inflation
Investment rate of return	6.90%, net of pension plan investment expense,
	including inflation
Post-retirement benefit increases	1.50% semi-annually

Post retirement mortality rates for service retirements and beneficiaries were based on the Pub-2010 Teachers Headcount Weighted Below Median Healthy Retiree mortality table (ages set forward one year and adjusted 106%) with the MP-2019 Projection scale applied generationally. The rates of improvement were reduced by 20% for all years prior to the ultimate rate. Post-retirement mortality rates for disability retirements were based on the Pub-2010 Teachers Mortality Table for Disabled Retirees (ages set forward one year and adjusted 106%) with the MP-2019 Projection scale applied generationally. The rates of improvement were reduced by 20% for all years prior to the ultimate rate. The Pub-2010 Teachers Headcount Weighted Below Median Employee mortality table with ages set forward one year and adjusted 106% as used for death prior to retirement. Future improvement in mortality rates was assumed using the MP-2019 projection scale generationally. These rates of improvement were reduced by 20% for all years prior to the ultimate rate.

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period July 1, 2013 – June 30, 2018, with the exception of the investment rate of return and payroll growth assumption.

## Note 8 Retirement Plans - Continued

The total pension liability for PSERS as of June 30, 2023 was determined by an actuarial valuation as of June 30, 2022 using the following actuarial assumptions, applied to all periods included in the measurement:

## **PSERS**:

Inflation	2.50%
Salary increases	N/A
Investment rate of return	7.00%, net of pension plan investment expense,
	including inflation
Post-retirement benefit increases	1.50% semi-annually

Mortality rates are as follows: The Pub-2010 General Employee Table, with no adjustments, projected generationally with the MP-2019 scale is used for both males and females while in active service. The Pub-2010 Family of Tables projected generationally with the MP-2019 scale and with further adjustments are used for post-retirement mortality assumptions, as follows:

		Set Forward (+) /	
Participant Type	Membership Table	Setback (-)	Adjustment to Rates
Service retirees	General Healthy Below-Median Annuitant	Male: +2; Female: +2	Male: 101%; Female: 103%
Di - 1:114 41		M-1 2- F1 0	M-1 1020/- E1 10/0/
Disability retirees	General Disabled	Male: -3; Female: 0	Male: 103%; Female: 106%
Beneficiaries	General Below-Median	Male: +2; Female: +2	Male: 104%; Female: 99%
	Contingent Survivors		

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period July 1, 2014 – June 30, 2019.

The total pension liability for ERS as of June 30, 2023 was determined by an actuarial valuation as of June 30, 2023 using the following actuarial assumptions, applied to all periods included in the measurement:

## ERS:

Inflation	2.50%
Salary increases	3.00% - 6.75%, including inflation
Investment rate of return	7.00%, net of pension plan investment expense,
	including inflation
Cost-of-living adjustment	1.05%, annually

## Note 8 Retirement Plans - Continued

Mortality rates are as follows: The Pub-2010 General Employee Table, with no adjustments, projected generationally with the MP-2019 scale is used for both males and females while in active service. The Pub-2010 Family of Tables projected generationally with the MP-2019 scale and with further adjustments are used for post-retirement mortality assumptions, as follows:

		Set Forward (+) /	
Participant Type	Membership Table	Setback (-)	Adjustment to Rates
Service retirees	General Healthy Annuitant	Male: +1; Female: +1	Male: 105%; Female: 108%
Disability retirees	General Disabled	Male: -3; Female: 0	Male: 103%; Female: 106%
Beneficiaries	General Contingent Survivors	Male: +2; Female: +2	Male: 106%; Female: 105%

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period July 1, 2014 – June 30, 2019.

The long-term expected rate of return on TRS, PSERS, and ERS pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-term
		Expected Real
	Target	Rate of
Asset Class	Allocation	Return *
Fixed income	30.00%	0.90%
Domestic large equities	46.30%	9.40%
Domestic small equities	1.20%	13.40%
International developed market equities	12.30%	9.40%
International emerging market equities	5.20%	11.40%
Alternatives	<u>5.00%</u>	10.50%
Total	100.00%	

<sup>\*</sup> Rates shown are net of inflation

## **Note 8** Retirement Plans - Continued

**Discount Rate** - The discount rate used to measure the total TRS pension liability was 6.90%. The discount rate used to measure the total PSERS and ERS pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and State of Georgia contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the TRS, PSERS, and ERS pension plans' fiduciary net positions were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the School District's proportionate share of the net pension liability calculated using the respective discount rates of 6.90% and 7.00%, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (5.90% and 6.00%) or 1 percentage point higher (7.90% and 8.00%) than the current rate:

_	_	_	~	
1	ויו	v	C	
		•	. 7	

110		1% Decrease (5.90%)	 rrent Discount Rate (6.90%)	1% Increase (7.90%)
	School District's proportionate share of the net pension liability	\$ 175,013,964	\$ 110,690,125	\$ 58,161,051
ERS:		1% Decrease (6.00%)	 rrent Discount Rate (7.00%)	1% Increase (8.00%)
	School District's proportionate share of the net pension liability	\$ 343,732	\$ 250,495	\$ 172,034

**Pension Plan Fiduciary Net Position** - Detailed information about the TRS, PSERS, and ERS pension plans' fiduciary net position is available in the separately issued financial reports which are publicly available at www.trsga.com/publications and www.ers.ga.gov/financials.

## Note 9 Defined Contribution Plans

The School District offers an employer paid 403(b) annuity plan for the group of employees covered under the PSERS. Recognizing that PSERS was a limited defined contribution and defined benefit plan which did not provide for an adequate retirement for this group of employees, it was the School Board's desire to supplement the retirement of this group.

The School District selected Variable Annuity Life Insurance Company ("VALIC") as the provider of this plan. For each employee covered under PSERS who makes an election to participate, the School District contributes 1% of the employee's base pay. In addition, the School District makes matching contributions equal to 50% of the first 4% of employee compensation deferred. Employee contributions vest immediately and School District contributions become vested at the end of the 3<sup>rd</sup> year. All contributions are 100% vested upon employee death or disability.

Distributions to an employee may not be made earlier than the earliest date on which the employee has a severance from employment, dies, becomes disabled, or attains age 59½. Hardship withdrawals and loans from the plan are permitted under certain circumstances. Employer contributions for the current and preceding two fiscal years are as follows:

	Percentage	R	equired
Fiscal Year	Contributed	Cor	ntribution
2024	100%	\$	36,583
2023	100%		34,010
2022	100%		34,520

The School District offers a second 403(b) annuity plan for all employees who are not students regularly attending classes at the School District and who are not non-resident aliens. Recognizing that employees may want to contribute additional funds to their retirement accounts, it was the School Board's desire to offer an additional, non-contributory option for employees.

The School District selected VALIC as the provider of this plan. Most employees of the School District are eligible to participate. The School District does not make contributions to this plan. Distributions to an employee may not be made earlier than the earliest date on which the employee has a severance from employment, dies, becomes disabled, or attains age 59½. Hardship withdrawals and loans from the plan are permitted under certain circumstances.

The School District offers a 457(b) deferred compensation plan for all employees of the School District. Recognizing that employees may want to contribute additional funds to their retirement accounts, it was the School Board's desire to offer an additional, non-contributory option for employees.

The School District selected VALIC as the provider of this plan. All employees of the School District are eligible to participate. The School District does not make contributions to this plan. Distributions to an employee may not be made earlier than the earliest date on which the employee has a severance from employment, dies, becomes disabled, or attains age 70½. Unforeseeable emergency withdrawals, distributions to individuals in uniformed services, and loans from the plan are permitted under certain circumstances.

## **Note 10 Post-Employment Benefits**

## Georgia School Personnel Post-Employment Health Benefit Fund ("School OPEB Fund")

Plan description - Certified teachers and non-certified public school employees of the School District as defined in §20-2-875 of the OCGA are provided OPEB through the School OPEB Fund - a cost-sharing multiple-employer defined benefit postemployment healthcare plan, reported as an employee trust fund and administered by a Board of Community Health ("Board of Community Health"). Title 20 of OCGA assigns the authority to establish and amend the benefit terms of the group health plan to the Board of Community Health.

Benefits provided - The School OPEB Fund provides healthcare benefits for retirees and their dependents due under the group health plan for public school teachers, including librarians, other certified employees of public schools, regional educational service agencies, and non-certified public school employees. Retiree medical eligibility is attained when an employee retires and is immediately eligible to draw a retirement annuity from TRS, PSERS, ERS, Georgia Judicial Retirement System ("JRS"), or Legislative Retirement System ("LRS"). If elected, dependent coverage starts on the same day as retiree coverage. Medicare eligible retirees are offered Standard and Premium Medicare Advantage plan options. Non-Medicare eligible retiree plan options include Health Reimbursement Arrangement ("HRA"), Health Maintenance Organization ("HMO"), and a High Deductible Health Plan ("HDHP"). The School OPEB Fund also pays for administrative expenses of the fund. By law, no other use of the assets of the School OPEB Fund is permitted.

The general fund, school food services fund, lottery programs fund, and federal programs fund are used to liquidate OPEB liabilities.

Contributions - As established by the Board of Community Health, the School OPEB Fund is substantially funded on a pay-as-you-go basis; that is, annual cost of providing benefits will be financed in the same year as claims occur. Contributions to the School OPEB Fund from the School District were \$1,972,029 for the year ended June 30, 2024. Active employees are not required to contribute to the School OPEB Fund.

## State Employees' Assurance Department Retired and Vested Inactive Members Trust Fund ("SEAD-OPEB")

Plan description - SEAD-OPEB was created in 2007 by the Georgia General Assembly to amend Title 47 of the OCGA relating to retirement, so as to establish a fund for the provision of term life insurance to retired and vested inactive members of the ERS, the LRS, and the Georgia Judicial Retirement System ("GJRS"). The plan is a cost-sharing multiple-employer defined benefit other postemployment benefit plan as defined in GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans other than OPEB Plans. The SEAD-OPEB trust fund accumulates the premiums received from the aforementioned retirement plans, including interest earned on deposits and investments of such payments.

Benefits provided - The amount of insurance for a retiree with creditable service prior to April 1, 1964 is the full amount of insurance in effect on the date of retirement. The amount of insurance for a service retiree with no creditable service prior to April 1, 1964, is 70% of the amount of insurance in effect at age 60 or at termination, if earlier. Life insurance proceeds are paid in a lump sum to the beneficiary upon death of the retiree.

## **Note 10 Post-Employment Benefits - Continued**

The general fund, school food services fund, lottery programs fund, and federal programs fund are used to liquidate OPEB liabilities.

Contributions - Georgia law provides that employee contributions to the plan shall be in an amount established by the SEAD-OPEB Board of Trustees not to exceed one-half of 1% of the member's earnable compensation. There were no employer contributions required for the fiscal year ended June 30, 2024.

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB** - At June 30, 2024, the School District reported a liability of \$53,851,039 for its proportionate share of the net OPEB liability for the School OPEB Fund of \$53,900,427 and the net OPEB asset for SEAD-OPEB of (\$49,388).

The School OPEB Fund net OPEB liability was measured as of June 30, 2023. The total School OPEB Fund OPEB liability used to calculate the School OPEB Fund net OPEB liability was based on an actuarial valuation as of June 30, 2022. An expected total School OPEB Fund OPEB liability as of June 30, 2023 was determined using standard roll-forward techniques. The School District's proportion of the School OPEB Fund net OPEB liability was actuarially determined based on employer contributions during the fiscal year ended June 30, 2023. At June 30, 2023, the School District's proportion was 0.492088%, which was an increase of 0.015611% from its proportion measured as of June 30, 2022.

The SEAD-OPEB net OPEB asset was measured as of June 30, 2023. The total SEAD-OPEB OPEB liability used to calculate the SEAD-OPEB net OPEB asset was based on an actuarial valuation as of June 30, 2022. An expected total SEAD-OPEB OPEB liability as of June 30, 2023 was determined using standard roll-forward techniques. The School District's proportion of the SEAD-OPEB net OPEB asset was based on actual member salaries reported to the SEAD-OPEB plan during the fiscal year ended June 30, 2023. At June 30, 2023, the School District's proportion was 0.011199%, which was an increase of 0.011199% from its proportion measured as of June 30, 2022.

For the year ended June 30, 2024, the School District recognized OPEB income of \$2,940,011. At June 30, 2024, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	School OPEB Fund		SEAD	-OPEB	
	Deferred Deferred		Deferred	Deferred	
	Outflows of	Inflows of	Outflows of	Inflows of	
	Resources	Resources	Resources	Resources	
Differences between expected and actual					
experience	\$ 1,571,108	\$ 15,480,836	\$ 315	\$ -	
Changes of assumptions	9,792,648	6,731,346	-	-	
Net difference between projected and					
actual earnings on OPEB plan investments	32,338	-	2,669	-	
Changes in proportion and differences					
between School District contributions and					
proportionate share of contributions	2,955,693	238,199	-	20,476	
District contributions subsequent to the					
measurement date	1,972,029				
Total	\$ 16,323,816	\$ 22,450,381	\$ 2,984	\$ 20,476	

## **Note 10 Post-Employment Benefits - Continued**

School District contributions subsequent to the measurement date of \$1,972,029 for the School OPEB Fund are reported as deferred outflows of resources and will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

	School OPEB				
_	Fiscal Year		Fund	SE.	AD-OPEB
	2025	\$	(3,129,890)	\$	(20,550)
	2026		(2,176,202)		(911)
	2027		(2,890,142)		5,201
	2028		(840,937)		(1,232)
	2029		802,215		-
	2030		136,362		-
	Thereafter		-		-

**Actuarial Assumptions** - The total OPEB liability for School OPEB Fund as of June 30, 2023 was determined by an actuarial valuation as of June 30, 2022 using the following actuarial assumptions and other inputs, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2023:

## School OPEB Fund:

Inflation	2.50%
Salary increases	3.00% - 8.75%, including inflation
Long-term expected rate of	7.00%, compounded annually, net of investment
return	expense, and including inflation
Healthcare cost trend rate	7.00%
Ultimate trend rate	4.50%
Year of ultimate trend rate	2032

The Plan currently uses mortality tables that vary by age, gender, and health status (i.e. disabled or not disabled) as follows:

• For TRS members: Post retirement mortality rates for service retirements and beneficiaries were based on the Pub-2010 Teachers Headcount Weighted Below Median Healthy Retiree Mortality Table (ages set forward one year and adjusted 106%) with the MP-2019 Projection scale applied generationally. The rates of improvement were reduced by 20% for all years prior to the ultimate rate. Post-retirement mortality rates for disability retirements were based on the Pub-2010 Teachers Mortality Table for Disabled Retirees (ages set forward one year and adjusted 106%) with the MP-2019 Projection scale applied generationally. The rates of improvement were reduced by 20% for all years prior to the ultimate rate. The Pub-2010 Teachers Headcount Weighted Below Median Employee mortality table with ages set forward one year and adjusted 106% was used for death prior to retirement. Future improvement in mortality rates was assumed using the MP-2019 projection scale generationally. These rates of improvement were reduced by 20% for all years prior to the ultimate rate.

## Note 10 Post-Employment Benefits - Continued

• For PSERS members: Pre-retirement mortality rates were based on the Pub-2010 General Employee Mortality Table, with no adjustment, with the MP-2019 Projections scale applied generationally. Post-retirement mortality rates for service retirements were based on the Pub-2010 General Healthy Annuitant Mortality Table (ages set forward one year and adjusted 101% for males and 103% for females) with the MP-2019 Projection scale applied generationally. Postretirement mortality rates for disability retirements were based on the Pub-2010 General Disabled Mortality Table (ages set back three years for males and adjusted 103% for males and 106% for females) with the MP-2019 Projections scaled applied generationally. Postretirement mortality rates for beneficiaries were based on the Pub-2010 General Contingent Survivor Mortality Table (ages set forward two years and adjust 104% for males and 99% for females) with the MP-2019 Project scale applied generationally.

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the pension systems, which covered the five-year period ending June 30, 2018, with the exception of the assumed annual rate of inflation which was changed from 2.75% to 2.50%, effective with the June 30, 2018 valuation.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2022 valuation were based on a review of recent plan experience done concurrently with the June 30, 2022 valuation.

Projection of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculation.

The long-term expected rate of return on School OPEB Fund plan investments was determined using a lognormal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-term
		Expected Real
Asset Class	Target Allocation	Rate of Return *
Fixed income	30.00%	1.50%
Equities	<u>70.00%</u>	9.20%
Total	<u>100.00%</u>	

<sup>\*</sup> Rates shown are net of inflation

#### **Note 10 Post-Employment Benefits - Continued**

**Discount Rate** - In order to measure the total OPEB liability for the School OPEB, a single equivalent interest rate of 3.68% was used as the discount rate, as compared with last year's rate of 3.57%. The plan's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate as used for the long-term rate of return was applied to all periods of projected benefit payments to determine total OPEB liability. This is comprised mainly of the yield or index rate for 20-year tax-exempt general obligation bonds with an average rating of AA or higher (3.65% per the Municipal Bond Index Rate). The projection of cash flows used to determine the discount rate assumed that contributions from members and from the employers will be made at the current level as averaged over the last five years, adjusted for annual projected changes in headcount. Projected future benefit payments for all current plan members were projected through 2128.

The total OPEB liability for SEAD-OPEB as of June 30, 2023 was determined by an actuarial valuation as of June 30, 2022 using the following actuarial assumptions and other inputs, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2023:

#### SEAD-OPEB:

Inflation	2.50%
Salary increases:	
ERS	3.00% - 6.75%
GJRS	3.75%
LRS	N/A
Long-term expected rate of	7.00%, net of investment expense, including
return	inflation
Healthcare cost trend rate	N/A

Mortality rates are as follows: The Pub-2010 General Employee Table, with no adjustments, projected generationally with the MP-2019 scale is used for both males and females while in active service. The Pub-2010 Family of Tables projected generationally with the MP-2019 scale and with further adjustments are used for post-retirement mortality assumptions, as follows:

		Set Forward (+) /	
Participant Type	Membership Table	Setback (-)	Adjustment to Rates
Service retirees	General Healthy Annuitant	Male: +1; Female: +1	Male: 105%; Female: 108%
Disability retirees	General Disabled	Male: -3; Female: 0	Male: 103%; Female: 106%
Beneficiaries	General Contingent Survivors	Male: +2; Female: +2	Male: 106%; Female: 105%

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period July 1, 2014 – June 30, 2019.

#### **Note 10 Post-Employment Benefits - Continued**

The long-term expected rate of return on SEAD-OPEB plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	Long-term
	Expected Real
Target Allocation	Rate of Return *
30.00%	0.90%
46.30%	9.40%
1.20%	13.40%
12.30%	9.40%
5.20%	11.40%
<u>5.00%</u>	10.50%
<u>100.00%</u>	
	30.00% 46.30% 1.20% 12.30% 5.20% <u>5.00%</u>

<sup>\*</sup> Rates shown are net of inflation

**Discount Rate** - In order to measure the total OPEB liability for School OPEB Fund, a single equivalent interest rate of 3.68% was used as the discount rate, as compared with last year's rate of 3.57%. The plan's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate as used for the long-term rate of return was applied to all periods of projected benefit payments to determine total OPEB liability. This is comprised mainly of the yield or index rate for 20-year tax-exempt general obligation bonds with an average rating of AA or higher (3.65% per the Municipal Bond Index Rate). The projection of cash flows used to determine the discount rate assumed that contributions from members and from the employers will be made at the current level as averaged over the last five years, adjusted for annual projected changes in headcount. Projected future benefit payments for all current plan members were projected through 2128.

The discount rate used to measure the total OPEB liability for SEAD-OPEB was 7.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and State of Georgia contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

#### **Note 10 Post-Employment Benefits - Continued**

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate - The following presents the School District's proportionate share of the net OPEB liability/asset calculated using the respective discount rates of 3.68% and 7.00%, as well as what the School District's proportionate share of the net OPEB liability/asset would be if it were calculated using a discount rate that is 1 percentage point lower (2.68% and 6.00%) or 1 percentage point higher (4.68% and 8.00%) than the current discount rate:

#### School OPEB Fund:

	1% Decrease (2.68%)			urrent Discount Rate (3.68%)	1% Increase (4.68%)		
School District's proportionate share of the net OPEB liability	\$	61,098,621	\$	53,900,427	\$	47,838,027	
SEAD-OPEB:							
		1% Decrease (6.00%)		urrent Discount Rate (7.00%)		1% Increase (8.00%)	
School District's proportionate share of the net OPEB asset	\$	(34,817)	\$	(49,388)	\$	(61,346)	

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates - The following presents the School District's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1 percentage point higher than the current healthcare cost trend rates:

#### School OPEB Fund:

			Cur	rent Healthcare			
	1	% Decrease	Co	st Trend Rate	1% Increase		
School District's proportionate							
share of the net OPEB liability	\$	46,428,072	\$	53,900,427	\$	63,112,231	

**OPEB Plan Fiduciary Net Position** - Detailed information about School OPEB Fund and SEAD-OPEB plans' fiduciary net position is available in the annual comprehensive financial report which is publicly available at <a href="https://sao.georgia.gov/statewide-reporting/acfr">https://sao.georgia.gov/statewide-reporting/acfr</a> and the separately issued ERS annual comprehensive annual financial report which is publicly available at <a href="https://www.ers.ga.gov/financials">www.ers.ga.gov/financials</a>.

#### **Note 11 Net Position**

Net investment in capital assets reported on the district-wide statement of net position as of June 30, 2024 is calculated as follows:

Cost of capital assets	\$ 254,340,177
Less: accumulated depreciation	(92,186,623)
Book value	162,153,554
Less: capital related debt	(53,120,942)
Less: premium on capital related debt	(5,091,326)
Add: unexpended debt proceeds	13,287,118
Net investment in capital assets	\$ 117,228,404

#### Note 12 Risk Management

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; job related illness or injuries to employees; natural disasters; and unemployment compensation. The School District carries commercial insurance for these risks. The School District has neither significantly reduced coverage for these risks nor incurred losses (settlements) which exceeded the School District's insurance coverage in any of the past three years.

The School District is self-insured with regard to unemployment compensation claims. A premium is charged when needed by the general fund to each user program on the basis of the percentage of that fund's payroll to total payroll in order to cover estimated claims budgeted by management based on known claims and prior experience. The School District accounts for claims with expenses/expenditures and liabilities being reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Unemployment claims paid to the State of Georgia to satisfy unemployment claims liability during the last three years are as follows:

		Begin	nning of					En	nd of Year
F	iscal Year	Year I	ear Liability		Claims		ims Paid	Liability	
	2024	\$	-	\$	-	\$	-	\$	-
	2023		-		1,635		(1,635)		-
	2022		-		7,377		(7,377)		-

#### **Note 13 Commitments and Contingencies**

The School District is involved in legal matters as of the fiscal year ended June 30, 2024 in relation to workers' compensation claims. The School District feels that insurance coverage and other sources will cover any settlements and that the effect of the settlements will not have a material impact on the financials.

Amounts received or receivable principally from the federal government are subject to audit and review by grantor agencies. This could result in requests for reimbursement to the grantor agency for any costs which are disallowed under grant terms. Any disallowances resulting from the grantor audit may become a liability of the School District. However, the School District believes that such disallowances, if any, will be immaterial to its overall financial position.

The School District is not committed under outstanding construction contracts in the capital projects fund or the ESPLOST capital projects fund as of June 30, 2024.

#### **Note 14 Tax Abatements**

The School District property tax revenues were reduced due to certain tax abatements in effect during the year. The information is presented on a calendar year basis rather than on the School District's fiscal year basis. The taxing authorities that assess, collect, and report tax information for the School District operate on a calendar year.

The Dalton-Whitfield Joint Development Authority ("JDA"), a joint venture between the City of Dalton, Georgia and Whitfield County, Georgia, has entered into several agreements for abatement of property taxes. The JDA provides tax incentives, based upon certain criteria, to potential and existing entities for the purpose of furthering economic growth in the Dalton-Whitfield area. The JDA is not a taxing authority. The tax abatements offered are abatements of Whitfield County, Georgia property tax and City of Dalton, Georgia property tax. Whitfield County and the City of Dalton must approve the tax incentive agreements prior to their execution.

The criteria that makes an entity eligible for tax abatements through the JDA include providing new capital investment and/or new jobs in the Dalton-Whitfield area. The amount of the tax abatement transaction is determined based upon a specified rubric. Planned new jobs, community investment, diversification, wage levels, project location, and other factors are considered in determining the amount of tax abatement offered to an entity. The tax abatement period for a project can last up to fifteen years.

The entity must be willing to enter into a contractual agreement with the JDA and willing to enter into a bond financed sale leaseback transaction ("Industrial Revenue Bonds") which transfers title to improvements (land, buildings, equipment) during the life of the tax deferment/abatement plan to the JDA, as provided by Georgia state law. The local taxing jurisdictions and the public receive notice of the title transfer pursuant to an Industrial Revenue Bond validation.

Entities with tax abatements are required to file an annual report with the JDA which certifies the number of jobs created, the cumulative amount of capital investment, and other applicable measurements. In the event the entity fails to meet specified goals, a percentage method described in each agreement is used to determine the shortfall. The shortfall percentage is multiplied by the amount of taxes abated for the year for the project to arrive at a recovery payment. The recovery payment is due with the annual report.

#### **Note 14 Tax Abatements - Continued**

Thirty-one tax abatement agreements are outstanding as of December 31, 2023. Reductions in tax revenues attributable to local governments are as follows:

Government Entity	2023	2023 Tax Reduction			
School District	\$	480,167			
City of Dalton, Georgia		109,882			
Whitfield County, Georgia		1,834,765			
Whitfield County Board of Education		3,472,733

#### **Teachers Retirement System of Georgia**

Changes of benefit terms - There have been no changes in benefit terms.

Changes of assumptions - On November 18, 2015, the TRS Board adopted recommended changes to the economic and demographic assumptions utilized by the TRS System. Primary among the changes were the updates to rates of mortality, retirement, disability, withdrawal, and salary increases. The expectation of retired life mortality was changed to RP-2000 White Collar Morality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB (set forward one year for males).

On May 15, 2019, the TRS Board adopted recommended changes from the smoothed valuation interest rate methodology that has been in effect since June 30, 2009, to a constant interest rate method. In conjunction with the methodology, the long-term assumed rate of return in assets (discount rate) has been changed from 7.50% to 7.25%, and the assumed annual rate of inflation has been reduced from 2.75% to 2.50%.

In 2019 and later, the expectation of retired life mortality was changed to the Pub-2010 Teachers Headcount Weighted Below Median Healthy Retiree mortality table from the RP-2000 Mortality Tables. In 2019, rates of withdrawal, retirement, disability, and mortality were adjusted to more closely reflect actual experience.

On May 11, 2022, the TRS Board adopted recommended changes to the long-term assumed rate of return and payroll growth assumption utilized by the TRS System. The long-term assumed rate of return was changed from 7.25% to 6.90%, and the payroll growth assumption was changed from 3.00% to 2.50%.

#### **Employees' Retirement System**

Changes of benefit terms - There have been no changes in benefit terms.

Changes of assumptions - On December 17, 2015, the ERS Board adopted recommended changes to the economic and demographic assumptions utilized by the ERS System. Primary among the changes were the updates to rates of mortality, retirement, disability, withdrawal, and salary increases. The expectation of retired life mortality was changed to the RP-2000 Combined Mortality Table projected to 2025 with projection scale BB (set forward 2 years for both males and females).

A new funding policy was initially adopted the ERS Board on March 15, 2018, and most recently amended on June 18, 2020. Because of this new funding policy, the assumed investment rate of return was reduced from 7.50% to 7.40% for the June 30, 2017 actuarial valuation and further reduced from 7.40% to 7.30% for the June 30, 2018 actuarial valuation.

On December 17, 2020, the ERS Board adopted recommended changes to the economic and demographic assumptions utilized by the ERS System based on the experience study prepared for the five-year period ending June 30, 2019. Primary among the changes were the updates to rate of mortality, retirement, withdrawal, and salary increases. This also included a change to the long-term assumed investment rate of return of 7.00%. These assumption changes are reflected in the calculation of the June 30, 2021 total pension liability.

On April 21, 2022, the ERS Board adopted a new funding policy which, in part, provides that the actuarial accrued liability and normal cost of the ERS System will include a prefunded variable cost-of-living adjustment ("COLA") for eligible retirees and beneficiaries of the ERS System. Under the new policy, future COLAs are provided through a profit-sharing mechanism using the ERS System's asset performance. After studying the parameters of this new policy, the assumption for future COLAs was set at 1.05%. Previously, no future COLAs were assumed. In addition, the funding policy set the assumed rate of return at 7.20% for the June 30, 2021 valuation and established a new transitional unfunded actuarial accrued liability as of June 30, 2021 which will be amortized over a closed 20-year period.

#### **Public School Employees Retirement System**

Changes of benefit terms - There have been no changes in benefit terms.

Changes of assumptions - On December 17, 2015, the PSERS Board adopted recommended changes to the economic and demographic assumptions utilized by the PSERS System. Primary among the changes were the updates to rates of mortality, retirement and withdrawal. The expectation of retired life mortality was changed to the RP-2000 Blue Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females).

A new funding policy was initially adopted by the PSERS Board on March 15, 2018, and most recently amended on December 17, 2020. Because of this new funding policy, the assumed investment rate of return was reduced from 7.50% to 7.40% for the June 30, 2017 actuarial valuation and further reduced from 7.40% to 7.30% for the June 30, 2018 actuarial valuation.

On December 17, 2020, the PSERS Board adopted recommended changes to the economic and demographic assumption utilized by the PSERS System based on the experience study prepared for the five-year period ending June 30, 2019. Primary among the changes were the updates to rates or mortality, retirement, disability, and withdrawal. This also included a change to the long-term assumed investment rate of return to 7.00%. These assumption changes are reflected in the calculation of the June 30, 2021 total pension liability.

#### **School OPEB Fund**

Changes of benefit terms - There have been no changes in benefit terms.

Changes in assumptions - June 30, 2022 valuation: The tobacco use assumption and aging factors were revised.

June 30, 2020 valuation: Decremental assumptions were changed to reflect the Employees Retirement Systems experience study. Approximately 0.10% of employees are members of the Employees Retirement System.

June 30, 2019 valuation: Decremental assumptions were changed to reflect the Teachers Retirement Systems experience study.

June 30, 2018 valuation: The inflation assumption was lowered from 2.75% to 2.50%.

June 30, 2017 valuation: The participation assumption, tobacco use assumption, and morbidity factors were revised.

June 30, 2015 valuation: Decremental and underlying inflation assumptions were changed to reflect to Retirement Systems' experience studies.

June 30, 2012 valuation: A data audit was performed and data collection procedures and assumptions were changed.

The discount rate was updated from 3.07% as of June 30, 2016 to 3.58% as of June 30, 2017, to 3.87% as of June 30, 2018, back to 3.58% of June 30, 2019, to 2.22% as of June 30, 2020, to 2.20% as of June 30, 2021, to 3.57% as of June 30, 2022, and to 3.68% as of June 30, 2023.

#### **SEAD-OPEB Fund**

Changes of benefit terms - There have been no changes in benefit terms.

Changes of assumptions - On December 17, 2015, the SEAD Board of Trustees adopted recommended changes to the economic and demographic assumptions utilized by the Plan. Primary among the changes were the updates to rates of mortality, retirement, disability, withdrawal, and salary increases. The expectation of retired life mortality was changed to the RP-2000 Combined Mortality Table projected to 2025 with projection scale BB (set forward 2 years for both males and females).

A new funding policy was initially adopted the SEAD Board on March 15, 2018. Because of this new funding policy, the assumed investment rate of return was reduced from 7.50% to 7.40% for the June 30, 2017 actuarial valuation and further reduced from 7.40% to 7.30% for the June 30, 2018 actuarial valuation.

On December 17, 2020, the SEAD Board adopted recommended changes to the economic and demographic assumptions utilized by the SEAD System based on the experience study prepared for the five-year period ending June 30, 2019. Primary among the changes were the updates to rate of mortality, retirement, withdrawal, and salary increases. This also included a change to the long-term assumed investment rate of return of 7.00%. These assumption changes are reflected in the calculation of the June 30, 2021 total OPEB liability.

### CITY OF DALTON BOARD OF EDUCATION STATISTICAL SECTION

#### STATISTICAL SECTION

This part of the City of Dalton Board of Education's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the School District's overall financial health.

#### Financial Trends

These schedules contain trend information to help readers understand how the School District's financial performance and well-being have changed over time.

### Revenue Capacity

These schedules contain information to help readers assess the School District's most significant local revenue source - its property tax.

#### **Debt Capacity**

These schedules present information to help readers assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.

#### Demographic and Economic Information

These schedules offer demographic and economic indicators to help readers understand the environment within which the School District's financial activities take place.

#### **Operating Information**

These schedules contain service and infrastructure data to help readers understand how the information in the School District's financial report relates to the services the School District provides and the activities it performs.

Note: NA indicates that the information is not applicable.

Note: The information above is presented on a calendar year basis rather than on the School District's fiscal year basis. The taxing authorities that assess, collect, and report tax information for the School District operate on a calendar year. The information is more reliable in this format, as some is only measured once per year.

Note: (1) J&J Industries and Beaulieu of America, LLC were purchased by Engineered Floors, LLC during 2017.

Note: (2) Tandus Centiva, Inc. and Lexmark Carpet Mills, Inc. were combined as Tarkett USA during 2018.

## CITY OF DALTON BOARD OF EDUCATION DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT AS OF JUNE 30, 2024 (UNAUDITED)

			Estimated Applicable		mated Share of Direct and
Governmental Unit	Del	ot Outstanding	Percentage	Ove	rlapping Debt
Debt repaid with revenues other than property taxes:					
City of Dalton agreement with Building Authority - Series 2021 Revenue Bonds	\$	17,130,000	100.0%	\$	17,130,000
Whitfield County agreement with Building Authority - Series 2020 Bonds		13,369,000	32.0%		4,278,080
Total overlapping debt					21,408,080
City of Dalton Board of Education direct debt					57,803,328
Total direct and overlapping debt				\$	79,211,408

Source: School Board direct debt is disclosed in Note 7 of the Notes to the Basic Financial Statements. Information about City of Dalton debt is provided by the City of Dalton, Georgia. Information about Whitfield County debt is provided by Whitfield County, Georgia.

Note: The information above is presented on a calendar year basis rather than on the School District's fiscal year basis. The taxing authorities that assess, collect, and report tax information for the School District operate on a calendar year. The information is more reliable in this format, as some is only measured once per year.

Note: Estimated applicable percentage for City of Dalton debt is 100% because the geographic boundaries of the City of Dalton Board of Education and the City of Dalton, Georgia are the same. The estimated applicable percentage for Whitfield County debt is 32% based on the percentage of estimated population within the City of Dalton, Georgia to the estimated population within Whitfield County, Georgia, as obtained from the Georgia Department of Labor website. Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City of Dalton (and therefore with the City of Dalton Board of Education). This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Dalton, Georgia. This process recognizes that when considering the City of Dalton Board of Education's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and therefore responsible for repaying the debt of each overlapping government.

Note: NA indicates that the information is not applicable.

- (1) Total classrooms is a count of classrooms as defined by the Georgia Department of Education Facility Services Unit standards. Minimum square footage requirements for classrooms and instructional units have been established by grade level and determine whether a space is included in the total classroom count.
- (2) Building capacity is the student enrollment allowed for based on the count of total classrooms as defined by the Georgia Department of Education Facility Services Unit tables. The Facility Services Unit establishes the number of classrooms needed for a given student enrollment that may determine if a school system earns capital funding reimbursement. For the purposes of this schedule, the upper range of student enrollment as defined by the Georgia Department of Education is used to determine building capacity.
- (3) Enrollment is based on the October student full-time equivalent count.
- (4) Dalton Middle School was located at the Dalton Junior High School and Dalton Academy building for 2021 and prior. When Hammond Creek Middle School was built and began operating in 2022, a grade configuration shift occurred. That facility will house the Dalton Junior High School and Dalton Academy for years 2022 and thereafter. Morris Innovative High School at Fort Hill was closed for years 2022 and thereafter.
- (5) Dalton Junior High School and Dalton Academy enrollment represents grades 6 8 for the 2021 year and prior, and grades 8 12 for the 2022 year forward. Dalton High School enrollment represents grades 9 12 for the 2021 year and prior, and grades 10 21 for the 2022 year forward. These changes occurred due to the grade configuration shift for the 2022 school year.

### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Members of the City of Dalton Board of Education and the Superintendent Dalton, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Dalton Board of Education, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the City of Dalton Board of Education's basic financial statements and have issued our report thereon dated November 26, 2024.

### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Dalton Board of Education's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Dalton Board of Education's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Dalton Board of Education's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Dalton Board of Education's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests no disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Estes & Walcott

Dalton, Georgia November 26, 2024

### INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Members of the City of Dalton Board of Education and the Superintendent Dalton, Georgia

#### Report on Compliance for Each Major Federal Program

### Opinion on Each Major Federal Program

We have audited the City of Dalton Board of Education's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the City of Dalton Board of Education's major federal programs for the year ended June 30, 2024. The City of Dalton Board of Education's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City of Dalton Board of Education complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

### Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City of Dalton Board of Education and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the City of Dalton Board of Education's compliance with the compliance requirements referred to above.

### Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City of Dalton Board of Education's federal programs.

#### Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City of Dalton Board of Education's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City of Dalton Board of Education's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City of Dalton Board of Education's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City of Dalton Board of Education's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the City of Dalton Board of Education's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control over Compliance**

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Estes & Walcott

Dalton, Georgia November 26, 2024

### CITY OF DALTON BOARD OF EDUCATION SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED JUNE 30, 2024

### Summary of Auditor's Results

- 1. The Independent Auditor's Report expresses an unmodified opinion on the financial statements of the City of Dalton Board of Education.
- 2. No significant deficiencies were disclosed during the audit of the financial statements that are required to be reported in the Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*.
- 3. No instances of noncompliance material to the financial statements of the City of Dalton Board of Education were disclosed during the audit.
- 4. No significant deficiencies in internal control over major federal award programs were disclosed during the audit that were required to be reported in the Independent Auditor's Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance.
- 5. The Independent Auditor's Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance for the major federal award programs expresses an unmodified opinion.
- 6. There are no audit findings which are required to be reported in accordance with 2 CFR 200.516(a).
- 7. The programs tested as a major program are:
  - U.S. Department of Education:

Pass-Through Georgia Department of Education:

Special Education Cluster (IDEA):

Special Education Grants to States

Special Education - Preschool Grants

CFDA # 84.027 and 84.173

**Education Stabilization Fund:** 

COVID-19 - Elementary and Secondary School Emergency Relief Fund

COVID-19 - American Rescue Plan Elementary and Secondary School Emergency Relief Fund

COVID-19 - American Rescue Plan Elementary and Secondary School Emergency Relief Fund -

Homeless Children and Youth

CFDA # 84.425D, 84.425U, and 84.425W

- 8. The threshold for distinguishing Type A and B programs is \$750,000.
- 9. The City of Dalton Board of Education was determined to be a low risk auditee.

### CITY OF DALTON BOARD OF EDUCATION NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE FISCAL YEAR ENDED JUNE 30, 2024

#### General

The accompanying schedule of expenditures of federal awards presents the activity of all federal awards received by the City of Dalton Board of Education. All federal awards received directly from federal agencies and all federal awards passed through other government agencies are included in this schedule.

#### **Basis of Presentation**

The accompanying schedule of expenditures of federal awards is presented using the full accrual basis of accounting, which is described in Note 1 of the School District's notes to the financial statements.

#### Noncash Awards

Expenditures incurred for the food distribution program represent the federally assigned value of nonmonetary assistance for donated commodities received and/or consumed by the system during the current fiscal year. They are included in the total for the National School Lunch Program on the Schedule of Expenditures of Federal Awards. The value of donated commodities distributed totaled \$349,096 the year ended June 30, 2024.

Expenditures were incurred for donated PPE purchased with federal assistance funds for the COVID-19 response. The funds from the Department of Health and Human Services program Epidemiology and Laboratory Capacity for Infectious Diseases under assistance listing number 93.323 totaled \$187,906, and were not included on the Schedule of Expenditures of Federal Awards.

#### Relationship to Federal Financial Reports

Amounts reported in the accompanying schedule agree with the amounts reported in the related federal financial reports, with the following exceptions:

Federal Revenue per the SEFA	\$ 11,747,668
Federal E-Rate revenue reported in the general fund not applicable to the SEFA	152,400
Federal Medicaid revenue reported in the general fund not applicable to the SEFA	248,736
Federal ELC donated PPE revenue reported in the general fund not applicable to the SEFA	 187,906
Federal Revenue per the fund financial statements	\$ 12,336,710

#### De Minimis Cost Rate

The City of Dalton Board of Education did not elect to use the 10% de minimis cost rate as covered in 2 CFR 200.414.
