Gwinnett County Public Schools is a Learning 2025 Demonstration District.

December 29, 2022

To the Members of the Gwinnett County Board of Education and Citizens of Gwinnett County:

The Annual Comprehensive Financial Report (ACFR) of the Gwinnett County School District (District) for the fiscal year ended June 30, 2022, is hereby submitted. It has been prepared in accordance with Generally Accepted Accounting Principles (GAAP) as applicable to governmental entities. This report was prepared by the Financial Reporting and Accounting Department within the Business Operations Division. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the management of the District.

We believe the data, as presented, is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the District as measured overall and by the financial activity of its various funds. The data includes all disclosures and required supplementary information necessary to enable the reader to gain the maximum understanding of the District's financial activity. A comprehensive framework of internal control is in place to give reasonable assurance that the financial statements are free of material misstatements.

Readers of this report are encouraged to consider the information presented here in conjunction with additional information presented in the Management's Discussion and Analysis beginning on page 4 of this report.

The Annual Comprehensive Financial Report is presented in four sections: 1) Introductory, 2) Financial, 3) Statistical, and 4) Single Audit. The Introductory section includes this transmittal letter, a list of principal officials, and an organizational chart. The Financial section includes the basic financial statements as well as the Independent Auditor's Report on the basic financial statements. The Statistical section contains selected financial and demographic information, generally presented over a multi-year basis. The Single Audit section contains federal compliance information including schedules and auditor reports required for the District to comply with the U.S. Office of Management and Budget's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

PROFILE OF GWINNETT COUNTY SCHOOL DISTRICT

Gwinnett County School District is one of two public School Districts located in Gwinnett County. The District serves the entire county area with the exception of the City of Buford, which has its own independent school district. The District provides a full range of educational programs and services authorized by Georgia state statute. District program and services include K-12 education in elementary schools (K-5), middle schools (6-8), high schools (9-12), special education, vocational education, preschool and numerous other programs. The District also provides a community school program to extend education and recreational opportunities to its citizens.

The Gwinnett County School District is the largest school system in the State of Georgia and the 11th largest in the nation with an active enrollment of more than 181,000 students in 81 elementary schools, 29 middle schools, 24 high schools, 7 specialty schools and 1 charter school. The District is governed by a Board of Education consisting of five members elected from five county posts. Members serve a four year term and each year appoint a chairperson and vice-chairperson. The Board appoints a Superintendent to oversee the day-to-day administration of the School District.

The District is a legally separate financial entity and is not included in any other entity's financial reports. The Gwinnett County Board of Education Retirement System ("GRS") is reported as a blended component unit of the School District because of the significance of its operational and financial relationship to the District as determined by the criteria set forth in GASB Codification Section 2100, "Defining the Financial Reporting Entity".

The District is committed to providing a quality educational experience to all students with the support of caring staff members and an engaged community all while effectively managing our resources. Here are a few of the District's many accomplishments:

- The District average composite score of 1097 on the SAT is 69 points above the national average and 45 points above the state average.
- The four-year graduation rate for Gwinnett high schools was 83.15% in 2022 with 14 schools posting a rate that surpassed the state average of 84.1%.
- The District's 2022 graduating class included 21 Georgia Scholars and 9 National Merit Scholarship recipients.
- The Georgia Department of Education recognized 23 of the District's high schools as AP Honor Schools, with 11 schools being named as schools of distinction.
- Great Schools named 11 of the District's high schools as 2022 Great School College Success Gold award winners for their multiyear track record of preparing students to enroll and succeed in college.
- The District has received the highest possible bond rating (AAA) from the nation's two leading rating agencies. Gwinnett is one of only 20 districts in the United States to hold this distinction.

Additional information is available through the District's website.

ECONOMIC CONDITION AND OUTLOOK

The District is located in the northeast area of metropolitan Atlanta and is one of the area's leading hubs for technology, life sciences, logistics, advanced communications and innovative companies of the future. Gwinnett County is conveniently located near the top six research colleges and universities in Georgia. Home to Fortune 500 companies, Gwinnett County is the location of more than 60 major business parks. The median household income in Gwinnett is \$72,087 per year with an unemployment rate of 2.6 percent, and a growing population that increased from 822,407 in 2011 to 964,546 in 2021 according to U.S. Census Bureau estimates.

The District continues to benefit from an improved local economy fueled by population and job growth leading to improving property values and increasing construction activity, a positive trend expected to continue into fiscal year 2023. In fiscal year 2022, the District's gross property tax digest increased by 5% over the 2021 fiscal year's digest.

With State education funding, the District experienced a 6% increase in QBE formula earnings in fiscal year 2022 due to a decrease in the austerity reduction, increase in student growth and a one-time salary supplement. During fiscal year 2022, the District funded salary improvements, additional social worker positions, additional personnel and support to further develop and expand curriculum, and enhanced operational and maintenance support for buildings/grounds, information management and information security. The District also continued several cost saving measures to help maintain a balanced budget, including maintaining operating budgets at or below prior year spending levels and freezing school staffing allocation formulas except for positions based on student growth. During fiscal year 2022, the District continued recovery efforts related to the COVID-19 pandemic. Funding received through the Coronavirus Aid, Relief, and Economic Security (CARES) Act and the American Rescue Plan (ARP) Act supported the District's recovery efforts related to closing achievement gaps, recruitment and retention, and technology support.

LONG-TERM FINANCIAL PLANNING

The District anticipates meeting its projected capital improvement needs for the next five years through a combination of sales tax revenues and general obligation bond proceeds. The one percent local option sales tax for education began July 1, 2017 and continued thru June 30, 2022. On November 3, 2020 Gwinnett voters

overwhelmingly approved the extension of the sales tax program which will fund projects from July 1, 2022 thru June 30, 2027. On February 24, 2022, the Board approved the adoption of a bond resolution authorizing the issuance and sale of Series 2022 General Obligation Bonds in the amount of \$265,000,000. The sales tax and general obligation bonds will generate revenue for the District that will be used to construct and renovate school buildings and improve technology throughout the District. A schedule of District school buildings and their age is on schedule 16 in the statistical section.

RELEVANT FINANCIAL POLICIES

Fund Accounting: Gwinnett County School District reports its financial activities using fund accounting. This is a system where its transactions are reported in self-balancing sets of accounts to reflect the results of activities (see Note 1 of the Notes to the Basic Financial Statements for a summary of significant accounting policies and a description of the fund types).

Internal Control Structure: The District's financial management officials are responsible for implementing and enforcing a system of internal controls to protect the assets of the District from loss, theft, or misuse and to ensure that reliable accounting data are available for the timely preparation of financial statements in accordance with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and that the valuation of costs and benefits requires estimates and judgments by management. No material weaknesses were disclosed as a result of the independent audit of the District's financial statements.

Budgetary Control: Budgetary controls are maintained to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Education. The level of budgetary control (that is the level at which expenditures cannot legally exceed the appropriated amount) is established at the function level within an individual fund. The Board of Education also maintains an encumbrance accounting system as one technique of accomplishing budgetary control.

The budget process is comprised of five phases -- planning, preparation, adoption, implementation and evaluation. These phases ensure adequate administration and control of all Board of Education funds. To maintain compliance with budget policies and State of Georgia law, a budget development calendar is adopted by the Board of Education in October of each fiscal year. The calendar outlines the budget development process for the next fiscal year.

Local School Administrators Association and the Teacher Advisory Council provide opportunities for principals, teachers, and other staff to offer feedback on the budget. In addition, citizens can offer feedback on the budget as two public hearings are held prior to the Board of Education adopting the budget in June.

MAJOR INITIATIVES

Gwinnett County Public Schools' *Our Blueprint for the Future* is the five-year strategic plan for July 2022 – June 2027. The plan contains four strategic priorities: Empathy, Equity, Effectiveness, and Excellence. Each strategic priority includes three goals, with objectives and district key performance indicators (KPI). Over the next five years, the District will build the capacity to execute the priorities, goals, and objectives defined in the plan. The commitment to these priorities will move the District forward in its effort to create safe and brave spaces where everyone – our teachers, school and district leaders, students, families, and community – feel welcome and sense that they belong in GCPS, where we authentically engage in teaching and learning while pursuing excellence for each and every student.

OTHER INFORMATION

Independent Audit: The financial statements have been audited by Mauldin & Jenkins, LLC, whose opinion is expressed on page 1. The District complies with the requirements of the U.S. Office of Management and Budget's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and the associated reports and schedules are presented in the last section of this report.

Financial Reporting Awards: For the 35th consecutive year, the Gwinnett County Board of Education received the Association of School Business Officials' (ASBO) Certificate of Excellence in Financial Reporting. This award certifies that the annual comprehensive financial report (ACFR) for the fiscal year ended June 30, 2021, substantially conforms to the principles and standards of financial reporting as recommended and adopted by the Association of School Business Officials of the United States and Canada. The award is granted only after an intensive review of financial reports by an expert panel of certified public accountants and practicing school business officials. ASBO's Certificate of Excellence in Financial Reporting is valid for one year only.

Acknowledgments: We wish to express our gratitude and appreciation to the entire staff of the Business and Finance Department whose dedicated efforts and professionalism have enabled this report to be completed on a timely basis.

Respectfully submitted,

Dr. Calvin J. Watts Superintendent

Joseph P. Heffron Chief Financial Officer

The Certificate of Excellence in Financial Reporting is presented to

Gwinnett County Board of Education

for its Annual Comprehensive Financial Report for the Fiscal Year Ended June 30, 2021.

The district report meets the criteria established for ASBO International's Certificate of Excellence in Financial Reporting.

Executive Director

Gwinnett County Board of Education Function and Composition June 30, 2022

All matters relating to education and operation in the Gwinnett County School District are governed and controlled by the Board of Education as provided by Georgia Law.

The Board has the responsibility to maintain a uniform system of public schools providing quality education for all young people of Gwinnett County. With the advice of the Superintendent, the Board must determine the policies and prescribe the rules and regulations for the management of the school system.

The Board holds regular public meetings once a month to conduct normal business. Additional called meetings are sometimes necessary for a specific purpose.

The Board is composed of five members who are elected on a district basis. Each member resides within one of five voting districts.

The Board elects annually a Chairman and Vice Chairman from its members.

As of January 1, 2022, the members of the Board and years of expiration of their terms are as follows:

TITLE	NAME	TERM EXPIRES
Chairman	Dr. Tarece Johnson	12-31-2024
Vice-Chairman	Mr. Steven B. Knudsen	12-31-2022
Board Member	Dr. Mary Kay Murphy	12-31-2024
Board Member	Mr. Everton Blair, Jr.	12-31-2022
Board Member	Ms. Karen Watkins	12-31-2024

MISSION STATEMENT

The mission of the Gwinnett County Board of Education is to pursue excellence in academic knowledge, skills, and behavior for each student, resulting in measured improvement against local, national, and world-class standards.

INDEPENDENT AUDITOR'S REPORT

The Board of Education Gwinnett County, Georgia Suwanee, Georgia

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **Gwinnett County Board of Education** (the "Board"), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board, as of June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Board's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Board's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, pension information, OPEB information, and budgetary comparison information of the General Fund on pages 4-18, 64-72, 74-76, and 77, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Board's basic financial statements. The accompanying combining and individual fund financial statements and the schedule of expenditures of federal awards, as required by Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 29, 2022 on our consideration of the Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Board's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board's internal control over financial reporting and compliance.

Mauldin & Jenkins, LLC

Atlanta, Georgia December 29, 2022

Management's Discussion and Analysis (Unaudited)

The discussion and analysis of the Gwinnett County Board of Education's (subsequently referred to as the Board) financial performance provides an overall review of the Board's financial activities for the fiscal year ended June 30, 2022. The intent of this discussion and analysis is to examine the Board's financial performance as a whole. Readers should also review the letter of transmittal and complete financial statements, with notes, to enhance their understanding of the Board's financial performance.

For the twentieth year, the Board has prepared its annual financial report using the GASB 34 financial reporting model. The reporting model is a combination of both government-wide financial statements and fund financial statements. The basic financial statements contain three components:

- 1) Government-wide financial statements including the Statement of Net Position and the Statement of Activities which provide a broad, long-term view of the Board's finances.
- 2) Fund financial statements including the balance sheets that provide a greater level of detail and focus on how well the Board has performed in the short term in the most significant or major funds.
- 3) Notes to the financial statements.

This report presents the financial highlights for the fiscal year ended June 30, 2022 and other supplementary information.

Financial Highlights

Key financial highlights for fiscal year 2022 are as follows:

- On the government-wide financial statements:
 - The financial status of the Board, as reflected in total net position, increased \$504.2 million or 64.3% over fiscal year 2022. Net position of governmental activities increased by \$467.9 million and the net position of the business-type activities increased \$36.3 million.
 - The Statement of Net Position reports a restricted amount of \$642.1 million. 9.8% or \$63.0 million of this restricted amount is due to the funds reserved for debt service requirements. Other amounts restricted include \$578.6 million reserved for the capital program, and \$0.5 million reserved for grant programs.
 - The Board reported \$2.1 billion in expenses for the governmental activities. Program specific grants, charges for services and contributions totaling \$1.3 billion offset a portion of these expenses. General revenues, primarily property taxes and sales taxes provided for the remaining expenses of these programs.
 - The Net Position of the Board's business-type activities food services increased \$36.3 million. Total expenses for food service activities were \$99.5 million. Charges for services, operating grants and contributions and transfers total \$135.8 million.

• On the fund financial statements:

• The General Fund (the "primary operating fund"), presented on a current financial resources basis, ended the fiscal year with a fund balance of \$533.2 million, an increase of \$62.5 million from June 30, 2021 fund balance of \$470.7 million.

Overview of the Financial Statements

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the Board:

- The first types of statements are government-wide financial statements that provide both short-term and long-term information about the Board's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the Board, reporting the Board's operations in more detail than the government-wide statements.
 - ❖ The governmental funds statements tell how basic services such as instruction and instructional support services were financed in the short term as well as what remains for future spending.
 - ❖ Proprietary fund statements offer short and long-term financial information about the activities the Board operates like businesses, specifically the school nutrition program.
 - ❖ Fiduciary funds statements provide information about the financial relationships such as the Gwinnett Retirement System (GRS), in which the Board acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the statements and provide additional detail. The statements follow a section of required supplementary information that further explains and supports the financial statements with a comparison of the Board's budget for the year.

Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

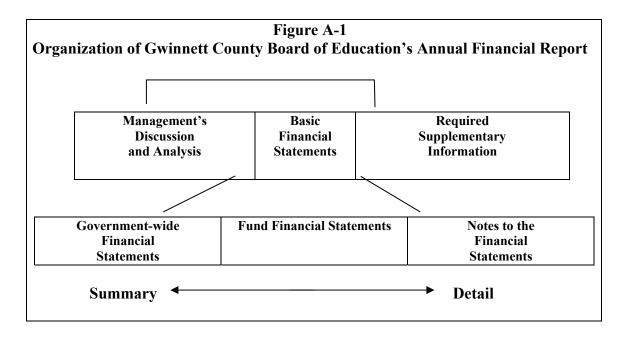

Figure A-2 summarizes the major features of the Board's financial statements, including the portion of the Board's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

	Major Features of the	Figure A-2 Government-Wide and Fund	Financial Statements

Accounting Basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the fiscal year or soon thereafter; no capital assets or long- term liabilities included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; funds do not currently contain capital assets, although they can
Type of inflow/outflow information	All revenues and expenses during the fiscal year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the fiscal year; expenditures when goods or services have been received and the related liability is due and payable	All revenues and expenses during the fiscal year, regardless of when cash is received or paid	All additions and deductions during the fiscal year, regardless of when cash is received or paid

Government-wide Statements

The government-wide statements report information about the Board as a whole using accounting methods similar to those used by private-sector companies. The statement of Net Position includes all of the Board's assets and liabilities. All of the current fiscal year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Board's net position and how they have changed. Net position, the difference between the Board's assets and liabilities, are one way to measure the Board's financial health or position.

Over time, increases or decreases in the Board's net position are an indication of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the Board, additional non-financial factors, such as changes in the property tax base, community support for education and student achievement should be considered.

The government-wide financial statements of the Board are divided into two categories:

- Governmental activities All of the Board's basic services are included here, such as instruction and instructional support, administration, student transportation and maintenance and operation of facilities.
- Business type activities The Board operates a food service operation and charges fees to staff, students and visitors to help cover the cost of the food service operation.

Fund Financial Statements

The Board's fund financial statements, which begin on page 21, provide detailed information about the most significant funds, not the Board as a whole. Some funds are required by State law and some by bond requirements.

Governmental funds – Most of the Board's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Board's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the Board's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary funds – Services for which the Board charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide statements. The Board's enterprise funds (one type of proprietary fund) are the same as its business-type activities but provide more detail and additional information, such as cash flows. The Board uses internal service funds (the other kind of proprietary fund) to report activities to provide supplies and services for its other programs and activities. The Board currently has internal service funds for warehouse activities, risk management and workers' compensation, transportation and maintenance inventories and the Board's inhouse print shop.

Fiduciary funds—The Board is the trustee, or fiduciary, for assets that belong to others, such as the Gwinnett Retirement System and miscellaneous funds held for specific instructional programs. The Board is responsible for ensuring that assets of these funds are used strictly for intended purposes and by those to whom the assets belong. The Board excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

Financial Analysis of the Board as a Whole

Table 1, below, provides a summary of the Board's net position for the year ended June 30, 2022 compared to June 30, 2021.

			•	Table 1				
			Summar	of Net Pos	sition

Other liabilities	_	338.9	399.0	5.8	5.6	344.7	404.6	(14.4)%
Total Liabilities		3,247.0	4,880.6	56.1	88.5	3,303.1	4,969.1	(33.5)%
Deferred inflows of resources		1,826.9	415.2	40.4	15.5	1,867.3	430.7	333.6%
Net position:								
Net investment in capital assets		1,056.9	1,205.9	4.5	4.9	1,061.4	1,210.8	(12.3)%
Restricted		642.1	406.7	-	-	642.1	406.7	57.9%
Unrestricted	_	(1,956.2)	(2,337.7)	(26.8)	(63.5)	(1,983.0)	(2,401.2)	(17.4)%
Total net position	\$ _	(257.2)	(725.1)	(22.3)	(58.6)	(279.5)	(783.7)	64.3%

The Board's combined net position increased \$504.2 million or 64.3%. Due to revised actuarial assumptions, current year pension and OPEB (Other Postemployment Employer Benefits) expense decreased significantly. Also, revised future projections significantly decreased both pension and OPEB liabilities. The Board's net position reflects its investment in capital assets net of any related outstanding debt. School buildings comprise the largest portion (77%) of the Board's capital assets. An additional portion of the net position is restricted net assets, which experienced a 57.9% increase over the prior year. This increase is primarily due to the issuance of the Series 2022 Bonds. The net position of the Board's business-type activities increased \$36.3 million.

Table 2 Changes in Net Position

Fiscal Year Ended June 30, 2022

Table 2 takes the information from the Statement of Activities and presents it in a format that shows total revenues first and then expenses and the resulting increase (decrease) in net position.

Net position, June 30, 2022	\$ _	(257.2)	(725.1)	(22.3)	(58.6)	(279.5)	(783.7)	:

Table 2 shows that revenues from governmental activities for 2022 were \$2.5 billion, while total expenses plus transfers were \$2.1 billion. Governmental activities contributed \$467.9 million and business-type activities contributed \$36.3 million to the total increase in net position of \$504.2 million.

Program revenues, in the form of charges for services, operating grants and contributions and capital grants and contributions increased \$227.6 million for governmental activities. This increase is largely due to an increase in state funding related to instructional activities and the capital building program.

Property taxes comprise the largest percentage of the general revenues for the Board with 35.0% of total governmental activities revenues coming from this source. Property tax revenues increased 5.1% over the previous fiscal year, the result of improved property values and growth in the tax digest. Sales tax revenues increased 11.4% from fiscal year 2021 to fiscal year 2022, continued improvement due to a growing economy.

Total expenses decreased \$169.6 million or 7.28% which included a decrease of \$296.7 million in the pension and OPEB liability expenses and an increase of all other expenses of \$127.1 million. Governmental activities experienced a decrease of \$207.3 million, while business-type activities increased \$37.7 million. Expenses have increased primarily in the functional areas of pupil transportation, instructional support, and support services - central. The expenses for the Pension and OPEB liabilities decreased significantly due to revised actuarial assumptions and future projections. The increase in expenses for other expenses is due to increased salary and benefit costs for School District staff and increased student costs resulting from the continued effects from the COVID-19 pandemic during the school year. Other expenses remained stable as the Board maintained several cost saving measures to help balance the budget, allowing the district to keep student/teacher ratios within the limits established by state law.

Table 3 on the following page summarizes the cost of the Board's activities into eight functional categories—Instruction; Pupil and Instructional support services; Media services; General and Business administration; School administration; Maintenance and Operations; Pupil Transportation; Central and Other support areas and Interest expense. The table also shows each activity's net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the Board's local taxpayers by each of these functions.

The total cost of net governmental activities decreased 9.1% while the net cost decreased 35.5%. This decrease in costs is related to the decrease in the reported net pension liabilities. The biggest increase was in pupil transportation due to the increases in salary and benefits for bus drivers and the increase in fuel expenses.

Business Type Activities

Revenues for the Board's business-type activities were comprised of charges for services, federal and state reimbursements and investment earnings. (See Table 2).

- Total food services revenues plus transfers were \$36.3 million more than expenses.
- Charges for services represent \$3.5 million of revenue. This represents amounts paid by students, teachers and other customers of the school nutrition program.
- Federal and state reimbursement for meals, including payments for free and reduced lunches, was \$131.8 million.
- Transfers were \$423,792.

The Statement of Revenues, Expenses, and Changes in Fund Net Position for this proprietary fund will further detail the actual results of operations.

Governmental Funds

At June 30, 2022, the Board's governmental funds reported a fund balance of \$1,220,957,479. The combined balance of all governmental funds was \$309,933,343 higher than 2021 ending balance of \$911,024,136.

The fund balance of the General Fund was \$533,154,439 at June 30, 2022. This is an increase of \$62,505,834 from a June 30, 2021 fund balance of \$470,648,605. This increase in fund balance is due to a 6% growth in property tax and state revenue and expenditures growing only 0.7% over the previous year.

At June 30, 2022, the fund balance of the Capital Projects Fund was \$577,535,919. This is an increase of \$332,248,811 from the prior year balance at June 30, 2021 of \$245,287,108. During 2022, the district had a decrease in expenditures for the completion of projects financed through the Special Purpose Local Option Sales Tax Program (2017-2022) while beginning new projects financed with the issuance of the Series 2022 General Obligation Bonds.

At June 30, 2022, the fund balance of the Debt Service Fund was \$81,968,086. This is a decrease of \$88,486,109 from the prior year balance at June 30, 2021 of \$170,454,195. This decrease is due to a 9% decrease in property taxes and higher payments related to servicing outstanding debt obligations. This fund accounts for annual property tax levies and other revenues that are used for the payment of principal and interest on general obligation bonds.

At June 30, 2022, the fund balance of the special revenue funds which includes the ESSER/CARES and Nonmajor Governmental Funds was \$28,299,035. This is an increase of \$3,664,807 from the June 30, 2021 fund balance of \$24,634,228. The ESSER/CARES Funds had expenditures at \$142 million. Within the Nonmajor Governmental Funds, the funds with the highest expenditures were IDEA Flow-through at \$42.6 million, Title I at \$36.4 million and Local School Activity Fund at \$30.6 million. The Nonmajor Governmental Fund with the highest fund balance was the Local School Fund at \$26.5 million, 93% of the total fund balance of \$28.3 million. The ESSER/CARES funds account for the federal funds provided through the Department of Education for the purpose of providing local education agencies with support for schools dealing with the effects of the COVID-19 Pandemic. The Nonmajor funds account for the District's federal, state, and local grant programs. Descriptions of the Nonmajor Governmental funds are in the Supplemental Information Combining Fund Statements section.

General Fund Budgeting Highlights

The Board's budget is prepared according to Georgia State law. The most significant budgeted fund is the General Fund, funded primarily through state revenue and local property tax revenue.

During the course of the fiscal year, the Board amended its General Fund budget monthly. The most significant amendments were:

- An increase to expenditures to bring forward amounts for encumbrances from the prior fiscal year and re-budget;
- An increase to expenditures to bring forward unused budget balances for local schools from the prior fiscal year and re-budget; and
- An increase in expenditures as a result of the annual mid-term salary and fringe benefit amendment. This amendment is done annually to adjust all salary and fringe benefit budgets to reflect actual rather than projected average salaries and actual numbers of positions. This amendment is necessary to bring budgets in line with the actual salary and fringe benefit costs once all employees are hired and are in place.

Although the Board's final budget for the General Fund anticipated that expenditures plus transfers would exceed revenues by \$33.6 million, the actual results for the fiscal year show that expenditures plus transfers were under revenues by \$29.1 million, a variance of \$62.7 million.

The primary reason for this variance is growth in the property tax digest, lapsed expenditures, which are those expenditures that are budgeted but do not materialize by year-end. These along with other cost saving measures have allowed the District to sustain a positive financial position.

Capital Asset and Debt Administration

Capital Assets

At June 30, 2022, the Board's governmental activities had \$2,424,835,614 invested in a broad range of capital assets, including land, buildings, furniture, and equipment for its governmental activities. The Board's business-type activities had an investment of \$4,519,882 invested in equipment and furniture and is funded with revenues from its operations. The current capital improvement program for governmental activities is funded with revenue from a one-cent special purpose local option sales tax (SPLOST) with current cash flow being provided from general obligation bonds issued in fiscal year 2016 in the amount of \$305 million. State capital outlay grants provide \$10.4 million. The capital improvement program is also funded with general obligation bonds issued during fiscal year 2019 for \$173,355,000, fiscal year 2021 for \$122,945,000, and fiscal year 2022 for \$265,000,000.

Capital Assets (net of depreciation) (in millions of dollars)

More detailed information about capital assets can be found in note 6 of the Notes to the Basic Financial Statements.

Debt Administration

At June 30, 2022, the Board had \$1,203,955,000 in general obligation bonded debt. The proceeds of the bonds were used to finance expenditures related to the Board's capital improvement program. 25.3% or \$305 million of the debt (Series 2016) will be repaid with proceeds from SPLOST. Additionally, the Board has long-term debt obligations certificates of participation in the amount of \$67.5 million.

The District maintains a "Aaa" rating from Moody's and a "AAA" rating from Standard and Poor's for general obligation debt.

	_	ong-Term l		
		2022	2021	Total Percentage Change

Total	_	1,271.4	1,147.7	10.7%

More detailed information about long-term debt can be found in note 7 of the Notes to the Basic Financial Statements.

General Budgetary Highlights and Economic Factors

The fiscal year 2023 budget was presented to the public with the final adoption on June 16, 2022. The budget represents an investment plan for Gwinnett County Public Schools, its students, employees, and the community as a whole. The budget recommendations support our developing strategic direction, in alignment with our efforts as part of the *Learning 2025* network of districts committed to transforming public education to be truly student-centered, equity-focused, and future driven. The Board's strategic plan – *Blueprint for the Future* – will ensure that each and every student is ready for success after graduation.

The Total Budget for FY2023 is approximately \$2.83 billion, representing a slight decrease of 1.7% from the amended FY2022 Total Budget. The budget for the general operations of the school district is reflected in the General Fund at \$2.0 billion, an increase of 3.1% over FY2022.

<u>The General Fund</u> represents 70.0% of the Total Budget. Primary day-to-day operations of the school district are budgeted through the General Fund. Student achievement and the teaching and learning process are the central focus of this budget, as evidenced by the fact that 71% of the General Fund budget is targeted for instructional services. The General Fund budget is increasing by 3.1% from the FY 2022 budget due to additional local and state funding.

The General Fund is funded with projected state revenue in the amount of \$1.1 billion, federal revenue of \$1 million, and projected local revenue of \$925.2 million.

The millage rate to support this budget is 19.2 mills, a decrease from the fiscal year 2022 rate of 19.7 mills. Also, positively impacting revenue estimates for FY2023 is the projected growth in the local property tax digest. For the eighth year in a row, the County's property tax digest is expected to grow. The increase in property tax revenue is budgeted at \$52.7 million over the FY2022 budget.

The State revenue is expected to increase by \$31.0 million over fiscal year 2022 and includes a decrease in the equalization funding and the elimination of the austerity reduction. The State revenue includes funding for student growth and salary improvements.

For FY2023 the budget included investments to increase compensation, prioritize school-based resources, accelerate early literacy, and expand access and opportunity. The budget includes a longevity-step salary increase for all eligible employees. Also included is a \$2,000 cost of living increase for all employees paid on the teacher salary schedule and a 4.0% cost of living for all employees not paid on the teacher salary schedule. Funding was included for the addition of 233 instructional and support positions for growth and 182 teaching positions to lower class size allotments at all school levels. Funding for pilot programs for pre-K and science of reading materials at elementary schools was provided in addition to 30 additional bus drivers to expand transportation options for choice programs. There were 18 additional college and career specialist roles added to support high schools and funding to ensure all students in grades 3-12 were provided with take-home technology devices.

The Special Revenue Fund FY2023 budget is projected to be \$387.4 million. This fund accounts for federal categorical grants such as Title I, Title II, Title VI-B, and secondary grants. This fund includes grants awarded through the Elementary and Secondary Emergency Relief (ESSER) Fund. These grants include the Coronavirus Response and Relief Supplemental Appropriations Act (CRRSA) and the American Rescue Plan (ARP) Act. These funds were initially budgeted in FY2022 and will continue into FY2023. These federal funds were awarded to support schools as they safely reopened and responded to the effects of the COVID-19 pandemic on our students, staff, and schools.

The Capital Projects Fund FY2023 budget totals \$208.1 million, an increase of \$62.0 million from the FY2022 level. This fund includes state capital outlay grants, the tax proceeds funded by the education special purpose local option sales tax (E-SPLOST) approved by the voters in November 2020 and proceeds from the General Obligation bonds approved by voters in November 2018.

The Debt Service Fund FY2023 budget is \$137.2 million, a decrease of \$52.8 million from the FY2022 budget. This fund represents the budgeted principal and interest payments for the District's outstanding debt (see note 7 in the Notes to the Basic Financial Statements for more detailed information). The principal and interest payments on the COPS and E-SPLOST bonds will be paid with accumulated sales tax proceeds and will not require a debt service property tax levy. The millage rate required for the remaining debt service on the General Obligation bonds will decrease to 1.45 from the FY2022 rate of 1.65.

<u>The Enterprise Fund</u> contains the budget for the cafeteria operations for the school district. The total budget for this fund is \$102.8 million for FY2023.

<u>The Internal Service Fund</u> represents the operations of the school district's workers' compensation/risk management fund, employee short-term disability program, and the in-house print shop. The total budget for this fund is \$15.4 million for FY2023.

Contacting the Board's Financial Management

This financial report is designed to provide the Board's citizens, taxpayers, customers, and investors and creditors with a general overview of the Board's finances and to demonstrate the Board's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Joseph P. Heffron, Chief Financial Officer, Gwinnett County Public Schools, 437 Old Peachtree Road Northwest, Suwanee, Georgia 30024-2978.

GWINNETT COUNTY BOARD OF EDUCATION Reconciliation of the Governmental Funds Balance Sheet with the Statement of Net Position As of June 30, 2022

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balance-governmental funds		\$ 1,220,957,479
Capital assets used in governmental activities are not current financial resources and, therefore, are not reported as assets in governmental funds. The cost of these assets is \$3,861,949,350 and the accumulated depreciation is \$1,437,159,685.		2,424,789,665
Property tax revenue that is not available to pay for current period expenditures has been deferred in the governmental funds but is recognized as revenue in the government-wide financial statements.		10,200,894
Internal service funds are used by the Board's management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included with governmental activities in the statement of net position.		17,426,222
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. Long-term liabilities and related amounts at fiscal year-end consist of:		
Bond issuance premium on bond refunding Deferred loss on bond refunding Net pension liability Net OPEB liability Deferred outflows pension related items Deferred inflows pension related items Deferred outflows OPEB related items Deferred inflows OPEB related items Certificates of participation Certificates of participation issuance premium Deferred loss on certificates of participation refunding Accrued interest payable Compensated absences	\$ (1,203,955,000) (115,019,414) 18,505,946 (576,866,633) (993,200,384) 646,370,946 (1,280,077,755) 221,952,721 (545,444,563) (67,450,000) (1,322,284) 150,118 (19,767,639) (14,428,277)	(3,930,552,218)

GWINNETT COUNTY BOARD OF EDUCATION

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances with the Government-Wide Statement of Activities For the Fiscal Year Ended June 30, 2022

Total net change in fund balances-governmental funds		\$	309,933,343
Amounts reported for governmental activities in the statement of activities are different bec	ause:		
Governmental funds report capital outlays as expenditures. However, in the statement	of		
activities the cost of those assets is allocated over their estimated useful lives and report			
as depreciation expense. This is the amount by which capital outlays of \$98,472,470			
exceeded depreciation expense of \$87,248,836 in the current period.			11,223,634
Disposals of capital assets are not reflected in the governmental funds, but the loss on t	the		
disposal of these assets at their net book value is reflected on the statement of activities	S.		(1,405,020)
Property tax and sales revenue that is not available to pay for current period expenditure	es has been		
deferred in the governmental funds but is recognized as revenue in the government-wid	е		
financial statements. The change in unavailable revenue from prior fiscal year to the cur	rent fiscal		
year is recorded as revenue in the statement of activities.			543,420
Issuance of long-term debt provides current financial resources to governmental funds,	while		
the repayment of the principal of long-term debt consumes the current financial resource	es of		
governmental funds. Neither transaction; however, has any effect on net position. Also	,		
items when debt is first issued, whereas these amounts are deferred and amortized in the	ne		
statement of activities. Additionally the net pension liability and related amounts and the	e		
net OPEB liability and related amount are not accrued in the governmental funds.			
The details of this difference are as follows:			
Repayment of bond principal \$	121,710,000		
Repayment of certificates of participation	20,265,000		
Proceeds from issuance of refunding bonds	(265,000,000)		
Premium on issuance of bonds	(37,506,550)		
Amortization of premium on bonds and certificates of participation	11,852,590		
Amortization of deferred loss on refunding of bonds	(2,958,216)		
Change in net pension liability and related items	258,117,751		
Change in net OPEB liability and related items	39,157,739		
			145,638,314
Interest expense reported in the statement of activities is recorded as incurred, whereas	;		
interest expenditures in the governmental fund statements is reported when due.			847,275
Compensated absences do not require the use of current financial resources and, there	fore, are not		
reported as expenditures in the governmental funds.			71,075
Internal service funds are used by management to charge the costs of certain activities	to individual		
funds. The net revenue of the internal service funds is reported with governmental			
activities.			1,071,203
Change in net position (deficit) of governmental activities		\$ <u></u>	467,923,244

GWINNETT COUNTY BOARD OF EDUCATION

NOTES TO BASIC FINANCIAL STATEMENTS FISCAL YEAR ENDED JUNE 30, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Gwinnett County Board of Education (the "Board") operates under a Board-Superintendent form of government and provides public educational services to the citizenry of Gwinnett County, Georgia, except for the area within the corporate limits of the City of Buford, Georgia. The Board receives funding from local, state, and federal government sources and must comply with the commitment or compliance requirements of these funding source entities.

The accounting policies of the Board conform to accounting principles generally accepted in the United States of America which are applicable to governmental entities. The Governmental Accounting Standards Board ("GASB") is the accepted standards-setting body for establishing governmental accounting and financial reporting principles.

The following is a summary of the Board's more significant accounting policies:

a. Reporting Entity - In evaluating how to define the reporting entity of the Board, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth by GASB Codification section 2100. The concept underlying the definition of the reporting entity is that of the financial accountability criteria: that elected officials of the primary government can impose their will on the potential component unit or based on the general significance of the operational or financial relationship between the primary government and the potential component unit. Based on this criteria, the Board is not financially accountable for any legally separate organization. However, the fiduciary component unit discussed below is included because of the significance of its operational or financial relationships with the Board.

Fiduciary Component Unit

The Gwinnett County Board of Education Retirement System ("GRS") is governed by a separate board of directors. Although GRS is legally separate from the Board, GRS is reported as part of the primary government because its primary purpose is to provide services to the Board and there is a financial burden relationship due to the contributions made by the Board to GRS. The financial statements of GRS are reported as a pension trust fund. The financial data for GRS is presented as of and for the year ended December 31, 2021, the date of the latest available financial statements. Financial statements can be obtained at 437 Old Peachtree Road, Suwanee, GA 30024.

Based on the above criteria, the Board is not considered a component unit of any other governmental reporting entity.

b. <u>Government-wide and fund financial statements</u> - The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds (General Fund, Capital Projects Fund, and Debt Service Fund) and the major enterprise fund (School Nutrition Program) are reported as separate columns in the fund financial statements.

Measurement focus, basis of accounting, and financial statement presentation - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the fiscal year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the Board's governmental and business-type activities. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, operating statements present increases and decreases in net current assets and fund balance as a measure of available resources. This means that only current assets and liabilities are generally included on their balance sheets. Revenues are recognized as soon as they are both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period, or soon enough thereafter, to pay liabilities of the current period. Revenues are considered to be available if collected within 60 days after the fiscal year-end. Property taxes are reported as receivables and unavailable revenue when levied and as revenues when due for collection in the following fiscal year and determined to be available. Grants and entitlement revenues are recognized when compliance with all applicable eligibility requirements are met. A receivable is established when the related expenditures exceed revenue receipts. Major revenue sources which are susceptible to accrual are property tax, sales tax, and intergovernmental revenue. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, net pension liability, and net OPEB liability, and claims and judgments, are recorded only when payment is due.

The Board reports the following major governmental funds:

- General Fund The general fund is the primary operating fund of the Board. It is used to
 account for all financial resources of the Board, except those required to be accounted for in
 another fund.
- Capital Projects Fund The capital projects fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).
- Debt Service Fund The debt service fund is used to account for the payment of principal and interest on all long-term general obligation debts. The debt service fund is used to accumulate resources over the outstanding life of the bond issue in an amount equal to the maturity value. Cash of the debt service fund may be invested in income producing securities which are converted back into cash at the maturity date for use in retiring bonds. This fund is also used to account for interest payments related to the certificates of participation.
- ESSER/CARES Fund The ESSER/CARES Fund is used to account for the revenue and expenditures related to the COVID-19 relief grant funding.

The Board reports the following major enterprise fund:

• School Nutrition Program - An enterprise fund is used to account for operations similar to those found in private business enterprises and (a) are financed primarily through user charges, or (b) where the governing body has decided the determination of net income is appropriate. The School Nutrition Program fund provides meals to the students and faculty of the Board.

Additionally, the Board reports the following fund types:

- Special Revenue Funds Special revenue funds are used to account for revenues received from governmental agencies and other organizations that are legally restricted or committed to expenditures for specified purposes.
- Internal Service Funds Internal service funds are used to account for goods or services provided by one department to other departments of the Board on a cost-reimbursement basis.
- Private-Purpose Trust Fund the private purpose trust fund is used to account for resources held in trust for School Resource Officer investigations.
- Pension Trust and Other Employee Benefits Fund the pension trust and other employee benefits fund accounts for the activities of the Gwinnett County Board of Education Retirement System, a single-employer defined benefit combination retirement and disability plan. Also accounted for in this fund is a short-term disability benefit plan for active employees.

Operating revenues and expenses of the proprietary funds are reported for exchange and exchange like transactions associated with the principal activity of that function. All other transactions are considered nonoperating. When both restricted and unrestricted resources are available for use, it is the Board's policy to use restricted resources first, then unrestricted resources as they are needed.

d. Encumbrances - Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is employed in the governmental funds. Open encumbrances at fiscal year-end are reported as assigned fund balance and do not constitute expenditures or liabilities because the related goods and/or services have not been received. Unencumbered appropriations lapse at the end of the fiscal year, except for amounts related to local school allotments and capital projects, which are carried forward to the next fiscal year. Encumbered appropriations are rebudgeted in the following fiscal year.

As of June 30, 2022, the Board has encumbered \$13,641,481 in the General Fund.

e. <u>Investments</u> - Investments of all funds are carried at fair value. Interest income on investments is accrued as earned. At June 30, 2022, the Board's investments included funds on deposit in the Georgia Fund 1, the State of Georgia investment pool created by OCGA 36-83-8, which is a stable asset value investment pool which follows Standard and Poor's criteria for AAAf rated money market funds and is regulated by the Georgia Office of the State Treasurer. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1 per share value). The asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participants' shares sold and redeemed based on \$1 per share. The pool also adjusts the value of its investments to fair value as of year-end and the Board's investment in the Georgia Fund 1 is reported at fair value.

The credit risk associated with the Board's investments is primarily due to its reliance upon securities of the U.S. Government and its agencies. As with any fixed income portfolio, there exists market price risk in a changing interest rate environment, and some of the Board's investments are subject to decline in market value as interest rates increase.

f. <u>Inventories and prepaid items</u> - Inventories in governmental funds are reported at cost (first-in, first-out). The Board uses the consumption method to account for inventories. Under this method, inventory purchased is initially recorded as an asset and recognized as an expenditure in the period in which the inventories are actually consumed. Inventories in proprietary funds are valued at the lower of cost (first-in, first-out) or market. Within the enterprise fund, commodity inventory received but not used at fiscal year end is classified as restricted net position.

Payments made to vendors for services that will benefit periods beyond the balance sheet are recorded as prepaid items and accounted for using the consumption method.

g. <u>Capital Assets and Depreciation</u> - Capital assets, which include property, vehicles, equipment and major information systems, are utilized for general school operations and are capitalized at actual or estimated cost. Donations of such assets are recorded at estimated acquisition value at the time of donation. Capital assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

Maintenance, repairs, and minor renovations are recorded as expenses and expenditures when incurred. Major additions and improvements are capitalized. When assets in the operation of the governmental fund types are sold, the proceeds of the sale are recorded as revenues in the appropriate fund.

The Board's capital assets are depreciated using the straight-line method over the estimated useful lives of the capital assets. Land and construction in progress are not depreciated. Depreciation of all other capital assets is charged as an expense against their operations in the Statement of Activities and the proprietary fund financial statements. Capitalization thresholds and estimated useful lives of capital assets reported in the District-wide statements are as follows:

	Capitalization	<u>Useful</u>
	Threshold	<u>Life</u>
Motor vehicles (car and trucks)	\$5,000	12 years
Motor vehicles (buses)	5,000	15 years
Computer equipment	5,000	4-7 years (varies according to type)
Equipment	5,000	3-15 years (varies according to type)
Information Systems	1,000,000	5-7 years
Buildings and Improvements	100,000	7-50 years
Mobile Classrooms	5,000	20 years

h. <u>Compensated Absences</u> - Board employees earn annual vacation leave based on length of service, up to a maximum of 23 days after 20 years of service. Sick leave is accrued at 1.25 days per month, and may be accumulated up to a maximum of 150 days. When an employee retires, the unused sick leave days may be applied towards State retirement for additional benefits.

Accrued vacation and sick leave bank compensated absences are shown as long-term liabilities on the statement of net position except for the portion expected to become due within one year. Those amounts are shown as current liabilities. The sick leave bank liability represents the amount of available leave associated with those employees who elect to participate in this benefit by contributing a portion of their accrued sick leave into a pool that can be accessed by members of the bank who experience a catastrophic illness that results in the use of all of their accrued leave. The sick leave bank committee can approve an additional 60 days of sick leave for members based on their demonstrated need. A fund liability is accrued only for the matured portion of compensated absences at fiscal year end. All other accrued sick leave is predominately applied towards retirement, therefore no accrual is made for this type of accrued sick leave.

i. <u>Deferred Compensation Plan</u> - The Board sponsors a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The Plan, available to all Board employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or an unforeseeable emergency.

All amounts of compensation deferred under the Plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are held in custodial accounts for the exclusive benefit of the Plan participants and their beneficiaries, and are therefore not included in the Board's financial statements.

j. <u>Self-Insurance</u> - The Board is exposed to various risks of loss related to torts; damage to and destruction of assets; errors and omissions; and natural disasters for which the Board carries commercial insurance. In addition, the Board has chosen to establish a risk financing fund for risks associated with workers' compensation and general liability. This fund is accounted for as an internal service fund. For workers' compensation, a premium is charged to each user fund on the basis of the percentage of that fund's payroll to total payroll. The total workers' compensation charge which is allocated among the funds is calculated using an actuarial analysis. Liabilities of this fund are reported when it is probable a loss has occurred and the amount can be reasonably estimated including amounts for claims incurred but not yet reported. The Board has not experienced any significant reduction in insurance coverage from the previous fiscal year nor has it paid any settlements in excess of insurance coverage in the past three fiscal years.

The Board also self insures fleet and general liability claims. The expense associated with general liability and fleet is funded by a charge to the general fund. Changes in the balances of claims liabilities for the workers' compensation/risk management fund for each of the fiscal years in the two fiscal year periods ended June 30, 2022 and 2021 are shown below.

		Current		
	Beginning of	Fiscal Year		Balance at
Fiscal	Fiscal Year	and Changes	Claims	Fiscal
Year	Liability	in Estimates	Payments	Year-End
2021	\$ 27,985,766	7,496,607	(7,770,533)	27,711,840
2022	\$ 27,711,840	10,355,922	(7,303,650)	30,764,112

- k. <u>Liabilities</u> In the government-wide financial statements, and proprietary fund types in the fund financial statements, long term debt and other long-term obligations are reported as liabilities in the applicable government activities, business-type activities, or proprietary fund type statement of net position. The Board records long-term debt of governmental funds at face value as an other financing source. The Board's general obligation bonds are serviced from property taxes and other revenue of the Debt Service Fund. The long-term accumulated unpaid vacation, accrued sick and personal leave and estimated liability for insurance claims (see note 1.j. above) are serviced from property taxes and other revenues of the respective fund type.
- Fund Equity In accordance with Government Accounting Standards Board Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions", the Board classifies governmental fund balances as follows:

Non-spendable - includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.

Restricted - includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.

Committed - includes fund balance amounts that are constrained for specific purposes that are internally imposed by formal action of the Board through the adoption of a resolution. Only the Board may modify or rescind the commitment, also through a resolution.

Assigned - includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. The Board has approved that fund balance may be assigned by the Chief Financial Officer.

Unassigned - includes positive fund balance within the General Fund which has not been classified within the above mentioned categories and negative fund balances in other governmental funds.

Flow Assumptions - When both restricted and unrestricted amounts of fund balance are available for use of expenditures incurred, it is the Board's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the Board's policy to use fund balance in the following order: Committed - Assigned - Unassigned.

Net Position - Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources, in reporting which utilizes the economic resources measurement focus. The net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the Board has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position is reported as unrestricted. When both restricted and unrestricted amounts of net position are available for use of expenses incurred, it is the Board's policy to use restricted amounts first and then unrestricted amounts as they are needed.

Fund Balances:

Restricted - The following fund balances are restricted for:

Non-major Governmental Funds:	
Successful Start	\$ 44,715
NewSchools Grant	322,533
Annenburg Grant	100,000
Total	\$467,248

Debt Service Fund:	
Debt Service Fund - used to account for the payment of principal and interest on all long term general obligation debts.	\$81,968,086

Capital Projects Fund:	
Capital Fund - Used to account for capital	\$2,213,311
projects financed with proceeds from assets	
sold.	
Special Purpose Local Option Sales Tax	151,128,333
(SPLOST) IV Fund - used to account for	
capital projects including those financed with	
one cent sales tax including the Series 2016	
Bonds.	
SPLOST V Fund - used to account for capital	295,342,779
projects financed with one cent sales tax.	
2019 Bond Fund - used to account for	16,534,358
additional capital projects financed with	
general obligation bond funds.	
2021 Bond Fund - used to account for	112,292,682
additional capital projects financed with	
general obligation bond funds.	
Total	\$577,511,463

Committed - the following fund balances are committed to:

Non-major Governmental Funds:	
GoSTEM Initative Technology Fund – used to	\$118,714
account for local funds that provide evaluations	
services to local universities for the purpose of	
increasing student interest in STEM education.	
Department of Administrative Services Fund –	963,777
used to provide administrative support and	
staff development opportunities for the	
Division of Business and Finance.	
Local School Activity Fund – used to account	26,464,709
for funds generated at the local schools through	
donations, ticket sales, fundraising and other	
activities.	
Band Uniforms Fund – used to track funding	284,587
for and the purchase of student band uniforms.	
Total	\$27,831,787

Assigned - the following fund balances are assigned to:

General Fund:	
Subsequent Fiscal Year's Budget - used to	\$ 190,000,000
account for the portion of the fiscal year-end	
fund balance which is to be appropriated in	
subsequent year's budget.	
Direct Instruction	2,224,759
Media	321,411
Pupil Services	225,994
Instructional Support/Staff Development	470,836
Business Administration	3,526
Maintenance & Operations	938,498
Pupil Transportation	620,800
Support Services – Central	9,695,849
Local School Allotments	26,232,524
Miscellaneous Programs	181,367
Optional Employee Benefits	7,435,695
Total	\$ 238,351,259

Unassigned - The Board's policy is to plan and manage annual revenue and expenditures that provide an unassigned general fund balance in the range of 5% - 10% of the General Fund operating expenditures (excluding transfers).

m. Interfund Transactions - Transactions between funds that would be treated as revenues, expenditures, or expenses if they involved organizations external to the Board are accounted for as revenues, expenditures, or expenses of the funds involved. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions are reported as transfers. To the extent that certain transactions between funds had not been paid or received as of June 30, 2022, balances of interfund amounts receivable or payable have been recorded. For presentation in the government-wide financial statements, most interfund activity has been eliminated.

- n. Grants from Other Governmental Units Federal and State governmental units represent an important source of supplementary funding used to finance educational and construction programs and other activities beneficial to the community. This funding, primarily in the form of grants, is recorded in the general fund, special revenue funds, capital projects fund and enterprise fund. For all funds, a grant receivable is recorded when the Board has a right to reimbursement under the related grant and all applicable eligibility requirements have been met.
- o. <u>Statement of Cash Flows</u> For purposes of the statement of cash flows, deposits in the Georgia Fund I state investment pool and short-term investments purchased with an original maturity of three months or less are considered to be cash equivalents.
- p. <u>Management Estimates</u> The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.
- q. <u>Deferred Outflows/Inflows of Resources</u> In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Board has several items that qualify for reporting in this category. The first type of deferred outflow of resources is the deferred loss on refunding reported in the government-wide statement of net position. A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or the refunding debt. The Board also has several deferred outflows of resources related to pensions and OPEB which are described in more detail below.

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Board also has several of these items, one of which arises only under a modified accrual basis of accounting. Unavailable revenue is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes as these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available. The Board also has several deferred inflows of resources related to pensions and OPEB which are described in more detail below.

As mentioned above, the Board has deferred inflows and outflows of resources related to the recording of changes in its net pension liability and net OPEB liability. Certain changes in these liabilities are recognized as pension/OPEB expense over time instead of all being recognized in the year of occurrence. Experience gains or losses result from periodic studies by the Board's actuary which adjust the net pension liability and net OPEB liability for actual experience for certain trend information that was previously assumed, for example the assumed dates of retirement of plan members. These experience gains or losses are recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension/OPEB expense over the expected remaining service lives of plan members. Changes in actuarial assumptions which adjust the net pension liability and net OPEB liability are also recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension/OPEB expense over the expected remaining service lives of plan members. The difference between projected investment return on pension or OPEB investments and actual return on those investments is also deferred and amortized against pension/OPEB expense over a five year period. For their participation in cost-sharing plans the Board is also subject to changes in the proportion of the collective liability and differences between the actual Board contributions and the proportionate share of contributions. These differences are recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension/OPEB expense over the expected remaining service lives of plan members. Additionally, any contributions made by the Board to the pension plans or OPEB plan before year end but subsequent to the measurement date of the related net pension liability or net OPEB liability are reported as deferred outflows of resources.

- r. <u>Pensions</u> For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers Retirement System of Georgia (TRS), the Public School Employees' Retirement System (PSERS), and the Gwinnett County Board of Education Retirement System (GRS) and additions to/deductions from TRS's, PSERS's, and GRS's fiduciary net position have been determined on the same basis as they are reported by TRS, PSERS, and GRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.
- s. Other Postemployment Benefits For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Georgia School Employees Postemployment Benefit Fund (School OPEB Fund) and additions to/deductions from the School OPEB Fund's fiduciary net position have been determined on the same basis as they are reported by the School OPEB Fund. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

2. CASH, CASH EQUIVALENTS, AND INVESTMENTS

Investments

The investment program of Gwinnett County Public Schools (GCPS) is operated in compliance with the investment policy adopted by the Gwinnett County Board of Education, (the "Board"). The investment policy applies to all funds under budgetary control or fiduciary responsibility of the Board with the exception of the Gwinnett Retirement System, which is administered separately by the Plan Administrative Committee and explained in more detail below. GCPS investment officials execute the investment policy of the Board within the framework of official investment procedures approved by the Superintendent's cabinet.

Safety of principal is the foremost objective of the investment program. The portfolio is designed to achieve a market rate of return while seeking to avoid capital loss and remaining sufficiently liquid to meet the operating requirements of the Board.

As a political subdivision of the State of Georgia, the investment policy procedures and practices of GCPS are governed by Georgia Code Section 36-83-4 and 36-80-3. The Code limits governments to a prescribed set of investments. The investment policy of the Board further limits investments within the prescribed investments to:

- Obligations of the U.S. Government
- Obligations Fully Insured by the U.S. Government
- Obligations of any corporation of the U.S. Government
- The Local Government Investment Pool
- Repurchase Agreements
- Certificates of Deposits and Demand Deposit Accounts

The Board is responsible for the overall management of assets of the retirement system. The Board has established a Plan Administrative Committee to carry out the terms of the Plan, including responsibility for the investment of funds. The Administrative Committee is responsible for establishing the investment policy, hiring and firing of advisers, providing professional services to the Plan and in general directing the Plan's investments in a manner most appropriate to meeting Plan goals.

The primary investment objective of the Plan is better than average returns over the long term. The Administrative Committee has established the below investment goals.

Expected Return: Over a five year period, the total return should be at least 3% above the rate of inflation and rank in the top half of a peer group of large public pension plans.

Expected Risk: Over a five year period, the standard deviation of the returns for the total fund should be less than 13% and less than that for a peer group of large public plans.

In addition, as a local retirement system maintained by a political subdivision of the State of Georgia, Investments made by the Plan are subject to the official Code of Georgia Annotated. Every two years, the plan must certify to the State Auditor that it has complied with the investment practices outlined in Public Retirement Systems Investment Authority Law (O.C.G.A 47-20-80ET seq) at all times.

The GCPS investments are subject to various risks that have the potential to result in losses. These risks are custodial credit risk, credit risk, concentration of credit risk, interest rate risk, and foreign currency risk. Each risk is described in detail below.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of a failure of counterparty to a transaction, the Board will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party.

GCPS manages custodial credit risk by requiring all bank deposits to be collateralized at 110% and all securities held in a safekeeping account at the Board's bank. In addition, GCPS must conform to Georgia Code Section 42-8-12 and 50-17-50, which governs the collateralization of public funds. At fiscal year end, GCPS was in compliance with collateralization and safekeeping requirements in accordance with the investment policy and was therefore exposed to minimal custodial credit risk.

Concentration of Credit Risk

Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. The Board manages concentration of credit risk by limiting the amount which may be invested in any one financial institution to 50% of the total portfolio.

As of June 30, 2022, no investments exceeded 5% of entity investments (with the exception of US Treasury securities, mutual funds, external investment pools and repurchase agreements).

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation.

The Board manages credit risk by requiring counterparty banks to maintain a Senior Bond Rating of A/A1 or higher. Broker dealers authorized to conduct business with the Board must certify financial status, NASD certification and senior bond rating of A/A1 or higher to the Board on an annual basis. The investment policy limits investments by instrument to 75% of the portfolio for Certificates of Deposit, Repurchase Agreements Demand Deposit Accounts, and Obligation of U.S. Government Sponsored Corporations.

The table that follows discloses the credit risk of the fixed income investments of the Board by rating categories as rated by Moody's.

Ratings Dispersion Table for General Government

		U.S. Government	
Moody's		Agency	
Rating	Georgia Fund 1	Obligations	Total
Aaa	\$ -	\$ 245,219,416	\$ 245,219,416

Total	\$ 1,796,768,506	\$ 24,646,753	\$ 494,663,825	\$ 285,389,318	\$ 2,601,468,402

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of investments. The Board manages interest rate risk by limiting portfolio maturities to three years. The table below discloses interest rate information.

Interest Rate Disclosure

Asset Category	Market Value	Disclosure Method	WAM/Duration
General Government:			
GA Fund I	\$ 883,109,804	WAM	43 days
U.S. Agency Obligations	245,219,416	WAM	276 days
Total	\$ 1,128,329,220		
Retirement System:			
Mutual/commingled funds	\$ 1,796,768,506	Duration	Not available
Corporate bonds	494,663,825	Duration	2.11 years
Money market funds	24,646,753	Duration	0.08 years
U. S. treasury inflation protected securities	285,389,318	Duration	6.20 years
Total	\$ 2,601,468,402		

Foreign currency risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. Foreign investments are both prohibited under the Board investment policy and by State Statute. The Board is therefore not subject to foreign currency exposure.

Fair Value Measurement

The Board categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The Board has the following recurring fair value measurements as of June 30, 2022:

Investment	Level 1		Level 2	Level 3		Fair Value	
United States Agency Obligations	\$	-	\$ 245,219,416	\$		\$	245,219,416
Total investments measured at fair value	\$	-	\$ 245,219,416	\$	-	\$	245,219,416
Investments not subject to level disclosure: Georgia Fund 1							883,109,804
Total investments						\$	1,128,329,220

The investment in United States Agency Obligations classified as Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

The Georgia Fund 1 is an investment pool which does not meet the criteria of GASB Statement No. 79 and is thus valued at fair value in accordance with GASB Statement No. 31. As a result, the Board does not disclose the investment in the Georgia Fund 1 withing the fair value hierarchy.

The investments of the Gwinnett Retirement System are valued as of December 31, 2021. The Board has the following recurring fair value measurements.

Common stock \$ 133,607,687 \$ - \$ -	\$ 133,607,687
Preferred stock - 488,894 -	488,894
U.S. Treasury Inflation	
Protected Securities 155,097,789 - 130,291,529	285,389,318
International debt and equity funds - 587,197,303 -	587,197,303
Bond market index funds 6,713,608 -	6,713,608
Equity market index funds 149,978,318 956,723,007 -	1,106,701,325
Real estate index funds - 96,156,270 -	96,156,270
Corporate bonds - 477,933,280 16,730,545	494,663,825
Money market funds and short-term	
commercial paper 24,646,753	24,646,753
Private equity 81,533,465	81,533,465
Securities lending short-term collateral	
investment pool 76,206,586	76,206,586
Future contracts (326,656)	 (326,656)
Total Investments \$ 545,924,085 \$ 2,118,498,754 \$ 228,555,539	\$ 2,892,978,378

The Common Stock, U.S Treasury Inflation Protected Securities, Bond Market Index Funds, Equity Market Index Funds, and Money Market Funds & Short-Term Commercial Paper classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those investments.

The Preferred Stock, International Debt and Equity Funds, Equity Market Index Funds, Real Estate Index Funds, and Corporate Bonds classified as Level 2 on the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

The U.S. Treasury Inflation Protected Securities, Corporate Bonds, and Private Equity Investments classified as Level 3 on the fair value hierarchy represent shares held in funds which are not actively traded and these investments are valued using recent observable transaction information for similar investments and nonbinding bids received from potential buyers of the shares.

3. PROPERTY TAXES

The Gwinnett County Board of Commissioners fixed the property tax levy for the 2021 tax digest year (calendar year) based on property values as of January 1, 2021. Taxes were due on October 15, 2021. Unpaid balances will accrue a 10% penalty. Beginning October 16, 2021, a 1% interest charge is added each month the balance is delinquent. Property taxes, however, become an enforceable lien on the first day after the date payment is due. The Gwinnett County Tax Commissioner bills and collects the property taxes for the District and withholds 1.5% of taxes collected as a fee for tax collection and remits the balance of taxes collected to the District. Taxes collected within the current fiscal year or within 60 days after fiscal year-end on the calendar year 2021 digest are reported as revenue in the governmental funds for fiscal year 2022.

The Board of Education levied taxes on the fiscal year 2022 property tax digest at a rate of 19.70 mills for maintenance and operations and 1.65 mills for debt service on school bonds. State law limits the Board's tax levy for maintenance and operations to 20 mills (one mill equals \$1 per thousand dollars of assessed value). The property tax digest consisted of the assessed value (40% of the estimated market value) of all real and personal property, utilities, mobile homes and motor vehicles located in the County, excluding the City of Buford.

4. BUDGETS AND BUDGETARY ACCOUNTING

a. <u>Budgets and Budgetary Accounting</u> - A budget is legally adopted each year for the general, certain special revenue, debt service, and capital projects funds. A budget is adopted for the enterprise funds for management control purposes only. Budgetary amounts shown on the budget-to-actual comparison in the accompanying required supplementary information include both the budget as originally adopted and as amended as of June 30, 2022. Budget amendments (other than for additional revenue or involving new positions) less than \$50,000 may be approved by the Superintendent or his designee; amendments greater than \$50,000 and all revenue and new position amendments require Board approval. During the fiscal year ended June 30, 2022, no significant supplemental appropriations were adopted. Amendments to the original budget were made during the fiscal year; however, these amendments were immaterial in amount.

The Board follows these procedures in establishing the budgetary data reflected in the accompanying financial statements:

- i. The proposed budget was prepared in April, based on budget requests submitted by the various division heads, and submitted to the Board of Education.
- ii. During May, the proposed budget was reviewed by the Board, and a tentative budget was adopted. Two public hearings were held, and a final budget was adopted. The adopted budget was then forwarded to the State Department of Education.
- iii. The level of legal budgetary control (the level at which expenditures may not exceed appropriations) is at the function level.

Budgets are adopted on a basis other than accounting principles generally accepted in the United States of America (GAAP) as allowed by the State of Georgia. The primary differences between the budget basis and GAAP for fund financial statements include:

- a. Encumbrances are recorded as expenditures (budget) as opposed to an assignment or commitment of fund balance (GAAP).
- b. Tax revenue received 60 days subsequent to fiscal year-end is recorded when received (budget) rather than when susceptible to accrual (GAAP).
- c. Certain expenditures are recorded when paid (budget) rather than when the liability is incurred (GAAP).
- d. Certain intergovernmental and local revenues are recorded when received (budget) rather than when earned (GAAP).

5. DUE FROM OTHER GOVERNMENTS

The due from other governments' amount includes \$145,530,870 due from the State of Georgia under the Quality Basic Education Act. The State of Georgia reimburses the School System for teachers' salaries and operating costs through the Quality Basic Education (QBE) Formula Earnings program. State of Georgia law defines the formula driven grant that determines the cost of an academic school year and the State of Georgia's share in this cost. Generally teachers are contracted for the school year (July 1 – June 30) and paid over a twelve month contract period, August 1 through July 31 for the School System. In accordance with the requirements of the enabling legislation of the QBE program, the State of Georgia reimburses the School System over the same twelve month period in which teachers are paid, funding the academic school year expenditures. At June 30, the amount of teachers' salaries incurred but not paid until July of the subsequent fiscal year are accrued as the State of Georgia has only postponed the final payment of their share of the cost until the subsequent appropriations for cash management purposes.

By June 30 of each fiscal year, the State of Georgia has a signed appropriation that includes this final amount, which represents the State of Georgia's intent to fund this final payment. Based on guidance in Government Accounting Standards Board (GASB) Statement No. 33, paragraph 74, the State of Georgia recognizes its QBE liability for the July salaries at June 30, and the School System recognizes the same QBE as a receivable and revenue, consistent with symmetrical recognition.

The due from other governments' amount also includes \$773,527 and \$41,376,797 due from the State of Georgia, Department of Education for capital projects and special revenue grants.

6. CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2022 was as follows:

	Balance June 30, 2021	Additions	Deletions and Transfers to In-service	Balance June 30, 2022
Governmental Activities:				
Non-depreciable assets:				
Land	\$ 331,557,368	\$ -	\$ -	\$ 331,557,368
Construction in Progress	160,010,801	87,424,748	(97,221,333)	150,214,216
Total non-depreciable assets	491,568,169	87,424,748	(97,221,333)	481,771,584
Depreciable Assets:				
Buildings and Site Improvements	2,880,908,604	-	96,380,178	2,977,288,782
Equipment	95,259,036	8,005,446	(3,918,813)	99,345,669
Information Systems	142,963,029	-	-	142,963,029
Mobile Classrooms	22,222,955	-	(17,082)	22,205,873
Buses and Other Vehicles	138,608,927	3,042,277	(2,398,931)	139,252,273
Total depreciable assets	3,279,962,551	11,047,723	90,045,352	3,381,055,626
Less Accumulated Depreciation:

Total capital assets, net	\$ 4,947,454	\$ (381,470)	\$ (46,102)	\$ 4,519,882

Depreciation expense was charged to governmental functions as follows:

Instruction	\$ 73,067,771
Institutional Support	164,869
Media Services	350,834
General Administration	42,975
Business Administration	3,560,443
Maintenance and Operations	679,009
Pupil Transportation	5,707,651
Support Services - Central	3,698,787
Total	\$ 87,272,339

7. LONG-TERM DEBT AND OTHER LONG-TERM LIABILITIES

Changes in long-term liabilities of the governmental activities during the fiscal year were as follows:

	Balance			Balance		Amounts Due											
	 June 30, 2021	Additions		Reductions		Reductions		Reductions		Reductions		Additions Reduct		Jur	ne 30, 2022	Within One Yea	
General obligation bonds payable	\$ 969,655,000	\$	265,000,000	\$	(120,165,000)	\$ 1,	,114,490,000	\$	61,775,000								
Premium	88,595,283		37,506,550		(11,082,418)		115,019,415		-								
General obligation bonds payable - private placement	91,010,000		-		(1,545,000)		89,465,000		1,580,000								
Certificates of participation	87,715,000		-		(20,265,000)		67,450,000		21,325,000								
Premium on certificates of participation	2,167,651		-		(845,367)		1,322,284		-								
Net OPEB liability	1,357,541,992		-		(363,613,608)		993,928,384		-								
Net pension liability	1,994,921,703		364,726,895		(1,782,312,684)		577,335,914		-								
Compensated																	
absences	14,499,352		9,414,324		(9,485,399)		14,428,277		3,379,460								
Total	\$ 4,606,105,981	\$	676,647,769	\$	(2,309,314,476)	\$ 2,	,973,439,274	\$	88,059,460								

Changes in long-term liabilities of the business-type activities during the fiscal year were as follows:

	Balance			Balance	Amounts Due
	June 30, 2021	Additions	Reductions	June 30, 2022	Within One Year
Net OPEB liability	\$ 62,926,766	\$ -	\$ (16,854,748)	\$ 46,072,018	\$ -
Net pension liability	19,947,560	6,468,674	(22,130,826)	4,285,408	
Total	\$ 82,874,326	\$ 6,468,674	\$ (38,985,574)	\$ 50,357,426	\$ -

For governmental activities, the General Fund has typically funded the majority of the compensated absence liability, the net pension liability, and the net OPEB liability.

a. <u>General Obligation Bonds</u> - The following is a summary of the Board's outstanding general obligation bond issues which all relate to governmental activities:

Series	Interest Rate	Payment	Issue	Maturity	Outstanding
	(%)	Dates	Date	Date	
2009 (QSCB)	1.189	2/1;8/1	12/17/09	02/01/25	\$ 18,980,000
2010 (QSCB)	5.25	2/1;8/1	11/18/10	02/01/29	19,640,000
2010	3.00-5.00	2/1;8/1	02/04/10	02/01/29	154,900,000
2013	2.00-5.00	2/1;8/1	10/30/13	02/01/36	9,905,000

2022A	1.75	2/1;8/1	3/1/22	08/01/27	35,000,000
2022B	5.00	2/1;8/1	3/1/22	08/01/27	230,000,000
Total					\$1,203,955,000

The following presents debt service requirements to maturity as of June 30, 2022:

General Obligation Bonds -Private Placements General Obligation Bonds Fiscal Year Principal Payable Total Principal Interest Interest 2023 61,775,000 47,203,980 1,580,000 2,281,358 112,840,338 2024 34,290,000 45,686,088 4,025,000 2,241,068 86,242,156 2025 35,345,000 44,351,110 1,605,000 2,138,430 83,439,540 2026 157,595,313 100,565,000 41,742,810 13,190,000 2,097,503 2027 116,820,000 36,955,923 13,545,000 1,761,158 169,082,081 2028-2032 282,525,000 127,671,043 55,520,000 5,042,498 470,758,541 2033-2037 313,170,000 77,146,611 390,316,611 18,933,550 188,933,550 2038-2041 170,000,000 1,114,490,000 439,691,115 89,465,000 15,562,015 1,659,208,130

The Board believes it is in compliance with all significant limitations and covenant restrictions contained in the various bond indentures.

Series 2022 General Obligation Bonds

In March 2022, the Board issued \$35,000,000 in Series 2022A General Obligation Sales Tax Bond and \$230,000,000 in Series 2022B General Obligation Sales Tax Bonds. The proceeds from these bonds are being used to fund capital projects. Interest on the bonds is payable semi-annually at an interest rate of 1.75% for the Series 2022A bond and a rate of 5.00% for the Series 2022B bonds. The Series 2022A bonds mature on August 1, 2025. The Series 2022B bonds mature on August 1, 2027.

Series 2021 General Obligation Bonds

In February 2021, the Board issued \$122,945,000 in Series 2021 General Obligation Bonds. The proceeds from these bonds were used to fund capital projects. The bonds interest rates range from 4% to 5% and are payable annually. The bonds mature on February 1, 2038.

Series 2019B General Obligation Bonds

In December 2019, the Board issued \$95,560,000 in Taxable Series 2019B General Obligation Refunding Bonds. The proceeds from these bonds were used to partially refund the Series 2013 and Series 2016 Bonds. As a result of the issuance, net proceeds of \$94,957,251 (after payment of issuance costs) were placed in an irrevocable trust account with an escrow agent to provide for all future debt service payments on the \$86,120,000 of refunded bonds. As a result, these refunded bonds are considered defeased and the liability for these bonds, along with the asset in the escrow agent account, have been removed from the Board's statement of net position, although the balance of the defeased bonds at June 30, 2021 is \$70,895,000. The result of this transaction is a decrease in future debt service payments of \$16,164,423, resulting in a net present value savings, or economic gain, to the Board of \$16,056,876.

Series 2019 General Obligation Bonds

In February 2019, the Board issued \$173,355,000 in Series 2019 General Obligation Bonds. The proceeds from these bonds were used to fund capital projects. The bonds interest rates range from 3% to 5% and are payable annually. The bonds mature on February 1, 2041.

Series 2017 General Obligation Bonds – Private Placement

In April 2017, the Board issued \$97,335,000 in Series General Obligation Refunding Bonds. The proceeds from these bonds were used to partially refund the Series 2012A and Series 2013 Bonds. As a result of the issuance, net proceeds of \$96.8 million (after payment of issuance costs) were placed in an irrevocable trust account with an escrow agent to provide for all future debt service payments on the \$84,000,000 of refunded bonds. As a result, these refunded bonds are considered defeased and the liability for these bonds, along with the asset in the escrow agent account, have been removed from the Board's statement of net position, although the balance of the defeased bonds at June 30, 2022 is \$77,325,000. The result of this transaction is a decrease in future debt service payments of \$6,868,970, resulting in a net present value savings, or economic gain, to the Board \$6,691,651. The Series 2017 bonds mature on February 1, 2032.

Series 2016 General Obligation Bonds

In February 2016, the Board issued \$305,000,000 in Series 2016 General Obligation Bonds. The proceeds from these bonds were used to fund capital projects. The bonds interest rates range from 1.5% to 5% and are payable annually. The bonds mature on August 1, 2022.

Series 2015 General Obligation Bonds

In February 2015, the Board issued \$252,440,000 in Series General Obligation Refunding Bonds. The proceeds from these bonds were used to partially refund the Series 2012A Bonds and fully refund the Series 2008 bonds. As a result of the issuance, net proceeds of \$283.4 million (including premium and after payment of issuance costs) were placed in an irrevocable trust account with an escrow agent to provide for all future debt service payments on the \$255,000,000 of refunded bonds. The refunded bonds have all been called and redeemed.

Series 2013 General Obligation Bonds

In October 2013, the Board issued \$211,380,000 in Series 2013 General Obligation Bonds. The proceeds from these bonds were used to fund capital projects. The bonds interest rates range from 2% to 5% and are payable annually. The bonds mature on February 1, 2036.

Qualified School Construction Bonds (Series 2010)

In November 2010, the Board issued \$19,640,000 in Tax Credit Bonds issued as "Qualified School Construction Bonds (Series 2010)". The proceeds from these bonds were used to finance the construction, renovation or repair of school facilities as part of the District's Capital Improvement Plan and to pay the costs of issuance of the bonds.

Series 2010 General Obligation Bonds

In February 2010, the Board issued \$255,080,000 in Series 2010 General Obligation Refunding Bonds ("Series 2010 Bonds"). The proceeds from these bonds were used to partially refund the Series 2008 Bonds. As a result of the issuance, net proceeds of \$289.9 million (including premium and after payment of underwriting fees and other costs) were placed in an irrevocable trust account with an escrow agent to provide for all future debt service payments on the \$263,965,000 of refunded bonds. As a result, these refunded bonds are considered defeased and the liability for these bonds, along with the asset in the escrow agent account, have been removed from the Board's statement of net position, although the balance of the defeased bonds at June 30, 2022 is \$189,685,000.

b. <u>Certificates of Participation</u> - During fiscal year 2004, the Board issued \$284,400,000 in certificates of participation, (the "2004 certificates") to finance the acquisition, construction and equipping of additions to certain existing elementary schools, middle schools, high schools and support facilities in the district. The certificates of participation's interest rates range from 3.0%-5.25% and the last maturity is during fiscal year ending June 30, 2025.

In December 2006, the Board issued \$204,195,000 in Series 2006 Certificates of Participation, (the "2006 Certificates"). The proceeds from the 2006 Certificates were used to defease a portion of the 2004 Certifications of Participation. The remaining recorded balance of the 2004 Certificates of Participation was paid during fiscal year 2014.

The following is a schedule of future minimum principal and interest payments:

Fiscal Year Ending,	Principal		Interest		Total
June 30					
2023	\$	21,325,000	\$	3,541,126	\$ 24,866,126
2024		22,500,000		2,421,562	24,921,562
2025		23,625,000		1,240,312	24,865,312
Total	\$	67,450,000	\$	7,203,000	\$ 74,653,000

8. INTERFUND BALANCES AND TRANSFERS

Due to/from other funds:

Amount	Payable Fund	Amount

	Non-major	8,718,543
	governmental funds	
	ESSER/CARES Fund	14,750,248
	School Nutrition Fund	581,042
	Internal service funds	7,356,273
	Non-major enterprise fund	94,305
19,355,790	Debt Service	19,355,790
8,020,180	General	8,020,180
591,077	General	591,077
46,989,405	General	46,736,606
, ,	Capital Projects	249,706
	Non-major enterprise	3,093
	fund	3,073
\$112 A15 270		\$113,415,279
	\$38,458,827 19,355,790 8,020,180	\$38,458,827 Capital Projects Non-major governmental funds ESSER/CARES Fund School Nutrition Fund Internal service funds Non-major enterprise fund 19,355,790 Debt Service 8,020,180 General 591,077 General 46,989,405 General Capital Projects Non-major enterprise fund

Interfund balances represent loans between the borrower fund and the lender fund. These balances resulted from the time lag between the dates that 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system, and 3) payments between funds are made. Interfund receivables and payables are reported in the fund financial statements. However, they are eliminated in the district-wide financials statements if the interfund loan is between governmental funds. Interfund receivables and payables are expected to be repaid within one fiscal year.

Interfund Transfers:

Transfer Out:	Transfer In:	Amount
General	Nonmajor governmental funds	\$ 9,780,660
General	Debt Service	8,020,000
General	Nonmajor proprietary funds	423,793
Capital Projects	Debt Service	30,351,753
General	Internal service	5,849,200
Nonmajor governmental funds	General	34,730,021

General Fund transfers are for the support of programs that are partially funded by grants but need additional resources to support their operations. The General Fund transfer supported the IDEA Flowthrough, IDEA Preschool, and Bright from the Start grants. The General Fund transfer also supported the Risk Management/Workers' Compensation Fund and the Café Fund. Capital Projects transfers are for the debt service requirements of the certificates of participation and general obligation bonds as planned.

9. RETIREMENT PLANS

The Board participates in three defined benefit pension plans: the Teachers Retirement System of Georgia ("TRS"), the Public School Employees' Retirement System ("PSERS"), and the Gwinnett County Board of Education Retirement System ("GRS"). The net pension liability, and related deferred outflows of resources, and deferred inflows of resources for the plans are summarized below.

	TRS	GRS	PSERS	Total
Net pension liability	\$716,402,197	(\$134,780,875)	ı	\$581,621,322
Deferred outflows of				
resources related to pensions	555,826,317	98,742,263	-	654,568,580
Deferred inflows of resources				
related to pensions	1,054,290,606	241,834,846	-	1,296,125,452
Pension expense	33,916,563	13,521,256	26,227	47,464,046

Teachers Retirement System

Plan description: All teachers of the Board as defined in §47-3-6550 of the *Official Code of Georgia Annotated* (O.C.G.A.) and certain other support personnel as defined by §47-3-63 are provided a pension through the Teachers Retirement System of Georgia (TRS). TRS, a cost-sharing multiple-employer defined benefit pension plan, is administered by the TRS Board of Trustees (TRS Board). Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. TRS issues a publicly available financial report that can be obtained at www.trsga.com/publications.

Benefits provided: TRS provides service retirement, disability retirement, and death benefits. Normal retirement benefits are determined as 2% of the average of the employee's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. An employee is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. Ten years of service is required for disability and death benefits eligibility. Disability benefits are based on the employee's creditable service and compensation up to the time of disability. Death benefits equal the amount that would be payable to the employee's beneficiary had the employee retired on the date of death. Death benefits are based on the employee's creditable service and compensation up to the date of death.

Contributions: Per Title 47 of the O.C.G.A., contribution requirements of active employees and participating employers, as actuarially determined, are established and may be amended by the TRS Board. Pursuant to O.C.G.A. §47-3-63, the employer contributions for certain full-time public school support personnel are funded on behalf of the employer by the State of Georgia. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employees were required to contribute 6.00 % of their annual pay during fiscal year 2021. The Board's contractually required contribution rate for the year ended June 30, 2022 was 19.81% of annual Board payroll (excluding payroll attributable to those personnel funded on behalf of the Board by the State). Board contributions to TRS (excluding contributions funded by the State on behalf of the Board) were \$224,551,494, for the year ended June 30, 2022.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the Board reported a liability for its proportionate share of the net pension liability that reflected a reduction for support attributable to those personnel funded on behalf of the Board by the State. The amount recognized by the Board as its proportionate share of the net pension liability, the related State of Georgia support, and the total portion of the net pension liability that was associated with the Board were as follows:

Board's proportionate share of the net pension liability		716,402,197
State of Georgia's proportionate share of the net pension liability associated with the Board		1,212,558
Total	\$	717,614,755

The net pension liability was measured as of June 30, 2021. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2020. An expected total pension liability as of June 30, 2021 was determined using standard roll-forward techniques. The Board's proportion of the net pension liability was based on contributions to TRS during the fiscal year ended June 30, 2021. At June 30 2021, the Board's proportion was 8.100123%, which was an increase of 0.005757% from its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the Board recognized pension expense of \$33,916,563 and revenue of (\$555,903) for support provided by the State of Georgia for certain support personnel. At June 30, 2022, the Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	
Net difference between projected and actual earnings on pension plan investments	\$ -	\$ 1,047,893,553	
Differences between expected and actual experience	170,956,255	-	
Assumption changes	138,657,258	-	
Changes in proportion and differences between Board contributions and proportionate share of contributions	21,661,310	6,397,053	
Board contributions subsequent to the measurement date	224,551,494	-	
Total	\$555,826,317	\$1,054,290,606	

Board contributions subsequent to the measurement date of \$224,551,494 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30:	
2023	\$ (131,848,196)
2024	(131,355,557)
2025	(202,832,722)
2026	 (256,979,308)
Total	\$ (723,015,783)

Actuarial assumptions: The total pension liability as of June 30, 2021 was determined by an actuarial valuation as of June 30, 2020 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50% Salary increases 3.00 – 8.75%, average, including inflation

Investment rate of return 7.25%, net of pension plan investment expense,

including inflation

Postretirement mortality rates for service retirements and beneficiaries were based on the Pub-2010 Teachers Headcount Weighted Below Median Healthy Retiree mortality table (ages set forward one year and adjusted 106%) with the MP-2019 Projection scale applied generationally. The rates of improvements were reduced by 20% for all years prior to the ultimate rate. Postretirement mortality rates for disablity retirements were based on the Pub-2010 Teachers Mortality Table for Disabled Retirees (ages set forward one year and adjusted 106%) with the MP-2019 Projection scale applied generationally. The rates of improvement were reduced by 20% for all years prior to the ultimate rate. The Pub-2010 Teachers Headcount Weighted Below Median Employee mortality table with ages set forward one year and adjusted 106% as used for death prior to retirement. Future improvement in mortality rates was assumed using the MP-2019 projection scale generationally. These rates of improvement were reduced by 20% for all years prior to the ultimate rate.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2013 – June 30, 2018, with the exception of the long-term assumed rate of return.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Long-term expected real rate of return*
Fixed income	30.00%	(0.80)%
US large stocks	46.30	9.30
US small stocks	1.20	13.30
International developed market stocks	11.50	9.30
International emerging market stocks	6.00	11.30
Alternatives	5.00	10.60
Total	100.00%	

^{*} Rates shown are net of the 2.50% assumed rate of inflation

Discount rate: The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and State of Georgia contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Board's proportionate share of the net pension liability to changes in the discount rate: The following presents the Board's proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the Board's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

		1%	Current		1%
		Decrease (6.25%)	discount rate (7.25%)		Increase (8.25%)
Board's proportionate share of the	-			_	
net pension liability	\$	1,929,796,803	\$ 716,402,197	\$	(277,891,562)

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued TRS financial report which is publically available at www.trsga.com/publications.

Public School Employees' Retirement System

Plan description: PSERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly in 1969 for the purpose of providing retirement allowances for public school employees who are not eligible for membership in the Teachers Retirement System of Georgia. The ERS Board of Trustees, plus two additional trustees, administers PSERS. Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. PSERS issues a publicly available financial report that can be obtained at www.ers.ga.gov/financials.

Benefits provided: A member may retire and elect to receive normal monthly retirement benefits after completion of ten years of creditable service and attainment of age 65. A member may choose to receive reduced benefits after age 60 and upon completion of ten years of service.

Upon retirement, the member will receive a monthly benefit of \$15.50, multiplied by the number of years of creditable service. Death and disability benefits are also available through PSERS. Additionally, PSERS may make periodic cost-of-living adjustments to the monthly benefits. Upon termination of employment, member contributions with accumulated interest are refundable upon request by the member. However, if an otherwise vested member terminates and withdraws his/her member contribution, the member forfeits all rights to retirement benefits.

Contributions: The general assembly makes an annual appropriation to cover the employer contribution to PSERS on behalf of local school employees (bus drivers, cafeteria workers, and maintenance staff). The annual employer contribution required by statute is actuarially determined and paid directly to PSERS by the State Treasurer in accordance with O.C.G.A. §47-4-29(a) and 60(b). Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Individuals who became members prior to July 1, 2012 contribute \$4 per month for nine months each fiscal year. Individuals who became members on or after July 1, 2012 contribute \$10 per month for nine months each fiscal year. The State of Georgia, although not the employer of PSERS members, is required by statute to make employer contributions actuarially determined and approved and certified by the PSERS Board of Trustees.

Pension Liabilities and Pension Expense

At June 30, 2022, the Board did not have a liability for a proportionate share of the net pension liability because of the related State of Georgia support. The amount of the State's proportionate share of the net pension liability associated with the Board is as follows:

State of Georgia's proportionate share of the Net
Pension Liability associated with the Board \$ 2,495,005

The net pension liability was measured as of June 30, 2021. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2020. An expected total pension liability as of June 30, 2021 was determined using standard roll-forward techniques. The State's proportion of the net pension liability associated with the Board was based on actuarially determined contributions paid by the State during the fiscal year ended June 30, 2021.

For the year ended June 30, 2022, the Board recognized pension expense of \$26,227 and revenue of \$26,227 for support provided by the State of Georgia.

Actuarial assumptions: The total pension liability was determined by an actuarial valuation as of June 30, 2020, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50% Salary increase N/A

Investment rate of return 7.00%, net of pension plan

investment expense, including inflation

Mortality rates are as follows:

- The Pub-2010 General Employee Table, with no adjustments, projected generationally with the MP-2019 scale is used for both males and females while in active service.
- The Pub-2010 Family of Tables projected generationally with the MP-2019 Scale and with further adjustments are used for postretirement mortality assumptions as follows:

Participant Type	Membership Table	Set Forward (+)/ Setback (-)	Adjustment to Rates
Service Retirees	General Healthy Below- Median Annuitant	Male: +2; Female: +2	Male: 101%; Female: 103%
Disability Retirees	General Disabled	Male: -3; Female: 0	Male: 103%; Female: 106%
Beneficiaries	General Below-Median Contingent Survivors	Male: +2; Female: +2	Male: 104%; Female 99%

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return as provided by the system for each major asset class are summarized in the table on the following page.

Asset class	Targetallocation	Long-term expected real rate of return*
Fixed income	30.00%	(1.50)%
Domestic large cap equities	46.40	9.20
Domestic small cap equities	1.10	13.40
International developed market equities	11.70	9.20
International emerging market equities	5.80	10.40
Alternatives	5.00	10.60
Total	100.00%	

^{*} Rates shown are net of the 2.50% assumed rate of inflation

Discount rate: The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and nonemployer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Gwinnett County Board of Education Retirement System

Plan description: The Gwinnett County Board of Education Retirement System (the "GRS" or the "Plan") was established by the Gwinnett County Board of Education as an alternative to the Social Security System. The single employer, defined benefit plan was adopted by the Board on August 16, 1982 and became effective on January 1, 1983. The objective of the Plan is to hold in trust and soundly invest all contributed funds in order to provide defined retirement and long-term disability benefits for all covered employees. The funding method and determination of benefits payable are provided in or authorized by various acts of the State of Georgia Legislature with responsibility resting with the Board.

The Plan is administered by an Administrative Committee consisting of nine members. The Superintendent shall be a nonvoting member of the Committee. The chief financial officer and the chief benefits administrator shall be voting members of the Committee. The other seven voting, rotating members of the Committee shall be appointed by the Board of Education, each for a term of seven years. The Committee shall consist of three teachers, one local school administrator, one classified employee, and one retiree under the Plan.

Plan membership: All full-time employees, except students, seasonal, and intermittent workers, of the Board are participants of the plan. Plan participants are also participants in either TRS or PSERS.

Employee membership data related to the Plan at January 1, 2021 (the "valuation date") are as follows:

Retirees, beneficiaries and disabled	
participants currently receiving	
benefits	10,422
Terminated employees entitled to	
but not yet receiving benefits	4,881
Active participants	21,059
	36,362

Benefits provided: Employees are eligible to receive benefits at normal retirement age or upon disability or death, as follows:

Normal retirement

The normal retirement benefits begin at age 65 for participants at which time the participant becomes eligible to receive basic annual benefits. The basic benefit equals the sum of 2.2% of earnings up to \$9,000 plus 1.6% of earnings in excess of \$9,000 for each year of participation. The normal form of retirement income is payable during the lifetime of the participant. Optional forms of retirement income are available in lieu of the normal form of retirement at a reduced retirement benefit payable during the lifetime of the participant for joint survivor and period certain beneficiary options.

Early retirement

Early retirement is allowed on the first day of the month after the participant is eligible for early retirement as defined by the Teachers Retirement System of Georgia or the Public School Employees' Retirement System. Annual benefits are the same as normal retirement basic benefits, with reduction factors applied based on age at retirement if prior to age 65.

Disability

Eligibility is initiated upon incapacity severe enough to prevent the participant from working and which is expected to last at least 12 months or result in death. Monthly benefits equal 60% of earnings, reduced by any benefits received under any other plan, and commence the later of determination of disability or six months. Disability benefits cease upon recovery, death or attainment of age 65.

Termination

For vested employees, benefits upon termination are payable after attaining age 65. Employees whose initial date of employment is prior to July 1, 2012, are vested upon completion of five years of service to the Board. Employees whose initial date of employment is on or after July 1, 2012, are vested upon completion of ten years of service to the Board. Employees reemployed on or after July 1, 2012 who were not vested upon their termination, are vested upon completion of ten years of service to the Board.

Death benefits

Retirement benefits are paid to a surviving spouse for life based on the actuarial equivalence of 50% of the participant's benefits, as determined at the date of death for vested employees. Employees who are vested and are without a spouse may have a named beneficiary receive the actuarial equivalent of the employee's accrued retirement benefits for a period of ten years.

Postretirement death benefits are determined by the form of retirement benefit chosen when retirement commences. In addition to the normal form of retirement, joint survivor and periods certain options may also be chosen.

Contributions: The Plan's funding policy, as authorized by the Administrative Committee using guidelines within State legislation, provides for periodic contributions at rates, as determined by the Actuary, when expressed as percents of annual covered payroll are sufficient to provide resources to pay benefits when due. The contribution rate for normal cost is determined using the entry age method. Actuarial valuations are performed annually to determine contribution rates to be applied to payrolls that coordinate with the Board's fiscal year. For the year ended June 30, 2022, the active member contribution rate was 1.0% of annual pay, and the Board's contribution rate was 6.41% of annual payroll. Board contributions to the Plan were \$84,353,553 for the year ended June 30, 2022.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The Board's net pension liability was measured as of December 31, 2021, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of January 1, 2021 which was rolled forward using standard actuarial techniques to December 31, 2021.

Actuarial assumptions. The total pension liability in the January 1, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.40 %

Salary increases 3.25% - 6.86% for TRS members, average,

3.25% for non-TRS members including inflation

Investment rate of return 7.15%, net of pension plan investment expense, including inflation

Cost of living adjustment 2.40% annually

Mortality rates were as follows:

Preretirement Mortality:

TRS Members Pub-2010 Teachers Headcount Weighted Below

Median Healthy Retiree mortality table (ages set forward one year and adjusted 106%) with the MP-2019

Projection scale applied generationally

PSERS Members RP-2000 Blue Collar Mortality Table Projected to 2025

using the BB projection scale

Postretirement Health Mortality:

TRS Members Pub-2010 Teachers Headcount Weighted Below

Median Healthy Retiree mortality table (ages set forward one year and adjusted 106%) with the MP-2019

Projection scale applied generationally

PSERS Members RP-2000 Blue Collar Mortality Table Projected to 2025

using the BB projection scale

Postretirement Disabled Mortality:

TRS Members Pub-2010 Teachers Mortality Table for Disabled

Retirees (ages set forward one year and adjusted 106%)

with the MP-2019 Projection scale applied

generationally

PSERS Members RP-2000 Disability Mortality Table Projected to 2025

using the BB projection scale

The actuarial assumptions used in the January 1, 2021 valuation were based on the results of the last actuarial experience study, dated May 5, 2017.

The long-term expected rate of return on Plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of Plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Long-term expected real rate of return
Large cap U.S. equities	30.50%	5.72%
Small cap U.S. equities	6.50	6.77
Non-U.S. Equity - Developed	14.00	6.55
Non-U.S. Equity - Emerging	8.00	8.54
Real estate	5.00	5.41
U.S. Treasuries (Cash Equivalents)	5.00	(0.33)
TIPS (Inflation-Protected)	5.00	0.32
U.S. Corporate Bonds - Core	21.00	1.14
Private Equity	4.00	10.03
Private Debt	1.00	5.28
Total	100.00%	

Discount rate. The discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed the Board would contribute the actuarially determined contribution rate to the Plan. The projected future benefit payments for all current Plan members were projected through 2126. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all of the projected future benefit payment of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all of the future projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability of the Board. The changes in the components of the net pension liability of the Board for the year ended June 30, 2022, were as follows:

	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
	(a)	(b)	(a) - (b)
Balances at June 30, 2021	\$2,543,239,806	\$2,479,304,515	\$ 63,935,291
Changes for the year:			
Service cost	68,721,437	-	68,721,437
Interest	177,960,720	-	177,960,720
Differences between expected and actual experience	(623,291)	-	(623,291)
Assumption changes	-	-	-
Contributions—employer	-	80,353,739	(80,353,739)
Contributions—employee	-	12,208,170	(12,208,170)
Net investment income	-	353,832,868	(353,832,868)
Benefit payments, including refunds of employee contributions	(108,557,371)	(108,557,371)	-
Administrative expense	-	(1,619,745)	1,619,745
Net changes	137,501,495	336,217,661	(198,716,166)
Balances at June 30, 2022	\$2,680,741,301	\$2,815,522,176	\$ (134,780,875)

The required schedule of changes in the Board's net pension liability and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability of the Board, calculated using the discount rate of 7.15 percent, as well as what the Board's net pension (asset) liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.15 percent) or 1-percentage-point higher (8.15 percent) than the current rate:

	1% Decrease 6.15%	Discount Rate 7.15%	1% Increase 8.15%
Board's net pension liability (asset)	\$ 240,497,289	\$ (134,780,875)	\$ (443,112,104)

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of June 30, 2022 and the current sharing pattern of costs between employer and employee.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2022, the Board recognized pension expense of \$13,521,256. At June 30, 2022, the Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred	Deferred	
	Outflows of	Inflows of	
	Resources	Resources	
Net difference between projected and actual earnings on	¢	¢ 220.750.502	
pension plan investments	\$ -	\$ 220,750,592	
Difference between expected and actual experience	16,111,543	5,993,157	
Assumption changes	39,983,426	15,091,097	
Board contributions subequent to the measurement date	42,647,294		
Total	\$ 98,742,263	\$ 241,834,846	

Board contributions subsequent to the measurement date of \$42,647,294 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ending June 30, 2023. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30:	
2023	\$ (20,726,248)
2024	(91,941,908)
2025	(47,958,843)
2026	(30,374,158)
Thereafter	 5,261,280
Total	\$ (185,739,877)

10. OTHER POSTEMPLOYMENT BENEFTS (OPEB)

Georgia School Personnel Employees Postemployment Health Benefit Fund

Plan Description: The Board participates in the State of Georgia School Employees Postemployment Benefit Fund (the "School OPEB Fund") which is an other postemployment benefit (OPEB) plan administered by the State of Georgia Department of Community Health (DCH). Certified teachers and non-certified employees of the Board as defined in §20-2-875 of the Official Code of Georgia Annotated (O.C.G.A.) are provided OPEB through the School OPEB Fund - a cost-sharing multiple-employer defined benefit postemployment healthcare plan, reported as an employee trust fund of the State of Georgia and administered by a Board of Community Health (DCH Board). Title 20 of the O.C.G.A. assigns the authority to establish and amend the benefit terms of the group health plan to the DCH Board. The School OPEB Fund is included in the State of Georgia Annual Comprehensive Financial Report which is publicly available and can be obtained at https://sao.georgia.gov/comprehensive-annual-financial-reports.

Benefits: The School OPEB Fund provides healthcare benefits for retirees and their dependents due under the group health plan for public school teachers, including librarians, other certified employees of public schools, regional educational service agencies, and non-certified public school employees. Retiree medical eligibility is attained when an employee retires and is immediately eligible to draw a retirement annuity from Employees' Retirement System (ERS), Georgia Judicial Retirement System (JRS), Legislative Retirement System (LRS), Teachers Retirement System (TRS) or Public School Employees Retirement System (PSERS). If elected, dependent coverage starts on the same day as retiree coverage. Medicare-eligible retirees are offered Standard and Premium Medicare Advantage plan options. Non-Medicare eligible retiree plan options include Health Reimbursement Arrangement (HRA), Health Maintenance Organization (HMO) and a High Deductible Health Plan (HDHP). The School OPEB Fund also pays for administrative expenses of the fund. By law, no other use of the assets of the School OPEB Fund is permitted.

Contributions: As established by the Board of Community Health, the School OPEB Fund is substantially funded on a pay-as-you-go basis; that is, annual cost of providing benefits will be financed in the same year as claims occur. Contributions required and made to the School OPEB Fund from the Board were \$34,951,034 for the year ended June 30, 2022. Active employees are not required to contribute to the School OPEB Fund.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2022, the Board reported a liability of \$1,040,000,402 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2021. The total OPEB liability used to calculate the net OPEB liability was based on an actuarial valuation as of June 30, 2020. An expected total OPEB liability as of June 30, 2021 was determined using standard roll-forward techniques. The Board's proportion of the net OPEB liability was actuarially determined based on employer contributions to the School OPEB Fund during the fiscal year ended June 30, 2021. At June 30, 2021, the Board's proportion was 9.602225% which was a decrease of 0.68939% from its proportion measured as of June 30, 2021.

For the year ended June 30, 2022, the Board recognized OPEB expense of (\$6,051,836). At June 30, 2022, the Board reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

		erred Outflows of Resources	_	ferred Inflows of Resources
Net difference between projected and actual earnings on				
OPEB plan investments	\$	-	\$	1,649,113
Differences between expected and actual experience		-		474,860,885
Changes in proportion and differences between Board				
contributions and proportionate share of contributions		7,006,832		9,772,761
Changes in plan assumptions		190,440,120		84,863,380
Board contributions subsequent to the measurement date		34,964,276		
Total	\$	232,411,228	\$	571,146,139
	_			

Board contributions subsequent to the measurement date of \$34,964,276 are reported as deferred outflows of resources and will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ending June 30:		
2023	\$ (95	,812,273)
2024	(88	,174,115)
2025	(65	,461,412)
2026	(46	,230,434)
2027	(60	,176,855)
Thereafter	(17	,844,098)
Total	\$ (373	,699,187)

Actuarial assumptions:

The total OPEB liability as of June 30, 2021 was determined by an actuarial valuation as of June 30, 2020 using the following actuarial assumptions and other inputs, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021:

2.50%
3.00 - 8.75%, including inflation
7.00%, compounded annually, net of investment expense, including inflation
6.750%
5.125%
4.50%
4.50%
2029
2023

The Plan currently uses mortality tables that vary by age, gender and health status (i.e. disabled or not disabled) as follows:

- For TRS members: The Pub-2010 Teachers Headcount Weighted Below Median Healthy Retiree mortality table with no adjustment, with the MP-2019 projection scale applied generationally is used for death prior to retirement and for service retirements and beneficiaries. The Pub-2010 Teachers Mortality Table for Disabled Retirees (ages set forward one year and adjusted 106%) with the MP-2019 Projection scale applied generationally is used for disablity retirements. For both, rates of improvement were reduced by 20% for all years prior to the ultimate rate.
- For PSERS members: Pre-retirement mortality rates were based on the Pub-2010 General Employee Mortality Table, with no adjustment, with the MP-2019 Projection scale applied generationally. Postretirment mortality rates for service retirements were based on the Pub-2010 General Healthy Annuitant Mortality Table (ages set forward one year and adjusted 105% for males and 108% for females) with the MP-2019 Projection scale applied generationally. The Pub-2010 General Disabled Mortality Table (ages set back three years for males and adjusted 103% for males and 106% for females) with the MP-2019 Projection scale is used for death after disability retirement.

The actuarial assumptions used for TRS members in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period ending July 1, 2013, with the exception of the assumed rate of inflation which was changed from 2.75% to 2.50% effective with the June 30, 2018 valuation.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2020 valuation were based on a review of recent plan experience done concurrently with the June 30, 2020 valuation.

Projection of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the Board and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculation.

The long-term expected rate of return on OPEB plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	Target	Long-term expected
Asset class	allocation	real rate of return
Fixed income	30.00%	0.14%
Equities	70.00	9.20
Total	100.00%	

Discount rate:

In order to measure the total OPEB liability for the School OPEB Fund, a single equivalent interest rate of 2.20% was used as the discount rate, which is a change from the previous rate of .02%, effective with the June 30, 2019 valuation. This is comprised mainly of the yield or index rate for 20 year tax-exempt general obligation municipal bonds with an average rating of AA or higher (2.21% per the Municipal Bond Index Rate). The projection of cash flows used to determine the discount rate assumed that contributions from members and from the employer will be made at the current level as averaged over the last five years, adjusted for annual projected changes in headcount. Projected future benefit payments for all current plan members were projected through 2145.

Sensitivity of the Board's proportionate share of the net OPEB liability to changes in the discount rate:

The following presents the collective net OPEB liability of the participating employers calculated using the discount rate of 2.20%, as well as what the collective net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.20%) or 1-percentage-point higher (3.20%) than the current discount rate (amounts in thousands):

	1%	Current	1%
	Decrease (1.20%)	discount rate (2.20%)	Increase (3.20%)
Board's proportionate share of the			
net OPEB liability	\$ 1,188,953,699	\$ 1,040,000,402	\$ 915,312,399

Sensitivity of the Board's proportionate share of the net OPEB liability to changes in the healthcare cost trend rate:

The following presents the collective net OPEB liability of the participating employers, as well as what the collective net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates (amounts in thousands):

		Current	
	1%	Healthcare Cost	1%
	Decrease	Trend Rate	Increase
Board's proportionate share of the			
net OPEB liability	\$ 882,480,662	\$1,040,000,402	\$1,236,912,465

11. CONTINGENCIES AND COMMITMENTS

<u>Legal Matters</u> - The Board is involved in a number of legal matters which either have or could result in litigation. In the opinion of Board management, after consultation with legal counsel, the ultimate outcome of these contingencies is not expected to have a material adverse effect on the financial position of the Board.

<u>Construction Commitments</u> - A construction commitment is defined as the difference between the contract price and the amount paid on that contract. At June 30, 2022, Governmental Funds had construction commitments in the amount of \$1,150,012.

<u>Federal Financial Assistance</u> - The Board participates in a number of federal financial assistance programs, the most significant of which are the National School Food Breakfast and Lunch program, the IDEA Flowthrough program, and the Title I program. Although the Board's grant programs have been audited in accordance with the provisions of the Single Audit Act through June 30, 2022, these programs are still subject to financial and compliance audits by federal granting agencies. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the Board expects such amounts, if any, to be immaterial.

12. ON-BEHALF PAYMENTS

During the fiscal year ended June 30, 2022, the State of Georgia incurred expenditures for the Board's benefit for payments in the amount of \$3,113,353 for contributions to the Public School Employee's Retirement System, and \$357,543 for contributions to the Teachers Retirement System. These amounts are recorded as revenue from state sources and in the appropriate functional expenditures and funds based on the funding of the related salaries. The Teachers Retirement System on-behalf payments are offset by the Board's share of the Public Schools Employees Retirement System pension expense of \$26,227.

13. TAX ABATEMENTS

During the fiscal year ended June 30, 2022, the Board's tax revenues were reduced by \$1,964,653 as a result of agreements entered into by the Gwinnett County Development Authority. Under these agreements, taxes on both real and personal property are reduced based on incentives and economic development programs offered by the Development Authority.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION TEACHERS RETIREMENT SYSTEM

Changes of assumptions: In 2010 and later, the expectation of retired life mortality was changed to the RP-2000 Mortality Tables rather than the 1994 Group Annuity Mortality Table, which was used prior to 2010. In 2010, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience. In 2010, assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

On November 18, 2015, the Board of TRS adopted recommended changes to the economic and demographic assumptions utilized by the Plan. Primary among the changes were the updates to rates of mortality, retirement, disability, withdrawal and salary increases. The expectation of retired life mortality was changed to RP-2000 White Collar Mortality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB (set forward one year for males).

Effective with the June 30, 2018 valuation, the long-term assumed rate of return on assets (discount rate) was changed from 7.50% to 7.25%, and the assumed annual rate of inflation was changed from 2.75% to 2.50%.

In 2019 and later, the expectation of retired life mortality was changed to the Pub-2010 Teachers Headcount Weighted Below Median Healthy Retiree mortality table from the RP-2000 Mortality Tables. In 2019, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION PUBLIC SCHOOL EMPLOYEES RETIREMENT SYSTEM

Changes of assumptions: In 2010 and later, the expectation of retired life mortality was changed to the RP-2000 Mortality Tables rather than the 1994 Group Annuity Mortality Table, which was used prior to 2010. In 2010, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience.

On December 17, 2015, the Board of PSERS adopted recommended changes to the economic and demographic assumptions utilized by the Plan. Primary among the changes were the updates to rates of mortality, retirement, and withdrawal. The expectation of retired life mortality was changed to RP-2000 Blue Collar Mortality Table projected to 2025 with the Society of Actuaries' projection scale BB (set forward 3 years for males and 2 years for females).

On March 15, 2018, the Board adopted a new funding policy. Because of this new funding policy, the assumed investment rate of return was reduced from 7.50% to 7.40% for June 30, 2017 actuarial valuation. In addition, based on the Board of PSERS's new funding policy, the assumed investment rate of return was further reduced by 0.10% from 7.40% to 7.30% as of the June 30, 2018 Measurement Date.

Changes of benefit terms: The monthly benefit accrual rate was increased from \$15.00 to \$15.25 per year of creditable service effective July 1, 2018.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION GWINNETT RETIREMENT SYSTEM

Actuarial Methods and Assumptions

Changes of benefit terms:

- 2008 The actuarial value of assets recognizes the difference between the actual and expected market value of assets over a five year period.
- 2012 The vesting requirement for new hires and non-vested former employees who are rehired will be 10 years instead of 5 years. The normal form of payment for retirees will be a single life annuity but retirees will have the option of selecting an actuarially equivalent optional form of payment.
- 2020 Eligibility for retirement was changed from age 65 to age 65 with 9 months of service. The vesting requirement for employees hired after July 1, 2012 was changed from 10 years to 9.75 years. The calculation for earnings for disability benefits was changed from the calendar year preceding, to the 12 months preceding disability.

Changes of assumption:

- 2008 Retirement, withdrawal, disability, and mortality rates were changed to more closely reflect recent experience. The salary scale was changed to more closely reflect recent experience.
- 2009 The break point increase assumption was eliminated. The assumed rate of return was changed from 7.50% net of investment expenses only to 7.50% net of investment expenses and administrative expenses.
- 2012 The assumed investment rate of return was increased from 7.5% to 8.0%. Retirement, withdrawal, disability, and mortality rates were changed to more closely reflect recent experience. The rate of salary inflation was temporarily lowered for a ten year period beginning with the January 1, 2012 valuation. The salary scale was changed to more closely reflect recent experience.
- 2017 The assumed investment rate of return was decreased from 8.0% to 7.5%. The inflation rate was reduced from 3.50% to 2.75%. The wage inflation rate was reduced from 4.5% to 3.5%. Retirement, withdrawal, disability, and mortality rates were changed to more closely reflect recent experience.
- 2019 The assumed investment rate of return was decreased from 7.5% to 7.25%. The inflation rate was reduced from 2.75% to 2.4%. The wage inflation rate was reduced from 3.5% to 3.25%. The mortality assumption for TRS employee was changed to Pub-2010 Teachers Headcount Weighted Below Median Healthy Retiree mortality table (ages set forward one year and adjusted 106%) with the MP-2019 Projection scale applied generationally. The mortality assumption for disabled retirees was changed to Pub-2010 Teachers Mortality Table for Disabled Retirees (ages set forward one year and adjusted 106%) with the MP-2019 Projection scale applied generationally.
- 2020 The assumed investment rate of return was decreased from 7.25% to 7.15%.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION GWINNETT RETIREMENT SYSTEM (CONTINUED)

Method and assumptions used in calculations of actuarially determined contributions:

The actuarially determined contribution rates are determined January 1st on an annual basis payable in the fiscal year beginning 18 months following the valuation date. The following actuarial methods and assumptions were used to determine the contribution rates reported.

Actuarial cost method Entry age normal
Amortization method Level dollar, closed

Remaining amortization period 6-30 years

Asset valuation method 5-year smoothed market

Postretirement cost of living adjustment 2.40% annually

Actuarial assumptions:

Projected salary increases:

TRS members: 3.25-6.86% Non-TRS members: 3.25%

Actuarial Methods and Assumptions

Changes of benefit terms:

In the June 30, 2010 actuarial valuation, there was a change of benefit terms to require Medicare-eligible recipients to enroll in a Medicare Advantage plan to receive the State subsidy.

Changes of assumption:

In the June 30, 2020 actuarial valuation, decremental assumptions were changed to reflect the Employees Retirement Systems' experience study. Approximately 0.10% of employees are members of the Employees Retirement System.

In the June 30, 2019 actuarial valuation, decremental assumptions were changed to reflect the Teachers Retirement Systems' experience study.

In the June 30, 2018 actuarial valuation, the inflation assumption was lowered from 2.75% to 2.50%.

In the revised June 30, 2017 actuarial valuation, there was a change relating to employee allocation. Employees were previously allocated based on their Retirement System membership, and current employees are allocated based on their current employer payroll location. Additionally, for the participation assumption, tobacco use assumption and morbidity factors were revised.

In the June 30, 2015 actuarial valuation, decremental and underlying inflation assumptions were changed to reflect the Retirement Systems' experience studies.

In the June 30, 2012 actuarial valuation, a data audit was performed and data collection procedures and assumptions were changed.

Nonmajor Governmental Funds

Special Revenue

GOSA Innovation Grants:

Bright From the Start:

These funds are used to account for revenues received from governmental agencies and other organizations that are legally restricted or committed to expenditures for specified purposes. These funds also account for receipt and expenditure of resources transferred from the general fund where revenues are inadequate to finance specified activities. The following programs are included in the special revenue funds category:

Title I Programs: This fund is established to provide accounting of federal categorical grant funds flowing through the Department of Education, State of Georgia, for the purpose of assisting the lowest-achieving students to demonstrate proficiency on academic achievement standards. Title I Part C Migrant: This fund is established to provide accounting of federal categorical grant funds flowing through the Department of Education, State of Georgia, for the purpose of supporting high quality education programs (including supportive services) for migratory children. Title II Part A: This fund is established to provide accounting of federal categorical grant funds flowing through the Department of Education, State of Georgia, for the purpose of increasing academic achievement by improving the effectiveness of teachers, principals and other school leaders. Title IV Part A: This fund is established to provide accounting of federal grant funds flowing through the Department of Education, State of Georgia, for the purpose of providing students with access to a well rounded education, improved learning conditions and enhanced access to technology. Successful Start: This fund is established to provide accounting of local grant funds from the Pittulloch Foundation for the purpose of increasing literacy achievement in kindergarten students. **IDEA Preschool:** This fund is established to provide accounting of federal categorical grant funds flowing through the Department of Education, State of Georgia, for the purpose of providing a special education program for pre-kindergarten age children. IDEA Flowthrough: This fund is established to provide accounting of federal categorical grant funds flowing through the Department of Education, State of Georgia, for the purpose of providing special education programs for students age 3 through 21.

> This fund is established to provide accounting of state grant funds flowing through the Office of Planning & Budget, State of Georgia, for the purpose of increasing student achievement and providing reform opportunities through unique and challenging educational programs.

This fund is established to provide accounting of state funds for

the purpose of operating a Pre-K program.

Perkins: This fund is established to provide accounting of federal

categorical grant funds flowing through the Department of Education, State of Georgia, for the purpose of improving secondary vocational education programs of instruction

throughout the school district.

Title III Limited English Proficient: This fund is established to provide accounting of federal

categorical grant funds flowing through the Department of Education, State of Georgia, for the purpose of helping English learners attain English language proficiency and academic proficiency and to assist schools and communities in implementing and sustaining effective language instructional

educational programs.

Annenberg Institute: This fund is established to provide accounting of local grant

> funds from the Annenberg Institute for School Reform at Brown University to support collaborative research project to test

models for tutoring efficacy.

GoSTEM Initiative: This fund is established to provide accounting of local funds

> from the Georgia Institute of Technology (GIT) (provided by the Goizueta Foundation) that are committed to provide evaluation services to GIT for the purpose of enhancing the educational experience of Latino students in Georgia and strengthen the pipeline of these students into post-secondary STEM (Science,

Technology, Engineering, and Mathematics) education.

Department of Administrative Services: This fund is established to provide accounting of local funds

> committed for the purpose of providing additional administrative support and staff development opportunities for the Division of

Business and Finance.

Education for Homeless Children: This fund is established to provide accounting of federal

> categorical grant funds flowing through the Department of Education, State of Georgia, for the purpose of supporting the educational successes of homeless children by providing school

supplies, tutoring, and other services.

NewSchools Grant: This fund is established to provide accounting of local funds

> from the NewSchools Venture Fund for the purpose of supporting the Meadowcreek Cluster of schools and Seckinger

High School.

Local School Activity Fund: This fund is established to provide accounting of funds from

> donations, ticket sales, fundraising and other activities and committed for use by the local school principal for student and faculty programs and activities subject to District policy.

Band Uniforms: This fund is established to provide accounting of funds from

local schools to support high school band programs.

SADD Grant: This fund is established to provide accounting of federal funds

> flowing through the Georgia Department of Highway Safety for the purpose of providing students with peer to peer support in

making positive decisions.

Coronavirus Relief:

This fund is established to provide accounting of federal funds flowing through the Department of Treasury for the purpose of providing for COVID-19 costs associated with providing distance learning and in-person learning for the safe reopening of schools.

Teacher and Leader Support:

This fund is established to provide accounting of federal funds flowing through the Department of Education for the purpose of providing high-quality teacher mentoring and support in addition to leadership development training for teachers and leaders in high need schools.

Internal Service Funds

Internal service funds are used to account for services and commodities furnished by a designated department or program to other departments and programs within the School System. Amounts expended by the fund are restored to it either from operating earnings or by transfers from other funds, so that the original fund equity is kept intact.

The Board of Education has five internal service funds:

Maintenance Fund: This fund was established to provide accounting for the inventory

of the maintenance parts and supplies and for the services provided

by the Maintenance Department.

Warehouse Fund: This fund was established to provide accounting for the inventories

of textbooks and supplies and materials purchased for and issued to

local schools and programs.

Print Shop Fund: This fund was established to provide accounting for the printing

supplies and services utilized by the local schools and programs.

Transportation Fund: This fund was established to provide accounting for the inventories

of transportation parts and supplies for all vehicles in the Board of

Education fleet.

Risk Management: This fund was established to provide accounting for workers

compensation, general liability, and fleet claims made against the

Board of Education.

Fiduciary Funds

Fiduciary funds are used to account for assets held by the Board of Education on behalf of outside parties, including other governments.

The Board of Education has the following pension and other employee benefits trust funds.

Gwinnett Retirement System: This fund was established to provide accounting for the retirement

system plan that was designed to replace social security.

Disability Insurance Trust Fund: This fund was established to provide accounting for a short term

disability insurance plan.

Statistical Section

(unaudited)

The statistical section presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Board's overall financial position.

Contents:

Financial Trends These schedules contain trend information to help the reader

understand how the Board's financial position has changed over

time.

Revenue Capacity These schedules contain information to help the reader assess the

Board's major revenue sources.

Debt Capacity These schedules present information to help the reader assess the

affordability of the Board's current levels of outstanding debt and

the Board's ability to issue additional debt in the future.

Demographic and Economic Information These schedules offer demographic and economic indicators to

help the reader understand the environment within which the

Board's financial activities take place.

Operating Information These schedules contain staffing, key operating statistics

comparisons and capital asset data to help the reader understand how the information in the Board's financial report relates to the

services the Board provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports and budget documents for the relevant fiscal year.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District.

This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the geographic area. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore, responsible for repaying the debt, of each overlapping government.

Debt Capacity Schedule 11 GWINNETT COUNTY BOARD OF EDUCATION Ratios of Net General Bonded Debt Outstanding and Legal Debt Margin Last Ten Fiscal Years

		2013	2014	2015	2016
General bonded debt outstanding

NOTE: Details regarding outstanding debt can be found in the notes to the financial statements.

⁽a) Property value data on Schedule 5: Taxable Assessed and Estimated Full Value of Property is the value for the M&O digest, while the assessed data used in the above calculation utilized the valuation for bond purposes.

⁽b) Population data can be found in Schedule 12: Demographic and Economic Statistics.

⁽c) Georgia Statute Article IX, Section V, Paragraph I states any district shall never exceed 10% of the assessed value of all taxable property.

⁽d) The legal debt margin is the Gwinnett County Board of Education's available borrowing authority calculated by subtracting the net debt applicable to the legal debt from the debt limit.

GWINNETT COUNTY BOARD OF EDUCATION, GEORGIA

Notes to the Schedule of Expenditures of Federal Awards For the Fiscal Year Ended June 30, 2022

(1) Summary of Significant Accounting Policies

Basis of Presentation and Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting. Under the modified accrual basis of accounting, expenditures are recognized when the related Fund liability is incurred.

In instances where the grant agreement requires the Board to match grant awards with Board funds, such matching funds are excluded in the accompanying Schedule of Expenditures of Federal Awards.

The Board has elected not to utilize the 10% de minimus indirect cost rate.

(2) Pass-Through Awards

The Board receives certain federal financial assistance from pass-through awards of the State of Georgia. Only the federal portion of such pass-through awards is included in the accompanying Schedule of Expenditures of Federal Awards.

(3) Noncash Awards

The Board receives a noncash award from a Department of Agriculture federal financial assistance program. The Board uses the value of commodities distributed as a basis for determining amounts to be reported as program expenditures. The program includes donated commodities as follows:

Department of Agriculture, Pass-Through the Georgia Department of Agriculture

Donated commodities:

Value of commodities distributed: \$6,158,612
 Value of commodities on hand: \$0

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Education Gwinnett County, Georgia Suwanee, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **Gwinnett County Board of Education** (the "Board") as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements, and have issued our report thereon dated December 29, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Board's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Atlanta, Georgia December 29, 2022

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE AS REQUIRED BY THE UNIFORM GUIDANCE

The Board of Education Gwinnett County, Georgia Suwanee, Georgia

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Gwinnett County Board of Education's (the "Board") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Board's major federal programs for the year ended June 30, 2022. The Board's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Board complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance Section of our report.

We are required to be independent of the Board and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Board's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design and implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and the provisions of contracts or grant agreements applicable to the Board's federal programs.

Auditor's Responsibility for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Board's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Board's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and
 design and perform audit procedures responsive to those risks. Such procedures include
 examining, on a test basis, evidence regarding the Board's compliance with the compliance
 requirements referred to above and performing such other procedures as we considered
 necessary in the circumstances.
- Obtain an understanding of the Board's internal control over compliance relevant to the audit in
 order to design audit procedures that are appropriate in the circumstances and to test and
 report on internal control over compliance in accordance with the Uniform Guidance, but not for
 the purpose of expressing an opinion on the effectiveness of the Board's internal control over
 compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies may exist that were not identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
