November 30, 2018

#### To the Honorable Board Members of the City of Dalton Board of Education and the Citizens of Dalton, Georgia:

We are pleased to submit to you the Comprehensive Annual Financial Report ("CAFR") of the City of Dalton Board of Education (the "School District") for the fiscal year ended June 30, 2018. The finance department prepared this report. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the School District's administration.

We believe the data, as presented, are accurate in all material respects and are reported in a manner designed to fairly set forth the financial position and results of operations of the School District as measured by the financial activity of its various funds. All necessary disclosures have been included to enable the reader to gain a reasonable understanding of the School District's financial affairs.

Estes and Walcott, Certified Public Accountants, have issued an unmodified opinion on the City of Dalton Board of Education's financial statements for the year ended June 30, 2018. The independent auditors' report is located at the front of the financial section of this report.

Management's discussion and analysis ("MD&A") immediately follows the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and the two should be read in conjunction.

#### **Profile of the School District**

The School District was established through the Charter of the City of Dalton in 1886, and serves only the City of Dalton. The School District is an independent public prekindergarten ("PreK")-12<sup>th</sup> grade school district and is not considered to be a component unit of any other government. The School District provides all basic services required of a public school district by Georgia law and in accordance with the policies and regulations of the Georgia State Board of Education. These services include: regular and special education instructional programs at the elementary, middle and secondary levels and additional service in prekindergarten and preschool special education. Other notable program services include remedial education, gifted education, career technology education, and English language learners education.

The City of Dalton Board of Education is made up of five members, each elected to serve four-year terms. Its primary functions are to develop and adopt policies by which the schools are administered, to continually evaluate the effectiveness of these policies and to make certain that they are being administered as the board intended. The administration of the educational programs and school operations is the responsibility of the superintendent of schools and his staff.

There are 7,899 PreK through 12<sup>th</sup> grade students enrolled in the School District in the 2017-2018 school year. The ethnic make-up of the students is 69 percent Hispanic, 21 percent white, 5 percent black, 2 percent Asian, and 3 percent multiracial. Projected PreK-12 enrollment for the 2018-2019 school year is 7,921 students.

The School District consists of six elementary schools, one middle school, and two high schools. All schools and the district are members of AdvancEd, formerly known as the Southern Association of Colleges and Schools ("SACS"), and are accredited through District Accreditation. The School District has well-maintained facilities that provide space to support its educational programs. A schedule of building information is provided in the statistical section of the CAFR.

The School District has one of the highest levels of staff training and experience of any public PreK-12 school system in Georgia. About 71 percent of all teaching staff have a master's degree or higher. The high percentage of employees with advanced degrees and the high retention rate for teachers translates into a highly trained and qualified staff at every school. The School District employs 666 certified staff members and 306 support staff for a total of 972 employees.

#### **Local Economy**

Dalton's main industry continues to be non-unionized textile and textile-related industries. Dalton is known as the "Carpet Capital of the World." It houses two of the largest carpet manufacturers in the world (Shaw Industries and Mohawk Industries). Dalton produces and supplies 70 percent of the goods that make up the United States carpet market. According to the September 2018 statistic report from the Georgia Department of Labor, the manufacturing industry makes up approximately 36 percent of the 68,500 jobs in Dalton Metropolitan Statistical Area.

The recent economic downturn adversely affected the national housing market and construction in general. Because the economy of Dalton is so heavily dominated by construction-related industry, the area was especially hard-hit. Unemployment rates consistently exceeded both national and Georgia levels, but now show significant improvements and stabilization. The latest unemployment rate from 2017 for the Dalton Metropolitan Area is 5.4 percent compared to 6.2 percent in the previous year. Dalton's unemployment remains slightly above both the national rate of 4.1 percent and the Georgia rate of 4.5 percent.

The City of Dalton property tax digest had a 6 percent decline from fiscal year 2010 to fiscal year 2011. This loss of revenue was the largest drop in recent history, which is the equivalent to \$1.9 million in school revenue. Since that time, property values remain at this relatively low level. The natural decline in the property tax digest was compounded by the first year implementation of the Freeport tax exemption for commercial and industrial property in fiscal year 2011. The Freeport tax exemption removes 20 percent of the property tax on inventory. The Freeport tax exemption could be expanded over several years until it reaches 100 percent exemption. The fiscal year 2011 implementation provided a 20 percent Freeport tax exemption that resulted in a loss of \$685,500 in property tax revenue. Fiscal year 2018 had a \$908,400 reduction in property tax revenue from the same 20 percent Freeport tax exemption. It is anticipated that the Freeport exemption will stay at the 20 percent level for fiscal year 2019 with the possibility of an increase to 40 percent in a future fiscal year.

Georgia's state funding does not have formula adjustments for inflation. In 2008, the state's support for public education in Georgia was 52 percent of total school district revenues. In the 2009-2010 school year, Georgia was at its lowest level of state funding at 43 percent for the average school district. In 2016, the percentage was up to 53 percent while austerity reductions for all public school systems remained in place.

Most of the state reductions during the recession were due to austerity or budget cuts imposed against the amounts earned by school systems based on a funding formula written in state law. These austerity reductions have been allocated to all systems in Georgia to help the state provide for a balanced budget. From fiscal year 2003 through fiscal year 2018, the School District lost over \$42.3 million in revenue of the district's state earnings due to these austerity cuts. The state offset \$5.4 million with federal stimulus funding, which brought the net reduction to \$36.9 million.

In fiscal year 2015, the State of Georgia approved significant reductions to the austerity component of the funding formula that provided districts with increased state revenue. The School District's austerity reduction went from \$5.1 million in fiscal year 2014 to \$3.7 million in fiscal year 2015 which increased state sources of revenue by \$1.4 million. State relief from austerity reduction continued in fiscal years 2016 and 2017 improving the district's state revenue by another \$1.4 million each year. The School District's austerity reduction for fiscal years 2017 and 2018 was just over \$820,000. Beginning with fiscal year 2019, Georgia austerity reductions will be eliminated, improving total state revenue. Overall, the School District experienced the decline in state funds in the 2009 and 2010 school years; however, since 2011, the School District has a greater dependency on state sources due to declining local sources of revenue.

#### **Planning for the Future**

Several years ago, the City of Dalton Board of Education set a target for unreserved general fund balance of 15 percent of the current year's budget, which would provide two months operating revenues and eliminate the need for short-term borrowing. At the end of fiscal year 2008, the unreserved fund balance was \$6 million, or 9.6 percent of general fund expenditures. In both fiscal years 2009 and 2010, the fund balance dropped to just above \$2 million, which was 3.3 to 4.3 percent respectively of the general fund expenditures. To address this downturn, the administration sought district-wide input from employees, and the board implemented a three-year budget reduction plan in January 2009. Fiscal Year 2011 general fund expenditures were the lowest level at \$52.8 million, and the fund balance reached nearly \$9.6 million. Fiscal year 2018 general fund expenditures increased to \$74.2 million, and the fund balance was more than \$16 million.

Although School District enrollment has grown over the last 10 years, averaging 2.3 percent growth per year, fiscal year 2018 showed its first drop of 3.1 percent. The district has adequate facility capacity at the elementary level with six elementary schools and class size flexibility to meet the educational needs of the students. However, building capacity is a concern at the middle and high school levels. On November 7, 2017, the citizens in the City of Dalton approved a general obligation bond not to exceed \$50.65 million to build a new 6-7 grade school.

District administrators are committed to providing appropriate instructional space for the educational program needs of Dalton's students. The administration and board are working through an updated strategic facility planning process that includes a grade configuration change at the secondary level since the community has approved funding a new secondary school. In recent years, the board has approved and completed building additions to the middle school to address capacity issues. The grade configuration change will reduce enrollment at Dalton High School and Dalton Middle School. Additionally, the district plans to redefine the focus and identity of Morris Innovative High School to further improve the academic success for secondary students.

In 1997, the citizens of the city of Dalton and Whitfield County passed the first of now five 5-year Educational Special Purpose Local Option Sales Taxes ("ESPLOST") of 1 cent. There was a lapse in sales tax revenue for calendar year 2012. Whitfield County Schools and the School District agreed to a one-year delay of the fourth ESPLOST due to the financial constraints of local tax payers as a result of the Great Recession.

In fiscal year 2018, the School District received sales tax revenue for the end of the fourth ESPLOST and the beginning of the fifth ESPLOST. The fourth ESPLOST had been used for the Dalton Middle School expansion and the HVAC and renovation project at Dalton High School, as well as instructional technology and school safety improvements. The fifth ESPLOST will continue efforts in instructional technology and school safety. Additionally, the fifth ESPLOST will address HVAC, roof, and renovation projects at both Brookwood and City Park elementary schools.

#### **Relevant Financial Policies**

The vision of the School District is to educate students to become contributing citizens of the world. The financial policies are designed to ensure that there are adequate funds to support this vision. This is accomplished by maximizing the use of financial resources, by improving financial reporting, and by enhancing internal control systems.

In developing and evaluating the School District's accounting system, consideration is given to the adequacy of internal controls. Internal controls are designed to provide reasonable assurance regarding: (1) safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe the School District's internal controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

As a recipient of federal and state financial assistance, the School District is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation for weaknesses by management and staff.

As part of the School District's annual single audit required to be performed in conformity with the Uniform Guidance, tests are made to determine the adequacy of the internal control structure, including that portion related to federal financial assistance programs, as well as to determine that the School District has complied with applicable laws and regulations.

The School District maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriated budget as approved by the City of Dalton Board of Education. Activities of the general fund, debt service fund, capital projects funds, school nutrition fund, and most of the special revenue funds are included in the annual appropriated budget. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is established at the aggregate level by fund type.

The City of Dalton Board of Education established a fund balance policy to protect the financial condition of the school district and to meet the requirements of Governmental Accounting Standards Board statement 54. The policy defines the five categories of the fund balance that is reported as nonspendable, restricted, committed, assigned, and unassigned. The board decides the committed fund balance through board action, and delegates the assigned fund balance to the superintendent or designee.

#### **Major Initiatives**

To realize the vision of educating students to become contributing citizens of the world, the School District must deliver effective instruction and set high expectations that will result in continued improvement in student achievement. In 2004, the School District began a phased-in implementation of a literacy framework targeting English, Language Arts, Reading, and Word Study instruction. The program is fully implemented through eighth grade and has been effective.

In 2005, a similar process has been in effect for math instruction. This process includes an expanded use of technology, tutoring support for students, and use of collaborative teacher teams for planning, designing, and evaluating the student progress.

In 2013, district staff prepared for changes in K-12 literacy and math with the rollout of the new Common Core Georgia Performance Standards. Locally, the superintendent with instructional leaders throughout the School District have worked closely with the Chamber of Commerce, City of Dalton, Whitfield County and Whitfield County School System to garner support for literacy throughout the community. The School District believes that literacy has the greatest impact on education and learning that can lead to economic development for the region.

The public has a desire to review and compare student test scores as an indicator of student, teacher and school performance. The School District believes that a number of indicators must be identified to effectively evaluate student progress. Georgia's College and Career Ready Performance Index begins to include more indicators than what has been considered in the past. In addition, true year to year comparisons are difficult to conduct with fidelity because often times the comparisons are different groups of students, different academic standards, and in some cases using a different testing assessment. Although the following table shows the percentage of Dalton students who are developing, proficient, or distinguished from the 2017 and 2018 school years, the schedule is not meant to be a comparison.

Dalton	ı Publi	c Sch	ools	
Fiscal	Years	2017	and	2018

	% of Developing, Proficient, and Distinguished	% of Developing, Proficient, and Distinguished
	FY 2017	FY 2018
<b>English Language Arts</b>

US History	57.0%	59.7%
Middle School Milestones Test	54.5%	47.1%
Elementary School Milestones Test	46.3%	47.9%

Dalton Public Schools test score information can be found on the Georgia Department of Education webpage pertaining to College and Career Readiness Performance Index reports.

#### Acknowledgment

The preparation of this report would not have been possible without the efficient and dedicated service of the entire staff of the finance department. We would like to express appreciation to all of the employees of the departments who assisted in the timely closing of the School District's financial records and the preparation of this report.

We would also like to thank the members of the City of Dalton Board of Education for their unfailing support in maintaining the highest standards of professionalism in the management of the School District's finances.

Respectfully submitted,

Tim Scott

Executive Director/CEO

#### INDEPENDENT AUDITORS' REPORT

To the Members of the City of Dalton Board of Education and the Superintendent Dalton, Georgia

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Dalton Board of Education as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the City of Dalton Board of Education's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Dalton Board of Education, as of June 30, 2018, and the respective changes in financial position, and the respective budgetary comparison information for the general fund and the federal programs special revenue fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Change in Accounting Principle

As described in Note 1 to the financial statements, in 2018, the City of Dalton Board of Education adopted new accounting guidance, GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions. Our opinion is not modified with respect to this matter.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 - 12 and the required supplementary information for pension plans and OPEB plans on pages 59 - 66 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Dalton Board of Education's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, schedule of expenditures of education local option sales tax proceeds, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The combining and individual fund financial statements, the schedule of expenditures of education local option sales tax proceeds, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the schedule of expenditures of education local option sales tax proceeds, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2018, on our consideration of the City of Dalton Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Dalton Board of Education's internal control over financial reporting and compliance.

Estes & Walcott

Dalton, Georgia November 30, 2018

The discussion and analysis of the City of Dalton Board of Education's ("School District") financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2018. The intent of this discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the complete financial statements, with notes, to enhance their understanding of the School District's financial performance.

#### **Financial Highlights**

Key financial highlights for 2018 are as follows:

- In accordance with generally accepted accounting principles ("GAAP"), total net position was restated as of July 1, 2017 due to the implementation of a new accounting standard for other post-employment benefit ("OPEB") plans. The net position decreased 105% from \$64.4 million in 2017 to a deficit of \$3.5 million as a result of this restatement. In fiscal year 2018, total net position increased 181% or to \$2.9 million from the fiscal year 2017 restated net position of \$3.5 million deficit. This increase is based upon the combination of an increase in liabilities for debt, increase to fund balance, and increase to assets restricted for capital.
- Total revenues increased 6% from \$95.0 million in 2017 to \$100.5 million in 2018. Most of the change is attributable to capital donations for land as well as for equipment. Although state capital grant revenue decreased due to the reductions in state funded capital expenditures, state operating revenue increased as a result of changes in enrollment and equalization funding. Property tax revenue also increased due to increased property values while maintaining the same millage. Overall, revenues exceeded expenses by \$6.4 million in fiscal year 2018.
- Total expenses increased 4% from \$90.1 million in 2017 to \$94.0 million in 2018. Expenditure increases were due to interest on long-term debt and facility improvements at Westwood Elementary and Dalton High. There were also four academic coaching positions added to support teacher effectiveness in literacy, mathematics, and instructional technology.
- Among the major funds, the general fund reported \$76.6 million in revenues in 2018, compared to \$72.2 million in revenues in 2017. Most of the change is attributable to increased state operating revenue due to growing enrollment and equalization funding. The general fund reported \$74.2 million in expenditures in 2018 compared to \$70.5 million in expenditures in 2017. Expenditure increases are due to percentage increases in the employer contribution to the teacher's retirement system, employer health insurance cost increases for non-certified employees, and adding academic coaching positions.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the School District's basic financial statements. The basic financial statements are comprised of three components: 1) district-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

#### **District-wide Financial Statements**

The district-wide financial statements are designed to provide readers with a broad overview of the School District's finances in a manner similar to a private-sector business.

The statement of net position presents information on all of the School District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

	2018	2017
Assets		
Current and other assets	\$ 89,550,250	\$ 31,380,006
Capital assets	113,123,150	99,933,486
Total assets	202,673,400	131,313,492
Deferred outflows of resources	15,017,455	20,416,676
Liabilities		
Current liabilities	15,703,921	10,482,658

Total net position	\$ 2,894,649	\$ 64,352,558

Cash and investments increased \$48.6 million of which the capital projects fund increased by \$45.6 million. The capital projects fund cash and investment increase is attributable to the issuance of \$40 million in general obligation bonds. The general obligation bond capital funds will be used to build a new 6-7 grades school. Intergovernmental receivables increased by \$11.6 primarily within the Education Special Purpose Local Option Sales Tax ("ESPLOST") capital fund. The receivable is the result of the issuance of revenue bonds through the City of Dalton Building Authority to access advanced funding for approved ESPLOST school improvement, technology, and safety projects. The revenue bond will be repaid with ESPLOST proceeds over the next five years. Restricted assets decreased by \$2.0 million from the final debt payment for the Quality Zone Academy Bond ("QZAB").

The combination of the increases in cash and investments and the increase in intergovernmental receivables with the reduction in restricted assets are mirrored in the liabilities. There is an increase of \$58.3 million in the long-term liabilities specifically for the revenue bond capital lease and the general obligation bonds payable. The increase also includes a debt premium of \$7.3 million.

Deferred outflow of resources decreased by \$5.4 million while deferred inflow of resources increased by \$6.7 million. Net pension liability decreased \$7.8 million as a result of pension contributions, expenses, and updated actuarial valuation and allocation of the liability.

The School District implemented the GASB Statement No. 75 that pertains to OPEB for fiscal year 2018. The implementation of this standard required a restatement of beginning net position. The net OPEB liability of \$64.9 million was reported at year end in accordance with actuarial valuation and allocation of the liability.

Salary, benefits and accounts payable increased by \$4.2 million. The most substantial portion is in accounts payable pertaining to the accrual of vendor payments for the capital projects at Brookwood and City Park elementary schools. Salary and benefits were higher due to retirement benefit and health insurance cost increases, as well as employee salary increases.

The statement of activities presents information showing the change in the School District's net position during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

#### Revenues

The School District's total revenues increased in 2018 by 6%, or \$5.5 million. The largest increase in revenues is for 37 acres of land donated to the School District that will be used to build a new middle school. Operating grants and contributions are made up of state and federal revenues and increased \$2.4 million. State revenues primarily increased for equalization funding which is based on property wealth or value per student relative to all other school districts throughout the state of Georgia. The School District has had declining property wealth per student which triggers this state funding formula. In fiscal year 2017, the School District received \$3.5 million in capital grants for the Dalton High HVAC and renovation as well as the Westwood project while in fiscal year 2018, the School District received \$89,000 for the Dalton High HVAC and renovation. Property tax revenues increased by \$1.2 million due to a 4% increase in property values. Other tax revenues decreased by \$898,000 due to a one-time correction received in fiscal year 2017 for the distribution of sales tax revenues between Whitfield County School District and Dalton Public Schools for the Education Special Purpose Local Option Sales Tax.

#### Expenses

The School District's total expenses increased by 4%, or \$4.0 million. Maintenance expenditures increased by \$1.2 million due to the capital projects at Westwood Elementary and Dalton High School. Other increases in maintenance were for mobile classroom rentals and equipment and furniture purchases. Improvement of instruction expenditures increased by \$681,000 to add 4 academic coaching positions in literacy, mathematics, and instructional technology. Overall, the School District had increased costs for the employer contribution to both the teacher retirement system and for non-certified staff health insurance. The School District also had an increase of \$1.3 million for interest on long-term debt.

#### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Fund balance, when compared with net position, reports only those assets and liabilities that primarily have an impact on short-term financing decisions. Fund balance (specifically, unassigned fund balance) is a measure of available financial resources. Net position reports all assets and all liabilities regardless of their relevance to near-term financing decisions. Net position should be understood as a measure of net worth rather than a measure of available financial resources.

All funds of the School District can be divided into three types of funds - governmental funds, propriety funds, and fiduciary funds. The School District does not have any proprietary funds.

#### Governmental Funds

Most of the School District's activities (instruction, administration, maintenance, student transportation, etc.) are reported in governmental funds, which focus on how money flows in and out of those funds. Balances left at year-end are available for spending in future periods. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The governmental fund activities may be financed with property taxes, Quality Basic Education ("QBE") state formula aid, and federal funds.

#### Proprietary Funds

Proprietary funds are those used to account for ongoing organizations and activities which are similar to those found in the private sector. Currently, the School District does not utilize proprietary funds.

#### Fiduciary Funds

The School District is the trustee, or fiduciary, for assets that belong to others, such as club and class funds. The School District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The School District excludes these activities from the district-wide financial statements because it cannot use these assets to finance its operations.

#### The School System's Funds

The 2018 combined fund balance of all governmental funds totaled \$76.3 million. This is a 243% or \$54.1 million increase from the \$22.3 million fund balance from fiscal year 2017. The fund balance increased due to the issuance of two different debt obligations for upcoming capital projects. The School District obtained general obligation bonds totaling \$40.4 million, revenue bonds totaling \$13.4 million, and premiums on the debt issuances of \$7.3 million. These funds will be spent over the next several years on planned capital projects. The general obligation bond funds will be used to build a new middle school. The revenue bond will be used on approved ESPLOST capital projects that include the Brookwood and City Park elementary school renovations, safety, and technology. Of the governmental fund balance, \$56.2 million is restricted for capital projects, and \$1.8 million restricted for the food service program. An additional \$0.8 million is committed for capital projects.

#### **General Fund Budgetary Highlights**

In developing the fiscal year 2018 budget, the administration addressed the need to maintain a quality education for all students. The School Board set priorities, or filters, through which all decisions were to be assessed. These filters were to: maximize classroom impact with an efficient use of positions, examine student needs to determine positions and resources, have a reasonable and balanced approach with revenues and expenditures, and maintain adequate reserves to meet cash flow requirements. The School District's state funding increased due to equalization funding along with changes in enrollment.

The most significant budgeted fund is the general fund. The original budget was amended to recognize the growth in property values from the certified tax digest. The original budget assumed no growth in the tax digest, when in actuality it had 4% growth in property values. Accordingly, the board amended the expenditure budget to increase school allocations of materials, services, and supplies. Additionally, the budget was amended to properly account for state grant revenue and the corresponding expenditure budgets.

Actual revenues were 1% more than the final budget. Federal revenues were 59% more than budget as actual E-rate revenue received was higher than budget estimates. Actual local revenue was more than the final budget for an equipment donation, property taxes and interest earnings.

Actual expenditures were under the final adjusted budget. Most of the expenditure savings were in instruction, media services, and central support. The instructional expenditures were under budget in salary and benefits for unfilled positions. Media expenditures were lower than budget due to savings in technology. Central support services were less than budget due to savings in open positions, software and technology. Improvement of instruction expenditures exceeded original budget estimates for salary and benefit costs from reduced federal funds. The School District maintained positions that were partially funded in federal programs in fiscal year 2017, and shifted a portion of those costs to the general fund in fiscal year 2018.

Overall, the general fund current revenues adequately cover current expenditures as well as some capital outlay activity. There were no significant changes in regards to funding sources, programs, or operations within the general fund from the prior year.

#### **General Fund Balance**

The fiscal year 2018 unassigned fund balance of \$16.4 million reflects a 16% increase over fiscal year 2017. The fund balance will continue to be used for transfers to the capital projects fund to support the payment of obligations that address student technology and facility infrastructure. The School Board allows for a higher fund balance to prepare for some operating costs that are anticipated with the opening of the new middle school in a couple of years.

The unrestricted, unassigned fund balance of \$16.4 million gives the School District a fund balance that is equivalent to 81 days of general fund expenditures. This fund balance remains adequate to minimize the likelihood of the School District entering the short-term debt market to pay for current operating expenditures. The fund balance is also sufficient to manage some uncertainty related to all sources of revenues and unanticipated expenditure needs.

#### **Other Major Funds**

For consistency with prior years, the School District presents the federal programs special revenue fund as a major fund, although it no longer meets the requirements as a major fund in this year. The federal programs special revenue fund accounts for revenues that are restricted as to use for specific programs and goals. The main federal program included in this fund is Title I Academic Achievement. The revenue allocation is based on economically disadvantaged students and expenditures are intended to bolster the academic performance of all students.

The School District uses capital projects funds to account for school construction and improvement projects. The School District has two major capital projects funds – the capital projects fund which reports general construction activity of the School District, and the ESPLOST fund which reports construction activity funded by the education special purpose local option sales tax.

The capital projects fund is funded by the new general obligation bond from 2018, investment earnings and transfers from the general fund to support capital undertakings. In fiscal year 2018, the School District received a donation of 37 acres of land valued at \$6.0 million that is reported under the capital projects. This property will be the site for the new middle school which will be funded with the general obligation bond. The \$6.0 million amount is also reported as a capital expense. The School District had cost of issuance expenditures with the bond, and initial architect design costs. The School District also received state revenue reimbursement for the capital project at Westwood School in fiscal year 2018. The Westwood renovation project was initiated in fiscal year 2016 with final project costs completed in fiscal year 2018. There were several other projects in the capital fund in fiscal year 2018. Other capital expenditures included digital security camera upgrades at Dalton High School, Blue Ridge and Park Creek elementary schools. Dalton High also had expenditures to improve athletic field safety for both spectators and athletes. Improvements were made at Harmon field, as well as the softball and baseball fields.

Since 1997, the School District has utilized ESPLOST proceeds as a primary funding source for capital projects. In March 1997, the Whitfield County voters approved the first five-year education special purpose local option sales tax for capital projects. Since then, ESPLOST has been renewed by the voters four subsequent times. The School Board allowed ESPLOST to lapse for a one year period during calendar year 2012 in an effort to respond to the recession and provide some local tax relief.

In fiscal year 2018, ESPLOST revenues come from ESPLOST IV that was voted back into effect as of January 2013 and continued for five years ending December 2017, as well as ESPLOST V that started in January 2018.

The sales tax is proportionately distributed to Whitfield County Schools and the School District based on the full-time equivalent of students ("FTE"). The county-wide maximum of the current ESPLOST V could generate a total of \$98 million. The School District would receive up to \$36.9 million over the life of this five year tax. School District plans assume a \$29.7 million budget in sales tax revenue that will be allocated to the School District and available to fund capital projects and debt service.

Fiscal year 2018, ESPLOST sales tax revenue totaled \$5.9 million compared to \$6.9 million in fiscal year 2017. This 14% decrease of \$942,000 is a one-time correction in the sales tax distribution in fiscal year 2017 between the county school and city school districts related to using an erroneous outdated student FTE. There were \$2.5 million incurred at Dalton High for the HVAC and renovation project that will cross over into fiscal year 2019. The School District also initiated the HVAC, roof and renovation projects at both Brookwood and City Park that will span into fiscal year 2020 using the ESPLOST V revenue bond. The School District incurred \$3.1 million at Brookwood and \$2.8 million at City Park. Additionally, there was a portion of student technology capital project expenditures in the ESPLOST capital fund.

#### **Capital Assets**

Capital assets increased 13%, from \$99.9 million in 2017 to \$113.1 million in 2018. The increase is due to construction in progress building improvement activity for the Dalton High HVAC and renovation project. See Note 5 of the basic financial statements for additional information on capital assets.

#### **Debt Administration**

At June 30, 2018, the School District had long-term liabilities in the form of general obligation bonds, capital leases, and compensated absences. Although the School District has a policy that enables employees to accumulate sick leave, the School District does not compensate employees for unused sick leave. See Note 7 of the basic financial statements for additional information on long-term debt.

	Beginning			Ending	I	Oue within
	balance	Additions	Reductions	balance		one year

#### Factors Bearing on the School District's Future

Education funding from the State of Georgia is expected to remain at a conservatively low level not only due to the economy, but also due to the current political agenda as it relates to public education, income tax, property tax, and sales tax revenues. Since 2003, school districts have been dealing with austerity revenue reductions from the State of Georgia. The School District has accumulated a total of \$36.9 million loss net of federal stimulus funding in state revenue. Although the state legislature had three consecutive years of sizeable alleviation from austerity reductions of \$1.4 million in additional funds each year, fiscal year 2018 continued to have losses in state revenue attributable to the austerity component. Beginning with fiscal year 2019, Georgia school districts will no longer have reduced funding from austerity cuts.

Since 2011, the School District has qualified for state equalization grant revenue. Georgia's equalization formula attempts to round out wealth per student as defined by property value per student. The School District received \$600,400 in 2011 and \$1.1 million in 2012. In 2013, state officials revised the funding formula since the state budget could not afford to provide for the grant. The School District received \$536,900 in 2013 under a revised funding formula, and after another reduction in equalization revenue, it was down to \$134,500 in 2014. Due to growing enrollment and a relatively flat property tax digest, the School District received \$625,500 in equalization revenue for fiscal year 2015, but dropped again in fiscal year 2016 to \$103,700. In fiscal year 2017, the School District was excluded from equalization funding, but received \$1.4 million in fiscal year 2018. In fiscal year 2019, the School District anticipates to receive its largest amount to date at \$2.5 million.

Dalton is the home of two of the largest flooring manufacturers. The economic downturn has hurt the housing market and construction in general. Because Dalton's economy is closely tied to the housing and construction markets, it has been adversely affected by this recession. Overall, there have been reports of significant improvement to unemployment and now stabilization. The national unemployment rate is 4.1% compared with 4.9% reported in the prior year. Georgia is at 4.5% compared with 5.4% unemployment rate previously reported. The Dalton Metropolitan Area shows an unemployment rate of 5.4% compared with 6.2% which was reported in the previous year.

Community leaders are striving to seek out ways to improve the quality of life and diversify the economy of Dalton City and Whitfield County. The implementation of a 20% Freeport exemption on business inventory began in fiscal year 2011. The reductions initially resulted in a revenue loss of \$685,500 in fiscal year 2011. Although the exemption remains at the 20% level, the actual Freeport inventory continues to grow since that time and is a loss of \$908,400 in property tax revenue for fiscal year 2018. The plan is to phase in the Freeport exemption until it reaches 100% exemption on business inventory. The School District forecasts a 100% Freeport exemption will result in the loss of an additional \$3.6 million in property tax revenue. Increases to the Freeport exemption will be delayed for fiscal year 2019 for the School District. There is some consideration for a 20% increase in a future fiscal year.

Real and personal property values had unprecedented decline in 2010, 2011 and 2012. As a result, the School District's property tax revenue decreased a total of \$2.7 million during that period. Although property values have fluctuated since fiscal year 2013, there has been an upward trend that has caused an in increased property tax revenue. Fiscal year 2018 property tax revenue is up 3% or \$1.1 million over fiscal year 2017. There remains some uncertainty regarding property values, however, the School District is anticipating a 2% increase in the tax digest for fiscal year 2019.

While the economic picture is expected to be challenging in the short-term, the School Board and administrative staff are committed to ensuring the long-term viability of the system. As Georgia school districts receive relief from much of the state funding austerity reductions, it is expected that some educational expenditures will be restored. The governor and legislature increased the state teacher salary scale by 2% in fiscal year 2018 which was the first cost of living adjustment since fiscal year 2009. Class sizes remain high due to reduced staffing relative to district enrollment, however the board has increased teacher positions in fiscal year 2019 to restore class sizes in many areas. Although, the School District enrollment has averaged 2% growth each year over the last 10 years, fiscal year 2018 shows a decline of 3%. It is anticipated that enrollment will remain stable in fiscal year 2019.

On November 7, 2017, the community passed a school general obligation bond not to exceed \$50.65 million to build a new 6-7 grades school to be financed with property taxes. This will help address enrollment and facility capacities in conjunction with grade configuration changes at the secondary level. The project includes purchase of property, site development and school construction.

The vision of the School District is to educate students to become contributing citizens of the world. While academics are important, we feel that integrity and creativity are also vital to the development of children. We are committed to providing our students with an education that encompasses these values. We feel that through program assessment and focused funding we will be able to achieve our vision without adversely affecting our taxpayers.

#### **Requests for Information**

This financial report is designed to provide a general overview of the City of Dalton Board of Education's finances for all those with an interest in the district's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of Dalton Board of Education, Chief Financial Officer, P.O. Box 1408, Dalton, Georgia 30722-1408.

## CITY OF DALTON BOARD OF EDUCATION RECONCILIATION OF THE BALANCE SHEET - GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION JUNE 30, 2018

Total governmental fund balances		\$ 76,321,004
Amounts reported for governmental activities in the statement of net position are different because:		
Interfund receivables and payables between governmental funds are reported in the		
fund statements but are eliminated in the statement of net position:		
Interfund receivables	4,433,324	
Interfund payables	(4,433,324)	-
Capital assets used in governmental activities are not financial resources and therefore are not reported in the fund statements but are reported in the statement of net position:		
Cost	165,363,447	
Accumulated depreciation	(52,240,297)	113,123,150
Amounts due from property taxpayers not collected within 60 days subsequent to year end and therefore not available to pay for current period expenditures are reported as unavailable revenue in the fund statements.		710,716
Liabilities, including accrued interest payable, capital leases payable, bonds payable, unamortized premiums or discounts on debt, compensated absences, the net pension liability, and the net OPEB liability are not due and payable in the current period and therefore are not reported in the fund statements but are reported in the statement of net position:  Accrued interest payable Capital leases payable Bonds payable Premium on debt, net of amortization Compensated absences Net pension liability Net OPEB liability	(616,631) (13,575,449) (40,380,000) (7,127,974) (33,595) (67,378,963) (64,923,881)	(194,036,493)
Deferred outflows and inflows of resources related to pension and OPEB plans are applicable to future periods and, therefore, are not reported in the fund statements but are reported in the statement of net position:		
Deferred outflows related to pension and OPEB plans	15,017,455	( 77 ( 272
Deferred inflows related to pension and OPEB plans	(8,241,183)	6,776,272
Net position of governmental activities		\$ 2,894,649

## CITY OF DALTON BOARD OF EDUCATION RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2018

Net changes in fund balances - governmental funds					
Amounts reported for governmental activities in the statement of activities are different because:					
Elimination of transfers between governmental funds:					
Transfers in	(568,814)				
Transfers out	568,814		-		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period.					
Capital outlay	17,670,024				
Depreciation expense	(4,472,943)		13,197,081		
Disposal of capital assets not reported at the fund level.			(7,417)		
Tax revenues that are reported in the statement of activities that do not provide current financial resources are not reported as revenue in the governmental funds.			(29,583)		
The issuance of long-term debt provides current financial resources to governmental funds, while repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets.  Proceeds from issuance of debt Principal payments of debt Premiums from issuance of debt Amortization of premiums	(53,762,806) 2,068,508 (7,250,447) 122,473	1	(58,822,272)		
Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. These items include:  Net change in accrued compensated absence liability  Net change in accrued interest payable  On behalf payments from the State of Georgia for pension contributions  Pension expense in excess of pension contributions  OPEB expense in excess of OPEB contributions	(1,304) (616,631) 129,167 (409,809) (1,077,151)		(1,975,728)		
Change in net position - governmental activities		\$	6,431,837

#### Note 1 Summary of Significant Accounting Policies

#### **Reporting Entity**

The City of Dalton Board of Education ("School District") provides for a system of education for the children in the City of Dalton, Georgia ("City") as authorized by its charter. The School District was established under the laws of the State of Georgia and operates under the guidance of a school board elected by the voters ("School Board") and a Superintendent appointed by the School Board. The School Board is comprised of five members who have decision making authority, the power to designate management, the ability to significantly influence operations, the authority to levy taxes or incur bonded indebtedness, and the authority to set its budget without approval by the City government or any other entity. Accordingly, the School District is a primary government and consists of all the organizations that compose its legal entity. The School District has no component units.

#### **Basis of Presentation**

The accompanying financial statements of the School District have been prepared in conformity with generally accepted accounting principles ("GAAP") as prescribed by the Governmental Accounting Standards Board ("GASB"). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles. The most significant of the School District's accounting policies are described below

The School District's basic financial statements are collectively comprised of the district-wide financial statements, fund financial statements, and notes to the basic financial statements. The district-wide financial statements focus on the School District as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the information's usefulness.

**District-wide Statements:** The statement of net position and the statement of activities display information about the financial activities of the overall School District, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. For the year ended June 30, 2018, the School District had no activities accounted for as business-type activities.

The statement of net position presents the School District's non-fiduciary assets and liabilities, with the difference reported as net position. Net position is reported in the following three categories:

- Net investment in capital assets Net investment in capital assets represents the School
  District's total investment in capital assets, net of outstanding debt obligations related to those
  capital assets. To the extent debt has been incurred but not yet expended for capital assets, such
  amounts are not included as a component of net investment in capital assets.
- Restricted net position Restricted net position represents resources for which the School
  District is legally or contractually obligated to spend in accordance with restrictions imposed
  by external third parties or imposed by law through constitutional provisions or enabling
  legislation.

#### Note 1 Summary of Significant Accounting Policies - Continued

Unrestricted net position - Unrestricted net position consists of resources not meeting the
definition of the two preceding categories. Unrestricted net position often has constraints on
resources imposed by management which can be modified or removed.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the School District's governmental activities.

Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses (expenses of the School District related to the administration and support of the School District's programs, such as office and maintenance personnel and accounting) are not allocated to programs.

Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

**Fund Financial Statements:** The fund financial statements provide information about the School District's funds, including fiduciary funds. Eliminations have been made to minimize the double counting of internal activities. Separate statements for each category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, with each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The School District reports the following major governmental funds:

- The general fund is the School District's primary operating fund. It accounts for and reports all financial resources of the School District not accounted for and reported in another fund.
- The federal programs fund is a special revenue fund which accounts for and reports financial resources that are restricted as to use for specified federal programs, such as Title I. Only federal grant revenues are reported in this fund.
- The capital projects fund accounts for and reports the general acquisition and construction of capital assets or improvement of major capital projects. The projects accounted for in this fund are not funded by ESPLOST revenue.
- The education special purpose local option sales tax fund is a capital projects fund which accounts for and reports financial resources including education special purpose local option sales tax ("ESPLOST") that are restricted, committed, or assigned to expenditure for capital outlays, including acquisition or construction of capital facilities or other capital assets.

Additionally, the School District provides additional information on the following nonmajor governmental funds: the school food services special revenue fund, the lottery programs special revenue fund, and the debt service fund.

#### Note 1 Summary of Significant Accounting Policies - Continued

The School District has two funds which are accounted for as agency funds: the student activity agency fund and the family connection agency fund. Agency funds are used to report resources that the School District holds for others in a custodial capacity and do not involve measurements of results of operations.

#### **Basis of Accounting**

The basis of accounting determines when transactions are reported on the financial statements. The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the School District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, vehicle taxes, sales taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from vehicle taxes and sales taxes is recognized in the fiscal year in which the underlying transaction (sale) takes place. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The School District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School District considers all revenues reported in the governmental funds to be available if they are collected within 120 days after year-end (60 days for property taxes). Property taxes, vehicle taxes, sales taxes, and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities and acquisitions under capital leases are reported as other financing sources.

The School District funds certain programs by a combination of specific cost-reimbursement grants, categorical grants, and general revenues. Thus, when program costs are incurred, there is both restricted and unrestricted net position available to finance the program. It is the School District's policy to first apply grant resources to such programs, followed by cost-reimbursement grants, then general revenues.

Agency funds are not involved in the measurement of results of operations and, therefore, measurement focus is not applicable to them.

#### Note 1 Summary of Significant Accounting Policies - Continued

#### **New Accounting Pronouncements**

In fiscal year 2018, the School District adopted GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions. This statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For defined benefit OPEB, this statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Note disclosure and required supplementary information requirements about defined benefit OPEB also are addressed. The adoption of this statement has a significant impact on the School District's financial statements. As noted in the Restatement of Net Position note disclosure, the School District restated beginning net position for the cumulative effect of this accounting change.

In fiscal year 2018, the School District adopted GASB Statement No. 81, *Irrevocable Split-Interest Agreements*. This statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This statement requires that a government recognize revenue when the resources become applicable to the reporting period. The adoption of this statement does not have a significant impact on the School District's financial statements.

In fiscal year 2018, the School District adopted GASB Statement No. 85, *Omnibus 2017*. The objective of this statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits). The adoption of this statement does not have a significant impact on the School District's financial statement.

In fiscal year 2018, the School District GASB Statement No. 86, Certain Debt Extinguishment Issues. The primary objective of this statement is to improve consistency in accounting and financial reporting for insubstance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. The adoption of this statement does not have a significant impact on the School District's financial statement.

#### Cash, Cash Equivalents, and Investments

The School District's cash and cash equivalents consist of cash on hand, demand deposits, non-negotiable certificates of deposit, and short-term investments with original maturities of three months or less from the date of acquisition in authorized financial institutions. The Official Code of Georgia Annotated ("OCGA") authorizes the School District to deposit its funds in one or more solvent banks, insured by Federal savings and loan associations or insured chartered building and loan associations.

#### Note 1 Summary of Significant Accounting Policies - Continued

Investments made by the School District are reported at fair value. The OCGA authorizes the School District to invest its funds. In selecting among options for investment or among institutional bids for deposits, the highest rate of return shall be the objective, given equivalent conditions of safety and liquidity. Funds may be invested in the following: (1) obligations issued by the State of Georgia or by other states; (2) obligations issued by the United States government; (3) obligations fully insured or guaranteed by the United States government or a United States government agency; (4) obligations of any corporation of the United States government; (5) prime banker's acceptances; (6) the Georgia Fund 1 (local government investment pool) administered by the State of Georgia, Office of the State Treasurer; (7) repurchase agreements; and (8) obligations of other political subdivisions of the State of Georgia.

The School District has a formal policy regarding investment policies that address credit risks, custodial credit risks, concentration of credit risks, and interest rate risks. Foreign currency risk does not apply to the School District.

Investments made by the School District in nonparticipating interest-earning contracts (such as certificates of deposit) are reported at cost. Participating interest-earning contracts and money market investments with a maturity at purchase of one year or less are reported at amortized cost. All other investments are reported at fair value. For accounting purposes, certificates of deposit are classified as cash as they are not subject to withdrawal limitations.

Restricted cash refers to funds held by the School District which are limited as to use for debt service, in accordance with the terms of debt agreements. See Note 8 for additional information.

#### Receivables

Receivables consist of amounts due from property and sales taxes, grant reimbursements due from federal, state, or other grants for expenditures made but not reimbursed, and other receivables disclosed from information available. Receivables are recorded when either the asset or revenue recognition criteria has been met. Receivables recorded on the basic financial statements do not include any amounts which would necessitate the need for an allowance for uncollectible receivables.

Due to other funds and due from other funds consist of activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year.

#### **Inventories**

On the basic financial statements, inventories of donated food commodities used in the preparation of meals are reported at their federally assigned value and purchased food inventories are reported at cost, calculated on a first in-first out basis. The School District uses the consumption method to account for inventories whereby donated food commodities are recorded as an asset and as revenue when received, and expenses/expenditures are recorded as the inventory items are used. Purchased foods are recorded as an asset when purchased and expenses/expenditures are recorded as the inventory items are used.

### **Prepaid Items**

Payments made to vendors for services that will benefit future accounting periods are recorded as prepaid items in both the district-wide and governmental fund financial statements.

#### Note 1 Summary of Significant Accounting Policies - Continued

#### **Restricted Assets**

Certain resources set aside for repayment of debt are classified as restricted assets on the statement of net position because their use is limited by applicable debt statutes, e.g. debt service sinking funds.

#### **Capital Assets**

Capital assets are reported in the governmental activities column in the district-wide financial statements. Capital assets are defined by the School District as assets with an initial, individual cost of more than \$5,000 (land is capitalized regardless of cost) and an estimated useful life in excess of one year. Purchased and constructed capital assets are valued at cost where historical records are available and at estimated historical cost based on appraisals or deflated current replacement cost where no historical records exist. Donated capital assets are recorded at acquisition value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of assets or materially extend the useful lives of the assets is not capitalized. The School District does not capitalize book collections or works of art. Disposals are deleted at depreciated recorded cost. Depreciation is computed using the straight-line method for all assets except land, and is used to allocate the actual or estimated historical cost of capital assets over estimated useful lives. During the fiscal year under review, no events or changes in circumstances affecting a capital asset that may indicate impairment were known to the School District.

Capital acquisition and construction are recorded as expenditures in the governmental fund financial statements at the time of purchase (including ancillary charges), and the related assets are reported as capital assets in the governmental activities column in the district-wide financial statements.

Capitalization thresholds and estimated useful lives of capital assets reported in the district-wide financial statements are as follows:

	Ca	apitalization	Estimated
Category		Γhreshold	Useful Life
Buildings - permanent	\$	50,000	40 years
Buildings - temporary		10,000	15 years
Land improvements		25,000	15 years
Building improvements		50,000	15 years
Kitchen equipment		5,000	15 years
Recreational and athletic equipment		5,000	10 years
Buses and heavy trucks		5,000	10 years
Custodial and grounds equipment		5,000	5 years
Instructional and other equipment		5,000	5 years
Cars and light trucks		5,000	5 years
Furniture		5,000	5 years
Technology and hardware		5,000	5 years
Intangible assets		250,000	15 years

#### Note 1 Summary of Significant Accounting Policies - Continued

#### **Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of net position and/or the balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of resources that applies to a future period(s) and therefore will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position and/or the balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of resources that applies to a future period(s) and therefore will not be recognized as an inflow of resources (revenue) until that time.

# **Compensated Absences**

Compensated absences represent obligations of the School District relating to an employee's right to receive compensation for future absences based upon service already rendered. This obligation relates only to vesting accumulating leave in which payment is probable and can be reasonably estimated. Accumulated unpaid sick leave costs are not vested and are not accrued in any fund, but are recognized as expenditures or expenses when paid. Accumulated unpaid vacation costs are accrued when incurred in the district-wide financial statements

Members of the Teachers Retirement System of Georgia ("TRS") may apply unused sick leave toward early retirement. The liability for early retirement will be borne by TRS rather than by the individual school districts. Otherwise, sick leave does not vest with the employee, and no liability is reported in the School District's financial statements.

# **Long-Term Obligations**

The School District issues and incurs long-term obligations to provide funds for the acquisition, construction, renovation, and maintenance of major capital facilities. In the district-wide financial statements, outstanding debt is reported as a liability. Bond premiums and discounts and the difference between the reacquisition price and the net carrying value of refunded debt are deferred and amortized over the life of the bonds using the effective interest method. Bond issuance costs are recognized as an outflow of resources in the fiscal year in which the bonds are issued.

In the governmental fund financial statements, the School District recognizes the proceeds of debt and premiums as other financing sources of the current period. Bond issuance costs are reported as debt service expenditures.

#### Note 1 Summary of Significant Accounting Policies - Continued

#### **Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers Retirement System of Georgia ("TRS"), the Public School Employees Retirement System ("PSERS"), and the Employees' Retirement System ("ERS") and additions to/deductions from TRS's, PSERS's, and ERS's fiduciary net positions have been determined on the same basis as they are reported by TRS, PSERS, and ERS, respectively. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. See Note 8 for additional information.

#### **Postemployment Benefits Other Than Pensions ("OPEB")**

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Georgia School Employees Postemployment Benefit Fund ("School OPEB Fund"), and additions to/deductions from School OPEB Fund fiduciary net position have been determined on the same basis as they are reported by School OPEB Fund. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. See Note 10 for additional information

#### **Fund Balances**

Fund balances for governmental funds are reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

The School District's fund balances are classified as follows:

- 1) **Nonspendable fund balance** Consists of resources that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.
- 2) **Restricted fund balance** Consists of resources that can be used only for specific purposes pursuant to constraints either (1) externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or (2) imposed by law through constitutional provisions or enabling legislation.
- 3) **Committed fund balance** Consists of resources that can be used only for specific purposes pursuant to constraints imposed by formal action of the School Board. The School Board is the School District's highest level of decision-making authority, and the formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a resolution approved by the School Board. Committed fund balance also should incorporate contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.
- 4) **Assigned fund balance** Consists of resources constrained by the School District's intent to be used for specific purposes, but are neither restricted nor committed. The intent should be expressed by the School Board, the budget or finance committee, or the Superintendent, or designee, to assign amounts to be used for specific purposes.

#### Note 1 Summary of Significant Accounting Policies - Continued

#### **Fund Balances - Continued**

5) **Unassigned fund balance -** Consists of resources within the general fund not meeting the definition of any aforementioned category. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, it may be necessary to report a negative unassigned fund balance.

When multiple categories of fund balance are available for expenditure, the School District will start with the most restricted category and spend those funds first before moving down to the next category with available funds.

Nonspendable fund balances and restricted fund balances are considered restricted net position on the statement of net position. Committed, assigned, and unassigned fund balances are considered unrestricted net position on the statement of net position.

A schedule of fund balances is as follows:

Fund Balances:	General	Ca	pital Projects	Education ecial Purpose local Option Sales Tax	Tot	tal Nonmajor Funds	Total
Nonspendable:			<u>r</u>	 	-		 
Inventory	\$ -	\$	-	\$ -	\$	172,145	\$ 172,145
Restricted for:							
Capital projects	-		45,817,394	10,376,306		-	56,193,700
Debt service	-		-	-		618	618
School nutrition	-		-	-		1,827,344	1,827,344
Committed to:							
Capital projects	=		764,382	-		-	764,382
Assigned to:							
School activities	924,804		-	-		-	924,804
Unassigned	 16,438,011			 			 16,438,011
Total Fund Balances	\$ 17,362,815	\$	46,581,776	\$ 10,376,306	\$	2,000,107	\$ 76,321,004

#### **Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Note 1 Summary of Significant Accounting Policies - Continued

#### **Property Taxes**

The Mayor and Council of the City of Dalton, Georgia, fixed the property tax levy for the 2017 tax digest year (calendar year) on January 1, 2017 (levy date). Tax bills were mailed on October 20, 2017 (lien date) and are considered due upon receipt by the taxpayer. The actual due date is based on a period ending 60 days after the tax billing, on December 20, 2017 (due date). Taxes collected within the current fiscal year or within 60 days after year end on the 2017 tax digest are reported as revenue in the governmental funds for the year ended June 30, 2018. The Whitfield County, Georgia Tax Commissioner bills and collects the property taxes for the School District, withholds a percentage of taxes collected as a fee, and remits the remaining amount to the School District. Property tax revenues, net of the collection fee, combined with penalties and interest received on delinquent taxes, at the fund reporting level, totaled \$28,174,247 for the year ended June 30, 2018.

The tax millage rate levied for the 2017 tax year for School District maintenance and operations was 8.200 mils (a mil equals \$1 per thousand dollars of assessed value).

Additionally, title ad valorem tax revenues, at the fund reporting level, totaled \$1,348,625 for the year ended June 30, 2018. Vehicle tax revenues, at the fund reporting level, totaled \$349,982 for the year ended June 30, 2018.

#### **Sales Taxes**

Education special purpose local option sales tax, at the fund reporting level, totaled \$5,922,758 for the year ended June 30, 2018, and is to be used for capital outlay for educational purposes. This sales tax was authorized by local referendum and the sales tax must be reauthorized at least every five years.

The City of Dalton Building Authority issued revenue bonds during the year to provide advance funding for capital outlay projects associated with the issuance of ESPLOST. In fiscal year 2018, the School District was not required to repay any ESPLOST proceeds to the City of Dalton Building Authority for debt service on the revenue bonds. Repayment will begin in fiscal year 2019. See Note 7 for additional information.

#### Note 2 Budgetary Data

The budget is a complete financial plan for the School District's fiscal year, and is based upon careful estimates of expenditures together with probable funding sources. The budget is legally adopted each year for the general, special revenue, debt service, and capital projects funds. There is no statutory prohibition regarding over expenditure of the budget at any level. The budget for all governmental funds, except for the various school activity accounts (commonly referred to as principal accounts) reported in the general fund, is prepared and adopted by fund, function, and object. The legal level of budgetary control was established by the School Board at the aggregate fund level. The budgets are prepared in accordance with accounting principles generally accepted in the United States of America.

#### Note 2 Budgetary Data - Continued

The budgetary process begins with the School District's administration presenting an initial budget for the School Board's review. The administration makes revisions as necessary based on the School Board's guidelines and a tentative budget is approved. After approval of this tentative budget by the School Board, such budget is advertised at least once in a newspaper of general circulation in the locality and on the School District's website. At the next regularly scheduled meeting of the School Board after advertisement, the School Board receives comments on the tentative budget, makes revisions as necessary, and adopts a final budget. The approved budget is then submitted, in accordance with provisions of OCGA section 20-2-167(c), to the Georgia Department of Education. The School Board may increase or decrease the budget at any time during the year. All unexpended budget authority lapses at fiscal year-end.

See the statement of revenues, expenditures, and changes in fund balances - budget and actual, for all legally adopted funds for a detail of any over/under expenditures by fund during the fiscal year.

### **Note 3** Deposits and Investments

#### **Deposits**

OCGA Section 45-8-12 provides that there shall not be on deposit at any time in any depository for a time longer than ten days a sum of money which has not been secured by surety bond, by guarantee of insurance, or by collateral. The aggregate of the face value of such surety bond and the market value of securities pledged shall be equal to not less than 110% of the public funds being secured after the deduction of the amount of deposit insurance. If a depository elects the pooled method (OCGA 45-8-13.1) the aggregate of the market value of the securities pledged to secure a pool of public funds shall be not less than 110% of the daily pool balance.

Acceptable security for deposits consists of any one of or any combination of the following:

- (1) Surety bond signed by a surety company duly qualified and authorized to transact business within the State of Georgia,
- (2) Insurance on accounts provided by the Federal Deposit Insurance Corporation,
- (3) Bonds, bills, notes, certificates of indebtedness, or other direct obligations of the United States or of the State of Georgia,
- (4) Bonds, bills, notes, certificates of indebtedness, or other obligations of the counties or municipalities of the State of Georgia,
- (5) Bonds of any public authority created by the laws of the State of Georgia, providing that the statute that created the authority authorized the use of the bonds for this purpose,
- (6) Industrial revenue bonds and bonds of development authorities created by the laws of the State of Georgia, and
- (7) Bonds, bills, notes, certificates of indebtedness, or other obligations of a subsidiary corporation of the United States government, which are fully guaranteed by the United States government both as to principal and interest or debt obligations issued by or securities guaranteed by the Federal Land Bank, the Federal Home Loan Bank, the Federal Intermediate Credit Bank, the Central Bank for Cooperatives, the Farm Credit Banks, the Federal Home Loan Mortgage Association, and the Federal National Mortgage Association.

#### **Note 3 Deposits and Investments - Continued**

#### **Deposits**

Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District's deposit policy for custodial credit risk is as follows: excluding bond proceeds, the maximum amount which may be invested with any one financial institution shall not be greater than 50% of the total portfolio. Before the Superintendent or finance officer invests any surplus funds other than with Georgia Fund 1, a competitive bid process shall be conducted. If a specific maturity date is required, either for cash flow purposes or for compliance with maturity guidelines, bids will be requested for instruments which meet the maturity requirement. If no specified maturity is required, the Superintendent or finance officer shall endeavor to obtain the best available return on the investment. The Superintendent will utilize the Georgia Fund 1 anytime the rate of return is higher than the rate determined through requests from banks.

At June 30, 2018, the School District held deposits with a carrying amount of \$6,694,225 and a bank balance of \$7,387,671. The bank balances were fully covered by either deposit insurance and/or collateral held in the School District's name.

#### **Investments**

At June 30, 2018, the carrying value of the School District's unrestricted investments was \$68,037,074, and are invested in Georgia Fund 1 and with BB&T in accordance with the School District's investment policies.

Georgia Fund 1 is not registered with the SEC as an investment and does not operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940. The investment is valued at the pool's share price, \$1.00 per share. The pool is rated AAAf by Standard and Poor's. The weighted average maturity for Georgia Fund 1 on June 30, 2018 was 10 days.

Georgia Fund 1 (a local government investment pool) is administered by the State of Georgia, Office of the State Treasurer, and is not required to be categorized since the School District did not own any specific identifiable securities in the pool. The investment policy of the State of Georgia, Office of the State Treasurer for Georgia Fund 1 does not provide for investment in derivatives or similar investments. The State Depository Board prescribes cash management policies and procedures for the State of Georgia and provides oversight for Georgia Fund 1. Additional information on Georgia Fund 1 is disclosed in the State of Georgia Comprehensive Annual Financial Report. This audit can be obtained from the Georgia Department of Audits and Accounts at www.audits.ga.gov/SGD/CAFR.html.

#### **Note 3 Deposits and Investments - Continued**

#### **Investments**

The School District's investments as of June 30, 2018 are presented below. Investments are presented by investment type and debt securities are presented by maturity.

			Investment				
			Maturity				
	Fair Less Than						
Investment Type	Value			1 Year	1 Year		
US Treasury Notes	\$	40,638,492	\$	13,708,039	\$	26,930,453	
Federal Home Loan Bank		3,703,933		1,863,362		1,840,571	
	\$	44,342,425	\$	15,571,401	\$	28,771,024	

The School District measures and records its investments using fair value measurement guidelines established by GAAP. These guidelines recognize a three-tiered fair value hierarchy, as follows: level 1 – quoted prices for identical measurements in active markets; level 2 – observable inputs other than quoted market prices; and level 3 – unobservable inputs.

Investment Type	Fair Value		Level 1	Level 2
US Treasuries	\$	40,638,492	\$ 40,638,492	\$ -
US Agencies		3,703,933	 -	 3,703,933
	\$	44,342,425	\$ 40,638,492	\$ 3,703,933

Interest rate risk - Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The School District's investment policy states that the investment portfolio shall be designed to attain a market rate of return throughout budgetary and economic cycles, taking into account the investment risk restraints and liquidity needs. A market rate of return shall be defined as a rate of return that is not less than the annual return of Georgia Fund 1.

Custodial credit risk - Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the School District will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. As of June 30, 2018, all of the School District's investments were properly collateralized as required by state statutes. The School District's investment policy states that safety of principal is the foremost objective of the investment program. Investment of funds shall be undertaken in a manner that seeks to ensure the preservation of capital and protection of the investment principal.

Credit quality risk - Credit quality risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The School District's investment policy states that safety of principal is the foremost objective of the investment program. Investment of funds shall be undertaken in a manner that seeks to ensure the preservation of capital and protection of the investment principal.

#### **Note 3 Deposits and Investments - Continued**

#### **Investments**

The investments subject to credit quality risk are as follows:

Rated Debt Investments	Fair Value	AA+
Federal Home Loan Bank	\$ 3,703,933	\$ 3,703,933

Concentration of credit risk - Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The School District's policy for managing concentration of credit risk is to set the following maximum limits for each investment instrument: fully insured obligations of the U.S. government – 100%, fully insured obligations of U.S. agencies – 100%, Georgia Fund 1 (local government investment pool) – 100%, obligations of U.S. government sponsored corporations – 75%, certificates of deposit – 75%, and collateralized interest bearing demand deposits – 75%. The School District is in compliance with their policy.

## **Note 4 Nonmonetary Transactions**

The School District receives food commodities from the United States Department of Agriculture ("USDA") for school breakfast and lunch programs. These commodities are recorded at their federally assigned value. See Note 1 for more information on inventories.

Note 5 Capital Assets

Capital asset activity for the fiscal year ended June 30, 2018, is as follows:

	Beginning Balance	Additions	Reclassifications and Disposals	Ending Balance		
Governmental activities:						
Nondepreciable capital assets						
Land	\$ 9,304,651	\$ 7,770,483	\$ -	\$ 17,075,134		
Construction in progress	15,678,275	8,933,441	(17,988,816)	6,622,900		
Total	24,982,926	16,703,924	(17,988,816)	23,698,034		
Depreciable capital assets						
Land improvements Buildings and	3,986,907	29,679	-	4,016,586		
building improvements Machinery, equipment,	112,858,211	17,988,816	-	130,847,027		
and technology	5,321,207	936,421	(45,902)	6,211,726		
Vehicles	590,074	-	-	590,074		
Total	122,756,399	18,954,916	(45,902)	141,665,413		
Less accumulated depreciation						
Land improvements Buildings and	(2,307,501)	(147,543)	-	(2,455,044)		
building improvements Machinery, equipment,	(41,932,821)	(3,653,255)	-	(45,586,076)		
and technology	(3,101,451)	(638,181)	38,485	(3,701,147)		
Vehicles	(464,066)	(33,964)	-	(498,030)		
Total	(47,805,839)	(4,472,943)	38,485	(52,240,297)		
Depreciable capital assets, net	74,950,560	14,481,973	(7,417)	89,425,116		
Governmental activities capital assets, net	\$ 99,933,486	\$ 31,185,897	\$ (17,996,233)	<u>\$ 113,123,150</u>		

Current year depreciation expense by function is as follows:

# Governmental activities:

Instruction	\$ 3,339,002
Improvement of instructional services	6,959
General administration	2,314
School administration	143,800
Business administration	2,278
Maintenance and operation of plant	812,347
Other support services	1,809
Food services operation	 164,434
Total depreciation expense - governmental activities	\$ 4,472,943

#### **Note 6** Interfund Balances and Transfers

Due to and due from other funds are recorded for interfund receivables and payables which arise from interfund transactions and from interfund loans of cash. All balances are anticipated to be repaid within one year. Interfund balances at June 30, 2018 consisted of the following:

	]	Due From		Due To
	O	ther Funds	О	ther Funds
General fund	\$	3,608,491	\$	3,823,586
Federal programs fund		577,163		-
Capital projects fund		-		420,791
ESPLOST fund		187,315		-
Nonmajor governmental funds		60,355		188,947
Total governmental funds	\$	4,433,324	\$	4,433,324

Transfers are used to move revenues such as sales tax and property tax revenues as required matching funds or to provide supplemental funding for projects. Interfund transfers for the year ended June 30, 2018 consisted of the following:

			Capital			apital	Nonmajor			
	(	General	<b>ESPLOST</b>		projects		governmental			
Transfer To	fund		fund		fund		funds		Total	
General fund	\$	-	\$	-	\$	-	\$	194,996	\$	194,996
Capital projects fund		150,824		-		-		-		150,824
Nonmajor governmental funds		222,314		180		500				222,994
Total governmental funds	\$	373,138	\$	180	\$	500	\$	194,996	\$	568,814

### Note 7 Long Term Debt

**General Obligation Bonds** - The School District issued general obligation bonds in April 2018 to obtain funding for the purpose of acquiring, constructing, and equipping buildings and facilities. The principal amount is \$40,380,000, with an associated premium of \$6,417,189, which will be amortized to interest expense over the life of the debt. The interest rate on the bonds is 5%, with the final principal payment due in June 2048. The School District repays general obligation bonds from voter-approved property taxes. General obligation bonds are direct obligations and pledge the full faith and credit of the School District.

#### **Note 7 Long Term Debt - Continued**

At June 30, 2018, general obligation bond payments due by fiscal year are as follows:

Fiscal Year	Principal		
2019	\$ -		
2020	-		
2021	-		
2022	-		
2023	-		
2024 - 2028	4,700,00	00	
2029 - 2033	5,965,00	00	
2034 - 2038	7,605,00	00	
2039 - 2043	9,710,00	00	
2044 - 2048	12,400,00	00	
Total	\$ 40,380,00	00	

Capital Leases - The School District entered into an agreement with the City of Dalton Building Authority to obtain funding for the purpose of acquiring, constructing, and equipping buildings and facilities. Section 226 of the Taxpayer Relief Act of 1997 (Public Law 105-34) provides for a source of capital at no or at nominal interest rates for costs incurred by school districts in connection with the establishment of special academic programs, in partnership with the business community. The School District, in an agreement with the City of Dalton Building Authority, has entered into such an arrangement. Payment in full of \$2,000,000 in accordance with the terms of the agreement was made during the year ended June 30, 2018.

The School District entered into an agreement in February 2018 with the City of Dalton Building Authority to obtain funding for the purpose of acquiring, constructing, and equipping buildings and facilities. The underlying instruments of the lease are City of Dalton Building Authority revenue bonds in the principal amount of \$13,360,000, with an associated premium of \$833,258, which will be amortized to interest expense over the life of the debt. The interest rate on the bonds ranges between 2% and 5%, with the final principal payment due in February 2023. The obligation of the School District is absolute and unconditional so long as any of the bonds remain outstanding. Under the terms of the agreement, the School District will exercise its power of taxation to the extent necessary to pay the amounts required to be paid by the agreement.

The School District has acquired equipment under the provisions of various long-term lease agreements classified as capital leases for accounting purposes because they provide for a bargain purchase option or a transfer of ownership by the end of the lease term. During the current fiscal year, the School District entered into lease agreements as lessee for financing the acquisition of copier equipment at a cost of \$22,806. This lease qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of the future minimum lease payments as of the date of inception.

#### **Note 7** Long Term Debt - Continued

All cost and related amortization expense reported on the leased assets are included in depreciation expense, as disclosed in Note 5. The following is an analysis of leased assets under the capital leases as of June 30, 2018:

Construction in progress	\$ 5,869,010
Equipment	343,802
Net of accumulated amortization	 (68,432)
	\$ 6,144,380

At June 30, 2018, payments due by fiscal year, which include principal and interest, are as follows:

Fiscal Year	Principal	Interest
2019	\$ 2,538,760	\$ 465,944
2020	2,593,760	434,000
2021	2,703,760	358,250
2022	2,803,916	226,500
2023	2,935,253	116,750
2024 and thereafter		
Total principal and interest	\$ 13,575,449	\$ 1,601,444

**Compensated Absences** - Compensated absences represent obligations of the School District relating to employees' rights to receive compensation for future absences based upon service already rendered. This obligation relates only to vesting accumulating leave in which payment is probable and can be reasonably estimated. Typically, the general fund is the fund used to liquidate this debt. The School District uses the vesting method to compute compensated absences.

Long-term liability activity for the year ended June 30, 2018 was as follows:

	Beginning			Ending	I	Due within
	balance	Additions	Reductions	balance		one year
Capital leases	\$ 2,261,151	\$ 13,382,806	\$ (2,068,508)	\$ 13,575,449	\$	2,538,760
General obligation bonds	-	40,380,000	-	40,380,000		-
Premium on debt	-	7,250,447	(122,473)	7,127,974		-
Compensated absences	 32,291	68,983	(67,679)	33,595		30,000
Total	\$ 2,293,442	\$ 61,082,236	<u>\$ (2,258,660)</u>	\$ 61,117,018	\$	2,568,760

#### **Note 8 Retirement Plans**

The School District participates in various retirement plans administered by the State of Georgia, as further described below.

#### **Teachers Retirement System of Georgia ("TRS")**

Plan description - All teachers of the School District as defined in OCGA §47-3-60 and certain other support personnel as defined by §47-3-63 are provided a pension through TRS. TRS, a cost-sharing multiple-employer defined benefit pension plan, is administered by the TRS Board of Trustees ("TRS Board"). Title 47 of OCGA assigns the authority to establish and amend the benefit provisions to the State Legislature. TRS issues a publicly available separate financial audit report that can be obtained at www.trsga.com/publications.

Benefits provided - TRS provides service retirement, disability retirement, and death benefits. Normal retirement benefits are determined as 2% of the average of the employee's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. An employee is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. Ten years of service is required for disability and death benefits eligibility. Disability benefits are based on the employee's creditable service and compensation up to the time of disability. Death benefits equal the amount that would be payable to the employee's beneficiary had the employee retired on the date of death. Death benefits are based on the employee's creditable service and compensation up to the date of death.

Contributions - Per Title 47 of OCGA, contribution requirements of active employees and participating employers, as actuarially determined, are established and may be amended by the TRS Board. Pursuant to OCGA §47-3-63, the employer contributions for certain full-time public school support personnel are funded on behalf of the employer by the state of Georgia. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employees were required to contribute 6% of their annual pay during fiscal year 2018. The School District's contractually required contribution rate for the year ended June 30, 2018 was 16.81% excluding payroll attributable to those personnel funded on behalf of the School District by the state. For the current fiscal year, employer contributions to the pension plan totaled \$7,402,275 and \$30,390 from the School District and the state, respectively.

## Public School Employees Retirement System ("PSERS")

Plan description - PSERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly in 1969 for the purpose of providing retirement allowances for public school employees who are not eligible for membership in the Teachers Retirement System of Georgia. The ERS Board of Trustees, plus two additional trustees, administers PSERS. Title 47 of OCGA assigns the authority to establish and amend the benefit provisions to the State Legislature. PSERS issues a publicly available financial report that can be obtained at www.ers.ga.gov/formspubs/formspubs.

Benefits provided - A member may retire and elect to receive normal monthly retirement benefits after completion of ten years of creditable service and attainment of age 65. A member may choose to receive reduced benefits after age 60 and upon completion of ten years of service.

#### **Note 8** Retirement Plans - Continued

Upon retirement, the member will receive a monthly benefit of \$14.75, multiplied by the number of years of creditable service. Death and disability benefits are also available through PSERS. Additionally, PSERS may make periodic cost-of-living adjustments to the monthly benefits. Upon termination of employment, member contributions with accumulated interest are refundable upon request by the member. However, if an otherwise vested member terminates and withdraws his/her member contribution, the member forfeits all rights to retirement benefits.

Contributions - The general assembly makes an annual appropriation to cover the employer contribution to PSERS on behalf of local school employees (bus drivers, cafeteria workers, and maintenance staff). The annual employer contribution required by statute is actuarially determined and paid directly to PSERS by the State Treasurer in accordance with OCGA §47-4-29(a) and 60(b). Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Individuals who became members prior to July 1, 2012 contribute \$4 per month for nine months each fiscal year. Individuals who became members on or after July 1, 2012 contribute \$10 per month for nine months each fiscal year. The state of Georgia, although not the employer of PSERS members, is required by statute to make employer contributions actuarially determined and approved and certified by the PSERS Board of Trustees. The current fiscal year contribution totaled \$98,777.

#### **Employees' Retirement System of Georgia ("ERS")**

Plan description - This plan is not available to existing or new employees of the School District unless an employee already is a member of the plan. ERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly during the 1949 Legislative Session for the purpose of providing retirement allowances for employees of the State of Georgia and its political subdivisions. ERS is directed by the ERS Board of Trustees. Title 47 of the OCGA assigns the authority to establish and amend the benefit provisions to the State Legislature. ERS issues a publicly available financial report that can be obtained at www.ers.ga.gov/formspubs/formspubs.

Benefits provided - The ERS Plan supports three benefit tiers: old plan, new plan, and Georgia State Employees' Pension and Savings Plan ("GSEPS"). Employees under the old plan started membership prior to July 1, 1982 and are subject to plan provisions in effect prior to July 1, 1982. Members hired on or after July 1, 1982 but prior to January 1, 2009 are new plan members subject to modified plan provisions. Effective January 1, 2009, new state employees and rehired state employees who did not retain membership rights under the old or new plans are members of GSEPS. ERS members hired prior to January 1, 2009 also have the option to irrevocably change their membership to GSEPS.

Under the old plan, the new plan, and GSEPS, a member may retire and receive normal retirement benefits after completion of 10 years of creditable service and attainment of age 60 or 30 years of creditable service regardless of age. Additionally, there are some provisions allowing for early retirement after 25 years of creditable service for members under age 60.

#### **Note 8** Retirement Plans - Continued

Retirement benefits paid to members are based upon the monthly average of the member's highest 24 consecutive calendar months, multiplied by the number of years of creditable service, multiplied by the applicable benefit factor. Annually, postretirement cost-of-living adjustments may also be made to members' benefits provided the members were hired prior to July 1, 2009. The normal retirement pension is payable monthly for life; however, options are available for distribution of the member's monthly pension, at reduced rates, to a designated beneficiary upon the member's death. Death and disability benefits are also available through ERS.

Contributions - Member contributions under the old plan are 4% of annual compensation, up to \$4,200, plus 6% of annual compensation in excess of \$4,200. Under the old plan, the state pays member contributions in excess of 1.25% of annual compensation. Under the old plan, these state contributions are included in the members' accounts for refund purposes and are used in the computation of the members' earnable compensation for the purpose of computing retirement benefits. Member contributions under the new plan and GSEPS are 1.25% of annual compensation. The School District's contractually required contribution rate, actuarially determined annually, for the year ended June 30, 2018 was 24.69% of annual covered payroll for old and new plan members and 21.69% for GSEPS members. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employer contributions to the pension plan totaled \$1,166 for the current fiscal year.

Pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions - At June 30, 2018, the School District reported a liability of \$67,378,963 for its proportionate share of the net pension liability for TRS (\$67,285,877) and ERS (\$93,086).

The TRS net pension liability reflected a reduction for support provided to the School District by the State of Georgia for certain public school support personnel. The amounts recognized by the School District as its proportionate share of the net pension liability, the related state of Georgia support, and the total portion of the net pension liability that was associated with the School District were as follows:

School District's proportionate share of the net pension liability - TRS	\$ 67,285,877
State of Georgia's proportionate share of the net pension liability	
associated with the School District - TRS	 387,132
Total	\$ 67,673,009

The net pension liability for TRS and ERS was measured as of June 30, 2017. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2016. An expected total pension liability as of June 30, 2017 was determined using standard roll-forward techniques. The School District's proportion of the net pension liability was based on contributions to TRS and ERS during the fiscal year ended June 30, 2017.

At June 30, 2017, the School District's proportion of the TRS net pension liability was 0.362038%, which was a decrease of 0.001603% from its proportion measured as of June 30, 2016. At June 30, 2017, the School District's proportion of the ERS net pension liability was 0.002292%, which was a decrease of 0.000049% from its proportion measured as of June 30, 2016.

#### **Note 8** Retirement Plans - Continued

At June 30, 2018, the School District did not have a PSERS liability for a proportionate share of the net pension liability because of a Special Funding Situation with the state of Georgia, which is responsible for the net pension liability of the plan. The amount of the state's proportionate share of the net pension liability associated with the School District is \$490,114.

The net pension liability for PSERS was measured as of June 30, 2017. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2016. An expected total pension liability as of June 30, 2017 was determined using standard roll-forward techniques. The state's proportion of the net pension liability associated with the School District was based on actuarially determined contributions to PSERS paid by the state during the fiscal year ended June 30, 2017.

For the year ended June 30, 2018, the School District recognized pension expense of \$304,027 for TRS, \$98,777 for PSERS, and \$7,005 for ERS. The School District recognized revenue of \$30,390 for TRS and \$98,777 for PSERS for support provided by the State of Georgia for certain support personnel.

At June 30, 2018, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	TRS		ER	RS	
	Deferred	Deferred Deferred		Deferred	
	Outflows of	Inflows of	Outflows of	Inflows of	
	Resources	Resources	Resources	Resources	
Differences between expected and actual experience	\$ 2,516,906	\$ 253,930	\$ 1,020	\$ 1	
Changes of assumptions	1,474,990	-	212	-	
Net difference between projected and actual earnings on					
pension plan investments	-	463,039	-	232	
Changes in proportion and differences between School					
District contributions and proportionate share of	1 1 50 400	1 0 10 0 60	202	1.050	
contributions	1,150,482	1,040,060	382	1,273	
District contributions subsequent to the measurement date	7,432,665		1,166		
Total	\$ 12,575,043	\$ 1,757,029	\$ 2,780	\$ 1,506	

School District contributions subsequent to the measurement date of \$7,432,665 for TRS and \$1,166 for ERS are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year	 TRS	ERS
2019	\$ (191,615)	\$ (1,507)
2020	3,471,820	3,209
2021	1,818,605	1,045
2022	(1,748,734)	(2,639)
2023	35,273	-
Thereafter	-	_

#### **Note 8** Retirement Plans - Continued

Actuarial assumptions - The total pension liability as of June 30, 2017 was determined by an actuarial valuation as of June 30, 2016 using the following actuarial assumptions, applied to all periods included in the measurement:

TRS:

Inflation 2.75%

Salary increases 3.25% - 9.00%, average, including inflation 7.50%, net of pension plan investment expense,

including inflation

Post-retirement mortality rates were based on the RP-2000 White Collar Mortality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB (set forward one year for males) for service requirements and dependent beneficiaries. The RP-2000 Disabled Mortality table with future mortality improvement projected to 2025 with Society of Actuaries' projection scale BB (set forward two years for males and four years for females) was used for the death after disability retirement. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014.

#### PSERS:

Inflation 2.75% Salary increases N/A

Investment rate of return 7.50%, net of pension plan investment expense,

including inflation

Post-retirement mortality rates were based on the RP-2000 Blue-Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females) for the period after service retirements and for dependent beneficiaries. The RP-2000 Disabled Mortality projected to 2025 with projection scale BB (set forward 5 years for both males and females) was used for death after disability retirement. There is a margin for future mortality improvement in the tables used by the PSERS System. Based on the results of the most recent experience study adopted by the PSERS Board on December 17, 2015, the numbers of expected future deaths are 9-11% less than the actual number of deaths that occurred during the study period for healthy retirees and 9-11% less than expected under the selected table for disabled retirees. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014.

#### **Note 8** Retirement Plans - Continued

ERS:

Inflation 2.75%

Salary increases 3.25% - 7.00%, including inflation

Investment rate of return 7.50%, net of pension plan investment expense,

including inflation

Post-retirement mortality rates were based on the RP-2000 Combined Mortality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB and set forward 2 years for both males and females for service retirements and dependent beneficiaries. The RP- 2000 Disabled Mortality Table with future mortality improvement projected to 2025 with Society of Actuaries' projection scale BB and set back 7 years for males and set forward 3 years for females was used for death after disability retirement. There is a margin for future mortality improvement in the tables used by the ERS System. Based on the results of the most recent experience study adopted by the ERS Board on December 17, 2015, the numbers of expected future deaths are 9-12% less than the actual number of deaths that occurred during the study period for service retirements and beneficiaries and for disability retirements. Rates of mortality in active service were based on RP-2000 Employee Mortality Table projected to 2025 with projection scale BB.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014.

The long-term expected rate of return on TRS, PSERS, and ERS pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		PSERS/ERS	Long-term
	TRS Target	Target	<b>Expected Real</b>
Asset Class	Allocation	Allocation	Rate of Return *
Fixed income	30.00%	30.00%	-0.50%
Domestic large stocks	39.80%	37.20%	9.00%
Domestic mid stocks	3.70%	3.40%	12.00%
Domestic small stocks	1.50%	1.40%	13.50%
International developed market stocks	19.40%	17.80%	8.00%
International emerging market stocks	5.60%	5.20%	12.00%
Alternative	<u>0.00%</u>	<u>5.00%</u>	10.50%
Total	<u>100.00%</u>	100.00%	

#### **Note 8** Retirement Plans - Continued

Discount rate - The discount rate used to measure the total TRS, PSERS, and ERS pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and State of Georgia contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the TRS, PSERS, and ERS pension plans' fiduciary net positions were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School District's proportionate share of the net pension liability to changes in the discount rate - The following presents the School District's proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.50%) or 1 percentage point higher (8.50%) than the current rate:

TDO	
$IK \times$	•
1100	•

110	•	1% Decrease (6.50%)	Current Discount Rate (7.50%)		1% Increase (8.50%)
	School District's proportionate share of the net pension liability	\$ 110,424,019	\$	67,285,877	\$ 31,749,744
ERS					
		1% Decrease	Cu	rrent Discount	1% Increase
		(6.50%)	R	ate (7.50%)	(8.50%)
	School District's proportionate share of the net pension liability	\$ 131,386	\$	93,086	\$ 60,415

Pension plan fiduciary net position - Detailed information about the TRS, PSERS, and ERS pension plans' fiduciary net positions is available in the separately issued financial reports which are publically available at www.trsga.com/publications and www.ers.ga.gov/formspubs/formspubs.

## **Note 9 Defined Contribution Plans**

The School District offers an employer paid 403(b) annuity plan for the group of employees covered under the PSERS. Recognizing that PSERS was a limited defined contribution and defined benefit plan which did not provide for an adequate retirement for this group of employees, it was the School Board's desire to supplement the retirement of this group.

The School District selected Variable Annuity Life Insurance Company ("VALIC") as the provider of this plan. For each employee covered under PSERS who makes an election to participate, the School District contributes 1% of the employee's base pay. In addition, the School District makes matching contributions equal to 50% of the first 4% of employee compensation deferred. Employee contributions vest immediately and School District contributions become vested at the end of the 3<sup>rd</sup> year. All contributions are 100% vested upon employee death or disability.

#### **Note 9 Defined Contribution Plans - Continued**

Distributions to an employee may not be made earlier than the earliest date on which the employee has a severance from employment, dies, becomes disabled, or attains age 59½. Hardship withdrawals and loans from the plan are permitted under certain circumstances. Employer contributions for the current and preceding two fiscal years are as follows:

	Percentage	entage Rec	
Fiscal Year	Contributed	Cor	ntribution
2018	100%	\$	50,084
2017	100%		42,857
2016	100%		33,956

The School District offers a second 403(b) annuity plan for all employees who are not students regularly attending classes at the School District and who are not non-resident aliens. Recognizing that employees may want to contribute additional funds to their retirement accounts, it was the School Board's desire to offer an additional, non-contributory option for employees.

The School District selected VALIC as the provider of this plan. Most employees of the School District are eligible to participate. The School District does not make contributions to this plan. Distributions to an employee may not be made earlier than the earliest date on which the employee has a severance from employment, dies, becomes disabled, or attains age 59½. Hardship withdrawals and loans from the plan are permitted under certain circumstances.

The School District offers a 457(b) deferred compensation plan for all employees of the School District. Recognizing that employees may want to contribute additional funds to their retirement accounts, it was the School Board's desire to offer an additional, non-contributory option for employees.

The School District selected VALIC as the provider of this plan. All employees of the School District are eligible to participate. The School District does not make contributions to this plan. Distributions to an employee may not be made earlier than the earliest date on which the employee has a severance from employment, dies, becomes disabled, or attains age 70½. Unforeseeable emergency withdrawals, distributions to individuals in uniformed services, and loans from the plan are permitted under certain circumstances.

#### **Note 10 Post-Employment Benefits**

#### Georgia School Personnel Post-Employment Health Benefit Fund ("School OPEB Fund")

Plan description - Certified teachers and non-certified public school employees of the School District as defined in §20-2-875 of the OCGA are provided OPEB through the School OPEB Fund - a cost-sharing multiple-employer defined benefit postemployment healthcare plan, reported as an employee trust fund and administered by a Board of Community Health ("Board of Community Health"). Title 20 of OCGA assigns the authority to establish and amend the benefit terms of the group health plan to the Board of Community Health.

#### **Note 10 Post-Employment Benefits - Continued**

Benefits provided - The School OPEB Fund provides healthcare benefits for retirees and their dependents due under the group health plan for public school teachers, including librarians, other certified employees of public schools, regional educational service agencies, and non-certified public school employees. Retiree medical eligibility is attained when an employee retires and is immediately eligible to draw a retirement annuity from ERS, TRS, PSERS, Georgia Judicial Retirement System ("JRS"), or Legislative Retirement System ("LRS"). If elected, dependent coverage starts on the same day as retiree coverage. Medicare eligible retirees are offered Standard and Premium Medicare Advantage plan options. Non-Medicare eligible retiree plan options include Health Reimbursement Arrangement ("HRA"), Health Maintenance Organization ("HMO"), and a High Deductible Health Plan ("HDHP'). The School OPEB Fund also pays for administrative expenses of the fund. By law, no other use of the assets of the School OPEB Fund is permitted.

Contributions - As established by the Board of Community Health, the School OPEB Fund is substantially funded on a pay-as-you-go basis; that is, annual cost of providing benefits will be financed in the same year as claims occur. Contributions to the School OPEB Fund from the School District were \$2,420,643 for the year ended June 30, 2018. Active employees are not required to contribute to the School OPEB Fund.

OPEB liabilities, OPEB expense, and deferred outflows of resources and deferred inflows of resources related to OPEB - At June 30, 2018, the School District reported a liability of \$64,923,881 for its proportionate share of the net OPEB liability.

The net OPEB liability was measured as of June 30, 2017. The total OPEB liability used to calculate the net OPEB liability was based on an actuarial valuation as of June 30, 2016. An expected total OPEB liability as of June 30, 2017 was determined using standard roll-forward techniques. The School District's proportion of the net OPEB liability was actuarially determined based on employer contributions during the fiscal year ended June 30, 2017. At June 30, 2017, the School District's proportion was 0.462093%, which was a decrease of 0.012251% from its proportion measured as of June 30, 2016.

## Note 10 Post-Employment Benefits - Continued

For the year ended June 30, 2018, the School District recognized OPEB expense of \$1,077,151. At June 30, 2018, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

ODED

	OPEB			
	D	eferred		Deferred
	Out	flows of	I	nflows of
	Resources		Resources	
Differences between expected and actual experience	\$	-	\$	-
Changes of assumptions		-		4,943,788
Net difference between projected and actual earnings on				
OPEB plan investments		18,989		-
Changes in proportion and differences between School				
District contributions and proportionate share of contributions		-		1,538,860
District contributions subsequent to the measurement date	2	,420,643		-
Total	\$ 2	,439,632	\$	6,482,648

School District contributions subsequent to the measurement date of \$2,420,643 are reported as deferred outflows of resources and will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal Year	OPEB
2019	\$ (1,161,196)
2020	(1,161,196)
2021	(1,161,196)
2022	(1,161,196)
2023	(1,165,943)
2024	(652,932)
Thereafter	-

#### **Note 10 Post-Employment Benefits - Continued**

Actuarial assumptions - The total OPEB liability as of June 30, 2017 was determined by an actuarial valuation as of June 30, 2016 using the following actuarial assumptions and other inputs, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2017:

Inflation 2.75%

Salary increases:

TRS 3.25% - 9.00%, including inflation

PSERS N/A

ERS 3.25% - 7.00%, including inflation

JRS 4.50%, including inflation

LRS None

Long-term expected rate of 3.88%, compounded annually, net of investment

return expense, and including inflation

Healthcare cost trend rate:

Pre-Medicare eligible 7.75% Medicare eligible 5.75%

Ultimate trend rate:

Pre-Medicare eligible 5.00% Medicare eligible 5.00% Year of ultimate trend rate 2022

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale BB as follows:

- For TRS members: The RP-2000 White Collar Mortality Table projected to 2025 with projection scale BB (set forward 1 year for males) is used for death after service retirement and beneficiaries. The RP-2000 Disabled Mortality Table projected to 2025 with projection scale BB (set forward two years for males and four years for females) is used for death after disability retirement.
- For PSERS members: The RP-2000 Blue-Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females) is used for the period after service retirement and for beneficiaries of deceased members. The RP-2000 Disabled Mortality Table projected to 2025 with projection scale BB (set forward 5 years for both males and females) is used for the period after disability retirement.
- For ERS, JRS and LRS members: The RP-2000 Combined Mortality Table projected to 2025 with projection scale BB and set forward 2 years or both males and females is used for the period after service retirement and for dependent beneficiaries. The RP-2000 Disabled Mortality Table projected to 2025 with projection scale BB and set back 7 years for males and set forward 3 years for females is used for the period after disability retirement.

#### Note 10 Post-Employment Benefits - Continued

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the pension systems, which covered the five-year period ending June 30, 2014.

Projection of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculation.

Additionally, there was a change that affected measurement of the total OPEB liability since the prior measurement date. The methodology used to determine employee and retiree participation in the School OPEB Fund is based on their current or last employer payroll location. Current and former employees of public school districts, libraries, regional educational service agencies and community colleges are allocated to the School OPEB Fund irrespective of retirement system affiliation.

The long-term expected rate of return on OPEB plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-term
	Target	<b>Expected Real</b>
Asset Class	Allocation	Rate of Return
Local government investment pool	100.00%	3.88%

Discount rate - In order to measure the total OPEB liability for the School OPEB Fund, a single equivalent interest rate of 3.58% was used as the discount rate. This is comprised mainly of the yield or index rate for 20-year tax-exempt general obligation municipal bonds with an average rating of AA or higher (3.56% per the Bond Buyers Index). The projection of cash flows used to determine the discount rate assumed that contributions from members and from the employer will be made at the current level as averaged over the last five years, adjusted for annual projected changes in headcount. Projected future benefit payments for all current plan members were projected through 2115. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make OPEB payments for inactive employees through year 2029. Therefore, the calculated discount rate of 3.58% was applied to all periods of projected benefit payments to determine the total OPEB liability.

#### **Note 10 Post-Employment Benefits - Continued**

Sensitivity of the School District's proportionate share of the net OPEB liability to changes in the discount rate - The following presents the School District's proportionate share of the net OPEB liability calculated using the discount rate of 3.58%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.58%) or 1 percentage point higher (4.58%) than the current discount rate:

	1	1% Decrease Current Discount		1% Increase	
		(2.58%)	Rate (3.58%)		(4.58%)
School District's proportionate					
share of the net OPEB liability	\$	77,085,479	\$	64,923,881	\$ 55,325,916

Sensitivity of the School District's proportionate share of the net OPEB liability to changes in the healthcare cost trend rates - The following presents the School District's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1 percentage point higher than the current healthcare cost trend rates:

	Current Healthcare						
	1	% Decrease	Cost Trend Rate			1% Increase	
School District's proportionate share of the net OPEB liability	\$	53,814,501	\$	64,923,881	\$	79,388,276	

OPEB plan fiduciary net position - Detailed information about the OPEB plan's fiduciary net position is available in the CAFR which is publicly available at https://sao.georgia.gov/comprehensive-annual-financial-reports.

#### **Note 11 Restatement of Prior Year Net Position**

For fiscal year 2018, the School District made prior period adjustments due to the adoption of GASB Statement No. 75, as described in "New Accounting Pronouncements", which require the restatement of the June 30, 2017, net position in governmental activities. The result is a decrease in net position at July 1, 2017 of \$67,889,746. This change is in accordance with GAAP.

Net position at July 1, 2017, as previously reported	\$ 64,352,558
Prior period adjustment - implementation of GASB No. 75:	
Net OPEB liability (measurement date)	(70,299,136)
Deferred outflows - School District's contributions made	
during fiscal year 2017	 2,409,390
Net position at July 1, 2017, as restated	\$ (3,537,188)

#### **Note 12 Net Position**

Net investment in capital assets reported on the district-wide statement of net position as of June 30, 2018 is calculated as follows:

Cost of capital assets	\$	165,363,447
Less: accumulated depreciation	_	(52,240,297)
Book value		113,123,150
Less: capital related debt		(53,955,449)
Less: premium on capital related debt		(7,127,974)
Less: retainage payable on construction contracts		(635,462)
Less: accrued interest payable		(616,631)
Add: unexpended debt proceeds		57,481,829
Net investment in capital assets	\$	108,269,463

# **Note 13 Risk Management**

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; job related illness or injuries to employees; natural disasters; and unemployment compensation. The School District has obtained commercial insurance from risk of loss associated with torts, assets, errors or omissions, job related illness or injuries to employees, and natural disasters. The School District has neither significantly reduced coverage for these risks nor incurred losses (settlements) which exceeded the School District's insurance coverage in any of the past three years.

The School District is self-insured with regard to unemployment compensation claims. A premium is charged when needed by the general fund to each user program on the basis of the percentage of that fund's payroll to total payroll in order to cover estimated claims budgeted by management based on known claims and prior experience. The School District accounts for claims with expenses/expenditures and liabilities being reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Unemployment claims paid to the State of Georgia to satisfy unemployment claims liability during the last three years are as follows:

		Beg	inning of				En	d of Year
_	Fiscal Year	Year	Liability	Claims	Cla	aims Paid	I	Liability
	2018	\$	-	\$ 1,367	\$	(1,367)	\$	-
	2017		-	-		-		-
	2016		-	7,304		(7,304)		-

#### Note 13 Risk Management - Continued

The School District is a participant in the City of Dalton, Georgia's self-insured workers' compensation program. The City maintains all administrative control over the program and requires that the School District contribute its allocable share of costs to the program annually or more frequently, as deemed necessary. The School District accounts for its contributions within the general fund with expenditures being reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Premiums paid to the City of Dalton, Georgia to cover workers' compensation claims liability attributable to the School District during the last three years are as follows:

Calendar	Begi	inning of	Pre	miums and			E	nd of Year
Year	Year	Liability	Oth	er Charges	Cł	narges Paid		Liability
2017	\$	-	\$	176,275	\$	(176,275)	\$	-
2016		-		124,300		(124,300)		-
2015		-		126,500		(126,500)		-

#### **Note 14 Operating Leases**

The School District has entered into various leases as lessee for office and computer equipment. These leases are considered for accounting purposes to be operating leases. Lease expenditures for the year ended June 30, 2018 totaled \$73,827. Substantially all leases have options to extend the terms of the lease or to purchase the asset at the lease termination date, but none include bargain purchase options. Future minimum lease payments for these leases are as follows:

Year ending June 30,	Payment		
2019	\$	39,534	
2020		13,814	
2021		7,065	
2022		-	
2023 and thereafter			
	\$	60,413	

### **Note 15 Commitments and Contingencies**

The School District is involved in legal matters as of the fiscal year ended June 30, 2018 in relation to workers' compensation claims. The School District feels that insurance coverage and other sources will cover any settlements and that the effect of the settlements will not have a material impact on the financials.

Amounts received or receivable principally from the federal government are subject to audit and review by grantor agencies. This could result in requests for reimbursement to the grantor agency for any costs which are disallowed under grant terms. Any disallowances resulting from the grantor audit may become a liability of the School District. However, the School District believes that such disallowances, if any, will be immaterial to its overall financial position.

#### CITY OF DALTON BOARD OF EDUCATION NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2018

#### Note 15 Commitments and Contingencies - Continued

The School District is committed under outstanding construction contracts in the capital projects fund and the ESPLOST capital projects fund in the amount of \$10,718,985. Construction contracts include expansion and renovation of facilities at five schools, the largest of which are at City Park and Brookwood Elementary Schools.

#### **Note 16 Tax Abatements**

The School District property tax revenues were reduced due to certain tax abatements in effect during the year. The information is presented on a calendar year basis rather than on the School District's fiscal year basis. The taxing authorities that assess, collect, and report tax information for the School District operate on a calendar year.

The Dalton-Whitfield Joint Development Authority ("JDA"), a joint venture between the City of Dalton, Georgia and Whitfield County, Georgia, has entered into several agreements for abatement of property taxes. The JDA provides tax incentives, based upon certain criteria, to potential and existing entities for the purpose of furthering economic growth in the Dalton-Whitfield area. The JDA is not a taxing authority. The tax abatements offered are abatements of Whitfield County, Georgia property tax and City of Dalton, Georgia property tax. Whitfield County and the City of Dalton must approve the tax incentive agreements prior to their execution.

The criteria that makes an entity eligible for tax abatements through the JDA include providing new capital investment and/or new jobs in the Dalton-Whitfield area. The amount of the tax abatement transaction is determined based upon a specified rubric. Planned new jobs, community investment, diversification, wage levels, project location, and other factors are considered in determining the amount of tax abatement offered to an entity. The tax abatement period for a project can last up to fifteen years.

The entity must be willing to enter into a contractual agreement with the JDA and willing to enter into a bond financed sale leaseback transaction ("Industrial Revenue Bonds") which transfers title to improvements (land, buildings, equipment) during the life of the tax deferment/abatement plan to the JDA, as provided by Georgia state law. The local taxing jurisdictions and the public receive notice of the title transfer pursuant to an Industrial Revenue Bond validation.

Entities with tax abatements are required to file an annual report with the JDA which certifies the number of jobs created, the cumulative amount of capital investment, and other applicable measurements. In the event the entity fails to meet specified goals, a percentage method described in each agreement is used to determine the shortfall. The shortfall percentage is multiplied by the amount of taxes abated for the year for the project to arrive at a recovery payment. The recovery payment is due with the annual report.

Six tax abatement agreements are outstanding as of December 31, 2017. Reductions in tax revenues attributable to local governments are as follows:

Government Entity	201	7 Tax Reduction
City of Dalton, Georgia	\$	95,654
Whitfield County, Georgia		1,215,903
City of Dalton Board of Education		312,993
Whitfield County Board of Education		1,577,234

#### CITY OF DALTON BOARD OF EDUCATION REQUIRED SUPPLEMENTARY INFORMATION NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2018

#### **Teachers Retirement System of Georgia**

Changes of assumptions - In 2010 and later, the expectation of retired life mortality was changed to the RP-2000 Mortality Tables rather than the 1994 Group Annuity Mortality Table, which was used prior to 2010. In 2010, rates of withdrawal, retirement, disability, and mortality were adjusted to more closely reflect actual experience. In 2010, assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

On November 18, 2015, the TRS Board adopted recommended changes to the economic and demographic assumptions utilized by the TRS System. Primary among the changes were the updates to rates of mortality, retirement, disability, withdrawal, and salary increases. The expectation of retired life mortality was changed to RP-2000 White Collar Morality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB (set forward one year for males).

#### **Employees' Retirement System**

Changes of assumptions - On December 17, 2015, the ERS Board adopted recommended changes to the economic and demographic assumptions utilized by the ERS System. Primary among the changes were the updates to rates of mortality, retirement, disability, withdrawal, and salary increases.

#### **Public School Employees Retirement System**

Changes of assumptions - In 2010 and later, the expectation of retired life mortality was changed to the RP-2000 Mortality Tables rather than the 1994 Group Annuity Morality Table, which was used prior to 2010. In 2010, rates of withdrawal, retirement, disability, and morality were adjusted to more closely reflect actual experience.

On December 17, 2015, the PSERS Board adopted recommended changes to the economic and demographic assumptions utilized by the PSERS System. Primary among the changes were the updates to rates of morality, retirement, and withdrawal. The expectation of retired life mortality was changed to the RP-2000 Blue Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females).

#### **School OPEB Fund**

Changes of benefit terms - In the June 30, 2010 actuarial valuation, there was a change of benefit terms to require Medicare-eligible recipients to enroll in a Medicare Advantage plan to receive the State subsidy.

Changes in assumptions - In the revised June 30, 2017 actuarial valuation, there was a change relating to employee allocation. Employees were previously allocated based on their retirement system membership, and currently employees are allocated based on their current employer payroll location.

In the June 30, 2015 actuarial valuation, decremental and underlying inflation assumptions were changed to reflect the retirement systems' experience studies.

In the June 30, 2012 actuarial valuation, a data audit was performed and data collection procedures and assumptions were changed.

### CITY OF DALTON BOARD OF EDUCATION STATISTICAL SECTION

#### STATISTICAL SECTION

This part of the City of Dalton Board of Education's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

#### Financial Trends

These schedules contain trend information to help readers understand how the District's financial performance and well-being have changed over time.

#### **Revenue Capacity**

These schedules contain information to help readers assess the District's most significant local revenue source - its property tax.

#### **Debt Capacity**

These schedules present information to help readers assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

#### Demographic and Economic Information

These schedules offer demographic and economic indicators to help readers understand the environment within which the District's financial activities take place.

#### **Operating Information**

These schedules contain service and infrastructure data to help readers understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Source: Whitfield County Board of Tax Assessors

Note: Real property includes commercial and residential property. All property is assessed at 100% of estimated actual value. For this reason, assessed value is equal to estimated actual value. Tax rates are per \$1,000 of assessed value.

Note: The information above is presented on a calendar year basis rather than on the School District's fiscal year basis. The taxing authorities that assess, collect, and report tax information for the School District operate on a calendar year. The information is more reliable in this format, as some is only measured once per year.

Source: Whitfield County Board of Tax Assessors

Note: Overlapping rates are those of the city and county governments that apply to property owners within the City of Dalton. Not all overlapping rates apply to all City of Dalton property owners. For example, the rates for special districts apply only to those property owners located within the geographic boundaries of the special district.

Note: The information above is presented on a calendar year basis rather than on the School District's fiscal year basis. The taxing authorities that assess, collect, and report tax information for the School District operate on a calendar year. The information is more reliable in this format, as some is only measured once per year.

Whitfield County capital leases		14,577	32.3%		4,707
Total overlapping debt					14,192,247
City of Dalton Board of Education direct debt					53,955,449
Total direct and overlapping debt				\$	68,147,696

Source: School Board direct debt is disclosed in Note 7 of the Notes to the Basic Financial Statements. Information about City of Dalton debt is provided by the City of Dalton, Georgia. Information about Whitfield County debt is provided by Whitfield County, Georgia.

Note: The information above is presented on a calendar year basis rather than on the School District's fiscal year basis. The taxing authorities that assess, collect, and report tax information for the School District operate on a calendar year. The information is more reliable in this format, as some is only measured once per year.

Note: Estimated applicable percentage for City of Dalton debt is 100% because the geographic boundaries of the City of Dalton Board of Education and the City of Dalton, Georgia are the same. The estimated applicable percentage for Whitfield County debt is 32.3% based on the percentage of estimated population within the City of Dalton, Georgia to the estimated population within Whitfield County, Georgia, as obtained from the Georgia Department of Labor website.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City of Dalton (and therefore with the City of Dalton Board of Education). This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Dalton, Georgia. This process recognizes that when considering the City of Dalton Board of Education's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and therefore responsible for repaying the debt of each overlapping government.

- (1) Total classrooms is a count of classrooms as defined by the Georgia Department of Education Facility Services Unit standards. Minimum square footage requirements for classrooms and instructional units have been established by grade level and determine whether a space is included in the total classroom count.
- (2) Building capacity is the student enrollment allowed for based on the count of total classrooms as defined by the Georgia Department of Education Facility Services Unit tables. The Facility Services Unit establishes the number of classrooms needed for a given student enrollment that may determine if a school system earns capital funding reimbursement. For the purposes of this schedule, the upper range of student enrollment as defined by the Georgia Department of Education is used to determine building capacity.
- (3) Enrollment is based on the October student full-time equivalent count.
- (4) Morris Innovative High School was located at the Morris Street building for years 2010, 2011, and 2012 and was located at the Fort Hill building for years 2013 and forward. The Morris Street building was built in 1952.

## INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Members of the City of Dalton Board of Education and the Superintendent Dalton, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Dalton Board of Education, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the City of Dalton Board of Education's basic financial statements and have issued our report thereon dated November 30, 2018.

### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City of Dalton Board of Education's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Dalton Board of Education's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Dalton Board of Education's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Dalton Board of Education's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests no disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Estes & Walcott

Dalton, Georgia November 30, 2018

### INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Members of the City of Dalton Board of Education and the Superintendent Dalton, Georgia

### Report on Compliance for Each Major Federal Program

We have audited the City of Dalton Board of Education's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City of Dalton Board of Education's major federal programs for the year ended June 30, 2018. The City of Dalton Board of Education's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

### Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the City of Dalton Board of Education's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Dalton Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City of Dalton Board of Education's compliance.

### Opinion on Each Major Federal Program

In our opinion, the City of Dalton Board of Education, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

#### Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2018-001 and 2018-002. Our opinion on each major federal program is not modified with respect to these matters.

The City of Dalton Board of Education's response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The City of Dalton Board of Education's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

### **Report on Internal Control over Compliance**

Management of the City of Dalton Board of Education is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Dalton Board of Education's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Dalton Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as items 2018-001 and 2018-002, that we consider to be significant deficiencies.

The City of Dalton Board of Education's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The City of Dalton Board of Education's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Dalton, Georgia November 30, 2018

### CITY OF DALTON BOARD OF EDUCATION SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED JUNE 30, 2018

### Summary of Auditors' Results

- 1. The Independent Auditors' Report expresses an unmodified opinion on the financial statements of the City of Dalton Board of Education.
- 2. No significant deficiencies were disclosed during the audit of the financial statements that are required to be reported in the Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*.
- 3. No instances of noncompliance material to the financial statements of the City of Dalton Board of Education were disclosed during the audit.
- 4. Two significant deficiencies (2018-001 and 2018-002) in internal control over major federal award programs were disclosed during the audit that are required to be reported in the Independent Auditors' Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance. None of these were determined to be material weaknesses.
- 5. The Independent Auditors' Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance for the major federal award programs expresses an unmodified opinion.
- 6. Audit findings that are required to be reported in accordance with 2 CFR 200.516(a) are reported in this Schedule.
- 7. The programs tested as a major program are:
  - U.S. Department of Agriculture
    Pass-Through Georgia Department of Education
    Child Nutrition Cluster
    School Breakfast Program
    National School Lunch Program
    CFDA # 10.553 and 10.555
  - U.S. Department of Education
    Pass-Through Georgia Department of Education
    Special Education Cluster (IDEA)
    Special Education Grants to States
    Special Education Preschool Grants
    CFDA # 84.027 and 84.173
- 8. The threshold for distinguishing Type A and B programs is \$750,000.
- 9. The City of Dalton Board of Education was determined to be a low risk auditee.

### CITY OF DALTON BOARD OF EDUCATION SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED JUNE 30, 2018

Findings – Federal Awards Programs

U.S. Department of Education

Pass-Through Georgia Department of Education

Child Nutrition Cluster National Breakfast Program National School Lunch Program CFDA # 10.553 and 10.555

Procurement and Suspension and Debarment and Period of Performance

Questioned Costs: None

2018-001 Criteria: Charges to federal programs should comply with federal requirements of the

program, be supported by appropriate documentation, and comply with School

District internal control policies and procedures.

Condition: Charges to the federal program did not comply with program requirements.

Cause: Noted several errors in documentation of expenses, including purchase order

inconsistencies, lack of supervisory authorization, incorrect or incomplete

reimbursements, and charges recorded in the wrong period.

Effect: The School District did not comply with their internal control policies.

Recommendation: Procedures should be implemented to ensure all charges to federal programs

are supported by appropriate documentation and authorized by appropriate

levels of personnel.

Management Response: We concur. Additional procedures will be implemented to prevent future

occurrences.

U.S. Department of Education

### CITY OF DALTON BOARD OF EDUCATION NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE FISCAL YEAR ENDED JUNE 30, 2018

### General

The accompanying schedule of expenditures of federal awards presents the activity of all federal awards received by the City of Dalton Board of Education. All federal awards received directly from federal agencies and all federal awards passed through other government agencies are included in this schedule.

### **Basis of Presentation**

The accompanying schedule of expenditures of federal awards is presented using the full accrual basis of accounting, which is described in Note 1 of the School District's notes to the financial statements.

### Relationship to Federal Financial Reports

Amounts reported in the accompanying schedule agree with the amounts reported in the related federal financial reports.

### Noncash Awards

Expenditures incurred for the food distribution program represent the federally assigned value of nonmonetary assistance for donated commodities received and/or consumed by the system during the current fiscal year. They are included in the total for the National School Lunch Program. The value of donated commodities distributed totaled \$326,407 the year ended June 30, 2018.

### De Minimis Cost Rate

The City of Dalton Board of Education did not elect to use the 10% de minimis cost rate as covered in 2 CFR 200.414.
